The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation (as defined below). Such approval should not be considered as an endorsement of the Issuers (as defined below) that are the subject of this Base Prospectus and the quality of the securities that are the subject of this Base Prospectus. BAWAG Group AG ("**BAWAG**") and BAWAG P.S.K. Bank für Arbeit und Wirtschaft und Österreichische Postsparkasse Aktiengesellschaft ("**BAWAG P.S.K.**") (each an "**Issuer**" and together, the "**Issuers**") have each requested the CSSF in its capacity as competent authority under the Prospectus Regulation and the Luxembourg Act relating to prospectuses for securities dated 16 July 2019 (*Loi du 16 juillet 2019 relative aux prospectus pour valeurs mobilières et portant mise en œuvre du règlement (UE) 2017/1129*, as amended the "**Luxembourg Prospectus Law**"), to provide the competent authorities in the Republic of Austria ("**Austria**") and the Federal Republic of Germany ("**Germany**") with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Regulation (each a "**Notification**"). Each Issuer may request the CSSF to provide competent authorities in additional host Member States within the European Economic Area and the United Kingdom with a Notification. By approving a prospectus, the CSSF shall give no undertaking as to the economic and financial soundness of the operation or the quality or solvency of each issuer pursuant to Article 6(4) of the Luxembourg Prospectus Law.

Application will be made to list notes to be issued under the Debt Issuance Programme (the "**Notes**") on the official list of the Luxembourg Stock Exchange (*Bourse de Luxembourg*) (the "**Official List**") and to trade Notes on the regulated market or on the professional segment of the regulated market of the Luxembourg Stock Exchange, which is a regulated market within the meaning of Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (as amended, "**MiFID II**") and appears on the list of regulated markets issued by the European Commission (the "**Regulated Market**"). Notes issued under the Debt Issuance Programme may also be listed on the Official Market ("*Amtlicher Handel*") of the Vienna Stock Exchange, which is a regulated market within the meaning of MiFID II, or the Vienna MTF of the Vienna Stock Exchange, which is a multilateral trading facility within the meaning of MiFID II. The relevant Final Terms in respect of the issue of any Notes will specify whether or not such Notes will be admitted to trading on these markets (or any other market and/or stock exchange). Unlisted Notes may also be issued pursuant to this Programme.

Prospective investors should have regard to the factors described under the section headed "*2 Risk Factors*" in this Base Prospectus.

This document does not constitute an offer to sell, or the solicitation of an offer to buy Notes in any jurisdiction where such offer or solicitation is unlawful. The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States and are being sold pursuant to an exemption from the registration requirements of the Securities Act. Subject to certain exceptions, the Notes may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act).

This Base Prospectus is valid for 12 months following its date of approval and it and any supplement hereto as well as any Final Terms reflect the status as of their respective dates of publication. The offering, sale or delivery of any Notes may not be taken as an implication that the information contained in such documents is accurate and complete subsequent to their respective dates of publication or that there has been no adverse change in the financial condition of the Issuer since such date or that any other information supplied in connection with the Programme is accurate at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

To the extent permitted by the laws of any relevant jurisdiction neither the Arranger nor any Dealer nor any other person mentioned in this Base Prospectus, excluding the Issuers, is responsible for the information contained in this Base Prospectus or any supplement hereof, or any Final Terms or any other document incorporated herein by reference, and accordingly, and to the extent permitted by the laws of any relevant jurisdiction, none of these persons accepts any responsibility for the accuracy and completeness of the information contained in any of these documents.

Neither this Base Prospectus nor any Final Terms constitute an offer or invitation by or on behalf of the Issuers or the Dealers to any person to subscribe for or to purchase any Notes.

The parts of the Audited Consolidated Annual Financial Statements of BAWAG 2021 (as defined below) and the Audited Consolidated Annual Financial Statements of BAWAG 2020 (as defined below), the respective auditor's opinions thereon, as incorporated by reference into this Base Prospectus, are non-binding English language convenience translations, whereby only the German language version is binding.

In respect of the issue of any Tranche of Notes under the Programme, the German text of the Terms and Conditions may be controlling and binding if so specified in the relevant Final Terms. The Issuers accept responsibility for the information contained in this Base Prospectus, including the documents incorporated by reference. The Issuers confirm that the non-binding translation of the Terms and Conditions, either in the German or English language, correctly and adequately reflects the respective binding language version.

Where a claim relating to the information contained in this Base Prospectus and any supplement thereto is brought before a court, the plaintiff investor might, under national law, have to bear the costs of translating the Base Prospectus and any supplement thereto before the legal proceedings are initiated.

The distribution of this Base Prospectus and any Final Terms and the offering, sale and delivery of Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus or any Final Terms comes are required by the Issuers and the Dealers to inform themselves about and observe any such restrictions. For a description of the restrictions applicable in the United States of America, the European Economic Area and the United Kingdom in general, the United Kingdom specifically and Japan see "*13 Subscription and Sale*". In particular, the Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction of the United States and are being sold pursuant to an exemption from the registration requirements of the Securities Act. Notes in bearer form are subject to tax law requirements of the United States of America; subject to certain exceptions, Notes may not be offered, sold or (in the case of Notes in bearer form) delivered within the United States of America or to, or for the account or benefit of, U.S. persons.

This Base Prospectus may only be used for the purpose for which it has been published.

Each Dealer and/or each further financial intermediary subsequently reselling or finally placing Notes issued under the Programme is entitled to use the Base Prospectus if and to the extent set out in "*3 Consent to use the Base Prospectus*" below.

This Base Prospectus and any Final Terms may not be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation.

This Base Prospectus and any Final Terms do not constitute an offer or an invitation to subscribe for or purchase any Notes.

GREEN BONDS – The Final Terms relating to any specific Tranche of Notes may provide that it will be the relevant Issuer's intention to apply an amount equivalent to the proceeds from an issue of such Notes ("**Green Bonds**") specifically for projects and activities that promote climate-friendly and other environmental purposes ("**Green Projects**"). BAWAG Group established a framework for such issuances which further specifies the eligibility criteria for such Green Projects based on the recommendations included in the voluntary process guidelines for issuing green bonds published by the International Capital Market Association ("**ICMA**") (the "**ICMA Green Bond Principles**").

Neither such framework nor any Compliance Opinion (as defined below) are incorporated into or forms part of this Base Prospectus. None of the Dealers, the Arranger, any of their respective affiliates or any other person mentioned in the Base Prospectus makes any representation as to the suitability of such Notes to fulfil environmental and/or sustainability criteria required by any prospective investors. The Dealers and the Arranger have not undertaken, nor are responsible for, any assessment of the framework established by BAWAG Group or the Green Projects, any verification of whether any Green Project meets the criteria set out in the framework or the monitoring of the use of proceeds.

PRIIPs / IMPORTANT – EEA RETAIL INVESTORS – If "*Prohibition of Sales to EEA Retail Investors*" is specified as "Applicable" in the Final Terms in respect of any Notes, the Notes are not intended, to be offered, sold or otherwise made available to and, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2016/97/EU (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document (KID) required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If "*Prohibition of Sales to UK Retail Investors*" is specified as "Applicable" in the Final Terms in respect of any Notes the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Authority ("**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

IN CONNECTION WITH THE ISSUE OF ANY TRANCHE OF NOTES, THE DEALER OR DEALERS (IF ANY) NAMED AS THE STABILISING MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISING MANAGER(S)) IN THE APPLICABLE FINAL TERMS MAY, TO THE EXTENT PERMITTED BY APPLICABLE LAWS AND REGULATIONS, OVER ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, STABILISATION MAY NOT NECESSARILY OCCUR. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH THE ADEQUATE PUBLIC DISCLOSURE OF THE FINAL TERMS OF THE OFFER OF THE RELEVANT TRANCHE OF NOTES AND, IF BEGUN, MAY CEASE AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE RELEVANT TRANCHE OF NOTES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE RELEVANT TRANCHE OF NOTES. ANY STABILISATION ACTION OR OVER-ALLOTMENT SHALL BE CONDUCTED IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

Each Issuer has undertaken, in connection with the listing of the Notes on the Official List of the Luxembourg Stock Exchange and admission to trading on the "**regulated market of the Luxembourg Stock Exchange**" which is a regulated market for the purposes of Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU ("**MiFID II**"), that if, while Notes of any Issuer are outstanding and listed on the Official List of the Luxembourg Stock Exchange and are admitted to trading on the regulated market of the Luxembourg Stock Exchange, there shall occur any adverse change in the business or financial position of the relevant Issuer or any change in the information set out under "Terms and Conditions of the Notes", that is material in the context of issuance under the Programme which is not reflected in this Base Prospectus (or any of the documents incorporated by reference in this Base Prospectus) the Issuers, as the case may be, will prepare or procure the preparation of a supplement to this Base Prospectus in accordance with Article 23 of the Prospectus Regulation, as the case may be, publish a new Base Prospectus for use in connection with any subsequent issue by the Issuers of Notes to be listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange.

BENCHMARKS REGULATION – STATEMENT IN RELATION TO ADMINISTRATOR'S REGISTRATION – Amounts payable under the Notes may be calculated by reference to (i) EURIBOR (Euro Interbank Offered Rate), which is provided by the European Money Markets Institute ("**EMMI**"), (ii) certain constant maturity swap rates which are provided by the ICE Benchmark Administration Limited ("**IBA**"), (iii) SONIA (Sterling Overnight Index Average), which is provided by the Bank of England ("**BoE**"), or (iv) SOFR (Secured Overnight Financing Rate), which is provided by the Federal Reserve Bank of New York ("**FRBNY**"). EMMI appears whereas IBA does not appear on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (ESMA) (the "**ESMA Register**") pursuant to Article 36 of Regulation (EU) 2016/1011 (the "**Benchmarks Regulation**"). As far as the Issuers are aware, neither BoE nor FRBNY are required to obtain authorisation or registration pursuant to Article 2(2) of the Benchmarks Regulation, and in relation to IBA, the transitional provisions in Article 51 of the Benchmarks Regulation apply, such that IBA is not currently required to obtain authorisation, registration, recognition, endorsement or equivalence. In case Notes are issued which make reference to another benchmark or there was any change with regard to any of the above benchmarks, the applicable Final Terms will specify the name of the specific benchmark and the relevant administrator. In such case, the applicable Final Terms will further specify if the relevant administrator is included in the ESMA Register or whether the transitional provisions in Article 51 of the Benchmarks Regulation apply.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms in respect of any Notes will include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

UK MiFIR PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms in respect of any Notes will include a legend entitled "UK MiFIR Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**") or UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules or the UK MiFIR Product Governance Rules.

FORWARD-LOOKING STATEMENTS

This Base Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "*anticipate*", "*believe*", "*could*", "*estimate*", "*expect*", "*intend*", "*may*", "*plan*", "*predict*", "*project*", "*will*" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in this Base Prospectus containing information on future earning capacity, plans and expectations regarding each Issuer's business and management, its growth and profitability, and general economic and regulatory conditions and other factors that affect it.

Forward-looking statements in this Base Prospectus are based on current estimates and assumptions that the Issuer makes to the best of its present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including each Issuer's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. Each Issuer's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Base Prospectus to become inaccurate. Accordingly, investors are strongly advised to read the following sections of this Base Prospectus: "*2 Risk Factors*", "*7 General Description of BAWAG as Issuer*", "*8 General Description of BAWAG P.S.K. as Issuer*" and "*9 Business Overview of BAWAG Group*". These sections include more detailed descriptions of factors that might have an impact on each Issuer's business and the markets in which it operates.

In light of these risks, uncertainties and assumptions, future events described in this Base Prospectus may not occur. In addition, neither the Issuers nor the Dealers assume any obligation, except as required by law, to update any forward-looking statement or to conform these forward-looking statements to actual events or developments.

INFORMATION FROM THIRD PARTIES

Unless otherwise indicated, statements in this Base Prospectus regarding the market environment, market developments, growth rates, market trends and the competitive situation in the markets and segments in which the Issuers operate are based on data, statistical information, sector reports and third-party studies, as well as the Issuers' own estimates. Management estimates – unless otherwise indicated – are based on internal market observations and/or studies by third parties.

To the extent that information has been sourced from third parties, this information has been accurately reproduced by the Issuers in this Base Prospectus and, as far as the Issuers are aware and are able to ascertain from information published by these third parties, no facts have been omitted which would render the reproduced information inaccurate or misleading. However, market studies and analyses are frequently based on information and assumptions that may not be accurate or technically correct, and their methodology is, by nature, forward-looking and speculative. The source of such third-party information is cited whenever such information is used in this Base Prospectus. Such third-party sources include:

Irrespective of the assumption of responsibility for the contents of this Base Prospectus by the Issuers, the Issuers have not verified any figures, market data and other information used by third parties in their studies, publications and financial information, or the external sources on which each Issuer's estimates are based. The Issuers therefore assume no liability for and offers no guarantee of the accuracy of the data from studies and third-party sources contained in this Base Prospectus and/or for the accuracy of data on which each Issuer's estimates are based.

This Base Prospectus also contains estimates of market and other data and information derived from such data that cannot be obtained from publications by market research institutes or from other independent sources. Such information is partly based on own market observations, the evaluation of industry information (from conferences, sector events, etc.) or internal assessments. Each Issuer's management believes that its estimates of market and other data and the information it has derived from such data assists investors in gaining a better understanding of the industry in which BAWAG Group operates and BAWAG Group's position therein. Each Issuer's own estimates have not been checked or verified externally. Each Issuer nevertheless assumes that its own market observations are reliable. The Issuers give no warranty for the accuracy of each Issuer's own estimates and the information derived therefrom. They may differ from estimates made by competitors of BAWAG Group or from future studies conducted by market research institutes or other independent sources.

Under this Debt Issuance Programme, each Issuer may from time to time issue Notes, including Covered Bonds (*Fundierte Bankschuldverschreibungen* or *gedeckte Schuldverschreibungen*) denominated in any Specified Currency agreed between the Issuer and the relevant Dealer(s). The Issuers may increase the amount of the Programme in accordance with the terms of the Dealer Agreement (as defined herein) from time to time. The Debt Issuance Programme is not subject to a maximum aggregate principal amount.

Notes may be issued on a continuing basis to one or more of the Dealers and any additional dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis. Notes may be distributed by way of offer to the public or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche will be stated in the relevant Final Terms. Notes may be offered to non-qualified and/or qualified investors.

Notes will be issued in Tranches, each Tranche consisting of Notes, which are identical in all respects. One or more Tranches, which are expressed to be consolidated and forming a single series and identical in all respects, but having different issue dates, interest commencement dates, issue prices and dates for first interest payments may form a series of Notes (the "**Series**"). Further Notes may be issued as part of an existing Series. The specific terms of each Tranche will be set forth in the applicable Final Terms. The redemption amount under the Notes will be at least 100% of their principal amount. Notes will be issued with a maturity of twelve months or more.

Notes will be issued in such denominations as may be agreed between the relevant Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in Euro, € 1,000, and, if in any currency other than Euro, an amount in such other currency at least to € 1,000 at the time of the issue of Notes. Subject to any applicable legal or regulatory restrictions, and requirements of relevant central banks, Notes may be issued in Euro or any other currency.

Notes may be issued under the Programme as Unsubordinated Notes, Senior Non-Preferred Notes or Subordinated Notes by both Issuers. Furthermore, Notes may be issued until the new Austrian Covered Bond Act, Federal Law Gazette I No. 199/2021 (*Pfandbriefgesetz – "PfandBG"*) enters into force on 8 July 2022 as Covered Bonds (*Fundierte Bankschuldverschreibungen*) under the current framework provided for in the Austrian Act on Covered Bonds of Banks (*Gesetz betreffend fundierte Bankschuldverschreibungen – "FBSchVG"*), which expires on 7 July 2022, or as Covered Bonds (*gedeckte Schuldverschreibungen*) under the new PfandBG by BAWAG P.S.K. (as described below under "*14 General Information*").

Notes issued pursuant to the Programme may be rated or unrated. A security rating is not a recommendation to buy, sell or hold Notes issued under the Programme and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. A suspension, reduction or withdrawal of the rating assigned to the Notes issued under the Programme may adversely affect the market price of the Notes issued under the Programme.

Notes may be issued at an issue price, which is at par or at a discount to, or premium over, par, as stated in the Final Terms. The issue price for Notes to be issued will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the offer period. Orders will specify a minimum yield and may only be confirmed at or above such yield. The resulting yield will be used to determine an issue price, all to correspond to the yield.

The yield for Notes with fixed interest rates or fixed resettable interest rates will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

Application will be made to the Luxembourg Stock Exchange for the Programme to be listed on the Official List of the Luxembourg Stock Exchange and to be admitted to trading on the Regulated Market or on the professional segment of the Regulated Market of the Luxembourg and/or on the Official Market ("*Amtlicher Handel*") of the Vienna Stock Exchange. The Notes issued under this Programme may be listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the Luxembourg Stock Exchange's and the Vienna Stock Exchange's regulated markets. The Luxembourg Stock Exchange and the Vienna Stock Exchange do not automatically list Notes and may under certain circumstances refuse listing and admission to trading of the Notes. The Programme provides that Notes may be listed on other or further stock exchanges as may be agreed

between the relevant Issuer and the relevant Dealer(s) in relation to each issue. Notes may further be issued under the Programme without being listed on any stock exchange.

Notes will be accepted for clearing through one or more clearing systems as specified in the applicable Final Terms. These systems will include those operated by Clearstream Banking AG, Frankfurt am Main, Germany, Clearstream Banking S.A., Luxembourg, Grand Duchy of Luxembourg, Euroclear Bank SA/NV, Brussels, Belgium, as operator of the Euroclear system and OeKB CSD GmbH, Vienna, Austria.

Citibank Europe plc will act as Fiscal Agent (except in cases where the Notes are cleared through OeKB CSD GmbH).

If "*Prohibition of Sales to EEA Retail Investors*" is specified as "*Applicable*" in the Final Terms in respect of any Notes, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by the PRIIPs Regulation for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

If "*Prohibition of Sales to UK Retail Investors*" is specified as "*Applicable*" in the Final Terms in respect of any Notes, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Authority ("**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

1.2 Issue procedures

1.2.1 General

The relevant Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each particular Tranche of Notes (the "**Conditions**"). The Conditions will be constituted by the relevant set of Terms and Conditions of the Notes set forth below (the "**Terms and Conditions**") as further specified by the provisions of the Final Terms as set out below.

1.2.2 Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the relevant Issuer to choose among the following Options:

Option I – Terms and Conditions for Notes with fixed interest rates ("**Fixed Rate Notes**") or fixed resettable interest rates ("**Fixed Resettable Notes**") (and Option I A and Option I B, as defined in "*15.1 Documents incorporated by reference*");

Option II – Terms and Conditions for Notes with floating interest rates ("**Floating Rate Notes**") (and Option II A and Option II B, as defined in "*15.1 Documents incorporated by reference*");

Option III – Terms and Conditions for Notes with fixed to floating interest rates ("**Fixed-to-Floating Rate Notes**") (and Option III A and Option III B, as defined in "*15.1 Documents incorporated by reference*");

Option IV – Terms and Conditions for zero coupon Notes ("**Zero Coupon Notes**") (and Option IV A and Option IV B, as defined in "15.1 Documents incorporated by reference").

Fixed Rate Notes, Fixed Resettable Notes, Floating Rate Notes and Fixed-to-Floating Rate Notes may be issued as Covered Bonds by BAWAG P.S.K. or as Subordinated Notes, Senior Preferred Notes or Senior Non-Preferred Notes by both Issuers. Zero Coupon Notes may be issued by both Issuers as Senior Preferred Notes or Senior Non-Preferred Notes or as Covered Bonds by BAWAG P.S.K. For a description of these types of Notes, see "14.1 Types of Notes issued under the Programme" below.

With respect to each type of Notes, the respective Option I A, Option I B Option II A, Option II B Option III A, Option II B, Option IV A and Option IV B are incorporated by reference into this Base Prospectus for the purpose of a potential increase of Notes outstanding and originally issued prior to the date of this Base Prospectus.

1.2.3 Documentation of the Conditions

The relevant Issuer may document the Conditions of an individual issue of Notes as follows:

The Final Terms shall be completed as set out therein. The Final Terms shall determine which of Option I, Option II, Option III or Option IV including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Base Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche.

1.2.4 Determination of options / completion of placeholders

The Final Terms shall determine which of Option I, Option II, Option III or Option IV shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions Option I, Option II, Option III or Option IV contains also certain further options (characterized by indicating the optional provision through instructions and explanatory notes set out either on the left of or in the square brackets within the text of the relevant set of Terms and Conditions as set out in the Base Prospectus) as well as placeholders (characterized by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

1.2.5 Determination of Options

The relevant Issuer will determine which options will be applicable to the individual issue by replicating the relevant provisions in the Final Terms.

1.2.6 Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed.

1.2.7 Controlling Language

As to controlling language of the respective Conditions, the following applies:

- In the case of Notes (i) publicly offered, in whole or in part, in the Republic of Austria, or (ii) initially distributed, in whole or in part, to non-qualified investors in the Republic of Austria, German will be the controlling language. If, in the event of such offer to the public or distribution to non-qualified investors, however, English is chosen as the controlling language, a German language translation of the Conditions will be available from the principal offices of the Fiscal Agent and the Issuer as specified on the back of this Base Prospectus.
- In other cases the Issuer will elect either German or English to be the controlling language.

2 RISK FACTORS

In evaluating the Notes offered under the Programme as well as each Issuer and its business and, in particular, before making an investment in the Notes, the following Risk Factors should be carefully considered together with the other information set forth in this Base Prospectus.

If one or more of the following risks materialise, they could have a material adverse effect on the business, financial position, assets, profitability and/or business prospects of each Issuer. As a consequence, each Issuer may default or become insolvent. The market value and/or trading price of the Notes held by Noteholders may substantially decline, and Noteholders may lose part of, or even their entire investment in the Notes.

The following description is limited to risk factors which the Issuers consider to be specific and material. The Issuers describe only those risk factors they are currently aware of and which could impair their ability to fulfil their respective obligations under the Notes. Additional risks currently unknown to the Issuers or which they currently believe to be immaterial may also adversely affect their businesses, results of operations and financial conditions. Prospective investors should therefore also read the information set out elsewhere in this Base Prospectus. Even if an investor is ready to assume a high level of risk, financing an investment in the Notes by means of a loan substantially increases the risk of losses and is explicitly discouraged.

2.1 Risks relating to BAWAG Group, including BAWAG P.S.K. and BAWAG P.S.K. Group

An investment in the Notes involves accepting risks of the underlying operational business of the Issuers as part of BAWAG Group. The overall risk situation of BAWAG Group and any of the following single risks may negatively influence the future income, asset and liquidity situation of each of the Issuers and therefore the ability of each of the Issuers to meet their respective obligations under the Notes.

The issuer BAWAG is a financial holding company and the parent company of BAWAG Group. BAWAG Group's business is primarily conducted by the issuer BAWAG P.S.K. and its material subsidiaries, forming BAWAG P.S.K. Group. BAWAG P.S.K. Group operates in various jurisdictions and business areas so BAWAG P.S.K. Group's risk situation and, by extension, that of BAWAG Group, comprises various aspects. Both Issuers are part of BAWAG Group and BAWAG Regulatory Group. "**BAWAG Regulatory Group**" means, from time to time, any banking group to which the relevant Issuer belongs and to which the own funds requirements under European banking regulation apply on a consolidated basis due to prudential consolidation.

Any risk factors set out in this section "2.1 Risks relating to BAWAG Group, including BAWAG P.S.K. and BAWAG P.S.K. Group" below relating to BAWAG Group or BAWAG Regulatory Group equally apply to both Issuers. Risks specifically relating to the Issuer BAWAG are set forth below under "2.2 Risks relating to BAWAG".

The risk factors regarding the Issuers are organized into the following categories depending on their nature (with the most material risk factor presented first in each category):

- "2.1.1 Risks relating to the markets in which BAWAG Group operates";
- "2.1.2 Risks related to the business of BAWAG Group";
- "2.1.3 Operational Risks"; and
- "2.1.4 Risks relating to regulatory, legal and tax matters".

2.1.1 Risks relating to the markets in which BAWAG Group operates

2.1.1.1 *BAWAG Group is exposed to various forms of market risks, including interest rate risk and credit spread risks, which could have a material adverse effect on BAWAG Group's business, financial position and results of operations.*

BAWAG Group is subject to various forms of market risks, including the risk of losses due to open risk positions and unfavourable developments in market variables such as interest rates, foreign exchange rates, share prices or

volatility. Market risks can arise in connection with trading activities (the short-term purchase and sale of positions) and non-trading activities.

BAWAG Group's market risks predominantly (but not solely) relate to non-trading risk activities; particularly credit spread risks and interest rate risks. For example, the credit quality of a financial instrument held by BAWAG Group may decrease which would likely lead to a fall of such instrument's market price and have a negative effect on the assets of BAWAG Group. Market risks also arise from changes in interest rates.

Low interest rates may, for example, discourage customers from holding deposits with BAWAG Group, which could reduce the availability of funding from deposits. A persistently low interest rate environment such as the current environment may also put pressure on net interest margins of deposits across the industry and adversely affect BAWAG Group's margins. At extremely low interest rates, margins can be particularly compressed as the interest rates on loans decline while the interest rates that banks pay for deposits by law may not be lower than 0%.

An increase in interest rates may cause the market price of BAWAG Group's assets to decline. In case of a change in interest rates, BAWAG Group may not be able to re-price the interest rates of its assets and liabilities simultaneously, which may negatively affect margins and revenue, particularly if the maturity and re-pricing structure of BAWAG Group's assets liabilities do not match. Furthermore, historically low interest rates have and continue to allow the financing of real estate at low costs, which may result in inflated real estate prices. Subsequent increases in interest rates could lead to a sharp increase in borrowers who are no longer able to repay their loans and to sharp falls in the value of real estate, which could have a negative impact on the value of their collateral. In addition, unfavourable market developments could adversely affect the fair market value of BAWAG Group's derivatives, assets and liabilities.

Furthermore, the ongoing COVID-19 pandemic and Russia's war against the Ukraine led to a significantly increased volatility of market prices which could continue for a longer period and could also result in a persistent rise in funding spreads, which would have a negative impact on the Issuer's refinancing costs.

Due to the nature of its business activities and its exposure to market risks, an unfavourable development of market variables, such as interest rates, foreign exchange rates, share prices or volatility, could have a material adverse effect on BAWAG Group's business, financial position and results of operations, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.1.2 Low prices and profitability of real estate could materially impair BAWAG Group's ability to compensate loan defaults by foreclosing on collateral.

To a large extent, BAWAG Group's collateral portfolio is comprised of real estate. A significant devaluation of residential or commercial real estate could have adverse effects on the banking sector, including BAWAG Group, which could be particularly negatively affected by any such devaluation due to its exposure to residential and commercial real estate in Austria, Ireland, the United Kingdom ("**U.K.**"), the United States, the Federal Republic of Germany ("**Germany**") and the Netherlands. Reduced income of its customers from residential and commercial real estate may result in payment defaults and write-offs on assets held by BAWAG Group. Due to its heavy reliance on real estate collateral located in Austria, Germany, the Netherlands, the U.K. and Ireland, BAWAG Group would also be negatively affected by devaluations of such real estate, and foreclosures could result in write-offs. Political developments, such as in the aftermath of Brexit, may lead to devaluations of real estate prices. The COVID-19 pandemic may lead to negative developments in the real estate market and thereby adversely impact assets that serve as collateral for BAWAG Group's repayment claims. This is mainly due to the risk of high vacancies in commercial properties and potential bankruptcy of tenants, guarantors and other providers of collateral, which may impair the solvency of clients and may lead to defaults under financings provided by BAWAG Group. Overall, there is still uncertainty around the scope and length of the impact of COVID-19 on the markets in which BAWAG Group operates and ultimately on BAWAG Group's business.

Any of the above risks could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.1.3 BAWAG Group is exposed to the risk of losses due to changes in foreign exchange rates, which could have a material adverse effect on BAWAG Group's business, financial position and results of operations.

BAWAG Group performs some of its business activities in non-European countries and European countries which are not Eurozone members, including originating loans and purchasing loan portfolios and may also include the

expansion of BAWAG Group's business into other foreign countries. Transactions in foreign currencies, such as CHF, GBP and USD, are exposed to various risks. Revenue in other currencies may be reduced as a result of its conversion into euro, and expenses in currencies other than euro may increase due to conversion. Cash flow hedges which BAWAG Group regularly uses to address these risks may prove to be ineffective to manage these risks as they are based on certain assumptions (relating, among other things, to the repayment profile of the hedged cash flows) which may prove incorrect. Assets denominated in foreign currencies may have to be depreciated in the case of a devaluation of the currency and it cannot be ensured that hedges which BAWAG Group employs (using foreign exchange derivatives and refinancing facilities in the same currency) adequately protect it against the accompanying risks. A foreign currency exposure may also arise from the BAWAG Group's net investment in subsidiaries with a functional currency other than the euro. The risk arises from the fluctuation in spot exchange rates between the foreign currency and the euro, which causes the amount of the net investment to vary. Moreover, risk-weighted assets denominated in foreign currencies may increase in case of an appreciation of the currency in which they are denominated. The risk of increasing risk-weighted assets denominated in foreign currencies is not hedged by BAWAG Group.

These risks could have a material adverse effect on BAWAG Group's business, financial position, and results of operations, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2 Risks related to the business of BAWAG Group

2.1.2.1 *BAWAG Group's business success is dependent on the political and general macroeconomic conditions of the economies in which BAWAG Group is active and may be affected by changes to the constitution and composition of the EU and/or the Eurozone.*

BAWAG Group is exposed to risks resulting from the general macroeconomic and political conditions of the economies in which it operates both generally and as they specifically affect financial institutions. The most important economies for BAWAG Group are the economies of Austria, Germany, U.K., the United States, the Republic of Ireland ("**Ireland**"), the Netherlands and the French Republic ("**France**"). The banking markets of Western Europe and the United States, in which BAWAG Group is active, are currently characterised by low (or even negative) interest rates coupled with high competition leading, for example, to low margins in the banking industry in general. The factors and events that could negatively influence the business success of BAWAG Group include, without limitation, a general economic downturn, increasing unemployment, inflation, hyperinflation, deflation, currency fluctuations, falling real estate prices, insolvencies, financial crises, and other the political and general macroeconomic conditions of the economies in which BAWAG Group is active. For example, a failure to counter inflationary tendencies by the European Central Bank or by the U.S. Federal Reserve (e.g. too low interest rates) could result in a prolonged period of high inflation, which, in turn, could deteriorate the financial health of private households and corporations, leading to an increase in insolvencies. However, a too aggressive stance towards inflation by the European Central Bank or by the U.S. Federal Reserve (e.g. too high interest rates), could likewise lead to a deterioration in financial health of private households and corporations by, among other things, increasing debt servicing costs, by deteriorating the value of real estate and by decreasing the number of profitable current and future investment opportunities. Thus, a policy error by major central banks could significantly deteriorate the economic and financial environment in which BAWAG Group operates.

Moreover economic conditions may be significantly affected by various factors such as increasing energy cost/oil prices, terrorist attacks or other catastrophic events, such as serious public health concerns. Material adverse effects on the global economy could also result in substantial disruption to capital markets in the form of decreased liquidity and increased volatility. Any deterioration of the general economic climate, the economic situation of the financial services sector, the future exacerbation or expansion in geopolitical conflicts, withdrawals from the EU and/or the Eurozone, and any resulting deterioration of the financial standing of BAWAG Group's customers generally could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.2 *Russia's invasion in the Ukraine could lead to a negative impact on the Austrian and other European economies, on which BAWAG Group's business success is dependent.*

The recent action of Russian military forces and support personnel in Ukraine has escalated tensions between Russia and the EU, the U.S., NATO, and the U.K. The EU has imposed, and is likely to impose material additional, financial and economic sanctions and export controls against certain Russian organizations and/or individuals, with similar actions either implemented or planned by the US and the U.K. and other jurisdictions. The military conflict between the Russian Federation and Ukraine and the repercussions from those measures may have a significant negative impact on the Austrian and other European economies. While the military conflict does not

impact BAWAG Group directly, as it has no operating presence nor customers domiciled in those countries, indirect effects, such as financial market volatility, increased energy prices, sanctions-related knock-on effects on some of our customers or the emergence of deposit insurance or resolution cases, such as Sberbank Europe AG domiciled in Austria, cannot be ruled out. The extent of the consequences of possible energy price increases and inflation, sanctions and trade restrictions, as well as counter-reactions and the duration of such a military conflict are impossible to predict. In the more unfavourable scenarios, this could have a significantly negative impact on the Austrian and other European economies and probably lead to a delay in the normalization of the ECB's monetary policy with compressed margins in the banking business due to interest rates remaining at low levels. The profitability and the financial condition of BAWAG Group may still be negatively affected by such direct and indirect consequences of the conflict.

2.1.2.3 *BAWAG Group may experience severe economic disruptions induced by pandemics, epidemics, outbreaks of infectious diseases or other serious public health concerns such as the worldwide COVID-19 pandemic, which may have significant negative effects on BAWAG Group and its customers.*

BAWAG Group may directly or indirectly through its clients be exposed to multiple risks in connection with pandemics, epidemics, outbreaks of infectious diseases or any other serious public health concerns whether on a regional or global scale, in particular with the coronavirus (SARS-CoV-2) outbreak and the illness caused by it ("**COVID-19**") as well as actions taken or wrongly not taken by governments and competent authorities and institutions to fight the outbreak and spread of the virus. The COVID-19 pandemic, together with the restrictions on travel, imposition of quarantines and prolonged closures of workplaces, may have a material adverse effect on the global economy in general, in particular on governments, enterprises and households. The implications of such outbreaks depend on a number of factors, such as e.g. the duration and spread of the respective outbreak and the effectiveness of measures imposed to contain it.

In 2020, the COVID-19 pandemic plunged the global and Austrian economies into a deep recession. While the initial shock was to the supply side of the economy as a result of halts to production along the supply chain and lockdowns and travel restrictions hindering tourism, the demand side is also affected. One reason for this is the persistent uncertainty about how the pandemic will unfold, considering the fact that the virus is constantly evolving. Apart from that, a deep economic slump developed, the impact of which has fed through to the incomes and prospective incomes of consumers due to the danger of increasing number of jobs vanishing and the use of short-time working payments. All this is reining in consumption, which has been one of the support pillars of the economy in recent years. As long as the spread of COVID-19 cannot be brought under control worldwide, it could any longer significantly adversely affect global economies and financial markets, resulting in a prolonged economic downturn and an ongoing global recession. The COVID-19 pandemic carries supply chain implications, including limitations on the global movement of people and goods, disruption of industrial and other production, restrictions on travel, tourism and public transportation, prolonged closures of workplaces and the reduction of private consumption amongst others, which may have an indirect effect on BAWAG Group. A prolonged or renewed economic downturn resulting from new and/or advanced restrictions due to the COVID-19 pandemic could lead to a deterioration of BAWAG Group's customers' financial positions and could adversely affect BAWAG Group. As a result, BAWAG Group's loan portfolio quality could suffer or deteriorate, and non-performing loans may increase, because BAWAG Group's customers may not, or not timely, be able to repay their loans, and/or collateral securing these loans may become insufficient. If the economic conditions worsen, this could result in credit losses exceeding the amount of the Issuer's loan loss provisions. The effects of the COVID-19 pandemic have so far resulted in a significant increase of risk costs by building pre-emptive provisions in the year 2020, lower transaction levels, and a significantly reduced demand for consumer loans, which reduced fee income from decreasing traffic branches. The macroeconomic variables applied for the year 2020 to date expected credit loss (ECL) calculations are reflecting BAWAG Group's conservative stance with regard to the further development of the COVID-19 pandemic, as well as the speed of economic recovery and potential setbacks from further waves.

Given the ongoing uncertainty of the lasting effect and duration of new waves of infections triggered, among others, by mutations of SARS-Cov-2, the impact on the global economy is currently not foreseeable. The pandemic entails a period of exceptionally high uncertainty during 2020 and 2021 and potentially also in the year 2022 and beyond, which could result in a further deterioration of the global economy and financial position of certain customers of BAWAG Group.

These risks could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.4 *BAWAG Group is exposed to risks concerning customer and counterparty credit quality which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects.*

BAWAG Group is exposed to many financial products, counterparties and obligors whose credit quality can have a significant adverse impact on BAWAG Group's earnings and the value of assets on BAWAG Group's balance sheet. BAWAG Group is at risk that the economic situation of its counterparties deteriorates and that its counterparties are or become incapable to fulfil their financial obligations or such financial obligations become subject to a bail-in. Furthermore, BAWAG Group is exposed to additional risk, such as tenant risk in relation to mortgage loans, which could adversely affect a counterparty's ability to fulfil its obligations to BAWAG Group. BAWAG Group is also exposed to the risk that it may have to provide involuntary credit extensions to counterparties who are unable to attain refinancing elsewhere. BAWAG Group may fail to adequately identify or anticipate factors which could adversely affect customer or counterparty credit quality, including those factors resulting from value changes due to country-specific political and economic conditions (country risks) and from cluster formation with regards to risk factors or counterparties. The failure of customers or counterparties to meet their commitments as they fall due may result in higher impairments on the fair value of assets or hedging derivatives and/or have a negative impact on BAWAG Group's lending portfolio and income. This could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.5 *BAWAG Group's monitoring of its loan portfolio is dependent on the effectiveness, and efficient operation, of its processes including credit grading and scoring systems and there is a risk that these systems and processes may not be effective in evaluating credit quality.*

BAWAG Group uses processes including credit grading and scoring systems in evaluating the credit quality of its customers and to facilitate the early identification and management of any deterioration in loan quality. Changes in credit quality information are reflected in the credit grade of the relevant borrower with the resulting grade influencing the management of that borrower's loans. BAWAG Group pays special attention to non-performing loans (NPLs), loans accounted for on a non-accrual basis, restructured loans and other loans identified as potential problem loans. However, there is a risk that BAWAG Group's credit grading and scoring systems and processes may not be effective in evaluating the credit quality of customers or in identifying changes in loan quality in a timely manner. Any such failure in the timely identification of loan impairment or its credit grading and scoring system generally could result in inadequate provisioning or have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.6 *Investments of BAWAG Group may not yield a return, and the valuation of participations of BAWAG Group could make impairments necessary. The sale of participations may only be possible at a loss.*

BAWAG Group holds currently only participations in non-stock exchange listed entities in its banking book and is dependent on investment income from these participations. These participations relate, inter alia, to leasing companies, real estate companies, financial institutions, payment services providers etc. In addition to the risk that its investments may not generate income, BAWAG Group is also subject to the risks of devaluation and write-offs, because a deterioration of a participation's financial situation may lead to a depreciation in value, or loss of this participation. The participation risk encompasses possible changes in the market value of non-consolidated participations, possible depreciation requirements relating to the value of the participation and poor profitability of non-consolidated participations. The participation risk does not relate to consolidated operating subsidiaries, because the risks applicable to these differ according to the specific type of risk and are therefore already taken into consideration under these risks. BAWAG Group performs yearly valuations of its participations. Any necessity to write-off participations in non-consolidated participations could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects.

BAWAG Group has already disposed of several participations and is generally considering the sale of other participations. The sale price of such participations could be less than their book value, which could have a material adverse effect on BAWAG Group's profitability, business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.7 *BAWAG Group is exposed to the risk of defaults of other financial institutions or sovereign debtors. Insolvencies in the financial sector or the default of sovereign debtors could, due to the worldwide interdependency of financial markets, have an adverse effect on the entire financial sector, including BAWAG Group.*

The financial distress of large credit institutions, insurance undertakings, other financial institutions or sovereign debtors has the potential to adversely affect financial markets and counterparties in general. This results from the fact that the business activities of large financial institutions such as trading and clearing are closely interwoven. Uncertainty in respect of the financial stability of large financial institutions or their default may cause liquidity restrictions, losses and defaults of other market participants. Similar effects may result from the default of sovereign debtors. These systemic risks may adversely affect those financial market participants and intermediaries with whom BAWAG Group maintains business relationships, including credit institutions, investment firms, exchanges and providers of clearing services. The insolvency and non-viability of systemically important or relevant financial institutions, as occurred in the course of the financial crisis, a potential default of sovereign debtors or the materialisation of any other systemic risk could have a material adverse effect on the entire financial sector including BAWAG Group's business, financial condition, results of operations and prospects. Specifically, BAWAG Group's business is subject to the risk that borrowers and other contractual partners may not be able to meet their obligations to BAWAG Group due to insolvency, application of resolution tools by resolution authorities, lack of liquidity, global or local economic issues, operational failure, political developments or other reasons.

Bonds issued by public sector entities have recently been exposed to considerable market price fluctuations. If the values of public sector bonds decline, undergo haircuts dictated by political decisions, or under certain circumstances even fall to zero in the event of insolvency of the public sector entities, thus generating a loss in cash value, this would lead to impairments or force BAWAG Group to realise losses if it decides to sell the relevant instrument, and will have direct adverse effects on BAWAG Group's income statement.

An insolvency of a public sector entity could also lead to general instability and contagious effects, which could lead to adverse effects on BAWAG Group's financial condition and results of operations even if BAWAG Group has no direct exposure to such entity.

BAWAG Group is also exposed to credit risk in relation to its counterparties (see also "2.1.2.4 BAWAG Group is exposed to risks concerning customer and counterparty credit quality which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects." above). In addition, some of these counterparties currently rely heavily on refinancings from central banks. Central banks could reduce their refinancing programs or introduce stricter eligibility criteria. In addition, there is no guarantee that the current quantitative easing programs will continue. A future rise in interest rates is likely to make future refinancings more expensive. Other banks, depending on the development of real estate markets in the above mentioned countries, may have to perform substantial write-downs on their real estate loan portfolios. Furthermore, the efforts of some of these countries to consolidate their national budgets are also adversely affecting their economies, which may have negative consequences for the economic situation of banks in these countries.

The realisation of one or all of the risks described above could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.8 *BAWAG Group is dependent on the confidence of its customers in the banking system and the business of BAWAG Group. A loss of confidence may cause increased deposit withdrawals which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects.*

One of the core funding strategies of BAWAG Group is stable customer deposits. In addition to BAWAG Group's ability to attract and retain customers, their availability depends on various external factors beyond its control such as the confidence of the public in the economy, the financial sector, and BAWAG Group. A change of such confidence levels, as well as an increase in general interest rates or the deterioration of economic conditions may limit the ability of BAWAG Group to maintain an adequate level of customer deposits on acceptable terms, which may have a material adverse effect on its ability to fund its operations (see also "2.1.2.17 BAWAG Group has a continuous demand for liquidity to fund its business activities and is exposed to liquidity risks, which may negatively affect its ability to fulfil its obligations."). Significant outflows of deposits could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.9 *The international business of BAWAG Group is subject to credit risks, market risks, concentration risks, transfer risks, convertibility risks and political risks.*

BAWAG Group also conducts certain transactions outside of Austria with key international accounts within a pre-defined risk framework. Outside of Austria, BAWAG Group focuses predominantly on Germany, other Western European countries and the United States. The business activities of BAWAG Group and its subsidiaries and associated companies outside of Austria are subject to the typical risks of international business activities which arise from, among other things, the necessary development and expansion of the business infrastructure, different economic conditions and different legal and taxation systems. For example, BAWAG P.S.K. holds performing residential mortgage loan portfolios in France and the U.K. In respect of both portfolios, BAWAG Group is subject to, among others, credit risks (see also "2.1.2.4 BAWAG Group is exposed to risks concerning customer and counterparty credit quality which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects." above). In particular, the mortgages securing the loans may not be sufficient to cover losses in case real estate prices deteriorate. In addition, in view of amortisation of the loan portfolios, BAWAG Group faces the risk of failing to find reinvestment opportunities generating equivalent net interest income at an equivalent level of risk. This reinvestment pressure may cause BAWAG Group to enter into transactions with lower margins and/or higher risk profiles. The reinvestment pressure may intensify, for example, if borrowers opt for an early repayment of their loans.

Furthermore, a large part of the loans in the residential mortgage loan portfolio in the U.K. are bullet loans, meaning principal must be repaid only at maturity. In most cases, the entire principal must either be repaid or refinanced at the end of the term, which results in repayment or refinancing risks which are greater than those of loans where the monthly instalments consist of interest and principal components. In view of the full payment falling due at maturity of the loans, bullet loans represent a higher default risk at maturity compared to amortising loans. Further, in the U.K. in particular it is common market practice for the principal to be repaid using the proceeds from the sale of the underlying real estate. Any adverse movements in the market price of the underlying real estate may increase the credit risk resulting from the gap between sales proceeds and outstanding loan amount.

The international business of BAWAG Group also exposes it to a greater degree of political, social and economic risks as described in more detail above (see risk factor "2.1.2.1 BAWAG Group's business success is dependent on the political and general macroeconomic conditions of the economies in which BAWAG Group is active and may be affected by changes to the constitution and composition of the EU and/or the Eurozone. ").

A materialization of any of these risks could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.10 *A downgrading of BAWAG P.S.K.'s credit rating or the rating relating to specific instruments issued by the Issuers could increase the Issuers refinancing costs and could have a material adverse effect on BAWAG Group's liquidity, profitability, business, financial condition, results of operations and prospects.*

BAWAG Group's operating subsidiary BAWAG P.S.K. is rated with (long term) issuer ratings. In addition, some of BAWAG's and BAWAG P.S.K.'s outstanding debt instruments are rated. BAWAG P.S.K.'s credit ratings could be subject to downgrades in the future. As a precondition for assigning a certain credit rating, credit rating agencies may expect the issuers to comply with certain criteria and covenants. Any non-compliance by BAWAG P.S.K. with these criteria and covenants may lead to rating downgrades. Such downgrades could contribute to an increase in BAWAG Group's refinancing costs and BAWAG Group is unable to predict the extent of the effects that would follow a credit downgrade of BAWAG P.S.K. These would depend on a number of factors including whether a downgrade affects financial institutions across the industry or on a regional basis, or is intended to reflect circumstances specific to BAWAG P.S.K.; any actions its senior management may take in advance of or in response to the downgrade; the willingness of counterparties to continue to do business with it; any impact of other market events and the state of the macroeconomic environment more generally. In particular, should a major credit rating agency lower BAWAG P.S.K.'s credit rating to a level considered sub-investment grade, significant aspects of its business model would be materially and adversely affected.

Additionally, under many of the contracts governing derivative instruments to which BAWAG P.S.K. is a party, a downgrade could require it to post (additional) collateral, lead to terminations of contracts with accompanying payment obligations for BAWAG P.S.K. or give counterparties additional remedies. Especially, taking potential credit rating downgrades into account when conducting stress tests and drawing up the recovery plan does not guarantee that the negative effects anticipated as part of these tests and plans will not be exceeded in case of an actual credit rating downgrade.

Therefore, possible future downgrades in the financial rating of BAWAG P.S.K. could have a material adverse effect on BAWAG Group's liquidity, profitability, business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.11 *BAWAG Group is exposed to intense competition, particularly in its home market of Austria, which could have a material adverse effect on its business, financial condition, results of operations and prospects.*

The financial services industry is subject to significant competition, particularly in Austria, Germany and the Netherlands, BAWAG Group's regional focus. In the corporate and public sector lending business, BAWAG Group faces competition from an increasingly diverse mix of lenders with the entry of non-bank financial institutions such as insurance companies, debt funds, sovereign wealth funds, private equity firms, high net worth individuals and family offices. In the consumer banking business, including competition to lend to consumers and competition for consumer deposits, BAWAG Group primarily competes with other banks operating in Austria and its other markets. However, continued technological advancements and developments in e-commerce make it possible for non-bank financial institutions and other new entrants to offer products and services that traditionally have been offered exclusively by banks, including competition for loans, deposits and other products and services offered by BAWAG Group. Such non-bank competitors may be subject to less or more favourable regulation than traditional banks. In particular, BAWAG Group faces growing competition from financial services technology companies (so-called 'FinTechs'). In accordance with its strategy, BAWAG Group generally strives to avoid offering low-profit or even loss-making products as currently offered by many of its competitors. However, intense competition forces BAWAG Group to continuously review the pricing of its products and it cannot be assured that BAWAG Group will be able to price its products in a manner that ensures their profitability or at least leads to cross-selling opportunities. Furthermore, customers are focusing increasingly on the various services offered in connection with banking products. Further increases in customer expectations could require BAWAG Group to increase its investments in the development of strong and efficient services in both physical and digital channels. Any failure to manage the competitive dynamics to which it is exposed could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.12 *BAWAG Group may fail to achieve its business and strategic objectives, and its historical results may not be representative of its future results.*

BAWAG Group may not be able to achieve its business and strategic objectives in the future (especially those outlined below and for example in risk factors "2.1.2.8 BAWAG Group is dependent on the confidence of its customers in the banking system and the business of BAWAG Group. A loss of confidence may cause increased deposit withdrawals which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects." and "2.1.3.3 BAWAG Group may have difficulty in integrating acquisitions or identifying and assessing risks of acquisitions, which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects."), which could lead to a material decline in profits and materially affect interest payments and the results of operations in general. This could result from developments or technological advances in the relevant markets, in particular competition from certain financial technology companies that may create disruptive competition for BAWAG Group's existing business models. The various elements of BAWAG Group's strategy may be individually unnecessary or collectively incomplete. BAWAG Group's strategy may also prove to be based on flawed assumptions regarding the pace and direction of future change across the banking sector including a misjudgement of customer behaviour and demand. BAWAG Group's management may adopt strategic decisions including the implementation of new cost-saving or efficiency programs, new product or service concepts and other types of strategic measures which may not render the anticipated returns within the expected timeframe or at all. This may lead, among others, to wasted resources or a need for further investments. Moreover, in the context of the adoption and implementation of strategic decisions, the allocation or re-allocation of financial resources and staff to one or more functions or activities may in hindsight prove to be disadvantageous for BAWAG Group, for example if a certain business area is left with insufficient qualified staff following a re-allocation of personnel. In addition, any aspect of BAWAG Group's strategy that is dependent upon the value and competitive advantage conveyed by intellectual property rights (including trademarks) may not be adequately protected or deemed to be enforceable.

BAWAG Group's financial performance also depends upon the growth of the geographical and industry markets in which it currently operates, as well as its ability to expand within these markets and into new markets. It can be difficult and costly to attract new customers within existing markets because of the reluctance of many customers to change providers, including as a result of costs directly associated with transitioning to new providers and the risk of downtime or loss of functionality. BAWAG Group's growth strategy focuses on select acquisitions intended to develop or acquire new products and services. BAWAG Group may not be able to successfully implement these strategies, and even if it does, they may not provide BAWAG Group with the value and benefits it anticipates.

The business strategy of BAWAG Group is subject to continual review. Despite its current business strategy BAWAG Group may, among other things, fail to successfully:

- identify and conclude attractive acquisitions;
- integrate acquired entities;
- expand its retail business into Germany; and
- migrate older current account models with low or negative profit margins into the new more profitable KontoBoxes models.

2.1.2.13 *A termination or reduction of BAWAG Group's close cooperation with its distribution partners could have a material adverse effect on its business, financial condition, results of operations and prospects.*

Partnerships play an important role for BAWAG Group. A cornerstone of its strategy is to cooperate with product providers in Austria on a long-term basis. For example:

- through BAWAG P.S.K. Versicherung AG, a joint venture company that is 25% owned by BAWAG Group and 75% owned by the Generali Group, BAWAG Group offers its customers insurance products; and
- in cooperation with its partner Amundi, BAWAG Group offers its customers investment products.

If any such cooperation agreement was to be terminated or its scope to be narrowed and BAWAG Group was not able to substitute such cooperations by other means (e.g. through its own distribution channels), or if the targets or plans cannot or only in part be realised, it could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the ability of the Issuer to meet its obligations under the Notes.

If BAWAG Group fails to achieve its business and strategic objectives by streamlining its branch network or if its related assumptions prove to be incorrect, the termination of the cooperation agreement could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.14 *An "exit" by any current member of the EU or the Eurozone may have a material adverse effect on the financial system and the general economic climate in the EU, including Austria, and a significant negative impact on BAWAG Group's business, financial condition, results of operations and prospects.*

The last several years have been characterised by increased political uncertainty as Europe in particular has been impacted by the now somewhat abated sovereign debt crisis, the outcome of the withdrawal of the U.K. from the European Union ("EU") (so-called 'Brexit'), the refugee crisis and the increasing attractiveness to voters of populist and anti-austerity movements. BAWAG Group's business operations in the U.K. largely consist of a performing residential mortgage loan portfolio which means that it would be primarily affected if Brexit resulted in an increase of defaults of the borrowers in its residential mortgage loan portfolio or in a substantial devaluation of the GBP which could force it to write down the value of its portfolio.

Depending on the success of 'Brexit' for the U.K. other EU member states could decide to also withdraw from the EU, or threaten to leave unless certain concessions are made. The resulting uncertainty could have significant effects on the value of the euro and on the prospects for member states' financial stability, which in turn could lead to a significant deterioration of the sovereign debt market. If one or more Eurozone members default on their debt obligations or decide to leave the common currency, this would result in the reintroduction of one or more national currencies. Possible consequences of such a departure for an existing member state may also include the loss of liquidity supply by the European Central Bank (the "ECB"), the need to introduce capital controls and, subsequently, certificates of indebtedness, a possibility of a surge in inflation and, generally, a breakdown of its economy. Businesses and other debtors whose main sources of income are converted to a non-euro currency could be unable to repay their euro-denominated debts. This and the resulting need to restate existing contractual obligations could have unpredictable financial, legal, political and social consequences, leading not only to significant losses on sovereign debt but also on private debt in that country. Given the highly interconnected nature of the financial system within the Eurozone, and the levels of exposure BAWAG Group has to counterparties holding sovereign and private debt around Europe, its ability to plan for such a contingency in a

manner that would reduce its exposure to non-material levels is limited. In the wider Eurozone, concerns over the euro's future might cause businesses to cut investment and people to cut back their spending, thus pushing the Eurozone into recession. Nervous depositors in other struggling Eurozone countries could start withdrawing their deposits or moving them to other countries, thus provoking a banking crisis. The euro could lose but also increase in value in case that existing countries are coming from the economically weaker periphery. Depending on the exact mutual development of the FX-rates embedded in the global exchange-rate regime, this might impact BAWAG Group's ability to repay its obligations. If the overall economic climate deteriorates as a result of one or more departures from the Eurozone, BAWAG Group's businesses could be materially adversely affected, and, if overall business levels decline or it is forced to write down significant exposures among its various businesses, BAWAG Group could incur substantial losses.

The decision of any Eurozone member to exit the common currency would be unprecedented, and its financial, legal, political and social consequences cannot be reliably assessed. As the financial system of the Eurozone is highly integrated, a significant systemic impact would be likely. Any negative consequences of a member state leaving the Eurozone may thus also have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects being predominantly active in the Eurozone. In particular, without limitation, it may be required to take impairments on its sovereign debt exposures and other assets in full or in part, and may suffer from a general deterioration of the economic activity both within and outside the Eurozone.

2.1.2.15 *If BAWAG Group fails to promote and maintain its brands in a cost-effective manner, BAWAG Group may lose market share and its revenues may decrease.*

BAWAG Group believes that developing and maintaining awareness of its brands, including "BAWAG P.S.K.", "easybank", "Qlick", "Hello bank! Austria" and "Südwestbank AG", in a cost-effective manner is critical to attracting new and retaining existing customers to its online offering. The successful promotion of its brands will depend largely on the effectiveness of its marketing efforts and the experience of customers with its products and services. BAWAG Group's efforts to build its brands have involved significant expenses, and it is likely that its future marketing efforts will require it to incur significant additional expense. These brand promotion activities may not result in increased revenues and, even if they do, any increases may not offset the expenses incurred. If BAWAG Group fails to successfully promote and maintain its brands or if BAWAG Group incurs substantial expenses in an unsuccessful attempt to promote and maintain its brands, BAWAG Group may lose its existing customers to its competitors or be unable to attract new customers, which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.16 *BAWAG Group uses models across many of its activities and if these models prove to be inaccurate, its management of risk may be ineffective or compromised and/or the value of its financial assets and liabilities may be overestimated or underestimated.*

BAWAG Group uses models across many, though not all, of its activities including, but not limited to, capital management, credit grading, provisioning, valuations, liquidity, pricing and stress testing. BAWAG Group also uses financial models to determine the fair value of derivative financial instruments, financial instruments through profit or loss, certain hedged financial assets and financial liabilities and financial assets classified as available for sale in accordance with International Financial Reporting Standards ("**IFRS**"), as adopted by the European Union. Since BAWAG Group uses risk measurement models based on historical observations, there is a risk that they underestimate or overestimate exposure to various risks to the extent that future market conditions deviate from historical experience. In addition, the risk measurement models may fail to take into account certain other relevant factors (both historical and current), or the models may be otherwise incomplete. In 2019, BAWAG Group introduced a holistic model risk management framework to control its model risk throughout the entire group, especially for the development and review of the models as well as the model validation. For its model risk management framework, BAWAG Group has identified a set of principles which are applied on a group-wide level: (1) accurate identification and mitigation of model risk, (2) effective processes and clear responsibilities with regards to model risk management, (3) transparency towards internal stakeholders and regulators and (4) organization, governance, policies and controls for its models. Should BAWAG Group's models not accurately estimate its exposure to various risks, it may experience unexpected losses. BAWAG Group may also incur losses as a result of decisions made based on inaccuracies in these models, including the data used to build them or an incomplete understanding of these models. If BAWAG Group's models are not, or are deemed not to be, effective in estimating its exposure to various risks or determining the fair value of its financial assets and liabilities or if its models prove to be inaccurate, its business, financial condition, results of operations and prospects could be materially adversely affected.

The realisation of any of these risks may adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.2.17 *BAWAG Group has a continuous demand for liquidity to fund its business activities and is exposed to liquidity risks, which may negatively affect its ability to fulfil its obligations.*

Liquidity risk encompasses the risk that BAWAG Group is unable to fulfil its payment obligations at the time they become due. BAWAG Group is subject to the liquidity risk of not having access to sufficient liquidity at acceptable terms as and when required (refinancing risk), and that BAWAG Group, due to insufficient market funding or due to market disruptions, is not able to, or may only at a loss, terminate or settle transactions (market liquidity risk).

BAWAG Group's funding strategy is dependent upon its stable customer deposits base (see also "2.1.2.8 BAWAG Group is dependent on the confidence of its customers in the banking system and the business of BAWAG Group. A loss of confidence may cause increased deposit withdrawals which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects."). Therefore, BAWAG Group is subject to the risk of material deposit outflows which may be outside of its control.

If BAWAG Group is unable to meet its funding requirements, it may be forced to sell liquid assets at economically unfavourable terms in order to restore its liquidity position. Market liquidity risk may materialise where inadequate market liquidity or a market disruption limit BAWAG Group's ability to monetise its assets. Refinancing risk could also result from a rollover of funding positions in connection with a longer period of increased refinancing costs. In general, BAWAG Group is exposed to the risk of higher funding costs if and to the extent its asset/liability management does not adequately address mismatches of maturities, interest rates, currencies or other parameters. In addition, external funding sources may become – possibly within a very short time period – insufficient. The ongoing extraordinary liquidity provisioning and asset purchase by the ECB may reflect continued structural problems in the refinancing markets. Furthermore, a change in the ECB's policies could affect market confidence and liquidity in Europe, destabilising the markets. Moreover, a recession in Europe could jeopardise economic recovery and lead to a loss of confidence in the stability of financial markets.

BAWAG Group also issues covered bonds as part of its funding strategy. A lack of liquidity in the market for covered bonds would therefore negatively affect BAWAG Group. Such constraints could, for example, result from the loss of confidence following an insolvency of other issuers of covered bonds. Furthermore, the ECB's ongoing intervention, which also includes the purchase of covered bonds, has contributed to a tightening of covered bond credit spreads. These spreads may widen significantly or demand for covered bonds may decline after the ECB stops intervening.

Any deterioration in BAWAG Group's liquidity could have a material adverse effect on its business, financial position and results of operations, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.3 Operational Risks

2.1.3.1 *If BAWAG Group fails to adapt to rapid technological changes its competitiveness could decline.*

BAWAG Group's IT and communications systems are critical to its success. In particular, BAWAG Group relies heavily on its proprietary online banking platform, which requires constant ongoing development and investment to reflect new technological developments and changes in industry practice, including as a result of regulatory changes and innovation in products and services. If BAWAG Group is unable to manage upgrades, developments or changes to its proprietary online banking platform and other IT systems, it could be subject to operational disruption, reputational damage, regulatory scrutiny, and significant additional costs.

The online direct banking industry is subject to rapid technological change with new product and service introductions, evolving regulatory requirements and industry standards, and constantly changing merchant and consumer needs and expectations. For example, new online-based market entrants may be able to offer similar products at more attractive prices due to lower fixed costs. Furthermore, online-based market entrants may introduce new products or services, and BAWAG Group may be unable to introduce competing products quickly or at reasonable cost, or at all. BAWAG Group may also fail to accurately foresee developments in online banking or other technologies, which could lead it to investment in technologies and products that do not gain market acceptance or generate sufficient returns. There is also a risk that BAWAG Group may not have adequate financial or technological resources, or that it may not be able to secure products and distribution channels to satisfy changing consumer demand. Any delay in the delivery of new products or services, or the failure to differentiate BAWAG Group's products and services from those of current or future competitors, could render them less desirable to its customers, or possibly even obsolete. If BAWAG Group is unable to develop technologies internally, it may have to license or acquire technologies from third parties, which may be costly or not possible at all.

Any failure to remain innovative or to introduce new or upgraded technologies that are responsive to changing consumer or regulatory requirements may have a material adverse effect on BAWAG Group's competitiveness and could cause it to lose its market position in core markets, which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.3.2 *BAWAG Group's operational systems are subject to an increasing risk of cyber-attacks and other internet crime, which could result in material losses of customer information, damage BAWAG Group's reputation and lead to regulatory penalties and financial losses.*

BAWAG Group is exposed to the risk of breaches of the security of its system operations due to unauthorised access to network resources or other forms of cyber-attack or internet crime including the use of viruses and trojans. Such breaches could disrupt BAWAG Group's business, result in the disclosure of confidential information and create significant financial and/or legal exposure and could damage the reputation of BAWAG Group. BAWAG Group's efforts to ensure the integrity of its systems may not be sufficient to anticipate or to implement effective preventive measures against security breaches of all types, especially because the techniques used change frequently or are not recognized until launched, and because cyber-attacks can originate from a wide variety of sources, including third parties outside BAWAG Group, such as persons who are involved with organised crime or associated with external service providers or who may be linked to terrorist organisations or hostile foreign governments. If an actual or perceived breach of security occurs, customer perception of the effectiveness of BAWAG Group's security measures could be harmed which could result in the loss of customers. Actual or anticipated attacks and risks may cause BAWAG Group to incur increased costs, including costs to deploy additional personnel and protection technologies, train employees, and engage third party experts and consultants. The realisation of any of the aforementioned risks could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes. Due to the tensions between Europe and Russia in connection with the war in the Ukraine and the sanctions imposed on Russia, there is a higher risk for cyber attacks in general and BAWAG Group may be a potential target for, or otherwise affected by, such attacks.

2.1.3.3 *BAWAG Group may have difficulty in integrating acquisitions or identifying and assessing risks of acquisitions, which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects.*

BAWAG Group considers acquisitions from time to time to support its business objectives and complement the development of its business in its existing and new geographic markets. For example, in 2021, BAWAG P.S.K. closed the acquisition of DEPFA BANK plc and its subsidiary DEPFA ACS Bank DAC from Germany's FMS Wertmanagement AöR, which is the German government's winding-up institution for the nationalized former HRE Group as well as the acquisition of Hello bank! Austria. In 2022 BAWAG Group agreed to acquire Peak Bancorp. Such strategic transactions demand significant management attention and require BAWAG Group to divert financial and other resources that would otherwise be available for its existing business. Even though BAWAG Group reviews the companies, businesses, assets, liabilities or contracts it plans to acquire, it is generally not feasible for these reviews to be complete in all respects. As a result, BAWAG Group may fail to adequately assess risks and liabilities associated with acquired businesses and assume unanticipated liabilities. In addition, acquired businesses may not perform as well as expected, or may not achieve the expected results within the anticipated timeframe, and the benefits of an acquisition (including expected synergies) may take longer to realise than expected or may not be realised fully or at all. Moreover, the integration of acquired businesses is typically a complex, time consuming and expensive process. Such processes may take longer than anticipated or involve higher expenses than originally anticipated, and be subject to a number of uncertainties, such as costs and expenses associated with unexpected difficulties, a diversion of management's attention from BAWAG Group's daily operations and/or strategic business decisions, a potential loss of key employees and customers or an additional demand on management related to the increase in the size and scope of BAWAG Group's operations. Furthermore, acquisitions by BAWAG Group often require regulatory clearance which may delay or prevent the closing of signed acquisitions. There can be no assurance that these clearances will be obtained on a timely basis or if at all. In addition, BAWAG Group might have difficulty integrating any entity with which it combines its operations. Failure to complete announced business combinations or failure to integrate acquired businesses successfully into BAWAG Group could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes. There can be no assurances that BAWAG Group will be able to successfully pursue, complete and integrate any future acquisition targets.

2.1.3.4 *Failure of BAWAG Group's IT systems could lead to a significant impairment of the business operations of BAWAG Group.*

BAWAG Group's technology operations and digital & development divisions provide the majority of the IT services for its entities and product offerings, including its proprietary banking platform, in the areas of product pricing and products sales, assessing acceptable levels of risk exposure, determining product approvals, setting required levels of provisions and capital, providing and maintaining customer service (including payment services and other customer transactions) and maintaining regulatory requirements. To provide redundancy BAWAG Group uses two separate datacentres in Vienna, each of which is connected to the internet by two telecom providers via separate physical lines. However, a catastrophic event in Vienna could potentially disable both datacentres. In particular, BAWAG Group faces the risk of losses due to the instability, malfunction or outage of its IT system and IT infrastructure. Such losses could materially affect BAWAG Group's ability to perform business processes and may, for example, arise from technical failures, human error, unauthorised access, cybercrime, natural hazards or disasters, or similarly disruptive events as well as from the erroneous or delayed execution of processes as either a result of system outages or degraded services in systems and IT applications. A delay in processing a transaction, for example, could result in an operational loss if market conditions worsen during the period after the error. IT-related errors may also result in the mishandling of confidential information, damage to BAWAG Group's operating systems, financial losses, additional costs for repairing systems, reputational damage, customer dissatisfaction or potential regulatory or litigation exposure. This could have a material adverse effect on BAWAG Group's reputation, business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.3.5 *Resignation or loss of key personnel, including members of the Management Board, and possible difficulties in recruiting or retaining qualified employees could adversely affect BAWAG Group's ability to execute its strategy.*

BAWAG Group's key personnel, i.e. the management of BAWAG Group and other members of its senior management, have been essential in establishing and implementing BAWAG Group's key strategies. In addition, BAWAG Group needs to attract new talent to be able to compete in the national and international banking market. Limitations on the remuneration policies of credit institutions, in particular on the variable elements of remuneration under EU and Austrian banking regulation, could impede BAWAG Group's efforts to retain or recruit highly qualified personnel. Furthermore, emerging competitors from the FinTech industry as well as employers in other industries competing for talent with BAWAG Group (such as consulting firms or auditors) or employers in other jurisdictions may not be subject to these limits on remuneration policies and could therefore be able to offer more attractive remuneration packages than BAWAG Regulatory Group. If BAWAG Regulatory Group is unable to retain the services of one or more members of its management, it may not succeed in attracting individuals with equal qualifications and comparable experience within a suitable time period and at adequate terms. The loss of management or other key personnel and failure in recruiting new replacing personnel could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.3.6 *Due to any inadequacy or failure of internal procedures, employees and systems or due to external events unexpected losses could occur (operational risk).*

BAWAG Group is exposed to unexpected losses caused by the operational risk of inadequacy or failure of internal procedures, employees or systems or due to external risks including legal risk. This encompasses (i) internal risks including theft and fraud by employees, development and process failures, business interruptions or system failures, and lack of sufficient human resources and (ii) external risk factors such as a pandemic, property damage and fraud by customers. These risks increase in volatile, illiquid or in developing markets. The legal inability of BAWAG Group's counterparties to close a transaction, contractual deficiencies, incomplete documentation of transactions or legal particularities and amendments in the legal foundations of a company could lead to claims/receivables from a transaction not being legally enforceable which could result in BAWAG Group incurring losses which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects.

In addition, employee misconduct such as fraud is not always possible to deter or prevent. BAWAG Group is, in particular, exposed to the risk that its employees misappropriate customer funds. The precautions that BAWAG Group has taken to detect and prevent such activities may not be effective, which could subject BAWAG Group to additional liability and have a negative effect on BAWAG Group's business, financial condition, results of operations and reputation, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.4 Risks relating to regulatory, legal and tax matters

In addition to BAWAG Group's risks relating to the operational business described above, the following risk factors relating to regulatory, legal and tax matters contribute to BAWAG Group's operative and financing risk, and may therefore adversely affect the ability of each of the Issuers to meet its respective obligations under the Notes.

2.1.4.1 *Minimum requirements for own funds and eligible liabilities, both to be required by the relevant resolution authority under the BaSAG and the SRM Regulation, may adversely affect the profitability of BAWAG Group. The Issuers may not be able to meet minimum requirements for own funds and eligible liabilities.*

In order for banks to have available sufficient amounts of equity and debt eligible to absorb losses in resolution and to be utilized in case of a bail-in so that resolution can occur without recourse to public financial support, banks are required under Regulation (EU) No 806/2014 ("**SRM Regulation**") and the Austrian Federal Act on the Recovery and Resolution of Banks (*Bundesgesetz über die Sanierung und Abwicklung von Banken* – "**BaSAG**") to meet minimum requirements for own funds and eligible liabilities ("**MREL**") at all times. MREL requirements are determined on case-by-case basis for each institution or banking group by the competent resolution authority, which in the case of BAWAG Regulatory Group is the Single Resolution Board ("**SRB**"). Under the legal regime after Regulation (EU) 2019/877 ("**SRM Regulation II**") and implementation of the amendments of Directive 2014/59/EU ("**BRRD**") by Directive (EU) 2019/879 (the BRRD, as amended, "**BRRD II**"), MREL ratios, which were expressed as a percentage of the total liabilities and own funds of the relevant institution, are now expressed as percentages of the total risk exposure amount and the leverage ratio exposure measure. The SRB as the competent resolution authority for BAWAG Regulatory Group under the current SRM Regulation and future SRM Regulation II may also require that such percentage is wholly or partially composed of own funds or of a specific type of liabilities.

On 31st January 2022, the SRB set formal MREL requirements for BAWAG Group. The MREL requirements are applicable on the consolidated level of BAWAG P.S.K. Group based on a single point of entry resolution strategy with BAWAG P.S.K. as the resolution entity. The MREL requirement based on the total risk exposure amount requirement ("**MREL-TREA**") has been set at 25.7% (including the combined buffer requirement) of risk-weighted assets ("**RWA**"), with the final requirement being applicable from 1 January 2024. The SRB decision also sets a binding interim target of 22.0% (including the combined buffer requirement) of RWA, which needs to be met by 1 January 2022. The current SRB decision does not contain a subordination requirement.

As of 31 December 2021, BAWAG reported MREL eligible instruments amounting to 25.7% of RWA (own funds 17.7%, senior non-preferred and other subordinated, that means not own funds, 3.1% and legacy MREL-eligible instruments 4.9%) , thereby already exceeding the binding interim target applicable from 1 January 2022. Also as of 31 December 2021, the MREL requirement was EUR 5.2 billion (own funds 3.6, senior non-preferred and other subordinated, that means not own funds, 0.6 and legacy MREL-eligible instruments 1.0).

In addition to the MREL-TREA requirement, the new SRB decision set an MREL requirement based on the leverage ratio exposure ("**MREL-LRE**") of 5.91% of the leverage ratio exposure ("**LRE**") on the consolidated level of BAWAG P.S.K. with the final requirement being applicable from 1 January 2022.

As of 31 December 2021, BAWAG reported MREL eligible instruments amounting to 8.9% of LRE, thereby exceeding the final MREL-LRE requirement applicable from 1 January 2022.

The MREL requirements set in 2022 will, and any future new MREL requirements, including any imposition of a subordination requirement, may also have an effect on the balance sheet structure and the composition of funding of BAWAG Group, in particular of its sub-group BAWAG P.S.K. Group, and they could have a material adverse effect on their profitability, business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.4.2 *Increased capital and liquidity requirements, including leverage ratio requirements and enhanced supervisory powers to demand further own funds or liquidity under European banking regulation and proposed amendments may adversely affect the profitability of BAWAG Group.*

BAWAG Regulatory Group must comply with minimum capital requirements (so-called 'Pillar 1 requirements') that are primarily set forth under the Regulation (EU) No 575/2013 (the "**CRR**") as amended by Regulation (EU) 2019/876 (the CRR, as amended, "**CRR II**"). Currently, the minimum requirements for Tier 1 capital amount to 6% and must be satisfied with Common Equity Tier 1 ("**CET 1**") capital and Additional Tier 1 ("**AT 1**") capital, which is limited to 1.5%. The total capital ratio without capital buffers has remained at 8% of risk-weighted assets. In addition, under Directive 2013/36/EU ("**CRD IV**") as implemented into Austrian law by the Austrian Banking Act

(*Bankwesengesetz*, "**BWG**") and the Capital Buffers Regulation (*Kapitalpuffer-Verordnung* – "**KP-V**"), certain capital buffers apply, namely (a) a countercyclical capital buffer, (b) a systemic risk buffer, (c) a buffer for global systemically important institutions (which does not apply to BAWAG Regulatory Group), and (d) a buffer for other systemically important institutions.

In addition, the regulatory authorities that oversee BAWAG Regulatory Group, in particular the ECB within the Single Supervisory Mechanism ("**SSM**"), may, in connection with the annual supervisory review and evaluation process ("**SREP**") or otherwise, conduct stress tests and have discretion to impose additional capital requirements. In this context, the ECB has imposed and is expected to impose in the future on an annual basis on BAWAG Regulatory Group individual capital requirements resulting from the SREP which are referred to as 'Pillar 2 requirements'. BAWAG Regulatory Group must meet a Pillar 2 requirement of 2% own funds with at least 1.5% Tier 1 capital, thereof at least 1.125% CET 1 capital, and may consequently use 0.375% AT 1 capital and 0.5% Tier 2 capital to meet such requirement. Currently, BAWAG Regulatory Group must fulfil a SREP CET 1 ratio of 9.14% (comprising the 4.5%, Pillar 1 base requirement (minimum CET 1 ratio), the capital conservation buffer of 2.5% of risk-weighted assets, the countercyclical buffer of 0.01% (based on risk-weighted assets as of 31 December 2021), the systemic risk buffer of 0.5%, the other systemically important institution buffer of 0.5% and the 1.125% Pillar 2 requirement).

Also following the SREP, the ECB may communicate to individual banks or banking groups, including BAWAG Regulatory Group, (and has done so in the past) an expectation to hold further CET 1 capital, the so-called 'Pillar 2 guidance'. Although the Pillar 2 guidance is not legally binding and failure to meet the Pillar 2 guidance does not automatically trigger legal action, the ECB has stated that it expects banks to meet the Pillar 2 guidance. For 2022, the Pillar 2 guidance has been set at 0.75%.

The need to comply with the aforementioned existing and proposed requirements and the change in ranking of certain debt instruments issued or to be issued by BAWAG Regulatory Group could have a material adverse effect on BAWAG Group's profitability, business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes. In particular, if the above-mentioned requirements are not met, the Issuers may be required to cancel the payment of distributions on their respective Notes that are scheduled to be paid pursuant to the Terms and Conditions of their respective Notes.

2.1.4.3 *BAWAG Group is, and may in the future be, subject to a number of legal and regulatory proceedings, the outcome of which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects.*

BAWAG Group is subject to a number of legal and regulatory proceedings that are often highly complex, take considerable time and are difficult to predict or estimate. Such proceedings include lawsuits with customers and consumer protection associations, such as the Chamber of Labor and the Consumer Information Association. Legal claims asserted against BAWAG Group may involve new or untested legal theories. The outcome of such proceedings is, therefore, difficult to predict or estimate until late in the proceedings, which may also last for several years. Furthermore, the volume of claims and the amount of damages and penalties claimed in litigation, arbitration and regulatory proceedings against financial institutions are generally high. Proceedings brought against BAWAG Group may result in judgments, settlements, fines, penalties, injunctions, court orders, or other results adverse to BAWAG Group, which could have a material adverse effect on BAWAG Group's reputation, organization, business, financial condition, results of operations and prospects. In general, any litigation could have a negative influence on the financial condition of BAWAG Group. The amounts ultimately incurred in relation to legal proceedings may be substantially higher or lower than the amounts reserved for by BAWAG Group and, if the amounts are higher, this could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the ability of the Issuer to meet its obligations under the Notes. At present, BAWAG Group is party to the following proceedings which could have a significant financial impact on BAWAG Group:

- On 12 February 2007, BAWAG P.S.K. entered into a resettable CHF linked swap agreement with the City of Linz based on the Austrian framework agreement for derivatives transactions. In October 2011, the City of Linz refused to make further payments. Consequently BAWAG P.S.K. terminated the swap agreement. In November 2011, the City of Linz sued BAWAG P.S.K. asserting that the swap agreement was void based on the allegation that the resolutions adopted by the city council did not cover such a transaction and an approval by the Austrian province of Upper Austria (*Oberösterreich*) would have been required. The City of Linz sought payment of CHF 30.6 million (equaling approximately € 24.2 million for the purposes of the court procedure) plus interest and costs. BAWAG P.S.K. rejected these claims and has filed a counter-claim seeking payment of € 417.7 million plus interest and costs. For reasons of utmost precaution, this

receivable has been written down to a carrying value of approximately € 254 million in the financial year 2011. Furthermore, given the overall capital strength of the BAWAG Group, the receivable has been fully provisioned from a capital standpoint in the financial year 2020. BAWAG P.S.K. bases its claim on costs related to the termination of the swap transaction (€ 397.7 million) and an outstanding payment due under the swap transaction (€ 20 million). In April 2019 the City of Linz filed a motion for an interim judgment (*Zwischenurteil*) to be rendered solely on the validity of the swap agreement with the aim to seek a final decision from the Austrian Supreme Court (*Oberster Gerichtshof*) on that question before continuing the main proceedings which will then deal with the mutual payment claims of BAWAG P.S.K. and the City of Linz. The main proceedings are still pending in the court of first instance. On 7 January 2020, the court of first instance issued its interim judgment (*Zwischenurteil*) holding the swap agreement to be void. The court of appeals confirmed the outcome of the first instance on 6 April 2021 but expressly permitted a further appeal to the Austrian Supreme Court (*Oberster Gerichtshof*). BAWAG Group filed its appeal to the Austrian Supreme Court (*Oberster Gerichtshof*) on 4 May 2021 and the decision of the Austrian Supreme Court (*Oberster Gerichtshof*) is still pending. Following a decision of the Austrian Supreme Court (*Oberster Gerichtshof*) on the validity of the swap agreement the main proceedings will continue in the court of first instance which will have to decide on the mutual payment claims. Appeals against such further decision will be possible to the court of appeals and potentially also (again) to the Austrian Supreme Court (*Oberster Gerichtshof*). Eventually, BAWAG P.S.K. could be obligated to pay the claimed amount to the City of Linz in full or in part, and/or BAWAG P.S.K. may not be awarded, in full or in part, the payment sought and would then be required to write-down its claims further. Whether and to what extent the mutual claims of the parties exist depends, among other aspects, on whether the swap agreement entered into between BAWAG P.S.K. and the City of Linz was valid. In addition, even if the courts ultimately would hold that the swap transaction was valid, BAWAG P.S.K. may still not be awarded, in full or in part, the payment sought, in which case it would also be required to further write down its claims. Finally, depending on the outcome of the proceedings, BAWAG P.S.K. may be required under statutory law to bear some or all of the court and legal fees of the City of Linz.

If these risks were to materialize, this could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.4.4 *European and Austrian legislation regarding the resolution of banks, in particular the powers of resolution authorities to ensure resolvability and to force shareholders and creditors to participate in a situation of crisis, could, if such steps were taken to ensure that BAWAG Group or critical functions thereof continue(s) as a going concern, significantly affect BAWAG Group's business operations.*

Austria participates in the SRM which centralizes at a European level the key competences and resources for managing the failure of banks in the Eurozone. The SRM is based on the SRM Regulation II and the BRRD II, which is implemented in Austria by the BaSAG.

The SRM Regulation and the BaSAG grant broad powers to public authorities. For a bank or banking group directly supervised by the ECB, such as BAWAG Group, the SRB assesses its resolvability and may require legal and operational changes to the structure of BAWAG Group to ensure its resolvability. In the event that such a bank is failing or likely to fail and certain other conditions are met, the SRB is responsible for adopting a resolution scheme for resolving the bank pursuant to the SRM Regulation. The resolution authorities have a set of tools available, which are the sale of the entity's business to the private sector, the establishment of a bridge institution or the transfer of assets and liabilities to an asset management vehicle (so-called 'bad bank') as well as the bail-in tool. In particular, pursuant to the SRM Regulation and the BaSAG, if certain conditions with respect to a credit institution, such as the issuer (as the case may be) BAWAG P.S.K., or a financial holding company, such as, as the issuer (as the case may be) BAWAG, are met, the SRB and the Austrian Financial Markets Authority (*Österreichische Finanzmarktaufsichtsbehörde – "FMA"*) are entitled to allocate losses and recapitalization needs to such entity's shareholders and creditors by the dilution of the existing shareholders of the failing entity or the cancellation of their shares outright, the write down in full or in part of the principal amount or the outstanding amount of any capital instruments that qualify as additional tier 1 capital instruments or tier 2 capital instruments, such as the Subordinated Notes, as well as any other subordinated debt instruments liabilities and finally even senior unsecured liabilities (subject to exceptions in respect of certain liabilities) or convert such capital instruments and eligible liabilities into new CET 1 instruments, in particular of the resolved entity or a bridge institution. Furthermore, pursuant to the SRM Regulation II and the BaSAG, a write-down and conversion of additional tier 1 and tier 2 capital instruments, such as the Subordinated Notes, may be imposed at the "point of non-viability" before and regardless of any subsequent resolution action. In addition to the resolution tools, the SRB and the FMA hold a number of additional powers to facilitate the process in case of a resolution, including the

power to potentially suspend obligations of a credit institution in resolution such as redemption or interest payment obligations under notes issued, to restrict the enforcement of security interests in relation to any assets of the institution and to suspend termination rights until the expiration of the business day following the day of publication of the notice of suspension.

Regulatory measures under the BRRD II resolution framework that will be implemented in the BaSAG and are applicable under the SRM Regulation II taken in the event of failure of the Issuers or any of their banking subsidiaries, in particular the participation of the respective Issuers' shareholders, holders of other relevant capital instruments and/or creditors and/or the use of any other of the available resolution tools, may severely affect the rights of the Noteholders as it may result in the cancellation of interest payments or payments of principal under the Notes and the write-down in full or in part of the Notes and hence in the loss of the entire investment or a part of it.

2.1.4.5 Past, ongoing and uncertain future reforms and initiatives in legislation or supervision, including additional and more stringent regulation and public sector influence on the financial sector, could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects.

The business activities of BAWAG Group, including those of BAWAG P.S.K., are subject to national, European and international legal frameworks as well as supervision by regulatory authorities in the relevant markets. The financial crisis has prompted the supervisory practice to act more rigorously, and the international standard setters such as, for example, the BCBS and the Financial Stability Board ("**FSB**") as well as national and European legislators, governments and regulatory authorities have adopted a variety of financial regulation reforms to improve the ability of the financial sector to withstand future crises. Further reforms are pending or may still be proposed. The wide range of laws, regulations, guidelines and other papers or current proposals includes, but is not limited to:

- early intervention and resolution powers of supervisory and resolution authorities to intervene in, and prior to, a crisis of banks, including the forced participation of creditors to bear losses and participate in a recapitalization (so-called 'bail-in'); restrictions on the remuneration policies and practices of institutions; more stringent rules for the SREP by which the ECB assesses and measures the risks for each bank and assesses its adequacy of own funds (see also "*2.1.4.1 Minimum requirements for own funds and eligible liabilities, both to be required by the relevant resolution authority under the BaSAG and the SRM Regulation, may adversely affect the profitability of BAWAG Group. The Issuers may not be able to meet minimum requirements for own funds and eligible liabilities.*" above), liquidity, business model and internal governance and institution-wide controls and subsequently may require the banks to hold additional own funds and liquidity;
- the establishment of the SSM with the ECB as the central prudential supervisor directly supervising significant institutions including BAWAG P.S.K. and the creation of a Single Resolution Mechanism ("**SRM**") with, the SRB as the central body in charge of, inter alia, the resolvability assessment, the resolution planning and resolution of, inter alia, institutions directly supervised by the ECB, including BAWAG P.S.K., both within the Eurozone and any other EU countries that choose to participate in these mechanisms;
- on 20 May 2019, the European Union adopted legislative (such legislative acts together the "**Banking Reform Package**") acts for (1) CRD V; (2) CRR II; (3) BRRD II; and (4) SRM Regulation II. The Banking Reform Package came into force on 27 June 2019, with certain provisions gradually being phased-in and other provisions being subject to national implementation. The Banking Reform Package introduced, inter alia, a binding leverage ratio of 3% of Tier 1 capital in order to prevent institutions to excessively increase their leverage. In addition, it introduces a binding minimum net stable funding ratio (NSFR), more risk-sensitive capital requirements for counterparty credit risk, market risk and exposures to central counterparties and tighter regulation of large exposures, including disclosure or reporting obligations. With regard to the recovery and resolution framework, the Banking Reform Package, inter alia, aligns the FSB's standard on total loss absorbing capacity ("**TLAC**") applying to global systemically important banks with the EU's minimum requirements for own funds and eligible liabilities (MREL) under CRR II, SRM Regulation II and BRRD II and changes the ranking of unsecured debt instruments in the insolvency hierarchy by introducing a new class of unsecured non-preferred debt instruments. On 27 October 2021, the EU Commission adopted a first draft of CRR III. The draft banking regulatory package is the official starting signal for the implementation of the final Basel III framework (Basel IV) at EU level. In particular, the draft includes far-reaching changes to the Credit Risk Standardized Approach (CRSA), the Internal Ratings Based Approach (IRBA) and capital requirements for operational risk. While BAWAG Group does not qualify as a global systemically important banking group subject to the CRR II's TLAC requirements, the

SRM Regulation II and the implementation of the BRRD II impact the MREL requirements applicable to BAWAG Regulatory Group in the future.

It is not yet fully clear if, when and how those reforms that have not yet been finalized could be implemented. Neither the final scope of the currently available proposals nor their full potential effect on BAWAG Regulatory Group may be determined at this stage. The likely possibility of other future changes of the regulatory framework causes uncertainty for BAWAG Regulatory Group and the financial sector as a whole.

In addition, regulatory authorities, in particular those with jurisdiction over BAWAG Regulatory Group, including the ECB under the SSM and the FMA for certain other matters, enjoy substantial discretion in their regulation of banks. The exercise of this discretion and the means available to the regulatory authorities, have been steadily increasing during recent years.

The aforementioned events and any other additional and/or stricter regulatory measures and requirements, as well as possibly a more stringent supervisory practice of the ECB, the FMA, and, for the Issuers' subsidiaries domiciled or active in other jurisdictions, other national competent authorities, in the future may, once adopted or implemented, influence the profitability of BAWAG Regulatory Group's business activities, require adjustments of its business practices and/or increase costs, including compliance costs. Implementing the required changes may also require the attention and substantial resources of BAWAG Regulatory Group's management. BAWAG Regulatory Group may face higher financing and/or capital costs and restrictions on its growth or permitted business activities. The business model of BAWAG Group as well as individual business areas could be endangered. Any reforms of regulatory law or practice could affect the financial position, assets, profitability and business prospects of BAWAG Group, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.4.6 The cost incurred by BAWAG Group for compliance with anti-money laundering, anti-tax evasion, anti-corruption and anti-terrorism financing rules and regulations and sanctions is significant and may further increase. Failure to comply with these and similar rules may have severe legal and reputational consequences.

The rules and regulations applicable to the financial sector on the prevention of money laundering, tax evasion, corruption and the financing of terrorism as well as sanctions have been and are subject to ongoing tightening. This trend goes hand in hand with political initiatives to tighten measures against tax fraud to increase tax revenue. On the European level, the Fourth Anti-Money Laundering Directive (Directive (EU) 2015/849 of the European Parliament and of the Council of 20 May 2015 on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing) came into force in 2015. Austria has transposed this directive by adopting the Financial Market Anti Money Laundering Act (*Finanzmarkt-Geldwäschegesetz*) which became effective on 1 January 2017 as well as the Austrian Beneficial Ownership Register Act (*Wirtschaftliche Eigentümer Registergesetz*) which became fully effective on 15 January 2018. Meanwhile, Austria has set in force the Fifth EU Anti-Money Laundering Directive (Directive (EU) 2018/843 of the European Parliament) through its implementation legislation, the EU-Finance-Amendment Act 2019 (*EU-Finanz-Anpassungsgesetz 2019 – EU-FinAnpG 2019*), with effect of 10 January 2020, which brought mainly changes in the enhanced due diligence regarding business relationship and transactions with high risk countries.

BAWAG Group engages in business with customers and counterparties from a diverse background. In light of recent U.S. and EU sanctions, particularly against Russian individuals, it cannot be ruled out that some of BAWAG Group's customers or counterparties are or may become subjected to sanctions. Such sanctions may result in BAWAG Group being unable to gain or retain such customers or counterparties or receive payments from them. In addition, association with such individuals or countries may damage BAWAG Group's reputation or result in significant fines.

BAWAG Group dedicates significant funds, personnel, technical and other resources to its compliance with anti-money laundering, anti-tax evasion (including the Foreign Account Tax Compliance Act ("**FATCA**") and the Common Reporting Standard ("**CRS**", transposed into Austrian law by the Gemeinsamer Meldestandard Gesetz – *GMSG*), anti-corruption and anti-terrorism financing rules and sanctions and may even have to step-up these efforts in line with a future tightening of these rules.

Despite these efforts, BAWAG Group cannot guarantee that all applicable anti-money laundering anti-corruption and anti-terrorism financing rules and sanctions as well as all FATCA and CRS regulations are consistently complied with at all times and in all respects. BAWAG Group may in the future become subject to investigations by authorities alleging a violation of such rules, and failure to comply with these and similar rules, or the allegation of such failure may have severe legal, monetary and reputational consequences and could have a material adverse

effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.4.7 Despite BAWAG Group's risk management policies, procedures and methods, it may be exposed to unidentified or unanticipated risks, which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects.

BAWAG Group may be exposed to risks which are not sufficiently covered by its risk management policies. Although BAWAG Group has devoted significant resources to develop its risk management policies and intends to continue to do so in the future, there can be no guarantee that the risk management policies are fully effective in mitigating BAWAG Group's risk exposure against all types of risk, including risks that it fails to identify or anticipate or that are generally unknown. Additionally, it should be noted that some of BAWAG Group's quantitative tools and metrics are based on historical market behaviour and developments, which may limit their effectiveness at predicting future economic changes. The risk management tools used in the financial sector failed to predict a number of the losses experienced during the global financial crisis and it cannot be guaranteed that BAWAG Group's systems will be able to predict future risks accurately. The realization of any of these risks could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.4.8 The access of BAWAG Group to liquidity and funding may be adversely affected by a change of the collateral standards of the ECB.

Following the sovereign debt crisis, the ECB has intervened in the money market via a series of measures, including facilitating the access to low-interest loans with favourable collateral requirements for European financial institutions. Any tightening of these collateral standards (such as the rating for collateral securities) could increase the cost of funding of BAWAG Group. Any limitation imposed on BAWAG Group's access to liquidity at adequate terms could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.4.9 Certain aspects of the tax framework under which BAWAG Group operates, such as the Austrian stability tax, may have a substantial negative effect on BAWAG Group's business, financial condition, results of operations and prospects.

The tax framework under which BAWAG Group operates is subject to changes that could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects. Austrian banks are subject to a stability tax to fund government-borne bank recapitalization expenditures. Any increase of the stability tax or its imposition in addition to the said *ex-ante* contributions could result in substantial additional costs for BAWAG Group and could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.4.10 The mandatory ex-ante funding of the Deposit Guarantee Scheme pursuant to the EU Deposit Guarantee Schemes Directive and its implementation by way of a Federal Act on the Deposit Guarantee and Investor Compensation by Credit Institutions (ESAEG), and possibly higher contributions could have an adverse effect on BAWAG Group's business, financial condition, results of operations and prospects.

The Deposit Guarantee Scheme Directive (Directive 2014/49/EU, the "**DGSD**") requires each EU member state to have in place one or more deposit guarantee schemes ("**DGS**") and further requires that, until 3 July 2024, each national DGS is provided with financial means collected through *ex-ante* contributions of the participating banks at a target level of, in general, 0.8% of covered deposits of all its member banks. The DGSD has been implemented into Austrian law through the Federal Act on the Deposit Guarantee and Investor Compensation by Credit Institutions (*Bundesgesetz über die Einlagensicherung und Anlegerentschädigung bei Kreditinstituten – "ESAEG"*). Further, in case the regular contributions to the DGS are not sufficient to cover a protection event, in total an additional contribution per calendar year of up to 0.5% – or more if approved by the FMA – of covered deposits of its members will have to be paid. In this regard and due to a recent involvement of Commerzialbank in a fraud case, the deposit insurance contribution increased by approximately € 12 million additional charges in the third quarter of the fiscal year 2020. While no additional charges are expected to result from the recent protection event in respect of Sberbank Europe AG, it cannot be excluded that, in the future, further protection events may lead to additional charges. Any further burden in this context could have an adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.4.11 *BAWAG Group may fail to comply with laws and regulations with respect to private data protection.*

On 25 May 2018, the Regulation (EU) 2016/679 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (so-called 'General Data Protection Regulation' or "**GDPR**") came into force. The GDPR increased the maximum levels of fines. Beside the GDPR national data protection legislations like the Austrian Data Protection Act are applicable. A failure to comply with applicable laws or regulations could have an adverse impact on BAWAG Group's reputation and subject BAWAG Group to penalties or claims, which could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects.

BAWAG Group is also exposed to the risk that its data could be wrongfully appropriated, lost or disclosed, or processed in breach of data protection laws, by it or on its behalf. If BAWAG Group or any third party service providers on which it may rely, fails to transmit customer information in a secure manner, or if any such loss of personal customer data were otherwise to occur, BAWAG Group could face liability under data protection laws. This could also result in the loss of its customers' goodwill and deter new customers. There is also a risk of data abuse by any of its service providers for which BAWAG Group may have to assume liability.

The realization of any of these risks could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.1.4.12 *BAWAG Group has financial obligations to its employees, in particular retirement obligations, the calculations of which are based on a number of assumptions, which may differ from actual rates.*

BAWAG Group and its subsidiaries operate funded and unfunded defined benefit pension schemes and defined contribution schemes for beneficiaries to which employee pension benefits are offered (as element of their overall employee benefits).

BAWAG Group's defined benefit obligations are based on certain actuarial assumptions such as discount rates, life expectancies and rates of increase in compensation levels as well as investment strategies of the pension insurance funds that can vary. BAWAG Group has recognized provisions for unfunded plans and for funded plans to the extent that such funded plans are not fully funded.

A change in actuarial assumptions with respect to, *inter alia*, discount rates, changes in salaries and pension levels, life expectancies or staff turnover, could lead to an increase in BAWAG Group's pension obligations and to the need for additional provisions. In past years, the financial and sovereign debt crisis resulted in substantially decreased interest rates in the capital markets which had negative effects on the discount rates and the funding ratio of BAWAG Group's pension plans. Changes in actuarial assumptions or under-performance of plan assets could also adversely affect BAWAG Group's results of operation and financial position. Differences between the discount rate and actual returns on plan assets can require BAWAG Group to record additional re-measurements.

The majority of the plans' obligations are to provide benefits for the life of the member, so that increases in life expectancy will result in an increase in the plans' liabilities. Furthermore, the legal conditions governing BAWAG Group's pension obligations are subject to changes in applicable legislation or case law. BAWAG Group cannot provide any assurance that it will not, in the future, incur new or more extensive pension obligations due to changes in such legislation and case law, or that such changes will not have an impact on its previous calculations with respect to its pension obligations. Moreover, future amendments to accounting standards may affect BAWAG Group's pension obligations. Should this be the case, this could have a material adverse effect on BAWAG Group's results of operation and financial position, and may therefore adversely affect the respective Issuer's ability to meet its obligations under the Notes.

2.2 Risks relating to BAWAG

The following risks specifically relate to BAWAG. BAWAG's continued business operations depend on other members of BAWAG Group, in particular BAWAG P.S.K. and its subsidiaries. For the risk factors regarding BAWAG Group, see "*2.1 Risks relating to BAWAG Group, including BAWAG P.S.K. and BAWAG P.S.K. Group*" above.

2.2.1 BAWAG, as a financial holding company which is currently indirectly subject to consolidated supervision, may become subject to direct and more stringent supervision in the future.

BAWAG conducts its business via subsidiary companies, some of which qualify as credit institutions. BAWAG qualifies as a parent financial holding company and, together with its subsidiaries, constitutes a regulatory banking group (*Kreditinstitutsgruppe*) within the meaning of § 30 BWG but is not subject to prudential banking regulation and supervision itself. Pursuant to § 30(5) and (6) BWG, BAWAG P.S.K. must comply with the prudential requirements of the BWG on a consolidated basis. Therefore, at present, the Issuer is under no direct obligation to comply with prudential banking regulations. It is, however, indirectly subject to consolidated supervision. The Banking Reform Package introduced, *inter alia*, an approval requirement to bring financial holding companies directly within the scope of the prudential regulation framework. In diverging from the current legal situation, financial holding companies will be directly responsible to comply with consolidated prudential requirements under the proposal where consolidated supervision applies. In addition, financial holding companies are required to obtain approval to operate a banking group from the ECB, which may be coupled with additional requirements in relation to the risk management and compliance system. Certain exemptions apply, *inter alia*, in case a financial holding company's principal activity is to acquire subsidiaries, is not designated as the resolution entity of any of its resolution groups, a subsidiary is designated as responsible to ensure the group's compliance with prudential requirements on a consolidated basis and the financial holding company does not engage in taking management, operational or financial decisions affecting its group or subsidiaries qualifying as credit institutions or financial institutions. The requirements were implemented in the BWG in May 2021.

If BAWAG were not able to rely on an exemption from the approval requirement after implementation of the approval requirement, a direct and more stringent supervision of BAWAG could materially and adversely affect BAWAG's business, financial condition, results of operations and prospects, and may therefore adversely affect the ability of BAWAG to meet its obligations under the Notes.

2.3 Risks relating to the Notes

The risk factors relating to the Notes are organized in the following categories depending on their nature (with the most material risk factor presented first in each category):

- "2.3.1 Risk factors relating to the structure of the interest rate of the Notes";
- "2.3.2 Risk factors relating to an early redemption of the Notes and resolution measures";
- "2.3.3 Risk factors relating to the status of the Notes, regulatory qualification and use of proceeds";
- "2.3.4 Risk factors relating to an investment in the Notes, including trading-related risks"; and
- "2.3.5 Risk factors relating to the Terms and Conditions of the Notes, other legal and tax matters".

2.3.1 Risk factors relating to the structure of the interest rate of the Notes

2.3.1.1 *Noteholders of Fixed Rate Notes are exposed to the risk that the price of such Note falls as a result of changes in the market interest rate.*

A Noteholder of a Fixed Rate Note is exposed to the risk that the price of such Note falls as a result of changes in the market interest rate. While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Notes, the current interest rate on the capital market ("**Market Interest Rate**") typically changes on a continuously basis. As the Market Interest Rate changes, the price of a Fixed Rate Note also changes, but in the opposite direction. If the Market Interest Rate increases, the price of a Fixed Rate Note typically falls, until the yield of such Notes is approximately equal to the Market Interest Rate. If the Noteholder of a Fixed Rate Note holds such Notes until maturity, changes in the Market Interest Rate are without relevance to such Noteholders as the Notes will be redeemed at a specified redemption amount, usually the principal amount of such Notes.

2.3.1.2 *Noteholders of Floating Rate Notes and Fixed-to-Floating Rate Notes are exposed to the risk of fluctuating interest rate levels and uncertain interest income.*

A Noteholder of a Floating Rate Note or a Fixed-to-Floating is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of

such Notes in advance. Furthermore, the outcome of regulatory developments regarding interest benchmark reforms and the use of risk-free rates (so-called 'IBOR reforms') may impact future interest income (see also "2.3.1.3 *Noteholders of Fixed Resetable Notes, Floating Rate Notes and Fixed-to-Floating Rate Notes are exposed to the risks of financial benchmark and reference rate continuity and the discontinuity of a reference rate could result in the interest rate of such Notes to become effectively fixed due to fallback provisions.*"). If interest rates are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market value may be more volatile than those for securities that do not include these features. If the amount of interest payable is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the interest rates on interest payable will be magnified.

2.3.1.3 *Noteholders of Fixed Resetable Notes, Floating Rate Notes and Fixed-to-Floating Rate Notes are exposed to the risks of financial benchmark and reference rate continuity and the discontinuity of a reference rate could result in the interest rate of such Notes to become effectively fixed due to fallback provisions.*

So-called benchmarks such as the Euro Interbank Offered Rate ("**EURIBOR**") and other indices which are deemed "benchmarks" (each a "**Benchmark**" and together, the "**Benchmarks**"), to which the interest of Notes bearing or paying a floating or other variable rate of interest may be linked (such as Floating Rate Notes or Fixed-to-Floating Rate Notes) and which form the basis for calculation of term rates to which interest of Notes may be linked (such as Fixed Resetable Notes, as the case may be), have become the subject of regulatory scrutiny and recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause the relevant Benchmarks to perform differently than in the past, or have other consequences which cannot be predicted. Any such Consequence may have a material adverse effect on the value of and the amount payable under Notes bearing or paying a floating or other variable rate of interest linked to such Benchmark. Recent international reforms of Benchmarks include Regulation (EU) 2016/1011 (the "**Benchmarks Regulation**"). According to the Benchmarks Regulations, a Benchmark may only be used if its administrator obtains authorisation or is registered and in case of an administrator which is based in a non-EU jurisdiction, if the administrator's legal benchmark system is considered equivalent (Article 30 of the Benchmarks Regulation), the administrator is recognized (Article 32 of the Benchmarks Regulation) or the benchmarks is endorsed (Article 33 of the Benchmarks Regulation) (subject to applicable transitional provisions). If this is not the case, the Notes could be impacted.

The Benchmarks Regulation could have a material impact on the Notes in any of the following circumstances:

- a Benchmark could not be used as such if its administrator does not obtain authorisation or is based in a non-EU jurisdiction which (subject to applicable transitional provisions) does not satisfy the 'equivalence' conditions, is not 'recognized' pending such a decision and is not 'endorsed' for such purpose. In such event, the Notes could be impacted. In such event, depending on the particular Benchmark and the applicable terms of the Notes, the Notes could be delisted, adjusted, redeemed prior to maturity or otherwise impacted; and
- the methodology or other terms of the Benchmark could be changed in order to comply with the terms of the Benchmarks Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could lead to adjustments to the terms of the Notes, including independent adviser determination of the rate or level of such Benchmark.

In addition to the aforementioned reform, there are numerous other proposals, initiatives and investigations which may impact Benchmarks.

Following the implementation of any such potential reforms, the manner of administration of Benchmarks may change, with the result that they may perform differently than in the past, or Benchmarks could be eliminated entirely, or there could be other consequences which cannot be predicted.

Any changes to a Benchmark as a result of the Benchmarks Regulation or other initiatives, could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks. Although it is uncertain whether or to what extent any of the abovementioned changes and/or any further changes in the administration or method of determining a Benchmark could affect the level of the published rate, including to cause it to be lower and/or more volatile than it would

otherwise be, and/or could have an effect on the value of any Notes whose interest or principal return is linked to the relevant Benchmark, investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under Notes whose rate of interest or principal return is linked to a Benchmark.

The Terms and Conditions of Notes bearing or paying a floating or other variable rate of interest include fallback provisions under which the relevant Issuer may appoint an independent advisor who will determine, in its discretion, a successor rate or an alternative rate to the reference rate relevant to calculate the rate of interest under the Notes if, subject to further requirements, the relevant Benchmark for interest rates under Notes ceases to be published or will cease to be published, or the use of such Benchmark is prohibited or has become unlawful for any party required to calculate interest rates under the Notes. Such independent advisor may also in its discretion determine adjustment spread to such alternative or successor rate and make other amendments as specified in the relevant Terms and Conditions of the Notes. In case there is no successor rate or alternative rate, the fallback provisions will ultimately lead to the floating or other variable rate of interest becoming fixed to the rate of previous rates of interests used to calculate payments under the Notes, which could have a material adverse effect on the value of and the amount payable under Notes whose rate of interest is linked to a Benchmark.

2.3.1.4 *Risks associated with Sterling Overnight Index Average (SONIA) and Secured Overnight Financing Rate (SOFR) as reference rates.*

Interest rates of Floating Rate Notes or Fixed-to-Floating Rate Notes may be linked to reference rates such as the Sterling Overnight Index Average (SONIA) and the Secured Overnight Financing Rate (SOFR). The Bank of England ("**BoE**") is the administrator for SONIA and takes responsibility for its governance and publication every London business day. SONIA is based on actual transactions and reflects the average of the interest rates that banks pay to borrow sterling overnight from other financial institutions. SONIA is the working group on Sterling Risk Free Reference Rates' preferred benchmark for the transition to sterling risk-free rates from London Interbank Offered Rate (LIBOR). SONIA was introduced in March 1997, BoE took responsibility for it in 2016 and, after consultation, reformed it in 2018 so that SONIA complies with international best practice for financial benchmarks. Investors should be aware that the market continues to develop in relation to SONIA as a reference rate in the capital markets and its adoption as an alternative to Sterling LIBOR. The market or a significant part thereof may adopt an application of SONIA that differs significantly from that set out in the Terms and Conditions. It may be difficult for investors in Notes which reference a SONIA rate to reliably estimate the amount of interest which will be payable on such Notes, because SONIA is calculated on a backward-looking basis. Investors should consider these matters when making their investment decision with respect to any such Instruments.

In 2017 the Alternative Reference Rates Committee (the "**ARRC**") convened by the Board of Governors of the Federal Reserve System and the Federal Reserve Bank of New York (the "**FRBNY**") identified SOFR as the rate that represented best practice for use in certain new U.S. dollar derivatives and other financial contracts. The FRBNY notes that use of SOFR is subject to important limitations and disclaimers. SOFR is published based on data received from other sources. It may be difficult for investors in Notes which reference a SOFR rate to reliably estimate the amount of interest which will be payable on such Notes, because SOFR is calculated on a backward-looking basis. There can be no guarantee that SOFR will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in the respective Notes. If the manner in which SOFR is calculated is changed, that change may result in a reduction of the amount of interest payable on the Instruments and the trading prices of the Notes. SOFR has been published by the FRBNY since April 2018. Investors should not rely on any historical changes or trends in SOFR as an indicator of future changes in SOFR. Also, since SOFR is a relatively new market index, the Notes will likely have no established trading market when issued. Trading prices of the Notes may be lower than those of later-issued indexed debt securities as a result. Similarly, if SOFR does not prove to be widely used in securities like the Notes, the trading price of the Notes may be lower than those of debt securities linked to indices that are more widely used. Investors in the Notes may not be able to sell the Notes at all or may not be able to sell the Notes at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk. Investors should consider these matters when making their investment decision with respect to any such Notes.

2.3.1.5 *If the respective Issuer converts from a fixed rate to a floating rate under Fixed-to-Floating Rate Notes, the spread on such Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes relating to the same reference rate.*

Fixed-to-Floating Rate Notes may bear interest at a rate that the respective Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The respective Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the respective Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the respective Issuer

converts from a fixed rate to a floating rate, the spread on the Fixed-to-Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes relating to the same reference rate. In addition, the new floating rate at any time may be lower than the interest rates payable on other Notes. If the respective Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than the then prevailing interest rates payable on its Notes.

2.3.1.6 *Noteholders of Zero Coupon Notes are exposed to the risk that the price of such Notes falls as a result of changes in the market interest rate.*

Zero Coupon Notes do not pay current interest but are issued at a discount from their nominal value. Instead of periodical interest payments, the difference between the redemption price and the issue price constitutes interest income until maturity and reflects the market interest rate. A Noteholder of a Zero Coupon Note is exposed to the risk that the price of such Note falls as a result of changes in the Market Interest Rate. Prices of Zero Coupon Notes are more volatile than prices of Fixed Rate Notes and are likely to respond to a greater degree to market interest rate changes than interest bearing notes with a similar maturity.

2.3.2 Risk factors relating to an early redemption of the Notes and resolution measures

2.3.2.1 *The qualification of Senior Preferred Notes and Senior Non-Preferred Notes as eligible liabilities for purposes of MREL is subject to uncertainty and the re-classification of their regulatory capital status may entitle the respective Issuer to early redemption.*

The respective Issuer may, at its option, redeem Senior Preferred Notes and Senior Non-Preferred Notes in whole, but not in part, at any time at their Early Redemption Amount, together with interest (if any) accrued to the date fixed for redemption, if there is a change in the regulatory classification of the Senior Preferred Notes or Senior Non-Preferred Notes that would be likely to result or has resulted in their exclusion in full or in part from liabilities eligible for MREL purposes pursuant to BaSAG, and, SRM Regulation II, and in each case if the conditions for redemption and repurchase are met.

There is still uncertainty regarding the final interpretation and application of the MREL framework under the SRM Regulation II and the national implementation of the BRRD II, and the respective Issuer cannot provide any assurance that Senior Preferred Notes and Senior Non-Preferred will be (or thereafter remain) instruments eligible for MREL purposes. The Banking Reform Package aligns MREL with the TLAC concept (see also "2.1.4.5 Past, ongoing and uncertain future reforms and initiatives in legislation or supervision, including additional and more stringent regulation and public sector influence on the financial sector, could have a material adverse effect on BAWAG Group's business, financial condition, results of operations and prospects." above). While the Terms and Conditions of Senior Preferred Notes and Senior Non-Preferred Notes are intended to be consistent with the BRRD II, as it is expected to be implemented in Austria, and the SRM Regulation II, no established supervisory practice has developed so far in relation to the changes introduced by CRR II and SRM Regulation II. Because of the uncertainty surrounding the interpretation of (directly) applicable rules of the revised MREL framework, the respective Issuer cannot provide any assurance that the Senior Preferred Notes or Senior Non-Preferred Notes will ultimately be (or remain) instruments eligible for MREL purposes under the revised MREL framework. The early redemption of Notes which qualify as eligible liabilities are subject to the prior permission of the resolution authority under the CRR II (see "2.3.2.6 Subordinated Notes, Senior Preferred Notes and Senior Non-Preferred Notes may not be early redeemed at the option of the Noteholders, and any rights of the respective Issuer to early redeem or repurchase such Notes are subject to the prior permission of the relevant competent authority." below).

The respective Issuer may be expected to redeem Senior Preferred Notes or Senior Non-Preferred Notes on this basis, when its cost of borrowing is lower than the interest rate on the Senior Preferred Notes or Senior Non-Preferred Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Senior Preferred Notes or Senior Non-Preferred Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time. Early redemption features are also likely to limit the market price of the Senior Preferred Notes or Senior Non-Preferred Notes. During any period when the respective Issuer can redeem the Senior Non-Preferred Notes, the market price of the Senior Preferred Notes or Senior Non-Preferred Notes generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period if the market believes that the Senior Preferred Notes or Senior Non-Preferred Notes may become eligible for redemption in the near term.

2.3.2.2 *The respective Issuer may redeem the Notes before maturity, which could lead to a reduced yield compared with the expectations by the Noteholders.*

The Final Terms may provide for an early redemption right in respect of individual tranches of the Notes. An early redemption right allows the respective Issuer in case of certain events as specified in the Final Terms to call the respective Notes before the maturity date and to redeem the Notes. As regards Notes with an early redemption right of the respective Issuer, an early redemption may lead to a reduced yield compared with the expectation by the Noteholders. If the issuing/purchase price is higher than the early redemption price, the Noteholders may suffer losses in case of an early redemption which could be further increased by transaction costs and expenses.

2.3.2.3 *The Subordinated Notes' eligibility for the respective Issuer's tier 2 capital under the CRR could be contested by the competent authority and the re-classification of their regulatory capital status may entitle the respective Issuer to Early Redemption. Market making for the Notes requires the prior approval of the competent authority and is subject to certain conditions and thresholds.*

Provided they comply with strict requirements under the CRR II, Subordinated Notes can be credited towards the respective Issuer's tier 2 capital. The said requirements are stipulated in Article 63 CRR II and, inter alia, prohibit a repurchase or redemption of eligible instruments by the issuing institution before five years after the date of issuance, unless certain exemptions under Article 78 para. 4 CRR II apply (e.g. not reasonably foreseeable change in the regulatory classification or change in the applicable tax treatment) and the competent authority approves a repurchase/redemption. Any repurchase or redemption, including after 5 years, requires the competent authority's consent. These restrictions could impair the respective Issuer's market making capacities. However, under Article 78 para. 4 CRR II, the competent authority may permit repurchases for market making purposes.

Where the competent authority's approval would not be granted, such restrictions may have a negative impact on the liquidity of the Notes and may lead to an inadequate or delayed market price of the Notes.

If the respective Issuer should not be entitled to count the Subordinated Notes as tier 2 capital under CRR II, the respective Issuer is entitled to early redemption of the Notes (regulatory event). Furthermore, the competent authority may give its permission in advance in accordance with the criteria set out in Article 78 CRR II to call, redeem, repay or repurchase tier 2 instruments for a certain predetermined amount when the amount of own funds instruments to be called, redeemed or repurchased is immaterial in relation to the outstanding amounts after such call, redemption or repurchase has taken place. Therefore, Noteholders should not rely on holding the Subordinated Notes until maturity. In case of an early redemption, the Noteholders might not be able to re-invest their funds at similar conditions (re-investment risk).

2.3.2.4 *The respective Issuer may redeem outstanding Notes in accordance with the applicable Terms and Conditions for reasons of taxation.*

Unless in the case of any particular Tranche of Notes the relevant Final Terms specify otherwise, in the event that the respective Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Republic of Austria or any political subdivision thereof or any authority therein or thereof having power to tax, the respective Issuer may redeem all outstanding Notes in accordance with the applicable Terms and Conditions.

The price of the Notes may fluctuate in anticipation of an early redemption and/or the Notes may be subject to early redemption in case of an event specified in the Terms and Conditions of the relevant Notes.

In addition, if in the case of any particular Tranche of Notes the relevant Final Terms specify that the Notes are redeemable at the respective Issuer's option in certain other circumstances the respective Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low or, as the case may be, the Notes may be subject to early redemption in case of the occurrence of an event specified in the applicable Final Terms (early redemption event). An early redemption may lead to a loss of yields expected by the Noteholders. If the issuing/purchase price is higher than the early redemption price, the Noteholders may suffer losses in case of an early redemption which could be further increased by transaction costs and expenses.

In any of such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes.

2.3.2.5 Resolution tools and powers of the SRB/the FMA as resolution authority under the SRM Regulation/the Austrian Federal Act on the Recovery and Resolution of Banks ("BaSAG"), including the write-down or conversion of equity and debt may severely affect the rights of Noteholders other than Covered Bonds and may result in a total loss.

The respective Issuer is subject to the SRM Regulation, and the BaSAG, by which the BRRD has been implemented in Austria. The current legislative framework has been amended by the Banking Reform Package, with CRD V/BRRD II implemented in Austria on 28 May 2021, while the SRM Regulation II has entered into force on 28 December 2020. Under the SRM Regulation, the SRB is the Banking Union level resolution authority for significant institutions domiciled in the Eurozone as is the case for the respective Issuer. Under the BaSAG, the FMA is the Austrian national resolution authority. The SRM Regulation and the BaSAG provide the SRB and the FMA respectively as resolution authorities with a set of resolution tools which may be used under certain conditions for resolution, such as the imminent failure of a credit institution, to achieve one or more resolution objectives. These tools are the sale of the credit institution's business to the private sector, the establishment of a bridge institution and/or an asset management vehicle (bad bank) and the transfer of assets, rights and liabilities to such entity as well as the bail-in tool. In particular, pursuant to the SRM Regulation and the BaSAG, if certain conditions with respect to the credit institution are met, the FMA is entitled to write down in full or in part the principal amount of eligible liabilities in order of seniority, i.e. Common Equity Tier 1 ("**CET 1**"), then Additional Tier 1 ("**AT 1**"), then Tier 2 ("**T2**") instruments (such as the Subordinated Notes), then other subordinated debt instruments and finally even senior unsecured debt (such as the Senior Non-Preferred Notes and the Senior Preferred Notes) subject to exceptions in respect of certain liabilities) or convert such eligible liabilities into CET 1 instruments. Furthermore, pursuant to the SRM Regulation II and the BaSAG, write-down and conversion of capital instruments may be imposed at the "point of non-viability".

Such write down and conversion have to follow a mandatory sequence which prohibits proceeding without a complete write down or conversion of the equity or debt, as applicable, of the current rank. Losses shall first be absorbed by regulatory capital instruments and be allocated to shareholders either through the cancellation or transfer of shares to creditors participating in the loss or through severe dilution. Consequently, CET 1, AT 1 and T2 instruments, in this order, absorb the first losses and each has to be written down or, in case of AT 1 or T2, be converted into CET 1 in full, before any higher seniority rank can be addressed. Where the loss absorption of those instruments is not sufficient, subordinated debt is next before other debt, including senior (but not secured) debt such as the Senior Non-Preferred Notes and the Senior Preferred Notes, can be written down or converted into equity. Covered deposits and secured liabilities, including covered bonds, are exempt from the creditor participation (bail-in) tool. Non-covered deposits from natural persons and micro, small and medium-sized enterprises as well as the liquidity reserve within a liquidity association pursuant to § 27a BWG and within a credit institution association pursuant to § 30a BWG, in each case, to the extent required by § 27a BWG shall have a higher priority ranking than, and are thus only bailed in after, the claims of ordinary unsecured, non-preferred creditors.

Any write-down (or conversion), in accordance with the creditor participation (bail-in) tool, of all or parts of the principal amount of any Notes other than Covered Bonds, including Subordinated Notes, Senior Non-Preferred Notes and Unsubordinated Notes and including accrued but unpaid interest in respect thereof is deemed equivalent to fulfilment by law and therefore does not constitute an event of default under the terms of the relevant instruments. Consequently, any amounts so written down are irrevocably lost and the holders of such instruments cease to have any claims there under, regardless whether or not the bank's financial position can be restored. Resolution authorities shall ensure, however, that when applying the resolution tools, creditors do not incur greater losses than those they would incur if the credit institution would have been wound down in normal insolvency proceedings.

In addition to the resolution tools the resolution authority holds a number of powers to facilitate the process in case of a resolution, including the power to potentially suspend obligations of an institution such as redemption or interest payment obligations under notes it issued, to restrict the enforcement of security interests in relation to any assets of the institution and to suspend termination rights until expiration of the business day which follows the day of publication of the notice of suspension.

Since 1 January 2016 the SRB as established under the SRM Regulation II is responsible for drawing up the resolution plan and any adoption of resolution decisions carried out by the FMA regarding BAWAG Group. The SRB's decision making bodies and procedures are governed by the SRM Regulation II which also adapts the BRRD's/BaSAG's content including the resolution tools for application by the SRB.

Regulatory measures under the BRRD II resolution framework as implemented in the BaSAG or as applicable by the SRB under the SRM Regulation and SRM Regulation II, in particular the participation of holders of relevant

instruments or any of the relevant tools, may severely affect the rights of the Noteholders, may result in the loss of the entire investment in the event of failure of the respective Issuer, and may have a negative impact on the market value of the Notes even prior to the determination of failure of the respective Issuer or the adoption of resolution measures. In addition, any indication or perception that the respective Issuer would become subject to the participation of holders of relevant capital instruments or to resolution could have an adverse effect on the market price of the relevant Notes.

2.3.2.6 *Subordinated Notes, Senior Preferred Notes and Senior Non-Preferred Notes may not be early redeemed at the option of the Noteholders, and any rights of the respective Issuer to early redeem or repurchase such Notes are subject to the prior permission of the relevant competent authority.*

The Noteholders of Subordinated Notes, Senior Preferred Notes and Senior Non-Preferred Notes will have no rights to call for the early redemption of their Notes and should not invest in the Notes in the expectation that any early redemption right will be exercised by the respective Issuer. The respective Issuer may, at its sole discretion, early redeem the Notes at any time either for tax or regulatory reasons at the Early Redemption Amount plus interest accrued until the date fixed for redemption. In addition, if such right is foreseen in the Terms and Conditions, the respective Issuer may at its sole discretion redeem such Notes before their stated maturity, but not before five years after the date of their issuance, on a specified call redemption date at the redemption amount specified in the Terms and Conditions of such Notes plus accrued interest.

Any early redemption and any repurchase of Subordinated Notes is subject to the prior permission of the competent authority pursuant to Article 4(1)(40) CRR II and/or Article 9(1) SSM Regulation II, in each case, which is responsible to supervise BAWAG Regulatory Group and/or (as the case may be) the relevant Issuer and compliance with regulatory capital rules applicable from time to time to the relevant Issuer (the "**Competent Authority**"). Under the CRR II, the Competent Authority may only permit institutions to early redeem or repurchase tier 2 instruments such as Subordinated Notes if certain criteria prescribed by the CRR II are complied with. An early redemption of Senior Preferred Notes or Senior Non-Preferred Notes is subject to prior permission of the competent resolution authority pursuant to § 2 No 18 BaSAG in connection with § 3 (1) BaSAG, which is responsible for a resolution of any banking group: (i) to which the Issuer belongs; and (ii) to which the eligible liabilities requirements under the applicable MREL regulations apply on a consolidated basis due to prudential consolidation, and/or (as the case may be) the Issuer (the "**Resolution Authority**"). Under the framework for minimum requirements for own funds and eligible liabilities (MREL), the early redemption or repurchase of Senior Preferred Notes or Senior Non-Preferred Notes is also subject to certain criteria prescribed by the CRR II.

These criteria prescribed by the CRR II, as well as a number of other technical rules and standards relating to regulatory capital requirements applicable to the relevant Issuer, are to be applied by the Competent Authority or (as the case may be) the Resolution Authority for its decision whether or not to permit any early redemption or repurchase. It is uncertain how the relevant authority will apply these criteria in practice and such rules and standards may change during the maturity of the Notes. It is therefore difficult to predict whether, and if so, on what terms, the relevant authority will grant its prior permission for any early redemption or repurchase of the Notes.

Notwithstanding the above conditions, if, at the time of any early redemption, the prevailing supervisory regulations applicable to the respective Issuer permit the early redemption only after compliance with one or more alternative or additional pre-conditions to those set out in the first paragraph above, the respective Issuer shall comply with such other and/or, as appropriate, additional pre-conditions, if any.

Furthermore, even if the relevant Issuer would be granted the prior permission of the relevant authority, any decision by the relevant Issuer as to whether it will early redeem the Subordinated Notes, Senior Preferred Notes or Senior Non-Preferred Notes will be made at the absolute discretion of the relevant Issuer with regard to external factors such as the economic and market impact of exercising an early redemption right, regulatory capital requirements and prevailing market conditions. The relevant Issuer disclaims, and investors should therefore not expect, that the relevant Issuer will exercise any early redemption right in relation to such Notes.

Notwithstanding if the respective Issuer exercises an early redemption right in relation to Subordinated Notes, Senior Preferred Notes or Senior Non-Preferred Notes with the prior permission of the Competent Authority or (as the case may be) the Resolution Authority, Noteholders are exposed to the risk that due to such early redemption their investments may have a different than expected yield and maturity.

Noteholders of the Subordinated Notes, Senior Preferred Notes or Senior Non-Preferred Notes should therefore be aware that they may be required to bear the financial risks of an investment in such Notes until their final maturity.

2.3.3 Risk factors relating to the status of the Notes, regulatory qualification and use of proceeds

2.3.3.1 *The obligations of the respective Issuer under Subordinated Notes constitute unsecured and subordinated obligations. Relevant insolvency laws, the provisions of the bank resolution framework and, in particular, the relevant tools or early intervention measures, could severely affect the rights of Noteholders and may result in a total loss in the event of non-viability of the respective Issuer and/or the Group.*

In the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer, the obligations of the Issuer under the Notes rank fully subordinated to the Issuer's Senior Ranking Obligations, so that in any such event no amounts will be payable in respect of the Notes until the Issuer's Senior Ranking Obligations have been satisfied in full.

"Senior Ranking Obligations" means (i) all unsecured and unsubordinated obligations of the Issuer; (ii) all eligible liabilities instruments of the Issuer pursuant to Article 72b CRR; and (iii) any other subordinated obligations of the Issuer which, in accordance with their terms or pursuant to mandatory provisions of law, rank or are expressed to rank senior to the obligations of the Issuer under the Notes.

If such an event occurs, the respective Issuer may not have enough assets remaining after such payments to pay amounts due under the relevant Subordinated Notes and the holders of such Subordinated Notes could lose all or some of their investment. No Noteholder of Subordinated Notes may set off his claims arising under the Notes against any claims of the respective Issuer. No present or future security or collateral of whatever kind is provided by the respective Issuer or any other person to secure the rights of the Noteholders under such Notes. No agreement may limit the subordination or shorten the maturity of the Notes.

In case resolution tools are applied, or if early intervention measures are applied at the point of non-viability before and regardless of any subsequent resolution action pursuant to the BaSAG/SRM, subordinated creditors, such as the Noteholders, will be among the first to absorb losses and suffer from a write down or conversion of their claims against the respective Issuer. In case of resolution, Subordinated Notes can be subject to conversion into CET 1 or write down as soon as CET 1 and AT 1 have been written down or, in the case of AT 1, been converted into CET 1. However, during early intervention at the "point of non-viability", Subordinated Notes can be subject to conversion or write down.

2.3.3.2 *Although Austrian statutory law on Covered Bonds provides that a cover pool shall secure at least the redemption amount and interest on the outstanding Covered Bonds, investors may receive less than their investment.*

Until and including 7 July 2022, the respective Issuer may issue Covered Bonds (*Fundierte Bankschuldverschreibungen*) under the Austrian Act on Covered Bonds of Banks (*Gesetz betreffend fundierte Bankschuldverschreibungen – "FBSchVG"*) secured by a separate cover pool (*Deckungsstock*) of eligible assets (*Vermögenswerte*) meeting the requirements set forth in such Act. The FBSchVG provides that a cover pool shall secure at least the redemption amount and interest of the outstanding Covered Bonds, as well as the likely administration cost arising in case of an insolvency of the respective Issuer. In addition, the respective Issuer may establish separate cover pools which may only include mortgages (as provided for in the FBSchVG, see § 1 (5) item 1 and item 2) or public debt (as provided for in the FBSchVG, see § 1 (5) item 3 and item 4).

The FBSchVG provides that in case of an insolvency of the respective Issuer, the cover pool must be sold by a special administrator (*besonderer Verwalter*) (who will be appointed by the insolvency court) to a suitable credit institution, which then assumes all obligations in respect of the Covered Bonds. In the event that the special administrator is unable to sell the cover pool to a suitable credit institution, and the cover pool does not hold sufficient assets to meet payments in respect of the Covered Notes, the assets of the cover pool will have to be liquidated. To the extent there is a shortfall in meeting payments due in respect of the Covered Bonds after liquidation of the cover pool, claims of the Noteholders of Covered Bonds would share the rank with claims of other creditors of the respective Issuer for the payment of any amount outstanding. As a result, investors may receive less than their investment.

From and including 8 July 2022, the respective Issuer may issue Covered Bonds (*gedeckte Schuldverschreibungen*) under the new Austrian Covered Bond Act, Federal Law Gazette I No. 199/2021

(*Pfandbriefgesetz* – "**PfandBG**") secured by separate cover pool (*Deckungsstock*) of eligible assets (*Vermögenswerte*) meeting the requirements set forth in such Act. According to the PfandBG, the total amount of outstanding covered bonds shall at all times be covered by cover assets (*Deckungswerte*) of at least the same total amount and all liabilities of the covered bonds (*i.e.* the obligations for the payment of the principal amount of and any interest on outstanding covered bonds as well as the expected costs related to maintenance and administration for the winding-down of the covered bond programme) shall be covered by claims for payment attached to the cover assets. The composition of the cover pool is based on the categories as provided for in § 6 (1) of the PfandBG (§ 6 (1) item 1 refers to cover assets according to Article 129(1) CRR and § 6 (1) item 2 refers to other high-quality cover assets). The PfandBG demonstratively defines in § 11 (2) different types of covered bonds, such as mortgage Pfandbriefe (*Hypothekendarlehen*) and public Pfandbriefe (*öffentlicher Pfandbrief*).

In the event of insolvency, resolution or enforcement proceedings regarding the respective Issuer or its assets, the relevant cover assets are separated from the respective Issuer's other assets and may not be used to satisfy claims of creditors of the respective Issuer other than the Noteholders of Covered Bonds (*gedeckte Schuldverschreibungen*) which are covered by these cover assets. However, in the event that the cover assets of the cover pool relevant for the respective Covered Bonds are not sufficient in order to cover the obligations under the respective Covered Bonds, claims of the Noteholders under the Covered Bonds which are not covered by the assets of the respective cover pool would share the rank with claims of other creditors of the respective Issuer. As a result, investors may receive less than their investment.

2.3.3.3 *In the case of the respective Issuer's insolvency, deposits have a higher ranking than the claims of Noteholders under the Notes.*

§ 131 BaSAG implements Article 108 BRRD in Austria and stipulates the ranking in the insolvency hierarchy, whereas in insolvency proceedings opened in relation to the respective Issuer the following insolvency hierarchy for deposits applies:

- (a) The following claims have the same ranking, which is higher than the ranking of the claims of ordinary senior unsecured and non-preferred senior unsecured creditors': (i) that part of eligible deposits from natural persons and micro, small and medium-sized enterprises which exceeds the coverage level provided for in Article 6 DGSD; (ii) deposits that would be eligible deposits from natural persons, micro, small and medium-sized enterprises if they are not made through branches (located outside the EU) of institutions established within the EU; and (iii) the liquidity reserve within a liquidity association pursuant to § 27a BWG and within a credit institution association pursuant to § 30a BWG, in each case, to the extent required by § 27a BWG;
- (b) The following claims have the same priority ranking, which is higher than the ranking of claims provided for under point (a) above: (i) covered deposits; and (ii) deposit guarantee schemes subrogating to the rights and obligations of covered depositors in insolvency.

In addition to that, for entities listed in § 1(1) no. 1 to no. 4 BaSAG (such as the Issuers) Article 108 BRRD as amended by Directive (EU) 2017/2399 introduces a (new) class of certain non-preferred debt instruments. The relevant amendments of § 131 BaSAG in Austria entered into force on 30 June 2018.

Thus, ordinary senior unsecured claims shall have a higher priority ranking in normal insolvency proceedings than that of unsecured claims resulting from debt instruments within the meaning of § 131 (3) BaSAG. Such so-called "non-preferred senior debt instruments" are debt instruments that meet the following conditions: (i) the original contractual maturity of the debt instruments is of at least one year; (ii) the debt instruments contains no embedded derivatives and are not derivatives themselves; (iii) the relevant contractual documentation and, where applicable, the prospectus related to the issuance explicitly refer to the lower ranking under § 131 (3) BaSAG. For the purposes of item (ii), debt instruments with variable interest derived from a widely used reference rate and debt instruments not denominated in the domestic currency of the respective issuer, provided that principal repayment and interest are denominated in the same currency, shall not be considered to be debt instruments containing embedded derivatives solely because of those features. Pursuant to § 131 (4) BaSAG, such non-preferred senior debt instruments in turn, shall have a higher priority ranking in normal insolvency proceedings than the priority ranking of claims resulting from instruments referred to in § 90 (1) no. 1 to no. 4 BaSAG (*i.e.* CET 1 items, AT 1 instruments, Tier 2 instruments and other subordinated debt). Therefore, Noteholders should bear in mind that in case of insolvency proceedings opened in relation to the respective Issuer and in any comparable proceedings (such as resolution proceedings under the SRM), their claims will be junior to the claims listed above in points (a) and (b), and that therefore they will only receive payment of their claims if and to the extent that such claims listed above in points (a) and (b) have been discharged in full.

2.3.3.4 *Claims of Noteholders of Senior Non-Preferred Notes will be junior to claims of holders of certain other senior claims.*

Noteholders of Senior Non-Preferred Notes should bear in mind that in case of insolvency proceedings opened in relation to the respective Issuer and in any comparable proceedings (such as resolution proceedings pursuant to the SRM) their claims will, in accordance with the terms of such Notes, be junior to the claims of holders of senior notes, ordinary senior notes and any other senior claims without non-preferred senior status (including senior claims preferred by law), such as Senior Preferred Notes.

For the purposes of § 131 (3) no. 3 BaSAG, the Noteholders are hereby explicitly notified of the lower ranking of Senior Non-Preferred Notes pursuant to § 131 (3) BaSAG.

Thus, no amounts will be payable under Senior Non-Preferred Notes until the claims ranking senior to such Notes will have been satisfied in full. If this occurs, the respective Issuer may not have enough assets remaining after such payments to pay amounts due under the relevant Senior Non-Preferred Notes and the Noteholders could lose all or some of their investment.

2.3.3.5 *BAWAG Group AG may substitute BAWAG P.S.K. as issuer under the Senior Non-Preferred Notes issued by it at any time without any guarantee.*

Noteholders of Senior Non-Preferred Notes issued by BAWAG P.S.K. should note that BAWAG Group AG may substitute BAWAG P.S.K. as issuer at any time without any guarantee or other security being provided by BAWAG P.S.K. In particular, BAWAG P.S.K. and BAWAG Group AG would not be required to obtain a consent from the Noteholders to effect such substitution. BAWAG P.S.K. and BAWAG Group AG expect to implement such a substitution should BAWAG Group AG instead of BAWAG P.S.K. be designated by the competent authority in the future as the single point of entry for bank resolution purposes (see also "2.1.4.1 *Minimum requirements for own funds and eligible liabilities, both to be required by the relevant resolution authority under the BaSAG and the SRM Regulation, may adversely affect the profitability of BAWAG Group. The Issuers may not be able to meet minimum requirements for own funds and eligible liabilities.*"). While such a substitution will result contractually in a ranking of the relevant Senior Non-Preferred Notes as senior bonds of BAWAG Group AG, any such substitution of BAWAG P.S.K. as the relevant Issuer with BAWAG Group AG would effectively structurally subordinate the claims of Noteholders under the relevant Notes to debt obligations of BAWAG P.S.K. (see also "2.3.3.6 *BAWAG Group AG is a holding company and its obligations under Notes issued by it are structurally subordinated obligations*"). Against this backdrop, such substitution may also adversely impact the credit ratings assigned to the relevant Notes originally issued by BAWAG P.S.K., depending on the rating assessment of BAWAG Group AG at that time.

2.3.3.6 *BAWAG Group AG is a holding company and its obligations under Notes issued by it are structurally subordinated obligations.*

Notes issued by BAWAG Group AG are obligations exclusively of BAWAG Group AG and are not guaranteed by any other person. BAWAG Group AG is a holding company and, as such, its principal source of income is from operating subsidiaries, which hold the principal assets of the Group, including, but not limited to, BAWAG P.S.K. As a separate legal entity, BAWAG Group AG relies on, among other things, dividends and other distributions in order to be able to meet its obligations to Noteholders as they fall due. Accordingly, the claims of the Noteholders under the Notes issued by BAWAG Group AG will be structurally subordinated to the claims of the creditors of BAWAG Group AG's subsidiaries, including, without limitation, those of Noteholders of Notes issued by BAWAG P.S.K.

The ability of BAWAG Group AG's subsidiaries to pay dividends could be restricted by changes in regulation, contractual restrictions, exchange controls and other requirements.

In addition, BAWAG Group AG's right to participate in the assets of BAWAG P.S.K. or any other subsidiary if such subsidiary is liquidated or is otherwise subject to insolvency or bankruptcy proceedings, as applicable, will be subject to the prior claims of such subsidiary's creditors.

BAWAG Group AG has absolute discretion as to how it makes its investments in or advances funds to its subsidiaries, including the proceeds of issuances of debt securities such as the Notes (including if assumed by BAWAG Group AG following a substitution of BAWAG P.S.K. as issuer under its Senior Non-Preferred Notes as described above (see 2.3.3.5 *BAWAG Group AG may substitute BAWAG P.S.K. as issuer under the Senior Non-Preferred Notes issued by it at any time without any guarantee.*), and as to how it may restructure existing investments and funding in the future. The ranking of BAWAG Group AG's claims in respect of such investments and funding in the event of, as applicable, the dissolution, liquidation or bankruptcy of a subsidiary, and their treatment in resolution, will depend in part on their form and structure and the types of claim that they give rise to.

The purposes of such investments and funding, and any such restructuring, may include, among other things, the provision of different amounts or types of capital or funding to particular subsidiaries, including for the purposes of meeting regulatory requirements, such as the implementation of MREL in respect of such subsidiaries, which may require funding to be made on a subordinated basis.

In addition, BAWAG Group AG may from time to time have outstanding loans to, or make investments in capital instruments or eligible liabilities issued by, its subsidiaries the terms of which may contain contractual mechanisms that, upon the occurrence of a trigger related to the prudential or financial condition or viability of such subsidiary and/or other entities in the Group or the taking of certain actions under the relevant statutory or regulatory powers (including the write-down or conversion of own funds instruments or certain entities being the subject of resolution proceedings), would, subject to certain conditions, result in a write-down of the claim or a change in the ranking and type of claim that BAWAG Group AG has against the subsidiary concerned, in particular BAWAG P.S.K. Such loans to and investments in subsidiaries may also be subject to the exercise of the statutory write-down and conversion of capital instruments power or the bail-in power or any similar statutory or regulatory power that may be applicable to the relevant subsidiary. Any changes in the legal or regulatory form and/or ranking of a loan or investment could also affect its treatment in resolution.

For the reasons described above, if any subsidiary of BAWAG Group AG were to be dissolved, liquidated, becomes insolvent or declared bankrupt, as applicable (i) Noteholders of Notes issued by BAWAG Group AG would have no right to proceed against the assets of such subsidiary, including, without limitation, assets of BAWAG P.S.K. and (ii) the liquidator or other insolvency or bankruptcy administrator, as applicable, of such subsidiary would first apply the assets of such subsidiary to settle the claims of such subsidiary's creditors (including, without limitation, (a) holders of such subsidiary's senior debt and tier 2 and additional tier 1 capital instruments generally, and (b) Noteholders of Notes issued by BAWAG P.S.K. in particular) before BAWAG Group AG would be entitled to receive any distributions in respect of such subsidiary's ordinary shares.

2.3.3.7 *The Notes are not covered by any deposit guarantee scheme. As unsecured creditors of the respective Issuer, the Noteholders are exposed to an unlimited insolvency and respective Issuer risk.*

Noteholders' receivables against the respective Issuer under the Notes are not secured by the statutory deposit guarantee scheme pursuant to the ESAEG implementing the DGSD. Further the Notes, other than Covered Bonds, are not secured by any collateral. The Noteholders are consequently exposed to the risk that the respective Issuer as debtor cannot or only partly meet its obligations under the Notes (in particular redemption and interest payments) in which case the Noteholders would not be entitled to any compensation by the deposit guarantee scheme. This accordingly has a negative impact on the yield and repayment of the capital invested. In case of an insolvency of the respective Issuer, the Noteholders (other than holders of Covered Bonds) do not enjoy a preferential treatment compared to other creditors of the respective Issuer. In case of insolvency of the respective Issuer other creditors could have a better legal position owing to rights of segregation (*Aussonderungsrecht*) or rights of separation (*Absonderungsrecht*), to which the claims of the Noteholders are subordinated.

Noteholders of covered bond issues which are secured by the assets of separate cover pools could suffer losses due to a decline of the value of the assets of the cover pool. Such losses would not be covered by the Austrian deposit guarantee system.

2.3.3.8 *Subordinated Notes, Senior Preferred Notes and Senior Non-Preferred Notes do not give the right to accelerate future payments. Noteholders may not offset claims of the respective Issuer against payment obligations under such Notes.*

The Terms and Conditions of the Subordinated Notes, Senior Preferred Notes and Senior Non-Preferred do not give the Noteholder the right to accelerate the future scheduled payment of interest or principal. Claims of the respective Issuer are not permitted to be offset against payment obligations of the respective Issuer under Subordinated Notes, Senior Preferred Notes and Senior Non-Preferred which are not, and may not become secured or subject to a guarantee or any other arrangement that enhances the seniority of the claim.

2.3.3.9 *The Noteholders of Subordinated Notes are exposed to the risk that the respective Issuer may issue subordinated debt instruments or incur subordinated liabilities which are senior to the Subordinated Notes.*

Noteholders of Subordinated Notes are exposed to the risk of subordination with respect to any debt instruments or other liabilities which the respective Issuer may (have to) issue or incur and which rank or are expressed to rank senior to Subordinated Notes, such as Covered Bonds, Senior Preferred Notes and Senior Non-Preferred Notes.

In the event of an insolvency of the respective Issuer, no amounts will be payable under Subordinated Notes until the claims of any and all such subordinated creditors of the respective Issuer ranking senior to Subordinated Notes will have been satisfied in full. Similarly, where the resolution authority applied the bail-in tool, Subordinated Notes would be subject to write down or conversion prior to such other subordinated creditors of the respective Issuer ranking senior to Subordinated Notes, in accordance with the statutory sequence of write-down and conversion.

2.3.4 Risk factors relating to an investment in the Notes, including trading-related risks

2.3.4.1 *Changes in the credit spread of the respective Issuer could negatively influence the price of the Notes.*

Credit spreads are additional charges dependent on the creditworthiness compared to risk-free interest rates for comparable maturities and may arise when securities are sold or traded at premiums or discounts. The market value of securities issued at a substantial discount or premium from their principal amount tends to react more sensitive to interest rate changes than the market value of conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

In case of a worsening of the creditworthiness of the respective Issuer during the term of the Notes, an increase of the respective Issuer's credit-spread may lead to lower prices of the Notes.

2.3.4.2 *A rating of an issue of Notes under the Programme might not consider all risks of an investment in the Notes and any rating suspension, downgrading or withdrawal may materially adversely affect the market value of the Notes.*

A credit rating specific to a particular issue of Notes under the Programme might not consider all possible risks of the respective Issuer, the Terms and Conditions of the Notes, the market in general and any other factors influencing such rating. The risks of an investment in the Notes may not be adequately reflected by such rating of the Notes, if any. Ratings may be suspended, downgraded or withdrawn, which may have a material adverse effect on the market value of the Notes. In any case, a credit rating assigned to an issuance of Notes under this Programme is not a recommendation to sell, buy or hold Notes.

2.3.4.3 *Currency fluctuations may lead to losses in connection with an investment in the Notes.*

If the Notes relate to securities or receivables calculated in currencies other than Euro, the risk of losses in case of currency fluctuations exists. Even if the Notes are secured against currency fluctuations, losses may occur because of different interest rate levels. Even if the Notes are denominated in Euro, they may be traded or settled in other currencies. Currency fluctuations may therefore adversely affect the value and the performance of the Notes.

If a Note is denominated in a foreign currency, the Noteholder is exposed to the risk of changes in currency exchange rates, which may affect the yield of such Note. For example, a change in the value of any foreign currency against the Euro will result in a corresponding change in the Euro value of a Note denominated in a currency other than Euro. If the underlying exchange rate falls and the value of the Euro correspondingly rises, the price of the Note expressed in EUR falls.

2.3.4.4 *The respective Issuer may enter into transactions or take other actions which are not in the interest of the Noteholders, or other conflicts of interest between the respective Issuer and the Noteholders may occur. Hedging-transactions by the respective Issuer may adversely affect the market price of the Notes. In addition, certain of the Dealers may advise the respective Issuer or enter into transactions with the respective Issuer.*

The Noteholders are creditors of the respective Issuer. The Noteholders have no shareholders' rights, in particular no participation and voting rights in the general assembly of the respective Issuer or of a third party, and in particular no entitlement to participate in the distribution of earnings of the respective Issuer or of third parties. Thus, the management of the respective Issuer might implement actions that favour shareholders, including dividend payments and share buybacks. These actions might conflict with the interests of creditors.

Furthermore, the respective Issuer is entitled to purchase and sell securities on any market or over the counter for own account or account of others and to issue further securities. Additionally, the respective Issuer is active on the national and international equity, debt and foreign exchange markets. Consequently, the respective Issuer can enter into transactions for own account or account of others which may directly or indirectly involve financial

instruments or other values that serve as underlying instruments/reference values of the Notes, and it can act in respect of these transactions as if the Notes had not been issued. It cannot be excluded consequently that these transactions may have a negative impact on the performance of the price of the Notes or their reference values.

In particular, mitigation of the financial risks incurred by the respective Issuer in connection with the Notes through hedging-transactions in the reference values of the Notes are part of the ordinary business of the respective Issuer. Such hedging-transactions may affect both the market price of the reference value and the amount of a repayment under the Notes. The respective Issuer is not obliged to inform the Noteholders of transactions in reference values or of hedging-transactions relating to reference values, even if such transactions are liable to influence the market price of the reference value or the amount of a repayment under the Notes. Noteholders always should inform themselves of the development of the market prices and reference values.

In addition, certain of the Dealers have, directly or indirectly through affiliates, provided investment and commercial banking, financial advisory and other services to the Bank and its affiliates from time to time, for which they have received monetary compensation. Certain of the Dealers may from time to time also enter into swap and other derivative transactions with the Bank and its affiliates. In addition, certain of the Dealers and their affiliates may in the future engage in investment banking, commercial banking, financial or other advisory transactions with the Bank or its affiliates.

2.3.4.5 Notes issued as 'Green Bonds' may not be a suitable investment for all investors seeking exposure to green or sustainable assets. Any failure to use the net proceeds of any Tranche of Notes in connection with green or sustainable projects, and/or any failure to meet, or to continue to meet, the investment requirements of certain environmentally focused investors with respect to such Green Bonds may affect the value and/or trading price, and/or may have consequences for certain investors with portfolio mandates to invest in green or sustainable assets.

The Final Terms relating to any specific Tranche of Notes may provide that it will be the relevant Issuer's intention to apply an amount equivalent to the proceeds from an issue of such Notes ("**Green Bonds**") specifically for projects and activities that promote climate-friendly and other environmental purposes ("**Green Projects**"). The application of the proceeds of climate-friendly and other environmental purposes as described in "Use of Proceeds" may not meet investor expectations or be suitable for an investor's investment criteria. Further, payment of principal amount and interest in respect of bonds is generally made from general funds and is not directly or indirectly linked to the performance of the Green Projects. Notes issued as Green Bonds will be subject to bail-in and resolution measures provided by BRRD in the same way as any other Notes issued under the Programme.

Prospective investors should refer to the information set out in the relevant Final Terms regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary. In particular no assurance is given by the relevant Issuer that the use of an equal amount of such proceeds for any Green Projects satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Green Projects. In connection with an issue of Green Bonds, the relevant Issuer may request a sustainability rating agency or sustainability consulting firm to issue an independent opinion (a "**Compliance Opinion**") confirming that any Green Bonds are in compliance with the "Green Bond Principles" prepared and published by the International Capital Markets Association (the "**ICMA Green Bond Principles**"). The ICMA Green Bond Principles are a set of voluntary guidelines that recommend transparency and disclosure and promote integrity in the development of the green bond market.

In addition, based on Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector and Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the "**EU Taxonomy Regulation**"). The EU Taxonomy Regulation tasked the Commission with establishing the actual list of environmentally sustainable activities by defining technical screening criteria for each environmental objective through delegated acts. On 6 July 2021 the EU Commission made a proposal for a regulation on a European green bond standard. This regulation would introduce a standard for companies and public authorities issuing green bonds to raise funds on capital markets to finance ambitious investments, while meeting sustainability requirements and protecting investors from greenwashing. However, this regulation is currently subject to the legislative process on an EU level and has not been adopted yet. On 2 February 2022, the EU Commission approved in principle a Complementary Climate Delegated Act including, under strict conditions, specific nuclear and gas energy activities in the list of economic activities covered by the EU taxonomy, which is

expected to be published in 2022. The criteria for the specific gas and nuclear activities are in line with EU climate and environmental objectives and will help accelerating the shift from solid or liquid fossil fuels, including coal, towards a climate-neutral future. Once adopted, this Complementary Climate Delegated Act will amend the Taxonomy Climate Delegated Act, as adopted on 4 June 2021.

Against this background, and while the green bond standards appear to develop at a higher pace now and should become more precise and more uniform in the near future, it should be noted that there is still no binding and clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green" or "sustainable" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "green" or "sustainable" or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. In addition, there will be more frequent adjustments regarding the classification as "green" or "sustainable" in the coming years.

Accordingly, and even while BAWAG Group's green framework takes into account the EU Taxonomy Regulation and the Taxonomy Climate Delegated Act, there is no assurance that BAWAG Group complies with these requirements as these may be implemented and amended from time to time.

Accordingly, no assurance is or can be given to investors that any projects or uses the subject of, or related to, any Green Projects will meet any or all investor expectations regarding such "green", "sustainable" or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Green Projects. No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification, including a Compliance Opinion, of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes and in particular with any Green Projects to fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification, including a Compliance Opinion, is not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus. Any such opinion or certification, including a Compliance Opinion, is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Notes. Any such opinion or certification is only current as of the date that opinion was initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification, including a Compliance Opinion, for the purpose of any investment in such Notes. Currently, the providers of such opinions and certifications, including a Compliance Opinion, are not subject to any specific regulatory or other regime or oversight.

In the event that any such Notes are listed or admitted to trading on any dedicated "green", "environmental", "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the relevant Issuer or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Green Projects. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

While it is the intention of the Issuer to apply an amount equivalent to the proceeds of any Notes so specified for Green Projects in, or substantially in, the manner described in the relevant Final Terms, there can be no assurance of the Issuer and the dealers that the relevant project(s) or use(s) the subject of, or related to, any Green Projects will be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such Green Projects. Nor can there be any assurance that such Green Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Any such event or failure by the relevant Issuer will not give the Holder the right to early terminate the Notes.

Any such event or failure to apply an amount equivalent to the proceeds of any issue of Notes for any Green Projects as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the relevant Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Notes

and also potentially the value of any other Notes which are intended to finance Green Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

Potential investors should be aware that Green Bonds may be Unsubordinated Notes, including Covered Bonds, Senior Preferred Notes and Senior Non-Preferred Notes, or Subordinated Notes and should therefore also consider the relevant risk factors in relation to such Notes.

2.3.4.6 *The Noteholders are subject to the risk that the Notes cannot be sold for fair prices at any time (liquidity risk).*

Notes issued under the Programme will be new securities, which may not be widely distributed and for which there is currently no active trading market. If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the respective Issuer. Although application is intended to be made for the Notes issued under the Programme to be admitted to listing on the official list of the Luxembourg Stock Exchange and to trading on the regulated markets of the Luxembourg Stock Exchange and/or the Vienna Stock Exchange or any other regulated stock exchange as the case may be, there is no assurance that such applications will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will exist at the time of the issue or develop later.

In addition, the CSSF, the FMA or any other competent authority is entitled to suspend the trade of listed securities or to require the respective company to suspend trade for various reasons, in particular in the context of combating market manipulation and insider trading. The company on its own accord has to suspend trading of the securities if such trading no longer complies with the rules of the regulated market, provided that such a measure is not contrary to the interests of investors or the interest of maintaining an orderly functioning market. In case the company does not act on its own accord, the CSSF or the FMA has to require a trade suspension if this is in the interest of maintaining an orderly functioning market and is not contrary to the interests of investors. Every trade suspension may have a negative effect on the price of the Notes.

Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes at any point in time. Consequently, any purchaser of a Note must be prepared to hold the Note until maturity and final redemption of such Note.

2.3.4.7 *The clearing of securities transactions is conducted through clearing systems. The respective Issuer cannot assume any responsibility for the operational reliability of such systems.*

Bearer Notes issued under the Programme may be represented by one or more Global Notes kept in custody by or on behalf of different clearing systems, in particular Clearstream Banking AG, Frankfurt am Main, Clearstream Banking S.A., Luxembourg, Euroclear Bank SA/NV, Brussels, as operator of the Euroclear system and OeKB CSD GmbH, Vienna, depending in the issue, and Noteholders will not be entitled to receive definitive notes. Noteholders' beneficial interest in the Notes is purchased and sold using such clearing systems. The respective Issuer will discharge its payment obligations under the Notes by making payments to a common service provider / the depository. The respective Issuer does not assume any responsibility or liability as to whether the Notes are actually transferred to, or payments are actually made to the relevant investor. Investors instead have to rely on the procedures of the relevant clearing system.

2.3.5 Risk factors relating to the Terms and Conditions of the Notes, other legal and tax matters

2.3.5.1 *Payments under the Notes may be subject to U.S. withholding tax.*

The respective Issuer and other financial institutions through which payments on the Notes are made may be required to withhold at a rate of up to 30% on all, or a portion of such payments pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code and U.S. Treasury regulations promulgated thereunder (commonly referred to as "**FATCA**", the Foreign Account Tax Compliance Act). This withholding does not apply to payments on Notes that are issued prior to the date that is six months after the date on which the final regulations that define "foreign passthru payments" are filed (the "**FATCA Grandfathering Date**") unless such Notes are characterized as equity for U.S. federal income tax purposes. No such final regulations have been issued to date. In addition, under proposed U.S. Treasury regulations (the preamble to which specifies that taxpayers are permitted to rely on them pending finalization) withholding on Notes issued after the FATCA Grandfathering Date will not apply prior to the date that is two years after final regulations that define "foreign passthru payments" are published.

Austria has entered into an intergovernmental agreement with the United States regarding the implementation of FATCA (the "**IGA**"). Pursuant to the IGA, the respective Issuer will be required to report certain information in respect of its accountholders and investors to the IRS, and generally would not be subject to withholding under FATCA on any payments it receives. The IGA leaves open the possibility that the respective Issuer may be required to withhold on certain other payments that are deemed attributable to U.S. sources.

Withholding may be required if: (i) an investor does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "**United States Account**" of the respective Issuer, (ii) an investor does not consent, where necessary, to have its information disclosed to the IRS or (iii) any foreign financial institution ("**an FFI**") that is an investor, or through which payment on the Notes is made, is not exempt from FATCA withholding. An investor that is an FFI that is withheld upon generally will be able to obtain a refund only to the extent an applicable income tax treaty with the United States entitles such institution to a reduced rate of tax on the payment that was subject to withholding under these rules, provided the required information is furnished in a timely manner to the IRS.

If an amount in respect of FATCA were to be deducted or withheld from interest, principal or other payments on the Notes, the respective Issuer will have no obligation to pay additional amounts or otherwise indemnify a holder for any such withholding or deduction by the respective Issuer, a Paying Agent or any other party, where such person (other than where such person is acting as an agent of the respective Issuer) is not entitled to receive payments free of such withholding. As a result, investors may, if FATCA withholding applies, receive less interest or principal than expected. The determination of whether FATCA withholding may be imposed will depend on the status of each recipient of payments between the respective Issuer and investors.

The respective Issuer does not expect in practice that payments made either by them or by their respective Paying Agents in relation to the Notes held in clearing systems will be subject to FATCA withholding as it is expected that the respective Paying Agents and the relevant clearing systems will be exempt from FATCA withholding. However, it is possible that other parties may be required to withhold on payments on account of FATCA as set out above.

2.3.5.2 An investment in the Notes may be unlawful for certain investors.

An investment in the Notes may be unlawful for certain investors, which are subject to investment laws or regulations, or review or regulation by certain authorities (see also "2.3.4.5 Notes issued as 'Green Bonds' may not be a suitable investment for all investors seeking exposure to green or sustainable assets. Any failure to use the net proceeds of any Tranche of Notes in connection with green or sustainable projects, and/or any failure to meet, or to continue to meet, the investment requirements of certain environmentally focused investors with respect to such Green Bonds may affect the value and/or trading price, and/or may have consequences for certain investors with portfolio mandates to invest in green or sustainable assets."). Neither the respective Issuer, nor the Dealers or any of their affiliates are responsible for the lawfulness of an investment in the Notes by a prospective investor, or its compliance with any applicable laws, regulation or regulatory policy, and prospective investors must not rely on the respective Issuer, the Dealers or any of their affiliates as to the legality of its investment in the Notes.

2.3.5.3 Amendments to the Terms and Conditions by resolution of the Noteholders and appointment of a joint representative

If so specified in the applicable final terms, the Terms and Conditions for a Series of Notes may be amended by the relevant Issuer with consent of the relevant Noteholders by way of a majority resolution in a Noteholders' Meeting or by a vote not requiring a physical meeting (*Abstimmung ohne Versammlung*) as described in Sections 5 et seq. of the German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*, "**SchVG**"). Such amendments will be binding on all Noteholders of the relevant Series of Notes, even on those who voted against the change. As the relevant majority for Noteholders' resolutions is generally based on votes cast, rather than on the aggregate principal amount of the relevant Series of Notes outstanding, any such resolution may technically be passed with the consent of less than a majority of the aggregate principal amount of the relevant Series of Notes outstanding.

Therefore, a Noteholder is subject to the risk of being outvoted by a majority resolution of the Noteholders. As such majority resolution is binding on all Noteholders of a particular Series of Notes, certain rights of such Noteholder against the relevant Issuer under the Terms and Conditions may be amended or reduced or cancelled, even for Noteholders who have declared their claims arising from the Notes due and payable but who have not received payment from the relevant Issuer prior to the amendment taking effect, which may have significant negative effects on the value of the Notes and the return from the Notes.

The Noteholders of any Series of Notes may by majority resolution provide for the appointment or dismissal of a Noteholders' Representative. A Noteholders' Representative for a particular Series of Notes may also be specified in the final terms of such Series of Notes. If a Noteholders' Representative is appointed, a Noteholder may be deprived of its individual right to pursue and enforce a part or all of its rights under the Terms and Conditions against the relevant Issuer, such right passing to the Noteholders' Representative who is then exclusively responsible to claim and enforce the rights of all the Noteholders of the relevant Series of Notes.

2.3.5.4 *An Austrian court may appoint a trustee (Kurator) for the Notes to exercise the rights and represent the interests of Noteholders on their behalf.*

Pursuant to the Austrian Notes Trustee Act (*KuratorenGesetz – KuratorenG*) and the Austrian Notes Trustee Supplementation Act (*KuratorenErgänzungsgesetz*), a trustee (*Kurator*) could be appointed by an Austrian court upon the request of any interested party (e.g. a Noteholder) or upon the initiative of a competent court, for the purposes of representing the common interests of the Noteholders in matters concerning their collective rights. In particular, this may occur if insolvency proceedings are initiated against the respective Issuer, in connection with any amendments to the Terms and Conditions of the Notes or changes relating to the respective Issuer, or under other similar circumstances, concerning the collective rights of Noteholders.

Even though the applicability of the Austrian Notes Trustee Act and the Austrian Notes Trustee Supplementation Act is excluded in the Terms and Conditions (to the extent such exclusion is permissible under Austrian law), it cannot be ruled out that an Austrian court would reject such exclusion of the applicability of the Austrian Notes Trustee Act and the Austrian Notes Trustee Supplementation Act and appoints a trustee, because the respective Issuer is an Austrian company. If a trustee is appointed, it will exercise the collective rights and represent the interests of the Noteholders and will be entitled to make statements on their behalf which shall be binding on all Noteholders. Where a trustee represents the interests of and exercises the rights of Noteholders, this may conflict with or otherwise adversely affect the interests of individual or all Noteholders. The role of an appointed trustee may also conflict with provisions of the Terms and Conditions related to majority resolutions of the Noteholders pursuant to the Terms and Conditions. On the other hand, investors should not rely on the protection afforded by the Austrian Notes Trustee Act, as its application has been excluded (to the extent such exclusion is permissible under Austrian law) in the Terms and Conditions and an Austrian court may give effect to such disapplication.

2.3.5.5 *Due claims of the Noteholders are subject to limitation after the expiration of 10 years.*

Pursuant to Austrian general civil law, claims of holders of Notes governed by Austrian law for the repayment of the capital invested prescribe if they are not judicially asserted within 30 years. This provision, however, is not mandatory law. Accordingly, the Terms and Conditions provide that claims for repayment of the capital invested prescribe upon the expiry of 10 years following the respective due date for the repayment. Consequently, if Noteholders do not assert their claims for repayment of the capital invested within 10 years following the respective due date, the claim can no longer be enforced against the respective Issuer.

2.3.5.6 *If the relevant Final Terms provide for conditions for a maturity extension Covered Bonds may be redeemed after their Maturity Date and in case a maturity extension for a specific series of Covered Bonds is triggered, Noteholders of other series of Covered Bonds whose maturity date would fall within the period of the maturity extension of a specific series of Covered Bonds will not receive their final redemption amount as expected on the relevant maturity date.*

The relevant Final Terms may provide that upon the occurrence of the objective trigger event (as set out in the Terms and Conditions of the Covered Bonds issued on or after 8 July 2022) the maturity of the Covered Bonds will be postponed once by up to 12 months to the Extended Maturity Date. In the event of a maturity extension, repayment of the outstanding aggregate principal amount will be postponed and, notwithstanding the statutory regime on acceleration and liquidation of the respective cover asset pool, shall become due and payable on the Extended Maturity Date, together with accrued interest, if any, to, but excluding, the Extended Maturity Date. In such case, interest will continue to accrue on the outstanding aggregate principal amount of the Covered Bonds during the period from, and including, the (original) Maturity Date to, but excluding, the Extended Maturity Date at the relevant rate of interest set out in the relevant Final Terms and will be payable by the respective Issuer on each Interest Payment Date from, but excluding, the (original) Maturity Date to, and including, the Extended Maturity Date (each as set out in the relevant Final Terms) in accordance with the relevant Terms and Conditions of the Covered Bonds. However, such extension of maturity will not constitute an event of default and Noteholders will not receive any compensation for such extension (other than that interest will accrue). The Noteholders shall not be entitled to any further interest payments as from the Extended Maturity Date. Thus, Noteholders must not expect repayment of the outstanding aggregate principal amount on the (original) Maturity Date and are not entitled to terminate the Covered Bonds if the term of the Covered Bonds is extended. Furthermore, Noteholders

may receive lower interest payments during such extended period as the relevant applicable rate of interest may be lower than the (respective) rate of interest which applied in the preceding interest periods.

Furthermore, a maturity extension must not change the sequence of the original maturity schedule of the covered bond programme. Consequently, if a maturity extension by up to 12 months for a specific series of Covered Bonds is triggered, the maturity of other series of Covered Bonds within a covered bond programme shall be deemed postponed (regardless of whether they provide for maturity extension structures or not), in each case, for so long as necessary to maintain the sequence of the original maturity schedule. As a result, Noteholders of such other series of Covered Bonds whose maturity date would fall within the period of the maturity extension by up to 12 months of a specific series of Covered Bonds bear the risk that they do not receive their final redemption amount as expected on the relevant maturity date. Such Noteholders will receive their final redemption amount on a later date once all payments under the specific series of Covered Bonds for which the maturity extension was triggered have been serviced in full on the Extended Maturity Date determined for such series of Covered Bonds. Such payment deferral for the other series of Covered Bonds does not constitute an event of default of the respective Issuer for any purpose and does not give the Noteholders of such other series of Covered Bonds any right to accelerate or terminate the Covered Bonds. Noteholders should also be aware that the repayment of another series of Covered Bonds after a maturity extension by up to 12 months of such series of Covered Bonds might result in the available assets of the respective cover pool being reduced or depleted, thereby causing the necessity of a maturity extension of the Covered Bonds of the respective Noteholders.

As a maturity extension will be initiated by a special administrator, and the Extended Maturity Date will be set by such special administrator without the respective Issuer having any discretion in it, Noteholders should be aware that they have no right to request such maturity extension, and it therefore might occur that no maturity extension will be made and cover pool assets might be liquidated at a time of market disruptions and/or low prices, resulting in the liquidation proceeds being less than if the maturity had been extended by the special administrator.

Finally, it should be noted, that the PfandBG does not provide for an explicit reference to such a maturity extension to be applicable to Covered Bonds (*Fundierte Bankschuldverschreibungen*) issued until and including 7 July 2022 under the FBSchVG. Consequently, there is a risk that ultimately Noteholders of Covered Bonds (*Fundierte Bankschuldverschreibungen*) under the FBSchVG may be satisfied prior to Noteholders of Covered Bonds (*gedeckte Schuldverschreibungen*) under the PfandBG which are subject to a maturity extension even if the original Maturity Date of the latter Covered Bonds falls earlier than the original Maturity Date of the Covered Bonds (*Fundierte Bankschuldverschreibungen*) under the FBSchVG.

(5) *Benchmark Discontinuation*.

(a) *Independent Adviser*. If a Benchmark Event occurs in relation to the Original Benchmark Rate when the Reset Interest Rate (or any component part thereof) remains to be determined by reference to such Original Benchmark Rate, then the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with § 3 (5)(b)) and, in either case, the Adjustment Spread (in accordance with § 3 (5)(c)) and any Benchmark Amendments (in accordance with § 3 (5)(d)).

In the absence of gross negligence or wilful misconduct, the Independent Adviser shall have no liability whatsoever to the Issuer, the Fiscal Agent, the Paying Agents, the Calculation Agent or the Noteholders for any determination made by it pursuant to this § 3 (5).

If, prior to the tenth Business Day prior to the relevant Reset Interest Determination Date, (A) the Issuer has not appointed an Independent Adviser or (B) the Independent Adviser appointed by it has not determined a Successor Rate or, failing which, an Alternative Rate in accordance with this § 3 (5) has not determined the Adjustment Spread and/or has not determined the Benchmark Amendments (if required), the Reference Rate applicable to the immediate following Interest Period shall be the Reference Rate applicable as at the last preceding Reset Interest Determination Date. If this § 3 (5)(a) is to be applied on the first Reset Interest Determination Date prior to the

commencement of the first Interest Period, the Reference Rate applicable to the first Interest Period shall be [●] per cent. *per annum*.

- (b) *Successor Rate or Alternative Rate*. If the Independent Adviser determines in its reasonable discretion that: (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in § 3 (5)(c)) subsequently be used in place of the Original Benchmark Rate to determine the Reset Interest Rate; or (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in § 3 (5)(c)) be used in place of the Original Benchmark Rate to determine the Reset Interest Rate.
- (c) *Adjustment Spread*. The Independent Adviser shall determine in its reasonable discretion the quantum of, or a formula or methodology for determining the Adjustment Spread that is required to be applied to the Successor Rate or the Alternative Rate (as the case may be), and such Adjustment Spread shall apply to the Successor Rate or the Alternative Rate (as the case may be).
- (d) *Benchmark Amendments*. If any relevant Successor Rate or Alternative Rate and, in each case, the Adjustment Spread is determined in accordance with this § 3 (5) and the Independent Adviser determines in its reasonable discretion (A) that amendments to these Terms and Conditions are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and, in each case, the Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (B) the terms of the Benchmark Amendments, then, subject to the Issuer giving notice thereof in accordance with § 3 (5)(e), such Benchmark Amendments shall apply to the Notes with effect from the date specified in such notice.
- (e) *Notices, etc.* The Issuer will notify without undue delay, but in any event not later than on the tenth Business Day prior to the relevant Reset Interest Determination Date, any Successor Rate or Alternative Rate, the Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this § 3 (5) to the Fiscal Agent, the Calculation Agent, the Paying Agents and, in accordance with § 12, the Noteholders. Such notice shall be irrevocable and shall specify the Benchmark Replacement Effective Date.

Together with such notice, the Issuer shall deliver to the Fiscal Agent a certificate signed by two authorized signatories of the Issuer:

(A)

- (a) confirming that a Benchmark Event has occurred,
- (b) specifying the relevant Successor Rate, or, as the case may be, the relevant Alternative Rate,

- (d) specifying the Benchmark Replacement Effective Date, and

(B) certifying that any such relevant Benchmark Amendments are necessary to ensure the proper operation of such relevant Successor Rate or Alternative Rate and, in each case, the Adjustment Spread.

The Successor Rate or Alternative Rate, the Adjustment Spread and the Benchmark Amendments (if required) specified in such certificate will (in the absence of manifest error or bad faith in the determination of such Successor Rate or Alternative Rate, the Adjustment Spread and the Benchmark Amendments (if required)) be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agents and the Noteholders.

- (f) *Survival of Reference Rate*. Without prejudice to the obligations of the Issuer under § 3 (5)(a), (b), (c) and (d), the Original Benchmark Rate and the fallback provisions provided for in the definition of the term "Reset Reference Bank Rate" in § 3 (1) will continue to apply unless and until a Benchmark Event has occurred.

If and to the extent that the deposit is effected and the right of withdrawal is waived, the respective claims of such Noteholders against the Issuer shall cease.

§ 5 REDEMPTION

(1) *Redemption at Maturity [in case of Covered Bonds (Gedekte Schuldverschreibungen) which provide for conditions for a maturity extension, insert: or the Extended Maturity Date]*. Unless previously redeemed in whole or in part or purchased and cancelled, the Notes shall be redeemed at their Final Redemption Amount on **[in the case of a specified Maturity Date insert such Maturity Date] [in the case of a Redemption Month insert: the Interest Payment Date falling on or nearest [insert last Interest Payment Date]]** (the "Maturity Date") **[in case of Covered Bonds (Gedekte Schuldverschreibungen) which provide for conditions for a maturity extension, insert: or, in case the term of the Notes is extended in accordance with the provisions set out in § 5 (1a), on the day which is determined by the special administrator (§ 86 of the Austrian Insolvency Code) as extended maturity date (the "Extended Maturity Date")]**. (1a) *Conditions for a maturity extension.*

The maturity of the Notes may be postponed once by up to 12 months to the Extended Maturity Date upon the occurrence of the Objective Trigger Event.

The "**Objective Trigger Event**" shall have occurred if the maturity extension is triggered in the Issuer's insolvency by the special administrator (§ 86 of the Austrian Insolvency Code), provided that the special administrator is convinced at the time of the maturity extension that the liabilities under the Notes can be serviced in full on the Extended Maturity Date. The maturity extension is not at the Issuer's discretion. In the event of a maturity extension, the Issuer will redeem the Notes in whole and not in part on the Extended Maturity Date at the Final Redemption Amount together with any interest accrued to (but excluding) the Extended Maturity Date. The occurrence of the Objective Trigger Event shall be notified to the Noteholders without undue delay in accordance with § 12.

Neither the failure to pay the outstanding aggregate principal amount of the Notes on the Maturity Date nor the maturity extension shall constitute an event of default of the Issuer for any purpose or give any Noteholder any right to accelerate the Notes or to receive any payment other than as expressly set out in these Terms and Conditions.

In the event of the insolvency or resolution of the Issuer, payment obligations of the Issuer under the Covered Bonds shall not be subject to automatic acceleration and prepayment (*Insolvenzferne*). In each case, the Noteholders shall have a priority claim in relation to the principal amount and any accrued and future interest from the cover assets and in addition in case of an insolvency, to the extent that the aforementioned priority claim cannot be satisfied in full, an insolvency claim against the Issuer.

As competent authority, the Austrian Financial Market Authority (FMA) supervises the issuance of covered bonds and compliance with the provisions of the PfandBG, taking into account the national economic interest in a functioning capital market.

In case of insolvency proceedings, the bankruptcy court shall without undue delay appoint a special administrator to administer priority claims in relation to the principal amount and any accrued and future interest from the cover assets (special estate) (§ 86 of the Austrian Insolvency Code). The special administrator shall satisfy due claims of the Noteholders from the special estate and shall take the necessary administrative measures for this purpose with effect for the special estate, for example by collecting due mortgage claims, selling individual cover assets or by bridge financing.

(1b) *Interest Payment Dates.*

(a) The Notes shall bear interest on their principal amount from (and including) the Maturity Date to (but excluding) the first Extended Interest Payment Date and thereafter from (and including) each Extended Interest Payment Date to (but excluding) the next following Extended Interest Payment Date. (a) *Independent Adviser.* If a Benchmark Event occurs in relation to an Extended Reference Rate when the Extended Rate of Interest (or any component part thereof) for any Extended Interest Period remains to be determined by reference to such Extended Reference Rate, then the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with § 5 (1d)(b)) and, in either case, the Adjustment Spread (in accordance with § 5 (1d)(c)) and any Benchmark Amendments (in accordance with § 5 (1d)(d)).

In the absence of gross negligence or wilful misconduct, the Independent Adviser shall have no liability whatsoever to the Issuer, the Fiscal Agent, the Paying Agents, the Calculation Agent or the Noteholders for any determination made by it pursuant to this § 5 (1d).

If, prior to the tenth Business Day prior to the relevant Extended Interest Determination Date, (A) the Issuer has not appointed an Independent Adviser or (B) the Independent Adviser appointed by it has not determined a Successor Rate or, failing which, an Alternative Rate in accordance with this § 5 (1d) has not determined the Adjustment Spread and/or has not determined the Benchmark Amendments (if required), the Extended Reference Rate applicable to the immediate following Extended Interest Period shall be the Extended Reference Rate applicable as at the last preceding Extended Interest Determination Date. If this § 5 (1d)(a) is to be applied on the first Extended Interest Determination Date prior to the commencement of the first Extended Interest Period, the Extended Reference Rate applicable to the first Extended Interest Period shall be [●] per cent. *per annum*.

- (b) *Successor Rate or Alternative Rate.* If the Independent Adviser determines in its reasonable discretion that: (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in § 5 (1d)(c)) subsequently be used in place of the Extended Reference Rate to determine the Extended Rate of Interest for the immediately following Extended Interest Period and all following Extended Interest Periods, subject to the subsequent operation of this § 5 (1d); or (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in § 5 (1d)(c)) subsequently be used in place of the Extended Reference Rate to determine the Extended Rate of Interest for the immediately following Extended Interest Period and all following Extended Interest Periods, subject to the subsequent operation of this § 5 (1d).
- (c) *Adjustment Spread.* The Independent Adviser shall determine in its reasonable discretion the quantum of, or a formula or methodology for determining, the Adjustment Spread that is required to be applied to the Successor Rate or the Alternative Rate (as the case may be), and such Adjustment Spread shall apply to the Successor Rate or the Alternative Rate (as the case may be).
- (d) *Benchmark Amendments.* If any relevant Successor Rate or Alternative Rate and, in each case, the Adjustment Spread is determined in accordance with this § 5 (1d) and the Independent Adviser determines in its reasonable discretion (A) that amendments to these Terms and Conditions are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and, in each case, the Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (B) the terms of the Benchmark Amendments, then, subject to the Issuer giving notice thereof in accordance with § 5 (1d)(e), such Benchmark Amendments shall apply to the Notes with effect from the date specified in such notice.
- (e) *Notices, etc.* The Issuer will notify without undue delay, but in any event not later than on the tenth Business Day prior to the relevant Extended Interest Determination Date, any Successor Rate or Alternative Rate, the Adjustment Spread and the specific terms of the Benchmark Amendments (if required), determined under this § 5 (1d) to the Fiscal Agent, the Calculation Agent, the Paying Agents and, in accordance with § 12, the Noteholders. Such notice shall be irrevocable and shall specify the Benchmark Replacement Effective Date.

Together with such notice, the Issuer shall deliver to the Fiscal Agent a certificate signed by two authorized signatories of the Issuer:

- (A)
 - (a) confirming that a Benchmark Event has occurred,
 - (b) specifying the relevant Successor Rate, or, as the case may be, the relevant Alternative Rate,
 - (c) specifying the Adjustment Spread and the specific terms of the relevant Benchmark Amendments (if required), in each case as determined in accordance with the provisions of this § 5 (1d),
 - (d) specifying the Benchmark Replacement Effective Date, and
- (B) certifying that any such relevant Benchmark Amendments are necessary to ensure the proper operation of such relevant Successor Rate or Alternative Rate and, in each case, the Adjustment Spread.

The Successor Rate or Alternative Rate, the Adjustment Spread and the Benchmark Amendments (if required) specified in such certificate will (in the absence of manifest error or bad faith in the determination of such Successor Rate or Alternative Rate, the Adjustment Spread and the Benchmark Amendments (if required)) be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agents and the Noteholders.

(f) *Survival of Extended Reference Rate.* Without prejudice to the obligations of the Issuer under § 5 (1d)(a), (b), (c) and (d), the Extended Reference Rate and the fallback provisions provided for in the definition of the term "Screen Page" in § 5 (1c) will continue to apply unless and until a Benchmark Event has occurred.

(g) *Definitions.* As used in this § 5 (1d):

[If the cessation of the representative quality of the Extended Reference Rate is to be a Benchmark Event, the following applies:

or (6) a public statement by the supervisor of the Extended Reference Rate administrator is made that, in its view, the Extended Reference Rate is no longer representative, or will no longer be representative, of the underlying market it purports to measure and no action to remediate such a situation is taken or expected to be taken as required by the supervisor of the Extended Reference Rate administrator.]

Any such amendment will be promptly notified to any stock exchange on which the Notes are then listed and to the Noteholders in accordance with § 12.

[(1f))(1g))(1h)] *Determinations Binding.* All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this § 5 by the Calculation Agent shall (in the absence of manifest error) be binding on the Issuer, the Fiscal Agent [, the Paying Agents] and the Noteholders.

(3) *Benchmark Discontinuation.*

(a) *Independent Adviser.* If a Benchmark Event occurs in relation to a Reference Rate when the Rate of Interest (or any component part thereof) for any Interest Period remains to be determined by reference to such Reference Rate, then the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably

practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with § 3 (3)(b)) and, in either case, the Adjustment Spread (in accordance with § 3 (3)(c)) and any Benchmark Amendments (in accordance with § 3 (3)(d)).

In the absence of gross negligence or wilful misconduct, the Independent Adviser shall have no liability whatsoever to the Issuer, the Fiscal Agent, the Paying Agents, the Calculation Agent or the Noteholders for any determination made by it pursuant to this § 3 (3).

If, prior to the tenth Business Day prior to the relevant Interest Determination Date, (A) the Issuer has not appointed an Independent Adviser or (B) the Independent Adviser appointed by it has not determined a Successor Rate or, failing which, an Alternative Rate in accordance with this § 3 (3) has not determined the Adjustment Spread and/or has not determined the Benchmark Amendments (if required), the Reference Rate applicable to the immediate following Interest Period shall be the Reference Rate applicable as at the last preceding Interest Determination Date. If this § 3 (3)(a) is to be applied on the first Interest Determination Date prior to the commencement of the first Interest Period, the Reference Rate applicable to the first Interest Period shall be [●] per cent. *per annum*.

- (b) *Successor Rate or Alternative Rate.* If the Independent Adviser determines in its reasonable discretion that: (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in § 3 (3)(c)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all following Interest Periods, subject to the subsequent operation of this § 3 (3); or (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in § 3 (3)(c)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all following Interest Periods, subject to the subsequent operation of this § 3 (3).
- (c) *Adjustment Spread.* The Independent Adviser shall determine in its reasonable discretion the quantum of, or a formula or methodology for determining, the Adjustment Spread that is required to be applied to the Successor Rate or the Alternative Rate (as the case may be), and such Adjustment Spread shall apply to the Successor Rate or the Alternative Rate (as the case may be).
- (d) *Benchmark Amendments.* If any relevant Successor Rate or Alternative Rate and, in each case, the Adjustment Spread is determined in accordance with this § 3 (3) and the Independent Adviser determines in its reasonable discretion (A) that amendments to these Terms and Conditions are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and, in each case, the Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (B) the terms of the Benchmark Amendments, then, subject to the Issuer giving notice thereof in accordance with § 3 (3)(e), such Benchmark Amendments shall apply to the Notes with effect from the date specified in such notice.
- (e) *Notices, etc.* The Issuer will notify without undue delay, but in any event not later than on the tenth Business Day prior to the relevant Interest Determination Date, any Successor Rate or Alternative Rate, the Adjustment Spread and the specific terms of the Benchmark Amendments (if required), determined under this § 3 (3) to the Fiscal Agent, the Calculation Agent, the Paying Agents and, in accordance with § 12, the Noteholders. Such notice shall be irrevocable and shall specify the Benchmark Replacement Effective Date.

Together with such notice, the Issuer shall deliver to the Fiscal Agent a certificate signed by two authorized signatories of the Issuer:

- (A)
 - (a) confirming that a Benchmark Event has occurred,
 - (b) specifying the relevant Successor Rate, or, as the case may be, the relevant Alternative Rate,
 - (c) specifying the Adjustment Spread and the specific terms of the relevant Benchmark Amendments (if required), in each case as determined in accordance with the provisions of this § 3 (3),
 - (d) specifying the Benchmark Replacement Effective Date, and
- (B) certifying that any such relevant Benchmark Amendments are necessary to ensure the proper operation of such relevant Successor Rate or Alternative Rate and, in each case, the Adjustment Spread.

The Successor Rate or Alternative Rate, the Adjustment Spread and the Benchmark Amendments (if required) specified in such certificate will (in the absence of manifest error or bad faith in the determination of such Successor Rate or Alternative Rate, the Adjustment Spread and the Benchmark Amendments (if required)) be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agents and the Noteholders.

(f) *Survival of Reference Rate.* Without prejudice to the obligations of the Issuer under § 3 (3)(a), (b), (c) and (d), the Reference Rate and the fallback provisions provided for in the definition of the term "Screen Page" in § 3 (2) will continue to apply unless and until a Benchmark Event has occurred.

If the cessation of the representative quality of the Reference Rate is to be a Benchmark Event, the following applies:

or (6) a public statement by the supervisor of the Reference Rate administrator is made that, in its view, the Reference Rate is no longer representative, or will no longer be representative, of the underlying market it purports to measure and no action to remediate such a situation is taken or expected to be taken as required by the supervisor of the Reference Rate administrator.]

Neither the failure to pay the outstanding aggregate principal amount of the Notes on the Maturity Date nor the maturity extension shall constitute an event of default of the Issuer for any purpose or give any Noteholder any right to accelerate the Notes or to receive any payment other than as expressly set out in these Terms and Conditions.

In the event of the insolvency or resolution of the Issuer, payment obligations of the Issuer under the Covered Bonds shall not be subject to automatic acceleration and prepayment (*Insolvenzferne*). The special administrator shall satisfy due claims of the Noteholders from the special estate and shall take the necessary administrative measures for this purpose with effect for the special estate, for example by collecting due mortgage claims, selling individual cover assets or by bridge financing.

(4) *Benchmark Discontinuation.*

(a) *Independent Adviser.* If a Benchmark Event occurs in relation to a Reference Rate when the Rate of Interest (or any component part thereof) for any Interest Period remains to be determined by reference to such Reference Rate, then the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with § 3 (4)(b)) and, in either case, the Adjustment Spread (in accordance with § 3 (4)(c)) and any Benchmark Amendments (in accordance with § 3 (4)(d)).

In the absence of gross negligence or wilful misconduct, the Independent Adviser shall have no liability whatsoever to the Issuer, the Fiscal Agent, the Paying Agents, the Calculation Agent or the Noteholders for any determination made by it pursuant to this § 3 (4).

If, prior to the tenth Business Day prior to the relevant Interest Determination Date, (A) the Issuer has not appointed an Independent Adviser or (B) the Independent Adviser appointed by it has not determined a Successor Rate or, failing which, an Alternative Rate in accordance with this § 3 (4) has not determined the Adjustment Spread and/or has not determined the Benchmark Amendments (if required), the Reference Rate applicable to the immediate following Interest Period shall be the Reference Rate applicable as at the last preceding Interest Determination Date. If this § 3 (4)(a) is to be applied on the first Interest Determination Date prior to the commencement of the first Interest Period, the Reference Rate applicable to the first Interest Period shall be [●] per cent. *per annum*.

(b) *Successor Rate or Alternative Rate.* The Independent Adviser shall determine in its reasonable discretion that: (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in § 3 (4)(c)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all following Interest Periods, subject to the subsequent operation of this § 3 (4); or (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in § 3 (4)(c)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all following Interest Periods, subject to the subsequent operation of this § 3 (4).

(c) *Adjustment Spread.* The Independent Adviser shall determine in its reasonable discretion the quantum of, or a formula or methodology for determining, the Adjustment Spread that is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (B) the quantum of, or a formula or methodology for determining,

such Adjustment Spread, then such Adjustment Spread shall apply to the Successor Rate or the Alternative Rate (as the case may be).

- (d) *Benchmark Amendments*. If any relevant Successor Rate or Alternative Rate and, in each case, the Adjustment Spread is determined in accordance with this § 3 (4) and the Independent Adviser determines in its reasonable discretion (A) that amendments to these Terms and Conditions are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and, in each case, the Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (B) the terms of the Benchmark Amendments, then, subject to the Issuer giving notice thereof in accordance with § 3 (4)(e), such Benchmark Amendments shall apply to the Notes with effect from the date specified in such notice.
- (e) *Notices, etc.* The Issuer will notify without undue delay, but in any event not later than on the tenth Business Day prior to the relevant Interest Determination Date, any Successor Rate, or Alternative Rate, the Adjustment Spread and the specific terms of the Benchmark Amendments (if required), determined under this § 3 (4) to the Fiscal Agent, the Calculation Agent, the Paying Agents and, in accordance with § 12, the Noteholders. Such notice shall be irrevocable and shall specify the Benchmark Replacement Effective Date.

Together with such notice, the Issuer shall deliver to the Fiscal Agent a certificate signed by two authorized signatories of the Issuer:

(A)

- (a) confirming that a Benchmark Event has occurred,
- (b) specifying the relevant Successor Rate, or, as the case may be, the relevant Alternative Rate,
- (c) specifying the Adjustment Spread and/or the specific terms of the relevant Benchmark Amendments (if required), in each case as determined in accordance with the provisions of this § 3 (4); and
- (d) specifying the Benchmark Replacement Effective Date; and

(B) certifying that any such relevant Benchmark Amendments are necessary to ensure the proper operation of such relevant Successor Rate or Alternative Rate and, in each case, the Adjustment Spread.

The Successor Rate or Alternative Rate, the Adjustment Spread and the Benchmark Amendments (if required) specified in such certificate will (in the absence of manifest error or bad faith in the determination of such Successor Rate or Alternative Rate, the Adjustment Spread and the Benchmark Amendments (if required)) be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agents and the Noteholders.

- (f) *Survival of Reference Rate*. Without prejudice to the obligations of the Issuer under § 3 (4)(a), (b), (c) and (d), the Reference Rate and the fallback provisions provided for in the definition of the term "Screen Page" in § 3 (3) will continue to apply unless and until a Benchmark Event has occurred.
- (g) *Definitions*. As used in this § 3 (4):

The "**Adjustment Spread**", which may be positive, negative or zero, will be expressed in basis points and means either the spread, or the result of the operation of the formula or methodology for calculating the spread, in either case, which: (1) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or (2) (if no such recommendation has been made, or in the case of an Alternative Rate) is applied to the Successor Rate or Alternative Rate, as applicable, in the international debt capital markets (or, alternatively, the international swap markets) to produce an industry-accepted replacement reference rate for the Reference Rate; or (3) is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be).

If the Independent Advisor does not determine such Adjustment spread, the Adjustment Spread will be zero.

"**Alternative Rate**" means an alternative benchmark or screen rate which the Independent Adviser determines in accordance with § 3 (4)(b) is customary in market usage in the international debt capital markets (or, alternatively, the international swap markets) for the purposes of determining floating rates of interest (or the relevant component part thereof) in the Specified Currency.

"**Benchmark Amendments**" has the meaning given to it in § 3 (4)(d).

"Benchmark Event" means: (1) a public statement or publication of information by or on behalf of the regulatory supervisor of the Reference Rate administrator stating that said administrator has ceased or will cease to provide the Reference Rate permanently or indefinitely, unless, at the time of the statement or publication, there is a successor administrator that will continue to provide the Reference Rate; or (2) a public statement or publication of information by or on behalf of the Reference Rate administrator is made, stating that said administrator has ceased or will cease to provide the Reference Rate permanently or indefinitely, unless, at the time of the statement or publication, there is a successor administrator that will continue to provide the Reference Rate; or (3) it has become, for any reason, unlawful under any law or regulation applicable to the Fiscal Agent, any Paying Agent, the Calculation Agent, the Issuer or any other party to use the Reference Rate; or (4) the Reference Rate is permanently no longer published without a previous official announcement by the competent authority or the administrator; or (5) material change is made to the Reference Rate methodology[.]; [.]

[If the cessation of the representative quality of the Reference Rate is to be a Benchmark Event, the following applies:

or (6) a public statement by the supervisor of the Reference Rate administrator is made that, in its view, the Reference Rate is no longer representative, or will no longer be representative, of the underlying market it purports to measure and no action to remediate such a situation is taken or expected to be taken as required by the supervisor of the Reference Rate administrator.]

- (A) the Benchmark Event has occurred as a result of clauses (1) or (2) of the definition of the term "Benchmark Event", the date of cessation of publication of the Reference Rate or of the discontinuation of the Reference Rate, as the case may be; or
- (B) if the Benchmark Event has occurred as a result of clauses (4) or (5) of the definition of the term "Benchmark Event", the date of the occurrence of the Benchmark Event; or
- (C) if the Benchmark Event has occurred as a result of clause (3) of the definition of the term "Benchmark Event", the date from which the prohibition applies[.]; or
- (D) if the Benchmark Event has occurred as a result of clause (6) of the definition of the term "Benchmark Event", the date on which the statement is made.]

(i) If a Benchmark Event occurs in relation to any Successor Rate or Alternative Rate, as applicable, § 3 (3) shall apply *mutatis mutandis* to the replacement of such Successor Rate or Alternative Rate, as applicable, by any new Successor Rate or Alternative Rate, as the case may be. In this case, any reference in this § 3 (3) to the term Reference Rate shall be deemed to be a reference to the Successor Rate or Alternative Rate, as applicable, that last applied.

[In the case of Notes other than Covered Bonds insert:

- (j) No adjustment to the Reference Rate will be made in accordance with this § 3 (4) in case of a Benchmark Event if and to the extent that as a result of such adjustment the Issuer would be entitled to redeem the Notes for regulatory reasons in accordance with § 5 (3).]

Each Interest Amount shall be calculated by applying the Rate of Interest and the Day Count Fraction (as defined below) to the Specified Denomination and rounding the resultant figure, with 0.5 of such unit being rounded upwards.

[(5))(6))(7)] *Notification of Rate of Interest and Interest Amount.* The Calculation Agent will cause the Rate of Interest, each Interest Amount for each Interest Period, each Interest Period and the relevant Variable Interest Payment Date to be notified to the Issuer and to the Noteholders in accordance with § 12 as soon as possible after their determination, but in no event later than the [fourth] [number] [London] [TARGET2] [insert relevant location] Business Day (as defined in § 3 (2) thereafter and, if required by the rules of any stock exchange on which the Notes are from time to time listed, to such stock exchange, as soon as possible after their determination, but in no event later than the first day of the relevant Interest Period. Each Interest Amount and Variable Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to any stock exchange on which the Notes are then listed and to the Noteholders in accordance with § 12.

[(6))(7))(8)] *Determinations Binding.* All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this § 3 by the Calculation Agent shall (in the absence of manifest error) be binding on the Issuer, the Fiscal Agent [, the Paying Agent] and the Noteholders.

(1) *Redemption at Maturity* **[in case of Covered Bonds (Gedeckte Schuldverschreibungen) which provide for conditions for a maturity extension, insert: or the Extended Maturity Date]**. Unless previously redeemed in whole or in part or purchased and cancelled, the Notes shall be redeemed at their Final Redemption Amount on **[in the case of a specified Maturity Date insert such Maturity Date] [in the case of a Redemption Month insert: the Interest Payment Date falling on or nearest [insert last Interest Payment Date]]** (the "Maturity Date") **[in case of Covered Bonds (Gedeckte Schuldverschreibungen) which provide for conditions for a maturity extension, insert: or, in case the term of the Notes is extended in accordance with the provisions set out in § 5 (1a), on the day which is determined by the special administrator (§ 86 of the Austrian Insolvency Code) as extended maturity date (the "Extended Maturity Date")]**. The maturity extension is not at the Issuer's discretion. In the event of a maturity extension, the Issuer will redeem the Notes in whole and not in part on the Extended Maturity Date at the Final Redemption Amount together with any interest accrued to (but excluding) the Extended Maturity Date. The occurrence of the Objective Trigger Event shall be notified to the Noteholders without undue delay in accordance with § 12.

Neither the failure to pay the outstanding aggregate principal amount of the Notes on the Maturity Date nor the maturity extension shall constitute an event of default of the Issuer for any purpose or give any Noteholder any right to accelerate the Notes or to receive any payment other than as expressly set out in these Terms and Conditions.

In the event of the insolvency or resolution of the Issuer, payment obligations of the Issuer under the Covered Bonds shall not be subject to automatic acceleration and prepayment (*Insolvenzferne*). In case of insolvency proceedings, the bankruptcy court shall without undue delay appoint a special administrator to administer priority claims in relation to the principal amount and any accrued and future interest from the cover assets (special estate) (§ 86 of the Austrian Insolvency Code). The special administrator shall satisfy due claims of the Noteholders from the special estate and shall take the necessary administrative measures for this purpose with effect for the special estate, for example by collecting due mortgage claims, selling individual cover assets or by bridge financing.

Interest will accrue and be payable on the Notes for the duration of the Extension Period based on the outstanding aggregate principal amount in accordance with § 3.]

(2) *Early Redemption for Reasons of Taxation.* If as a result of any change in, or amendment to, the laws or regulations of the Republic of Austria or any political subdivision or taxing authority thereto or therein affecting taxation or the obligation to pay duties of any kind, or any change in, or amendment to, an official interpretation or application of such laws or regulations, which amendment or change is effective on or after the date on which the last Tranche of this series of Notes was issued, the Issuer is required to pay Additional Amounts (as defined in § 7 herein) on the next succeeding Interest Payment Date (as defined in § 3 (1)), and this obligation cannot be avoided by the use of reasonable measures available to the Issuer, the Notes may **[in the case of Notes which are not Covered Bonds, insert:**, upon fulfilment of the Redemption Condition[s] pursuant to § 5 [(4))(5))(6)].] be redeemed, in whole but not in part, at the option of the Issuer, upon not more than 60 days' nor less than 30 days' prior notice of redemption given to the Fiscal Agent and, in accordance with § 12 to the Noteholders, at their Early Redemption Amount (as defined below), together with interest (if any) accrued to the date fixed for redemption.

[Hinweis an die Gläubiger: die Marge für die Bestimmung des Zinsänderungssatzes entspricht der Marge, wie sie sich aus dem Ursprungszinssatz ergibt.]

"Referenzsatz" meint, vorbehaltlich § 3 (5) unten, den Ursprünglichen Benchmarksatz am **[relevante Anzahl von Tagen einfügen]** Zahltag (wie in § 4 (5) definiert) vor dem Zinsänderungstag (der "**Zinsänderungs-Festlegungstag**") um **[relevante Uhrzeit einfügen]** Uhr (**[relevantes Finanzzentrum einfügen]** Ortszeit).

"Ursprünglicher Benchmarksatz" bezeichnet den Swap-Satz für Swap-Transaktionen in der Festgelegten Währung mit einer Laufzeit von **[relevanten Zeitraum einfügen]** Jahren, wie er auf der Zinsänderungs-Homepage (wie unten definiert) angezeigt wird.

Sollte der Ursprüngliche Benchmarksatz am Zinsänderungs-Festlegungstag nicht auf der Zinsänderungs-Homepage angezeigt werden (ausgenommen in Fällen, in denen § 3 (5) anwendbar ist), so ist der Referenzsatz der Zinsänderungs-Referenzbanksatz an diesem Zinsänderungs-Festlegungstag.

"Euro-Zone" bezeichnet das Gebiet derjenigen Mitgliedstaaten der Europäischen Union, die gemäß dem Vertrag über die Gründung der Europäischen Gemeinschaft (unterzeichnet in Rom am 25. März 1957), geändert durch den Vertrag über die Europäische Union (unterzeichnet in Maastricht am 7. Februar 1992), den Amsterdamer Vertrag vom 2. Oktober 1997 und den Vertrag von Lissabon vom 13. Dezember 2007, in seiner jeweiligen Fassung, eine einheitliche Währung eingeführt haben oder jeweils eingeführt haben werden.

"Swap-Satz-Angebotssätze" bedeutet den arithmetische Mittelwert von Kauf- und Verkaufssätzen für den festverzinslichen Teil eines Zinsswap in der Festgelegten Währung, bei dem ein fester Zinssatz gegen einen variablen Zinssatz getauscht wird, der (i) eine Laufzeit von **[relevante Laufzeit einfügen]** Jahren hat, beginnend mit dem Zinsänderungstag, (ii) ein Betrag ist, der ein repräsentativer Wert für eine einzelne Transaktion im relevanten Markt zum jeweiligen Zeitpunkt mit einem anerkannten Dealer mit guter Bonität auf dem Swap-Markt ist und (iii) einen variabel verzinslichen Teil auf Basis des **[falls die Festgelegte Währung Euro ist, einfügen: [6]-Monats-[EURIBOR]][falls die Festgelegte Währung nicht Euro ist, Zahl, Laufzeit und Bezeichnung des relevanten Referenzzinssatzes einfügen]** Satzes hat.

"Zinsänderungs-Referenzbanksatz" ist der von der Berechnungsstelle festgestellte Prozentsatz, der auf Grundlage der Swap-Satz-Angebotssätze, die von **[Anzahl einfügen]** führenden Swap-Dealern im **[falls der Referenzsatz**

kein Euro Swap-Satz ist, Finanzzentrum einfügen] Interbankenmarkt **[falls der Referenzsatz ein Euro Swap-Satz ist, einfügen:** der Euro-Zone oder dem Londoner Interbankenmarkt], wie von der Emittentin ausgewählt (die "Zinsänderungs-Referenzbanken"), am Zinsänderungs-Festlegungstag gegen **[Uhrzeit einfügen]** Uhr (**[Finanzzentrum einfügen]** Ortszeit) der Berechnungsstelle gemeldet werden, festgelegt wird. Soweit zwei oder mehr Sätze mitgeteilt wurden, wird der Zinsänderungs-Referenzbanksatz auf den arithmetischen Mittelwert der Angebotsätze festgelegt (falls erforderlich, auf- oder abgerundet auf das nächste Hunderttausendstel Prozent, wobei 0,000005 aufgerundet wird), indem der höchste Angebotsatz (oder, im Falle von gleicher Höhe, einer der höchsten Angebotsätze) und der niedrigste Angebotsatz (oder, im Falle von gleicher Höhe, einer der niedrigsten) nicht berücksichtigt werden. Für den Fall, dass der Zinsänderungs-Referenzbanksatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, gilt als Zinsänderungs-Referenzbanksatz der von der Berechnungsstelle gemäß ihrem billigen Ermessen bestimmte Satz; bei der Bestimmung dieses Satzes richtet sich die Berechnungsstelle nach der üblichen Marktpraxis.

Die Berechnungsstelle wird der Emittentin, jeder Zahlstelle und jeder Börse, an der die Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an diese Börse verlangen, sowie den Anleihegläubigern gemäß § 12 sobald nach dem Zinsänderungs-Festlegungstag wie möglich den von ihr festgestellten Festgelegten Zinssatz mitteilen.]

(2) **Auflaufende Zinsen.** Der Zinslauf der Schuldverschreibungen endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, fallen auf den ausstehenden Nennbetrag der Schuldverschreibungen ab dem Fälligkeitstag (einschließlich) bis zum Tag der tatsächlichen Rückzahlung (ausschließlich) **[im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen:** (ausgenommen gemäß § 5 (1a))] Zinsen zum gesetzlich festgelegten Satz für Verzugszinsen an¹.

(3) **Berechnung der Zinsen für Teile von Zeiträumen.** Sofern Zinsen für einen Zeitraum von weniger als einem Jahr zu berechnen sind, erfolgt die Berechnung auf der Grundlage des Zinstagequotienten (wie nachstehend definiert).

(4) **Zinstagequotient.** "Zinstagequotient" bezeichnet im Hinblick auf die Berechnung eines Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der "Zinsberechnungszeitraum"):

[Im Falle von Actual/Actual (ICMA-Regelung 251) einfügen:

- (i) wenn der Zinsberechnungszeitraum gleich lang oder kürzer ist als die Feststellungsperiode, in die das Ende des Zinsberechnungszeitraumes fällt, oder ihr entspricht, die Anzahl der Tage in dem betreffenden Zinsberechnungszeitraum, geteilt durch das Produkt aus (1) der Anzahl der Tage in der Feststellungsperiode und (2) der Anzahl von Feststellungsterminen in einem Kalenderjahr; oder
- (ii) wenn der Zinsberechnungszeitraum länger ist als die Feststellungsperiode, in die das Ende des Zinsberechnungszeitraumes fällt, die Summe (A) der Anzahl der Tage in dem Zinsberechnungszeitraum, die in die Feststellungsperiode fallen, in welcher der Zinsberechnungszeitraum beginnt, geteilt durch das Produkt (1) der Anzahl der Tage in dieser Feststellungsperiode und (2) der Anzahl der Feststellungstermine in einem Kalenderjahr und (B) der Anzahl der Tage in dem Zinsberechnungszeitraum, die in die nächste Feststellungsperiode fallen, geteilt durch das Produkt (1) der Anzahl der Tage in dieser Feststellungsperiode und (2) der Anzahl der Feststellungstermine in einem Kalenderjahr.

"Feststellungsperiode" ist die Periode ab einem Feststellungstermin (einschließlich desselben) bis zum nächsten Feststellungstermin (ausschließlich desselben).

"Feststellungstermin" bezeichnet **[Feststellungstermine einfügen]** in jedem Jahr.]

[Im Fall von Actual/Actual (ISDA) einfügen: (ISDA) die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum, dividiert durch 365 (oder, falls ein Teil dieses Zinsberechnungszeitraumes in ein Schaltjahr fällt, die Summe aus (A) der tatsächlichen Anzahl der in das Schaltjahr fallenden Tage des Zinsberechnungszeitraumes dividiert durch 366 und (B) die tatsächliche Anzahl der nicht in das Schaltjahr fallenden Tage des Zinsberechnungszeitraumes dividiert durch 365.]

[Im Falle von Actual/365 (Fixed) einfügen: die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 365.]

¹ Der gesetzliche Verzugszinssatz beträgt nach deutschem Recht für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz, §§ 288 Abs 1, 247 Abs 1 BGB. Nach österreichischem Recht beträgt der allgemeine gesetzliche Verzugszinssatz für das Jahr 4 Prozentpunkte (§ 1333 iVm § 1000 ABGB), für Geldforderungen zwischen Unternehmern aus unternehmensbezogenen Geschäften für das Jahr 9,2 Prozentpunkte über dem Basiszinssatz (§ 456 UGB) im Fall eines schuldhaften Verzugs, sonst ebenfalls 4 Prozentpunkte.

[Im Falle von Actual/360 einfügen: die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 360.]

[Im Falle von 30/360, 360/360 oder Bond Basis einfügen: die Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 360, wobei die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit zwölf Monaten zu je 30 Tagen zu ermitteln ist (es sei denn, (A) der letzte Tag des Zinsberechnungszeitraums fällt auf den 31. Tag eines Monats, während der erste Tag des Zinsberechnungszeitraumes weder auf den 30. noch auf den 31. Tag eines Monats fällt, in welchem Fall der diesen Tag enthaltende Monat nicht als ein auf 30 Tage gekürzter Monat zu behandeln ist, oder (B) der letzte Tag des Zinsberechnungszeitraumes fällt auf den letzten Tag des Monats Februar, in welchem Fall der Monat Februar nicht als ein auf 30 Tage verlängerter Monat zu behandeln ist).]

[Im Falle von 30E/360 oder Eurobond Basis einfügen: die Anzahl der Tage im Zinsberechnungszeitraum dividiert durch 360 (dabei ist die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit 12 Monaten zu 30 Tagen zu ermitteln, und zwar ohne Berücksichtigung des ersten oder letzten Tages des Zinsberechnungszeitraumes), es sei denn, dass im Falle einer am Fälligkeitstag endenden Zinsperiode der Fälligkeitstag der letzte Tag des Monats Februar ist, in welchem Fall der Monat Februar als nicht auf einen Monat zu 30 Tagen verlängert gilt.]

[Im Fall von Schuldverschreibungen mit neu festzusetzendem Zinssatz einfügen:

(5) *Wegfall einer Benchmark.*

(a) *Unabhängiger Berater.* Wenn ein Benchmark Ereignis in Bezug auf den Ursprünglichen Benchmarksatz eintritt und der Festgelegte Zinssatz (oder Teile davon) noch anhand dieses Ursprünglichen Benchmarksatzes festgelegt werden muss, dann ernennt die Emittentin unter zumutbaren Bemühungen einen Unabhängigen Berater, der, sobald wie vernünftigerweise möglich, einen Nachfolgezinssatz oder anderenfalls einen Alternativzinssatz (gemäß § 3 (5)(b)) und in beiden Fällen die Anpassungsspanne (gemäß § 3 (5)(c)) festlegt und etwaige Benchmark Änderungen (gemäß § 3 (5)(d)) vornimmt.

Außer im Falle von grober Fahrlässigkeit oder Vorsatz, übernimmt der Unabhängige Berater keinerlei Haftung gegenüber der Emittentin, der Emissionsstelle, den Zahlstellen, der Berechnungsstelle oder den Anleihegläubigern für seine Festlegungen gemäß diesem § 3 (5).

Wenn, vor dem zehnten Geschäftstag vor dem relevanten Zinsänderungs-Festlegungstag, (A) die Emittentin keinen Unabhängigen Berater ernannt hat; oder (B) der ernannte Unabhängige Berater vor dem betreffenden Zinsänderungs-Festlegungstag keinen Nachfolgezinssatz oder anderenfalls keinen Alternativzinssatz gemäß diesem § 3 (5) oder die Anpassungsspanne nicht festgelegt hat und/oder die Benchmark Änderungen (sofern erforderlich) nicht festgelegt hat, ist der für die unmittelbar folgende Zinsperiode geltende Referenzsatz der Referenzsatz, der am letzten vorhergehenden Zinsänderungs-Festlegungstag galt. Wenn dieser § 3 (5)(a) am ersten Zinsänderungs-Festlegungstag vor Beginn der ersten Zinsperiode anzuwenden ist, ist der für die erste Zinsperiode geltende Referenzzinssatz [●] Prozent pro Jahr.

(b) *Nachfolgezinssatz oder Alternativzinssatz.* Im Fall, dass der Unabhängige Berater nach billigem Ermessen bestimmt, dass: (A) es einen Nachfolgezinssatz gibt, dann ist dieser Nachfolgezinssatz (vorbehaltlich einer etwaigen Anpassung gemäß § 3 (5)(c)) an Stelle des Ursprünglichen Benchmarksatzes maßgeblich, um den Festgelegten Zinssatz zu bestimmen; oder (B) es keinen Nachfolgezinssatz aber einen Alternativzinssatz gibt, dann ist dieser Alternativzinssatz (vorbehaltlich einer etwaigen Anpassung gemäß § 3 (5)(c)) an Stelle des Ursprünglichen Benchmarksatzes maßgeblich, um den Festgelegten Zinssatz zu bestimmen.

(c) *Anpassungsspanne.* Der Unabhängige Berater bestimmt nach billigem Ermessen den Betrag, die Formel oder die Methode zur Bestimmung der Anpassungsspanne, die auf den Nachfolgezinssatz oder gegebenenfalls den Alternativzinssatz anzuwenden ist, und diese Anpassungsspanne findet dann auf den Nachfolgezinssatz bzw. den Alternativzinssatz Anwendung.

(d) *Benchmark Änderungen.* Wenn ein entsprechender Nachfolgezinssatz oder Alternativzinssatz und, in jedem Fall, die Anpassungsspanne gemäß diesem § 3 (5) festgelegt wird und der Unabhängige Berater nach billigem Ermessen (A) bestimmt, dass Änderungen hinsichtlich dieser Bedingungen notwendig sind, um die ordnungsgemäße Anwendung eines Nachfolgezinssatzes oder Alternativzinssatzes und, in jedem Fall, der Anpassungsspanne zu gewährleisten (diese Änderungen, die "**Benchmark Änderungen**") und (B) die Bedingungen dieser Benchmark Änderungen bestimmt, dann gelten jene Benchmark Änderungen für die Schuldverschreibungen, vorbehaltlich einer Mitteilung durch die Emittentin gemäß § 3 (5)(e), ab dem in der Mitteilung angegebenen Zeitpunkt.

(e) *Mitteilungen, etc.* Die Emittentin hat den Nachfolgezinssatz oder Alternativzinssatz, die Anpassungsspanne und die Bedingungen von Benchmark Änderungen gemäß diesem § 3 (5) unverzüglich, aber in keinen Fall später als am zehnten Geschäftstag vor dem relevanten Zinsänderungs-Festlegungstag, der Emissionsstelle, der

Berechnungsstelle und den Zahlstellen sowie gemäß § 12 den Anleihegläubigern mitzuteilen. Eine solche Mitteilung ist unwiderruflich und hat den Tag des Inkrafttretens der Benchmark Änderung zu benennen.

Gleichzeitig mit dieser Mitteilung hat die Emittentin der Emissionsstelle einen durch zwei Unterschriftsberechtigte der Emittentin unterzeichneten Nachweis zu übergeben,

(A)

(a) der bestätigt, dass ein Benchmark Ereignis eingetreten ist,

(b) der den Nachfolgezinssatz bzw. den Alternativzinssatz benennt,

(c) der die Anpassungsspanne und/oder die Bedingungen der Benchmark Änderungen benennt (soweit erforderlich), und zwar jeweils bestimmt gemäß den Bestimmungen dieses § 3 (5),

(d) der den Tag des Inkrafttretens der Benchmark Änderung benennt, und

(B) der bestätigt, dass diese Benchmark Änderungen notwendig sind, um die ordnungsgemäße Anwendung eines solchen Nachfolgezinssatz oder Alternativzinssatz und, in jedem Fall, der Anpassungsspanne zu gewährleisten.

Der Nachfolgezinssatz oder Alternativzinssatz, die Anpassungsspanne und die Benchmark Änderungen (sofern erforderlich) sind in der Form des Nachweises (mit Ausnahme von offensichtlichen Fehlern oder Bösgläubigkeit bei der Festlegung des Nachfolgezinssatzes oder Alternativzinssatzes, der Anpassungsspanne oder der Bedingungen der Benchmark Änderungen (sofern zutreffend)) bindend für die Emittentin, die Emissionsstelle, die Berechnungsstelle, die Zahlstellen und die Anleihegläubiger.

(f) *Fortbestehen des Referenzsatzes.* Unbeschadet der Verpflichtungen der Emittentin gemäß § 3 (5)(i), (ii), (iii) und (iv) bleiben der Ursprüngliche Benchmarksatz und die Fallback-Regelungen in der Definition "Zinsänderungs-Referenzbanksatz" gemäß § 3 (1) bis zum Eintritt eines Benchmark Ereignisses anwendbar.

(g) *Definitionen.* Zur Verwendung in § 3 (5):

Die "**Anpassungsspanne**", die positiv, negativ oder Null sein kann, wird in Basispunkten ausgedrückt und bezeichnet entweder die Spanne oder das Ergebnis der Anwendung der Formel oder Methode zur Berechnung der Spanne, die, (1) im Fall eines Nachfolgezinssatzes formell im Zusammenhang mit der Ersetzung des Ursprünglichen Benchmarksatzes durch den Nachfolgezinssatz vom Nominierungsgremium empfohlen wird; oder (2) die (sofern keine Empfehlung abgegeben wurde oder im Fall eines Alternativzinssatzes) auf dem internationalen Anleihekapietmarkt (oder, alternativ, auf dem internationalen Swap-Markt) auf den Nachfolgesatz bzw. den Alternativsatz angewandt wird, um einen industrieweit akzeptierten Ersatzbenchmarksatz für den Ursprüngliche Benchmarksatz zu erzeugen; oder (3) die (falls der Unabhängigen Berater feststellt, dass keine solche Spanne üblicherweise angewendet wird) als Industriestandard für außerbörsliche Derivatgeschäfte anerkannt oder akzeptiert ist, die sich auf den Ursprünglichen Benchmarksatz beziehen, wenn dieser Satz durch den Nachfolge-Benchmarksatz oder den Alternativ-Benchmarksatz (je nach Fall) ersetzt wurde.

Wenn der Unabhängige Berater keine Anpassungsspanne bestimmt, ist die Anpassungsspanne Null.

"**Alternativzinssatz**" bezeichnet eine alternative Benchmark oder einen Bildschirmsatz welche der Unabhängige Berater gemäß § 3 (5)(b) als zur Bestimmung von variablen Zinssätzen in der Festgelegten Währung (oder entsprechenden Teilen davon) auf den internationalen Fremdkapitalmärkten (oder, alternativ, auf den internationalen Swap-Märkten) marktüblich bestimmt.

"**Benchmark Änderungen**" hat die Bedeutung wie in § 3 (5)(d) festgelegt.

"**Benchmark Ereignis**" bezeichnet: (1) eine öffentliche Erklärung oder eine Veröffentlichung von Informationen durch oder im Namen der für den Administrator des Ursprünglichen Benchmarksatzes zuständigen Aufsichtsbehörde vorgenommen wird, aus der hervorgeht, dass dieser Administrator die Bereitstellung des Ursprünglichen Benchmarksatzes dauerhaft oder auf unbestimmte Zeit eingestellt hat oder einstellen wird, es sei denn, es gibt zum Zeitpunkt der Erklärung oder der Veröffentlichung einen Nachfolgeadministrator, der den Ursprünglichen Benchmarksatz weiterhin bereitstellt; oder (2) eine öffentliche Erklärung oder eine Veröffentlichung von Informationen durch oder im Namen des Administrators des Referenzsatzes vorgenommen wird, die besagt, dass der Administrator die Bereitstellung des Ursprünglichen Benchmarksatzes dauerhaft oder auf unbestimmte Zeit eingestellt hat oder einstellen wird, es sei denn, es gibt zum Zeitpunkt der Erklärung oder der Veröffentlichung einen Nachfolgeadministrator, der den Ursprünglichen Benchmarksatz weiterhin bereitstellt; oder (3) die Verwendung des Ursprünglichen Benchmarksatzes aus irgendeinem Grund nach einem Gesetz oder einer Verordnung, die in Bezug

auf die Emissionsstelle, eine Zahlstelle, die Berechnungsstelle, die Emittentin oder jeden Dritten anwendbar sind, rechtswidrig geworden ist; oder (4) der Ursprüngliche Benchmarksatz ohne vorherige offizielle Ankündigung durch die zuständige Behörde oder den Administrator dauerhaft nicht mehr veröffentlicht wird; oder (5) eine wesentliche Änderung der Methodologie des Ursprünglichen Benchmarksatzes vorgenommen wird [;] [.]

[Falls der Wegfall der repräsentativen Eigenschaft des Ursprünglichen Benchmarksatzes ein Benchmark-Ereignis sein soll, ist Folgendes anwendbar:

oder (6) eine öffentliche Erklärung der Aufsichtsbehörde des Administrators des Ursprünglichen Benchmarksatzes veröffentlicht wird, wonach der Ursprüngliche Benchmarksatz ihrer Ansicht nach nicht mehr repräsentativ für den zugrundeliegenden Markt, den er zu messen vorgibt, ist oder sein wird, und keine von der Aufsichtsbehörde des Administrators des Ursprünglichen Benchmarksatzes geforderten Maßnahmen zur Behebung einer solchen Situation ergriffen worden sind oder zu erwarten sind.]

"Geschäftstag" bezeichnet einen Zahltag (wie in § 4 (5) definiert).

"Unabhängiger Berater" bezeichnet ein von der Emittentin ernanntes unabhängiges Finanzinstitut mit internationalem Ansehen oder einen anderen unabhängigen Finanzberater mit Erfahrung in internationalen Kapitalmärkten wie jeweils von der Emittentin gemäß § 3 (5)(a) bestimmt.

"Nominierungsgremium" bezeichnet in Bezug auf die Benchmark oder einen Bildschirmsatz: (1) die Zentralbank für die Währung in der die Benchmark oder der Bildschirmsatz dargestellt wird oder eine Zentralbank oder andere Aufsichtsbehörde, die für die Aufsicht des Administrators der Benchmark oder des Bildschirmsatzes zuständig ist; oder (2) jede Arbeitsgruppe oder Komitee gefördert durch, geführt oder mitgeführt von oder gebildet von (a) der Zentralbank für die Währung in der die Benchmark oder der Bildschirmsatz dargestellt wird, (b) einer Zentralbank oder anderen Aufsichtsbehörde, die für die Aufsicht des Administrators der Benchmark oder des Bildschirmsatzes zuständig ist, (c) einer Gruppe der zuvor genannten Zentralbanken oder anderer Aufsichtsbehörden oder (d) dem Finanzstabilitätsrat (Financial Stability Board) oder Teilen davon.

"Nachfolgezinssatz" bezeichnet einen Nachfolger oder Ersatz des Referenzsatzes, der formell durch das Nominierungsgremium empfohlen wurde.

(h) Der Tag des Inkrafttretens für die Anwendung des Nachfolgezinssatzes bzw. des gemäß diesem § 3 (5) bestimmten Alternativzinssatzes, der Anpassungsspanne und der gemäß diesem § 3 (5) bestimmten Benchmark Änderungen (falls erforderlich) (der **"Tag des Inkrafttretens der Benchmark Änderung"**) ist der Zinsänderungs-Festlegungstag, der auf den frühesten der folgenden Tage fällt oder danach liegt:

(A) wenn das Benchmark Ereignis aufgrund der Sätze (1) oder (2) der Definition des Begriffs "Benchmark Ereignis" eingetreten ist, der Tag der Einstellung der Veröffentlichung des Ursprünglichen Benchmarksatzes bzw. der Einstellung des Ursprünglichen Benchmarksatzes; oder

(B) den Tag des Eintritts des Benchmark-Ereignisses, wenn das Benchmark Ereignis aufgrund der Absätze (4) oder (5) der Definition des Begriffs "Benchmark-Ereignis" eingetreten ist; oder; oder

(C) den Tag ab dem der Ursprüngliche Benchmarksatz nicht mehr verwendet werden darf, wenn das Benchmark-Ereignis aufgrund des Absatzes (3) der Definition des Begriffs "Benchmark-Ereignis" eingetreten ist[.]; oder

(D) wenn das Benchmark Ereignis aufgrund von Satz (6) der Definition des Begriffs "Benchmark Ereignis" eingetreten ist, der Tag an dem die öffentliche Erklärung abgegeben wird.]

(i) Wenn ein Benchmark-Ereignis in Bezug auf einen Nachfolgezinssatz bzw. Alternativzinssatz eintritt, gilt § 3 (5) entsprechend für die Ersetzung dieses Nachfolgezinssatzes bzw. Alternativzinssatzes durch einen neuen Nachfolgezinssatz bzw. Alternativzinssatz. In diesem Fall gilt jeder Verweis in diesem § 3 (5) auf den Begriff Ursprünglicher Benchmarksatz als Verweis auf den Nachfolgezinssatz bzw. Alternativzinssatz, der zuletzt angewandt wurde.

[Im Fall von Schuldverschreibungen, die keine Fundierten Bankschuldverschreibungen oder Gedeckten Schuldverschreibungen sind, einfügen:

(j) Eine Anpassung des Referenzsatzes gemäß diesem § 3 (5) im Falle eines Benchmark Ereignisses darf nicht durchgeführt werden, wenn und soweit diese Anpassung dazu führen würde, dass die Emittentin berechtigt wäre, die Schuldverschreibungen aus regulatorischen Gründen gemäß § 5 (3) zurückzuzahlen.]]

§ 4 ZÄHLUNGEN

(2) *Zahlungsweise.* Vorbehaltlich geltender steuerlicher und sonstiger gesetzlicher Regelungen und Vorschriften erfolgen zu leistende Zahlungen auf die Schuldverschreibungen in der frei handelbaren und konvertierbaren Währung, die am entsprechenden Fälligkeitstag die Währung des Staates der Festgelegten Währung ist.

(3) *Vereinigte Staaten.* Für die Zwecke des **[im Fall von D Rules Schuldverschreibungen einfügen:** § 1 (3) und des] § 4 (1) bezeichnet "**Vereinigte Staaten**" die Vereinigten Staaten von Amerika (einschließlich deren Bundesstaaten und des District of Columbia) sowie deren Territorien (einschließlich Puerto Ricos, der U.S. Virgin Islands, Guam, American Samoa, Wake Island und der Northern Mariana Islands).

(5) *Zahltag.* Fällt der Fälligkeitstag einer Zahlung in Bezug auf eine Schuldverschreibung auf einen Tag, der kein Zahltag ist, dann hat der Gläubiger keinen Anspruch auf Zahlung vor dem nächsten Zahltag und ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund dieser Verspätung zu verlangen.

"**Zahltage**" bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem das Clearing System **[falls die Festgelegte Währung EUR ist, einfügen:** und TARGET2 (Trans-European Automated Realtime Cross Settlement Express Transfer System) zur Abwicklung von Zahlungen in Euro betriebsbereit ist.] **[falls die Festgelegte Währung nicht EUR ist, einfügen:** und Geschäftsbanken und Devisenmärkte in **[sämtliche relevanten Finanzzentren einfügen]** Zahlungen abwickeln].

[Im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen: Der spätestmögliche Verlängerte Fälligkeitstag ist der [Datum einfügen].] Der "Rückzahlungsbetrag" in Bezug auf jede Schuldverschreibung entspricht [[•] Prozent des] [dem] Nennbetrag[s] der Schuldverschreibungen.

[Im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen:

Die im Folgenden verwendeten definierten Begriffe gelten nur für die Absätze (1a) ff.

(1a) Bedingungen für eine Fälligkeitsverschiebung

Die Fälligkeit der Schuldverschreibungen kann bei Eintritt des Objektiven Auslösenden Ereignisses einmalig um bis zu 12 Monate bis zum Verlängerten Fälligkeitstag verschoben werden.

Das "**Objektive Auslösende Ereignis**" ist eingetreten, wenn die Fälligkeitsverschiebung in der Insolvenz der Emittentin durch den besonderen Verwalter (§ 86 österreichische Insolvenzordnung) ausgelöst wird, sofern dieser zum Zeitpunkt der Fälligkeitsverschiebung überzeugt ist, dass die Verbindlichkeiten unter den Schuldverschreibungen vollständig zum Verlängerten Fälligkeitstag bedient werden können. Die Fälligkeitsverschiebung liegt nicht im Ermessen der Emittentin. Im Fall einer Fälligkeitsverschiebung wird die Emittentin die Schuldverschreibungen insgesamt und nicht teilweise am Verlängerten Fälligkeitstag zum Rückzahlungsbetrag nebst etwaigen bis zum Verlängerten Fälligkeitstag (ausschließlich) aufgelaufenen Zinsen zurückzahlen. Der Eintritt des Objektiven Auslösenden Ereignisses sind den Gläubigern unverzüglich gemäß § 12 mitzuteilen.

Weder die Nichtzahlung des ausstehenden Gesamtnennbetrags am Fälligkeitstag noch die Fälligkeitsverschiebung stellen einen Verzugsfall der Emittentin für irgendwelche Zwecke dar oder geben einem Gläubiger das Recht, die Schuldverschreibungen zu kündigen oder andere als ausdrücklich in diesen Emissionsbedingungen vorgesehene Zahlungen zu erhalten.

Im Falle der Insolvenz oder Abwicklung der Emittentin sind Zahlungsverpflichtungen der Emittentin aus den Gedeckten Schuldverschreibungen nicht Gegenstand einer automatischen vorzeitigen Fälligkeitstellung (Insolvenzferne). Die Gläubiger haben in diesen Fällen eine vorrangige Forderung auf den Kapitalbetrag sowie etwaige aufgelaufene und künftige Zinsen aus den Deckungswerten und im Insolvenzfall darüber hinaus, soweit die zuvor genannte vorrangige Forderung nicht im vollen Umfang erfüllt werden kann, eine Insolvenzforderung gegen die Emittentin.

Die österreichische Finanzmarktaufsichtsbehörde (FMA) hat als zuständige Behörde die Emission gedeckter Schuldverschreibungen sowie die Einhaltung der Vorschriften des PfandBG zu überwachen und dabei auf das volkswirtschaftliche Interesse an einem funktionsfähigen Kapitalmarkt Bedacht zu nehmen.

Im Falle eines Konkursverfahrens hat das Konkursgericht für die Verwaltung der vorrangigen Forderungen auf den Kapitalbetrag sowie etwaige aufgelaufene und künftige Zinsen aus den Deckungswerten (Sondermasse) unverzüglich einen besonderen Verwalter zu bestellen (§ 86 österreichische Insolvenzordnung). Der besondere Verwalter hat fällige Forderungen der Gläubiger aus der Sondermasse zu erfüllen und die dafür erforderlichen Verwaltungsmaßnahmen mit Wirkung für die Sondermasse zu treffen, etwa durch Einziehung fälliger Hypothekarforderungen, Veräußerung einzelner Deckungswerte oder durch Zwischenfinanzierungen.

(1b) Zinszahlungstage.

(a) Die Schuldverschreibungen werden bezogen auf ihren Nennbetrag vom Fälligkeitstag an (einschließlich) bis zum ersten Verlängerten Zinszahlungstag (ausschließlich) und danach von jedem Verlängerten Zinszahlungstag (einschließlich) bis zum nächstfolgenden Verlängerten Zinszahlungstag (ausschließlich) verzinst. Zinsen auf die Schuldverschreibungen sind an jedem Verlängerten Zinszahlungstag zahlbar. Ab dem Verlängerten Fälligkeitstag (wie in § 5 (1) definiert) haben die Gläubiger keinen Anspruch auf weitere Zinszahlungen.

(b) "**Verlängerter Zinszahlungstag**" bedeutet

[(i) im Fall von Festgelegten Verlängerten Zinszahlungstagen einfügen: jeden [Festgelegten Verlängerten Zinszahlungstag einfügen].]

[(ii) im Fall von Festgelegten Verlängerten Zinsperioden einfügen: (soweit diese Bedingungen keine abweichenden Bestimmungen vorsehen) jeweils der Tag, der [Zahl einfügen] [Wochen] [Monate] [andere Festgelegte Verlängerte Zeiträume einfügen] nach dem vorausgehenden Verlängerten Zinszahlungstag oder im Fall des ersten Verlängerten Zinszahlungstages, nach dem Fälligkeitstag liegt.]

Jede Bezugnahme in diesen Emissionsbedingungen auf den Begriff "Zinszahlungstag" in Bezug auf eine vorzeitige Rückzahlung ist so zu verstehen, dass sie eine Bezugnahme auf den Begriff "Verlängerter Zinszahlungstag" einschließt.

(c) Fällt ein Verlängerter Zinszahlungstag auf einen Tag, der kein Geschäftstag ist, so wird der Zinszahlungstag:

[(i) bei Anwendung der Modified Following Business Day Convention einfügen: auf den nächstfolgenden Geschäftstag verschoben, es sei denn, jener würde dadurch in den nächsten Kalendermonat fallen; in diesem Fall wird der Zinszahlungstag auf den unmittelbar vorausgehenden Geschäftstag vorgezogen.]

[(ii) bei Anwendung der FRN Convention einfügen: auf den nächstfolgenden Geschäftstag verschoben, es sei denn, jener würde dadurch in den nächsten Kalendermonat fallen; in diesem Fall (i) wird der Zahlungstag auf den unmittelbar vorausgehenden Geschäftstag vorgezogen und (ii) ist jeder nachfolgende Verlängerte Zinszahlungstag der jeweils letzte Geschäftstag des Monats, der [[Zahl einfügen] Monate] [andere festgelegte Zeiträume einfügen] nach dem vorhergehenden anwendbaren Zinszahlungstag liegt.]

[(iii) bei Anwendung der Following Business Day Convention einfügen: auf den nächstfolgenden Geschäftstag verschoben.]

[(iv) bei Anwendung der Preceding Business Day Convention einfügen: auf den unmittelbar vorausgehenden Geschäftstag vorgezogen.]

Der Zinsberechnungszeitraum wird [nicht] angepasst.

(d) Verlängerte Zinszahlungstage unterliegen einer Anpassung in Übereinstimmung mit der Festsetzung des Verlängerten Fälligkeitstages durch den besonderen Verwalter (§ 86 der österreichischen Insolvenzordnung).

[Falls der Angebotssatz für Einlagen in der Festgelegten Währung EURIBOR ist, ist folgendes anwendbar:

(1c) *Verlängerter Zinssatz.* Der Zinssatz (der "**Verlängerte Zinssatz**") für jede Verlängerte Zinsperiode (wie nachfolgend definiert) ist, sofern nachfolgend nichts Abweichendes bestimmt wird und vorbehaltlich § 5 (1d), der Angebotssatz (ausgedrückt als Prozentsatz per annum) für Einlagen in der Festgelegten Währung für die jeweilige Verlängerte Zinsperiode, der auf der Bildschirmseite am Verlängerten Zinsfestlegungstag (wie nachfolgend definiert) gegen **[maßgebliche Uhrzeit einfügen]** Uhr (**[maßgebliche Zeitzone einfügen]** Ortszeit) angezeigt wird (der "**Verlängerte Referenzsatz**") [multipliziert mit einem Faktor] [und] **[im Falle einer Marge einfügen: [zuzüglich] [abzüglich] [im Fall eines Verlängerten Höchstzinssatzes einfügen: mit einem Verlängerten Höchstzinssatz von [Verlängerter Höchstzinssatz]] [im Fall eines Verlängerten Mindestzinssatzes einfügen: mit einem Verlängerten Mindestzinssatz [Verlängerter Mindestzinssatz]]** der Verlängerten Marge (wie nachfolgend definiert)], wobei alle Festlegungen durch die Berechnungsstelle (wie nachfolgend festgelegt) erfolgen.

"**Verlängerte Zinsperiode**" bezeichnet jeweils den Zeitraum vom Fälligkeitstag (einschließlich) bis zum ersten Verlängerten Zinszahlungstag (ausschließlich) bzw. von jedem Verlängerten Zinszahlungstag (einschließlich) bis zum jeweils darauffolgenden Verlängerten Zinszahlungstag (ausschließlich).

"**Verlängerter Zinsfestlegungstag**" bezeichnet den **[zutreffende andere Zahl von Tagen einfügen]** [TARGET][zutreffenden Ort einfügen] Geschäftstag vor [Beginn][Ende] der jeweiligen Verlängerten Zinsperiode. **["TARGET-Geschäftstag"** bezeichnet einen Tag, an dem TARGET geöffnet ist, um Zahlungen abzuwickeln.][**[zutreffenden Ort einfügen] Geschäftstag**" bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem Geschäftsbanken in **[zutreffenden Ort einfügen]** für Geschäfte (einschließlich Devisen- und Sortengeschäfte) geöffnet sind.]

[Die "**Verlängerte Marge**" beträgt **[Marge einfügen]** Prozent *per annum*.]

"**Bildschirmseite**" bedeutet die REUTERS Bildschirmseite "[EURIOBOR01][•]" oder jede Nachfolgeseite.

Sollte zu der genannten Zeit an dem betreffenden Verlängerten Zinsfestlegungstag die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder kein Angebotssatz angezeigt werden, ist der Verlängerte Zinssatz (vorbehaltlich § 5 (1d)) an dem Verlängerten Zinsfestlegungstag gleich dem an dem letzten Tag vor dem Verlängerten Zinsfestlegungstag, an dem dieser Verlängerte Zinssatz auf der Bildschirmseite angezeigt wurde, auf der Bildschirmseite angezeigten Verlängerten Zinssatz.]

[Falls der Zinssatz auf Basis des [maßgebliche Währung einfügen] CMS bestimmt wird, ist folgendes anwendbar:

[(1c) *Verlängerter Zinssatz.* Der Zinssatz (der "**Verlängerte Zinssatz**") für die jeweilige Verlängerte Zinsperiode (wie nachfolgend definiert) wird von der Berechnungsstelle (wie in § 6 festgelegt) gemäß folgender Formel bestimmt:

$$\frac{[\text{Min}][\text{Max}][([\text{Max}][\text{Min}](([\bullet]\text{-Jahres } [\text{maßgebliche Währung einfügen}] \text{ CMS} * [\text{Faktor einfügen}]) [-] [+]) [([\bullet]\text{-Jahres } [\text{maßgebliche Währung einfügen}] \text{ CMS} * [\text{Faktor einfügen}]) (+) [-] [\text{Verlängerte Marge einfügen}])]}{([\bullet]\text{-Jahres } [\text{maßgebliche Währung einfügen}] \text{ CMS} * [\text{Faktor einfügen}]) [-] [+]) [([\bullet]\text{-Jahres } [\text{maßgebliche Währung einfügen}] \text{ CMS} * [\text{Faktor einfügen}]) (+) [-] [\text{Marge einfügen}])}; ([[\bullet]\text{-Jahres } [\text{maßgebliche Währung einfügen}] \text{ CMS} * [\text{Faktor einfügen}]) [-] [+]) [([\bullet]\text{-Jahres } [\text{maßgebliche Währung einfügen}] \text{ CMS} * [\text{Faktor einfügen}]) (+) [-] [\text{Verlängerte Marge einfügen}])}$$

"**[maßgebliche Währung einfügen] CMS**" ist, vorbehaltlich § 5 (1d), der als Zinssatz *per annum* ausgedrückte Swap-Satz für **[maßgebliche Währung einfügen]** denominated Swap Transaktionen mit der oben aufgeführten Formel angegebenen Laufzeit von Jahren, der auf der Bildschirmseite (wie nachfolgend definiert) am Verlängerten Zinsfestlegungstag (wie nachfolgend definiert) unter der Bildüberschrift "**[maßgebliche Bildüberschrift einfügen]**" und über der Spalte "**[Uhrzeit und maßgebliche Zeitzone einfügen]**" gegen **[maßgebliche Uhrzeit einfügen]** Uhr (**[relevante Zeitzone einfügen]** Ortszeit) angezeigt wird (jeder solche **[•]-Jahres [maßgebliche Währung einfügen]** CMS ein "**Verlängerter Referenzsatz**"), wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

"**Verlängerte Zinsperiode**" bezeichnet jeweils den Zeitraum vom Fälligkeitstag (einschließlich) bis zum ersten Verlängerten Zinszahlungstag (ausschließlich) bzw. von jedem Verlängerten Zinszahlungstag (einschließlich) bis zum jeweils darauf folgenden Verlängerten Zinszahlungstag (ausschließlich). Wenn der Verlängerte Zinszahlungstag kein Geschäftstag ist, wird die Zinsperiode **[gemäß § 5 (1b)(c) angepasst]** **[nicht angepasst]**.

"**Verlängerter Zinsfestlegungstag**" bezeichnet den **[Anzahl] [TARGET][zutreffenden Ort einfügen]** Geschäftstag (wie nachstehend definiert) vor **[Beginn][Ende]** der jeweiligen Verlängerter Zinsperiode.

Die "**Verlängerte Marge**" beträgt **[Marge einfügen]** Prozent *per annum*.

"**[TARGET-Geschäftstag]**" bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem TARGET2 (Trans-European Automated Real-time Gross Settlement Express Transfer System) Zahlungen abwickelt.]"**[zutreffenden Ort einfügen] Geschäftstag**" bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem Geschäftsbanken in **[London] [zutreffenden Ort einfügen]** für Geschäfte (einschließlich Devisen- und Sortengeschäfte) geöffnet sind.)

"**Bildschirmseite**" bedeutet **[Bildschirmseite]** oder jede Nachfolgeseite.

Hat die Bildschirmseite dauerhaft aufgehört, den jeweiligen **[relevante Währung einfügen]** CMS anzugeben, ist diese Quotierung jedoch auf einer anderen von der Berechnungsstelle nach billigem Ermessen ausgewählten Bildschirmseite verfügbar (die "**Ersatzbildschirmseite**"), wird die Ersatzbildschirmseite zum Zweck der Berechnung des Verlängerten Zinssatzes eingesetzt.

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird der jeweils maßgebliche **[relevante Währung einfügen]** CMS nicht angezeigt (in jedem dieser Fälle zu der genannten Zeit) und ist nach Feststellung der Berechnungsstelle keine Ersatzbildschirmseite verfügbar, wird die Berechnungsstelle von den Referenzbanken das arithmetische Mittel der Geld- und Briefkurse für die festverzinsliche Seite eines Euro Zinsswaps für die maßgebliche Laufzeit in einer Höhe, die repräsentativ für eine einzelne Swap Transaktion im Markt für Swaps ist (jeweils als Prozentsatz *per annum* ausgedrückt), gegenüber einem anerkannten Dealer in Swaps im Markt für Swaps um ca. **[Uhrzeit einfügen]** Uhr (**[relevante Zeitzone einfügen]** Ortszeit) am Verlängerten Zinsfestlegungstag anfordern.

Falls drei oder mehr Referenzbanken der Berechnungsstelle solche Quotierungen nennen, ist der **[relevante Währung einfügen]** CMS für die betreffende Verlängerte Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet) dieser Quotierungen, wobei die höchste bzw. eine der höchsten Quotierungen bei identischen Quotierungen und die niedrigste Quotierung bzw. eine der niedrigsten Quotierungen bei identischen Quotierungen nicht mitgezählt werden, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls nur zwei oder weniger Referenzbanken der Berechnungsstelle solche Quotierung nennen, so ist der [relevante Währung einfügen] CMS für diese Verlängerte Zinsperiode der Satz, wie er auf der Bildschirmseite an dem letzten Tag vor dem jeweiligen Verlängerten Zinsfestlegungstag, an dem dieser Satz noch angezeigt wurde, angezeigt worden ist.

"Referenzbanken" bezeichnet [relevante Zahl einfügen] führende Swap- Dealer im [relevantes Finanzzentrum einfügen] Interbankenmarkt.]

[Falls der Angebotssatz für Einlagen in der Festgelegten Währung SONIA ist, ist folgendes anwendbar:

(1c) *Verlängerter Zinssatz*. Der Zinssatz ("**Verlängerter Zinssatz**") für jede Verlängerten Zinsperiode (wie nachstehend definiert) ist, sofern nachstehend nichts Abweichendes bestimmt, ist der Zusammengesetzte Tägliche SONIA (wie nachstehend definiert), wobei ein Durchschnittskurs für die relevante Verlängerte Zinsperiode gemäß der unten dargestellten Formel am Verlängerten Zinsfestlegungstag (wie nachstehend definiert) berechnet wird [**im Falle einer Verlängerten Marge ist folgendes anwendbar:** [zuzüglich] [abzüglich] der Verlängerten Marge (wie nachstehend definiert)]. Die Feststellung des Verlängerten Zinssatzes erfolgt durch die Berechnungsstelle.

"**Verlängerte Zinsperiode**" bezeichnet jeweils den Zeitraum ab dem Fälligkeitstag (einschließlich) bis zum ersten Verlängerten Zinszahlungstag (ausschließlich) bzw. ab jedem Verlängerten Zinszahlungstag (einschließlich) bis zum jeweils darauffolgenden Verlängerten Zinszahlungstag (ausschließlich).

"**Verlängerte Zinsfestlegungstag**" bezeichnet den [5.] [**Zahl**] Londoner Geschäftstag vor dem Verlängerten Zinszahlungstag für die jeweilige Verlängerte Referenzperiode (oder den [fünften] [**Anzahl**] Londoner Geschäftstage vor einem etwaig für die Rückzahlung festgesetzten Tag).

"**SONIA Referenzsatz**" bezeichnet, bezüglich eines Londoner Geschäftstags, einen Referenzsatz gleich des SONIA Satzes für diesen Londoner Geschäftstag, wie er vom Administrator von SONIA an autorisierte Stellen übermittelt und auf der Bildschirmseite veröffentlicht wurde oder, sofern die Bildschirmseite nicht verfügbar ist, wie er anderweitig durch autorisierte Stellen (am auf diesen Londoner Geschäftstag folgenden Londoner Geschäftstag veröffentlicht wurde).

"**Zusammengesetzter Täglicher SONIA**" bezeichnet den nach der Zinsformel zu berechnenden Renditesatz einer Anlage (mit dem SONIA Referenzsatz als Referenzsatz zur Zinsberechnung) und wird von der Berechnungsstelle am Verlängerten Zinsfestlegungstag wie folgt berechnet, wobei der daraus resultierende Prozentsatz, sofern notwendig, auf fünf Dezimalstellen gerundet wird und 0,000005% aufgerundet werden:

[Wenn SONIA mit einem Zurückblickenden Beobachtungszeitraum bestimmt wird oder 'Ausschließen' anwendbar ist:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{SONIA}_{i-\text{PLGT}} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

Wobei gilt:

"d"	bezeichnet die Anzahl der Kalendertage in der jeweiligen Referenzperiode.
"d _o "	bezeichnet die Anzahl der Londoner Geschäftstage in der jeweiligen Referenzperiode.

"Referenzperiode"	bezeichnet die Verlängerte Zinsperiode.
"SONIA _{i-pLGT} "	bezeichnet, in Bezug auf einen Londoner Geschäftstag, der in die jeweilige Referenzperiode fällt, [wenn 'Nachlauf' anwendbar ist, folgendes einfügen: den SONIA Referenzsatz für den Londoner Geschäftstag, der 'p' Londoner Geschäftstage vor dem jeweiligen Londoner Geschäftstag 'i' liegt] [wenn 'Ausschließen' anwendbar ist, folgendes einfügen: der SONIA Referenzsatz für jeden Londoner Geschäftstag "i", der in die jeweilige Referenzperiode fällt, mit der Ausnahme, dass in Bezug auf jeden Londoner Geschäftstag "i", der auf oder nach [5] [Zahl] Londoner Geschäftstage vor jedem relevanten Verlängerten Zinszahlungstag bis zum Ende der jeweiligen Referenzperiode der SONIA-Referenzsatz für den Londoner Geschäftstag, der "p" Londoner Geschäftstag vor diesem Tag liegt].
"Zurückblickender Beobachtungszeitraum"	bezeichnet [5] [Zahl] Londoner Geschäftstage.
"p"	bezeichnet für jede Verlängerte Referenzperiode die Anzahl der Londoner Geschäftstage, die in dem Zurückblickenden Beobachtungszeitraum (wie nachstehend definiert) enthalten sind.]

[Wenn SONIA mit einer verschobenen Referenzperiode bestimmt wird:

"Referenzperiode"	bezeichnet den Zeitraum ab dem Tag, der [5] [Zahl] Londoner Geschäftstage vor dem ersten Tag der relevanten Verlängerten Zinsperiode (wobei die erste Verlängerte Zinsperiode am Fälligkeitstag (einschließlich) beginnt) und an dem Tag endet (ausschließlich), der [5] [Zahl] Londoner Geschäftstage vor dem Verlängerten Zinszahlungstag für eine solche Verlängerte Zinsperiode liegt (oder an dem fünften Londoner Geschäftstag vor einem etwaig für die Rückzahlung festgesetzten Tag).]
"SONIA _i "	bezeichnet den SONIA Referenzsatz für jeden Londoner Geschäftstag 'i' in der relevanten Referenzperiode (veröffentlicht an dem Londoner Geschäftstag, der diesem Londoner Geschäftstag unmittelbar folgt).

Sollte die Bildschirmseite in Bezug auf einen Londoner Geschäftstag nicht zur Verfügung stehen, ist der SONIA Referenzsatz: (i) der Zinssatz der Bank of England (der "**Einlagenzinssatz**"), der bei Geschäftsschluss am maßgeblichen Verlängerten Zinsfestlegungstag gilt; plus (ii) der Mittelwert der Zinsspannen von SONIA zum Einlagenzinssatz der letzten fünf Tage, an denen SONIA veröffentlicht wurde, mit Ausnahme der höchsten Zinsspanne (oder, wenn es mehr als eine höchste Zinsspanne gibt, nur eine dieser höchsten Zinsspannen) und der niedrigsten Zinsspanne (oder, wenn es mehr als eine niedrigste Zinsspanne gibt, nur eine dieser niedrigsten Zinsspannen) zum Einlagenzinssatz oder, sofern der Einlagenzinssatz nicht bis Geschäftsschluss am maßgeblichen Verlängerten Zinsfestlegungstag durch die Bank of England veröffentlicht wurde, der SONIA Referenzsatz, der am letzten vorangegangenen Londoner Geschäftstag auf der Bildschirmseite (oder anderweitig durch autorisierte Stellen) veröffentlicht wurde, an dem der SONIA Referenzsatz auf der Bildschirmseite (oder anderweitig durch autorisierte Stellen) veröffentlicht wurde.

Ungeachtet des vorstehenden Absatzes wird die Berechnungsstelle, wenn die Bank of England Leitlinien veröffentlicht, wie (i) der SONIA Referenzsatz zu bestimmen ist oder (ii) jeder Zinssatz, der den SONIA Referenzsatz ersetzen soll,

soweit dies vernünftigerweise durchführbar ist, diese Leitlinien befolgen, um SONIA für die Zwecke der Schuldverschreibungen zu bestimmen, solange der SONIA Referenzsatz nicht verfügbar ist oder von den autorisierten Stellen nicht veröffentlicht wurde.

Für den Fall, dass der Verlängerte Zinssatz nicht gemäß den vorstehenden Bestimmungen von der Berechnungsstelle bestimmt werden kann, soll der Verlängerte Zinssatz (i) derjenige des letzten vorangegangenen Verlängerten Zinsfestlegungstages sein oder, (ii) wenn es keinen solchen vorangegangenen Verlängerten Zinsfestlegungstag gibt, der anfängliche Verlängerte Zinssatz sein, der für solche Schuldverschreibungen für die erste Verlängerte Zinsperiode anwendbar gewesen wäre, wären die Schuldverschreibungen für einen Zeitraum von gleicher Dauer wie die erste Verlängerte Zinsperiode bis zum Fälligkeitstag (ausschließlich) begeben worden.

Die Festlegung des Verlängerten Zinssatzes gemäß den vorstehenden Absätzen erfolgt durch die Berechnungsstelle.]

[Falls der Angebotssatz für Einlagen in der Festgelegten Währung SOFR ist, ist folgendes anwendbar:

"Zusammengesetzter Täglicher SOFR" bezeichnet den nach der Zinseszinsformel zu berechnenden Renditesatz einer Anlage (mit der 'US-Dollar Overnight Extended Reference Rate' als Referenzsatz zur Zinsberechnung) und wird von der Berechnungsstelle am Verlängerten Zinsfestlegungstag wie folgt berechnet, wobei der daraus resultierende Prozentsatz, sofern notwendig, auf fünf Dezimalstellen gerundet wird und 0,000005% aufgerundet werden:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{SOFR}_{i-\text{pUSGT}} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

Sollte SOFR nicht zur Verfügung stehen oder wird zu der genannten Zeit kein Referenzsatz angezeigt, gilt (1) sofern die Emittentin der Berechnungsstelle nicht bestätigt hat, dass sowohl ein SOFR Index Einstellungsereignis (wie nachstehend definiert) als auch ein SOFR Index Einstellungsstichtag (wie nachstehend definiert) vorliegt, der SOFR des letzten US Staatsanleihen Geschäftstags, an dem der SOFR veröffentlicht wurde; oder (2) wenn die Emittentin der Berechnungsstelle bestätigt hat, dass sowohl ein SOFR Index Einstellungsereignis als auch ein SOFR Index Einstellungsstichtag vorliegt, der Zinssatz (einschließlich etwaiger Zinsspannen oder Anpassungen), der als Ersatz für den SOFR vom Federal Reserve Board und/oder der Federal Reserve Bank of New York oder einem Ausschuss festgelegt, der vom Federal Reserve Board und/oder der Federal Reserve Bank of New York offiziell eingesetzt oder einberufen wurde, um einen Ersatz für den SOFR (der von einer Federal Reserve Bank oder einer anderen zuständigen Behörde festgelegt werden kann) vorzugeben und der Berechnungsstelle durch die Emittentin mitgeteilt wurde. Wird der Berechnungsstelle kein solcher Zinssatz innerhalb eines US Staatsanleihen Geschäftstags nach dem SOFR Index Einstellungsstichtag von der Emittentin als empfohlen mitgeteilt, wird der Zinssatz für jeden Verlängerten Zinsfestlegungstag an oder nach dem SOFR Index Einstellungsstichtag bestimmt, als ob (i) Bezugnahmen auf SOFR Bezugnahmen auf OBFR (wie nachstehend definiert) wären, (ii) Bezugnahmen auf US Staatsanleihen Geschäftstage Bezugnahmen auf New York Geschäftstage wären, (iii) Bezugnahmen auf SOFR Index Einstellungsereignisse Bezugnahmen auf OBFR Index Einstellungsereignisse (wie nachstehend definiert) wären und (iv) Bezugnahmen auf SOFR Index Einstellungsstichtage Bezugnahmen auf OBFR Index Einstellungsstichtage (wie nachstehend definiert) wären. Wird der Berechnungsstelle kein solcher Zinssatz durch die Emittentin innerhalb eines US Staatsanleihen Geschäftstags nach dem SOFR Index Einstellungsstichtag als empfohlen mitgeteilt und liegt ein OBFR Index Einstellungsstichtag vor, wird der Zinssatz für jeden Verlängerten Zinsfestlegungstag an oder nach dem SOFR Index Einstellungsstichtag bestimmt, als ob (x) Bezugnahmen auf den SOFR Bezugnahmen auf die FOMC Target Rate wären und (y) Verweise auf US Staatsanleihen Geschäftstage Verweise auf New York Geschäftstage wären.

"OBFR Index Einstellungsstichtag" bezeichnet in Bezug auf das OBFR Index Einstellungsereignis den Zeitpunkt, an dem die Federal Reserve Bank of New York (oder eines Nachfolgeadministrators der OBFR) die OBFR nicht mehr veröffentlicht oder der Zeitpunkt, ab dem die OBFR nicht mehr genutzt werden kann.

"OBFR Index Einstellungsereignis" bedeutet den Eintritt eines oder mehrerer der folgenden Ereignisse: (a) eine öffentliche Erklärung der Federal Reserve Bank of New York (oder eines Nachfolgeadministrators der OBFR), die ankündigt, dass sie dauerhaft oder auf unbestimmte Zeit die OBFR nicht mehr bestimmt oder bestimmen wird, vorausgesetzt, dass zu dieser Zeit kein Nachfolgeadministrator existiert, der weiterhin eine OBFR zur Verfügung stellt; oder (b) die Veröffentlichung von Informationen, welche hinreichend bestätigt, dass die Federal Reserve Bank of New York (oder ein Nachfolgeadministrator der OBFR) dauerhaft oder auf unbestimmte Zeit die OBFR nicht mehr bestimmt oder bestimmen wird, vorausgesetzt, dass zu dieser Zeit kein Nachfolgeadministrator existiert, der weiterhin eine OBFR zur Verfügung stellt; oder (c) eine öffentliche Erklärung durch eine US Regulierungsbehörde oder eine andere öffentliche Stelle der USA, welche die Anwendung der OBFR, die auf alle Swapgeschäfte (bestehende inbegriffen), anwendbar ist, ohne auf diese begrenzt zu sein, verbietet.

Die Festlegung des Verlängerten Zinssatzes gemäß den vorstehenden Absätzen erfolgt durch die Berechnungsstelle.]

[Falls der Zinssatz unter Bezugnahme auf einen anderen Zinssatz als SONIA oder SOFR berechnet wird:

(1d) *Wegfall einer Benchmark.*

[Im Fall von Schuldverschreibungen mit Zinsanpassung:

§ 3 (5) (Wegfall des Referenzsatzes) gilt sinngemäß für die Bestimmung des Erweiterten Referenzsatzes, mit der folgenden Maßgabe:

'Zinsperiode' ist zu lesen als Bezugnahme auf die 'Verlängerte Zinsperiode',

'Ursprünglicher Referenzsatz' ist zu lesen als Bezugnahme auf den 'Verlängerten Referenzsatz',

'Angepasster Zinssatz' ist zu lesen als Bezugnahme auf den 'Verlängerten Zinssatz'.

[Im Fall von Schuldverschreibungen ohne Zinsanpassung:

- (a) *Unabhängiger Berater.* Wenn ein Benchmark Ereignis in Bezug auf einen Verlängerten Referenzsatz eintritt und ein Verlängerter Zinssatz (oder Teile davon) für eine Verlängerte Zinsperiode noch anhand dieses Verlängerten Referenzsatzes festgelegt werden muss, dann ernennt die Emittentin unter zumutbaren Bemühungen einen Unabhängigen Berater, der, sobald wie vernünftigerweise möglich, einen Nachfolgezinssatz oder anderenfalls einen Alternativzinssatz (gemäß § 5 (1d)(b)) und in beiden Fällen die Anpassungsspanne (gemäß § 5 (1d)(c)) festlegt und etwaige Benchmark Änderungen (gemäß § 5 (1d)(d)) vornimmt.

Außer im Falle von grober Fahrlässigkeit oder Vorsatz, übernimmt der Unabhängige Berater keinerlei Haftung gegenüber der Emittentin, der Emissionsstelle, den Zahlstellen, der Berechnungsstelle oder den Anleihegläubigern für seine Festlegungen gemäß diesem § 5 (1d).

Wenn, vor dem zehnten Geschäftstag vor dem relevanten Verlängerten Zinsfestlegungstag, (A) die Emittentin keinen Unabhängigen Berater ernannt hat; oder (B) der ernannte Unabhängige Berater keinen Nachfolgezinssatz oder anderenfalls keinen Alternativzinssatz gemäß diesem § 5 (1d) festgelegt hat oder die Anpassungsspanne nicht festgelegt hat und/oder die Benchmark Änderungen (sofern erforderlich) nicht festgelegt hat, ist der für die unmittelbar folgende Verlängerte Zinsperiode geltende Verlängerte Referenzsatz der Verlängerte Referenzsatz, der am letzten vorhergehenden Verlängerten Zinsfestlegungstag galt. Wenn dieser § 5 (1d)(a) am ersten Verlängerten Zinsfestlegungstag vor Beginn der ersten Verlängerten Zinsperiode anzuwenden ist, ist der für die erste Zinsperiode geltende Referenzzinssatz [●] Prozent pro Jahr.

- (b) *Nachfolgezinssatz oder Alternativzinssatz.* Im Fall, dass der Unabhängige Berater nach billigem Ermessen bestimmt, dass: (A) es einen Nachfolgezinssatz gibt, dann ist dieser Nachfolgezinssatz (vorbehaltlich einer etwaigen Anpassung gemäß § 5 (1d)(c) an Stelle des Verlängerten Referenzsatzes maßgeblich, um den Verlängerten Zinssatz für diese Verlängerte Zinsperiode und alle folgenden Verlängerten Zinsperioden vorbehaltlich der weiteren Anwendbarkeit dieses § 5 (1d) zu bestimmen; oder (B) es keinen Nachfolgezinssatz aber einen Alternativzinssatz gibt, dann ist dieser Alternativzinssatz (vorbehaltlich einer etwaigen Anpassung gemäß § 5 (1d)(c)) an Stelle des Verlängerten Referenzsatzes maßgeblich, um den Verlängerten Zinssatz für diese Verlängerte Zinsperiode und alle folgenden Verlängerten Zinsperioden vorbehaltlich der weiteren Anwendbarkeit dieses § 5 (1d) zu bestimmen.
- (c) *Anpassungsspanne.* Der Unabhängige Berater bestimmt nach billigem Ermessen den Betrag, die Formel oder die Methode zur Bestimmung der Anpassungsspanne, die auf den Nachfolgezinssatz oder gegebenenfalls den Alternativzinssatz anzuwenden ist, und diese Anpassungsspanne findet dann auf den Nachfolgezinssatz bzw. den Alternativzinssatz Anwendung.
- (d) *Benchmark Änderungen.* Wenn ein entsprechender Nachfolgezinssatz oder Alternativzinssatz und, in jedem Fall, die entsprechende Anpassungsspanne gemäß diesem § 5 (1d) festgelegt wird und der Unabhängige Berater nach billigem Ermessen (A) bestimmt, dass Änderungen hinsichtlich dieser Bedingungen notwendig sind, um die ordnungsgemäße Anwendung eines Nachfolgezinssatzes oder Alternativzinssatzes und, in jedem Fall, der Anpassungsspanne zu gewährleisten (diese Änderungen, die "**Benchmark Änderungen**") und (B) die Bedingungen dieser Benchmark Änderungen bestimmt, dann gelten jene Benchmark Änderungen für die Schuldverschreibungen, vorbehaltlich einer Mitteilung durch die Emittentin gemäß § 5 (1d)(e), ab dem in der Mitteilung angegebenen Zeitpunkt.
- (e) *Mitteilungen, etc.* Die Emittentin hat den Nachfolgezinssatz oder Alternativzinssatz, die Anpassungsspanne und die Bedingungen von Benchmark Änderungen gemäß diesem § 5 (1d) unverzüglich, aber in keinen Fall später als am zehnten Geschäftstag vor dem relevanten Verlängerten Zinsfestlegungstag, der Emissionsstelle, der Berechnungsstelle und den Zahlstellen sowie gemäß § 12 den Anleihegläubigern mitzuteilen. Eine solche Mitteilung ist unwiderruflich und hat den Tag des Inkrafttretens der Benchmark Änderung zu benennen.

Gleichzeitig mit dieser Mitteilung hat die Emittentin der Emissionsstelle einen durch zwei Unterschriftsberechtigte der Emittentin unterzeichneten Nachweis zu übergeben,

(A)

- (a) der bestätigt, dass ein Benchmark Ereignis eingetreten ist,
- (b) der den Nachfolgezinssatz bzw. den Alternativzinssatz benennt,
- (c) der die Anpassungsspanne und/oder die Bedingungen der Benchmark Änderungen benennt (soweit erforderlich), und zwar jeweils bestimmt gemäß den Bestimmungen dieses § 5 (1d),

(d) der den Tag des Inkrafttretens der Benchmark Änderung benennt, und

(B) der bestätigt, dass diese Benchmark Änderungen notwendig sind, um die ordnungsgemäße Anwendung eines solchen Nachfolgezinssatz oder Alternativzinssatz und, in jedem Fall, der Anpassungsspanne zu gewährleisten.

Der Nachfolgezinssatz oder Alternativzinssatz, die Anpassungsspanne und die Benchmark Änderungen (sofern erforderlich) sind in der Form des Nachweises (mit Ausnahme von offensichtlichen Fehlern oder Bösgläubigkeit bei der Festlegung des Nachfolgezinssatzes oder Alternativzinssatzes, der Anpassungsspanne oder der Bedingungen der Benchmark Änderungen (sofern zutreffend)) bindend für die Emittentin, die Emissionsstelle, die Berechnungsstelle, die Zahlstellen und die Anleihegläubiger.

(f) *Fortbestehen des Verlängerten Referenzsatzes.* Unbeschadet der Verpflichtungen der Emittentin gemäß § 5 (1d)(a), (b), (c) und (d) bleiben der Verlängerte Referenzsatz und die Fallback-Regelungen in der Definition "Bildschirmseite" gemäß § 5 (1c) bis zum Eintritt eines Benchmark Ereignisses anwendbar.

(g) *Definitionen.* Zur Verwendung in § 5 (1d):

Die "**Anpassungsspanne**", die positiv, negativ oder Null sein kann, wird in Basispunkten ausgedrückt und bezeichnet entweder die Spanne oder das Ergebnis der Anwendung der Formel oder Methode zur Berechnung der Spanne, die, (1) im Fall eines Nachfolgezinssatzes formell im Zusammenhang mit der Ersetzung des Verlängerten Referenzsatzes durch den Nachfolgezinssatz vom Nominierungsgremium empfohlen wird; oder (2) die (sofern keine Empfehlung abgegeben wurde oder im Fall eines Alternativzinssatzes) auf dem internationalen Anleihekapitalmarkt (oder, alternativ, auf dem internationalen Swap-Markt) auf den Nachfolgesatz bzw. den Alternativsatz angewandt wird, um einen industrieweit akzeptierten Ersatzbenchmarksatz für den Verlängerten Referenzsatz zu erzeugen; oder (3) die (falls der Unabhängigen Berater feststellt, dass keine solche Spanne üblicherweise angewendet wird) als Industriestandard für außerbörsliche Derivatgeschäfte anerkannt oder akzeptiert ist, die sich auf den ursprünglichen Benchmarksatz beziehen, wenn dieser Satz durch den Verlängerten Referenzsatz oder den Alternativ-Benchmarksatz (je nach Fall) ersetzt wurde.

Wenn der Unabhängige Berater keine Anpassungsspanne bestimmt, ist die Anpassungsspanne Null.

"**Alternativzinssatz**" bezeichnet eine alternative Benchmark oder einen Bildschirmsatz welche der Unabhängige Berater gemäß § 5 (1d)(b) als zur Bestimmung von variablen Zinssätzen in der Festgelegten Währung (oder entsprechenden Teilen davon) auf den internationalen Fremdkapitalmärkten (oder, alternativ, auf den internationalen Swap-Märkten) marktüblich bestimmt.

[Falls der Wegfall der repräsentativen Eigenschaft des Verlängerten Referenzsatzes ein Benchmark-Ereignis sein soll, ist Folgendes anwendbar:

oder (6) eine öffentliche Erklärung der Aufsichtsbehörde des Administrators des Verlängerten Referenzsatzes veröffentlicht wird, wonach der Verlängerte Referenzsatz ihrer Ansicht nach nicht mehr repräsentativ für den zugrundeliegenden Markt, den er zu messen vorgibt, ist oder sein wird, und keine von der Aufsichtsbehörde des Administrators des Verlängerten Referenzsatzes geforderten Maßnahmen zur Behebung einer solchen Situation ergriffen worden sind oder zu erwarten sind.]

"**Geschäftstag**" bezeichnet einen Zahltag (wie in § 4(5) definiert).

"**Unabhängiger Berater**" bezeichnet ein von der Emittentin ernanntes unabhängiges Finanzinstitut mit internationalem Ansehen oder einen anderen unabhängigen Finanzberater mit Erfahrung in internationalen Kapitalmärkten wie jeweils von der Emittentin gemäß § 5 (1d)(a) bestimmt.

"**Nachfolgezinssatz**" bezeichnet einen Nachfolger oder Ersatz des Verlängerten Referenzsatzes, der formell durch das Nominierungsgremium empfohlen wurde.

- (h) Der Tag des Inkrafttretens für die Anwendung des Nachfolgezinssatzes bzw. des gemäß diesem § 5 (1d) bestimmten Alternativzinssatzes, der Anpassungsspanne und der gemäß diesem § 5 (1d) bestimmten Benchmark Änderungen (falls erforderlich) (der "**Tag des Inkrafttretens der Benchmark Änderung**") ist der Verlängerte Zinsfestlegungstag, der auf den frühesten der folgenden Tage fällt oder danach liegt:
- (A) wenn das Benchmark Ereignis aufgrund der Sätze (1) oder (2) der Definition des Begriffs "Benchmark Ereignis" eingetreten ist, der Tag der Einstellung der Veröffentlichung des Verlängerten Referenzsatzes bzw. der Einstellung des Verlängerten Referenzsatzes; oder

(a) die Emittentin die Schuldverschreibungen durch Eigenmittelinstrumente oder Instrumente berücksichtigungsfähiger Verbindlichkeiten gleicher oder höherer Qualität zu Bedingungen ersetzt, die im Hinblick auf die Ertragsmöglichkeiten der BAWAG MREL-Gruppe und/oder (gegebenenfalls) der Emittentin nachhaltig sind; oder

- (b) die Emittentin der Abwicklungsbehörde hinreichend nachgewiesen hat, dass die Eigenmittel und berücksichtigungsfähigen Verbindlichkeiten der BAWAG MREL-Gruppe und/oder (gegebenenfalls) der Emittentin nach einer solchen vorzeitigen Rückzahlung oder einem Rückkauf die Anforderungen an Eigenmittel und berücksichtigungsfähige Verbindlichkeiten um eine Spanne übersteigen, welche die Abwicklungsbehörde Behörde im Einvernehmen mit der Zuständigen Behörde im betreffenden Zeitpunkt für erforderlich hält; oder
- (c) die Emittentin der Abwicklungsbehörde hinreichend nachgewiesen hat, dass die teilweise oder vollständige Ersetzung der berücksichtigungsfähigen Verbindlichkeiten durch Eigenmittelinstrumente erforderlich ist, um die Einhaltung der Eigenmittelanforderungen gemäß der CRR und der CRD zum Zwecke einer dauerhaften Zulassung zu gewährleisten.

"Abwicklungsbehörde" bezeichnet die zuständige Behörde gemäß § 2 Nr. 18 iVm. § 3 (1) BaSAG, die für eine Abwicklung BAWAG MREL-Gruppe und/oder (gegebenenfalls) der Emittentin verantwortlich ist.

§ 7 STEUERN

(1) Alle auf die Schuldverschreibungen zahlbaren Kapital- oder Zinsbeträge sind ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Republik Österreich oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde der oder in der Republik Österreich auferlegt oder erhoben werden, es sei denn, dieser Einbehalt oder Abzug ist gesetzlich vorgeschrieben. In diesem Fall wird die Emittentin diejenigen zusätzlichen Beträge (die "**zusätzlichen Beträge**") zahlen, die erforderlich sind, damit die den Gläubigern zufließenden Nettobeträge nach diesem Einbehalt oder Abzug jeweils den Beträgen von Kapital und Zinsen entsprechen, die ohne einen solchen Abzug oder Einbehalt von den Gläubigern empfangen worden wären **[im Fall von Nicht-Nachrangigen Präferierten Schuldverschreibungen, Nicht-Nachrangigen Nicht-Präferierten Schuldverschreibungen und Nachrangigen Schuldverschreibungen einfügen:** wobei zusätzliche Beträge Zinsen, nicht aber Kapital umfassen]; die Verpflichtung zur Zahlung solcher zusätzlichen Beträge besteht jedoch nicht im Hinblick auf Steuern und Abgaben, die:

(a) von einer als Depotbank oder Inkassobeauftragter des Gläubigers handelnden Person oder sonst auf andere Weise zu entrichten sind als dadurch, dass die Emittentin aus den von ihm zu leistenden Zahlungen von Kapital oder Zinsen einen Einbehalt oder Abzug vornimmt; oder

- (b) wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Gläubigers zu der Republik Österreich zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Republik Österreich stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
- (c) aufgrund (i) Verordnungen oder Richtlinien der Europäischen Union betreffend die Besteuerung von Zinserträgen, oder (ii) internationaler Verträge oder Übereinkommen der Europäischen Union oder der Republik Österreich bezüglich der Besteuerung von Zinserträgen, oder (iii) den gesetzlichen Vorschriften, die derartige Richtlinien, Verordnungen oder Übereinkommen umsetzen, zurückbehalten oder abgezogen werden; oder
- (d) von einer auszahlenden Stelle einbehalten oder abgezogen werden, wenn die Zahlung von einer anderen auszahlenden Stelle ohne den Einbehalt oder Abzug hätte vorgenommen werden können; oder
- (e) wegen einer Rechtsänderung zu zahlen sind, welche später als 30 Tage nach Fälligkeit der betreffenden Zahlung oder wenn dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß § 12 wirksam wird.

(2) Unbeschadet sonstiger Bestimmungen dieser Anleihebedingungen, ist die Emittentin zum Einbehalt oder Abzug der Beträge berechtigt, die gemäß §§ 1471 bis 1474 des U.S. Internal Revenue Code (einschließlich dessen Änderungen oder Nachfolgevorschriften), gemäß zwischenstaatlicher Abkommen, gemäß den in einer anderen Rechtsordnung in Zusammenhang mit diesen Bestimmungen erlassenen Durchführungsvorschriften oder gemäß mit dem Internal Revenue Service geschlossenen Verträgen ("**FATCA Quellensteuer**") erforderlich sind. Die Emittentin ist nicht verpflichtet, zusätzliche Beträge zu zahlen oder Gläubiger in Bezug auf FATCA Quellensteuer schadlos zu halten, die von der Emittentin, einer Zahlstelle oder von einem anderen Beteiligten als Folge davon, dass eine andere Person als die Emittentin oder deren Zahlstelle nicht zum Empfang von Zahlungen ohne FATCA Quellensteuer berechtigt ist, abgezogen oder einbehalten wurden.

[§ 8 VORLEGUNGSFRIST

Die in § 801 (1) Satz 1 BGB bestimmte Vorlegungsfrist wird für die Schuldverschreibungen auf zehn Jahre verkürzt.]

- (a) sofern nicht der Ersatzschuldner auch seinen Wohnsitz und seinen steuerlichen Aufenthalt in der Republik Österreich hat, in § 7 und § 5 (2) gilt eine alternative Bezugnahme auf die Republik Österreich als aufgenommen (zusätzlich zu der Bezugnahme nach Maßgabe des vorstehenden Satzes auf das Land, in dem die Nachfolgeschuldnerin ihren Sitz oder Steuersitz hat);
- (b) in § 10 (1) (c) bis (e) gilt eine alternative Bezugnahme auf die Emittentin in ihrer Eigenschaft als Garantin als aufgenommen (zusätzlich zu der Bezugnahme auf die Nachfolgeschuldnerin)**[In dem Fall, dass BAWAG P.S.K. die Emittentin von Nicht-Nachrangigen Nicht-Präferierten Schuldverschreibungen ist, einfügen:]**, es sei denn, dass diese Ersetzung eine Senior HoldCo Ersetzung darstellt].

Im Fall einer Ersetzung folgt die Nachfolgeschuldnerin der Emittentin als Rechtsnachfolgerin nach, ersetzt diese und darf alle Rechte und Befugnisse der Emittentin aus den Schuldverschreibungen mit der gleichen Wirkung geltend machen, als wenn die Nachfolgeschuldnerin in diesen Anleihebedingungen als Emittentin genannt worden wäre, und die Emittentin (bzw. die Gesellschaft, die zuvor die Verpflichtungen der Emittentin übernommen hat) wird von ihren Verpflichtungen als Schuldnerin aus den Schuldverschreibungen befreit**[im Fall, dass BAWAG P.S.K. die Emittentin von Nicht-Nachrangigen Nicht-Präferierten Schuldverschreibungen ist, einfügen:]**, vorausgesetzt, dass mit Wirkung ab (und einschließlich) dem Eintritt einer Senior HoldCo-Ersetzung, § 2 (1) der Emissionsbedingungen als wie folgt geändert gilt:

(3) *Vorläufige Globalurkunde – Austausch.*

(a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen Schuldverschreibungen in der Festgelegten Stückelung, die durch eine Dauerglobalurkunde (die "**Dauerglobalurkunde**", zusammen mit der vorläufigen Globalurkunde, die "**Globalurkunde**", und jeweils eine Globalurkunde) ohne Zinsscheine verbrieft sind, ausgetauscht. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß Abs. (b) dieses § 1 (3) auszutauschen. Bei jeder Rückzahlung oder jedem Kauf durch oder für die Emittentin und jeder Entwertung von Schuldverschreibungen, die durch diese Globalurkunde verbrieft werden, werden die Einzelheiten der Rückzahlung oder des Kaufs und der Entwertung von der oder für die Emittentin in den Registern der ICSDs vermerkt. "**[maßgebliche Währung einfügen] CMS**" ist, vorbehaltlich § 3 (3), der als Zinssatz *per annum* ausgedrückte Swap-Satz für **[maßgebliche Währung einfügen]** denominated Swap Transaktionen mit der oben aufgeführten Formel angegebenen Laufzeit von Jahren, der auf der Bildschirmseite (wie nachfolgend definiert) am Zinsfestlegungstag (wie nachfolgend definiert) unter der Bildüberschrift "**[maßgebliche Bildüberschrift einfügen]**" und über der Spalte "**[Uhrzeit und maßgebliche Zeitzone einfügen]**" gegen **[maßgebliche Uhrzeit einfügen]** Uhr (**[relevante Zeitzone einfügen]** Ortszeit) angezeigt wird (jeder solche **[•]-Jahres [maßgebliche Währung einfügen] CMS** ein "**Referenzsatz**"), wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Die "**Marge**" beträgt **[Marge einfügen]** Prozent *per annum*.

"**Zinsperiode**" bezeichnet jeweils den Zeitraum vom Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) bzw. von jedem Zinszahlungstag (einschließlich) bis zum jeweils darauf folgenden Zinszahlungstag (ausschließlich). Wenn der Zinszahlungstag kein Geschäftstag ist, wird die Zinsperiode **[gemäß § 3 (1)(c) angepasst [nicht angepasst]**].

[TARGET-Geschäftstag] bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem TARGET2 (Trans-European Automated Real-time Gross Settlement Express Transfer System) Zahlungen abwickelt.**[zutreffenden Ort einfügen] Geschäftstag** bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem Geschäftsbanken in **[London] [zutreffenden Ort einfügen]** für Geschäfte (einschließlich Devisen- und Sortengeschäfte) geöffnet sind.]

"**Bildschirmseite**" bedeutet **[Bildschirmseite]** oder jede Nachfolgeseite.

Hat die Bildschirmseite dauerhaft aufgehört, den jeweiligen **[relevante Währung einfügen] CMS** anzugeben, ist diese Quotierung jedoch auf einer anderen von der Berechnungsstelle nach billigem Ermessen ausgewählten Bildschirmseite verfügbar (die "**Ersatzbildschirmseite**"), wird die Ersatzbildschirmseite zum Zweck der Zinssatzberechnung eingesetzt.

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird der jeweils maßgebliche **[relevante Währung einfügen] CMS** nicht angezeigt (in jedem dieser Fälle zu der genannten Zeit) und ist nach Feststellung der Berechnungsstelle keine Ersatzbildschirmseite verfügbar, wird die Berechnungsstelle von den Referenzbanken das arithmetische Mittel der Geld- und Briefkurse für die festverzinsliche Seite eines Euro Zinsswaps für die maßgebliche Laufzeit in einer Höhe, die repräsentativ für eine einzelne Swap Transaktion im Markt für Swaps ist (jeweils als Prozentsatz *per annum* ausgedrückt) gegenüber einem anerkannten Dealer in Swaps im Markt für Swaps um ca. **[Uhrzeit einfügen]** Uhr (**[relevante Zeitzone einfügen]** Ortszeit) am Zinsfestlegungstag anfordern.

Falls drei oder mehr Referenzbanken der Berechnungsstelle solche Quotierungen nennen, ist der **[relevante Währung einfügen] CMS** für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet) dieser Quotierungen, wobei die höchste bzw. eine der höchsten Quotierungen bei identischen Quotierungen und die niedrigste Quotierung bzw. eine der niedrigsten Quotierungen bei identischen Quotierungen nicht mitgezählt werden, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls nur zwei oder weniger Referenzbanken der Berechnungsstelle solche Quotierung nennen, so ist der **[relevante Währung einfügen] CMS** für diese Zinsperiode der Satz, wie er auf der Bildschirmseite an dem letzten Tag vor dem jeweiligen Zinsfestlegungstag, an dem dieser Satz noch angezeigt wurde, angezeigt worden ist.

[Falls der Angebotssatz für Einlagen in der Festgelegten Währung SONIA ist, ist folgendes anwendbar:

(2) **Zinssatz**. Der Zinssatz ("**Zinssatz**") für jede Zinsperiode (wie nachstehend definiert) ist, sofern nachstehend nichts Abweichendes bestimmt ist, der Zusammengesetzte Tägliche SONIA (wie nachstehend definiert), wobei ein Durchschnittskurs für die relevante Zinsperiode gemäß der unten dargestellten Formel berechnet wird **[im Falle einer Marge ist folgendes anwendbar: [zuzüglich] [abzüglich] der Marge (wie nachstehend definiert)]**. Die Feststellung des Zinssatzes erfolgt durch die Berechnungsstelle.

"Zinsperiode" bezeichnet jeweils den Zeitraum ab dem Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) bzw. ab jedem Zinszahlungstag (einschließlich) bis zum jeweils darauffolgenden Zinszahlungstag (ausschließlich).

"Zinsfestlegungstag" bezeichnet den [5] **[Zahl]** Londoner Geschäftstag vor Beginn der jeweiligen Referenzperiode (oder den fünften Londoner Geschäftstage vor einem etwaig für die Rückzahlung festgesetzten Tag).

[Im Falle einer Marge ist folgendes anwendbar:

Die **"Marge"** beträgt **[Marge einfügen] % per annum.**

"Bildschirmseite" bezeichnet **[relevante Bildschirmseite]** oder die jeweilige Nachfolgesseite, die vom selben System angezeigt wird oder aber von einem anderen System, das zum Vertreiber von Informationen zum Zwecke der Anzeige von Sätzen oder Preisen ernannt wurde, die dem betreffenden Referenzsatz vergleichbar sind.

"SONIA" bedeutet Sterling Overnight Index Average.

"SONIA Referenzsatz" bezeichnet, bezüglich eines Londoner Geschäftstags, einen Referenzsatz gleich des SONIA Satzes für diesen Londoner Geschäftstag, wie er vom Administrator von SONIA an autorisierte Stellen übermittelt und auf der Bildschirmseite veröffentlicht wurde oder, sofern die Bildschirmseite nicht verfügbar ist, wie er anderweitig durch autorisierte Stellen (am auf diesen Londoner Geschäftstag folgenden Londoner Geschäftstag veröffentlicht wurde).

"Zusammengesetzter Täglicher SONIA" bezeichnet den nach der Zinsformel zu berechnenden Renditesatz einer Anlage (mit dem SONIA Referenzsatz als Referenzsatz zur Zinsberechnung) und wird von der Berechnungsstelle am Zinsfestlegungstag wie folgt berechnet, wobei der daraus resultierende Prozentsatz, sofern notwendig, auf fünf Dezimalstellen gerundet wird und 0,000005% aufgerundet werden:

[Wenn SONIA mit einem Zurückblickenden Beobachtungszeitraum bestimmt wird oder 'Ausschließen' anwendbar ist:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{SONIA}_{i-\text{PLGT}} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

]

[Wenn SONIA mit einer verschobenen Referenzperiode bestimmt wird:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{SONIA}_i \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

]

Wobei gilt:

- "d"** bezeichnet die Anzahl der Kalendertage in der jeweiligen Referenzperiode.
- "d_o"** bezeichnet die Anzahl der Londoner Geschäftstage in der jeweiligen Referenzperiode.
- "i"** bezeichnet eine Reihe von ganzen Zahlen von eins bis d_o, die in chronologischer Folge jeweils einen Londoner Geschäftstag vom, und einschließlich des, ersten Londoner Geschäftstages der jeweiligen Referenzperiode wiedergeben.
- "n_i"** bezeichnet an jedem Tag 'i' die Anzahl der Kalendertage von dem Tag 'i' (einschließlich) bis zu dem folgenden Londoner Geschäftstag (ausschließlich).
- "Londoner Geschäftstag" oder "LGT"** bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem Geschäftsbanken in London für Geschäfte (einschließlich Devisen- und Sortengeschäfte) geöffnet sind.

[Wenn SONIA mit einem Zurückblickenden Beobachtungszeitraum bestimmt wird oder 'Ausschließen' anwendbar ist:

"Referenzperiode"	bezeichnet die Zinsperiode.
"SONIA _{i-pLGT} "	bezeichnet, in Bezug auf einen Londoner Geschäftstag, der in die jeweilige Referenzperiode fällt, [wenn 'Nachlauf' anwendbar ist, folgendes einfügen: den SONIA Referenzsatz für den Londoner Geschäftstag, der 'p' Londoner Geschäftstage vor dem jeweiligen Londoner Geschäftstag 'i' liegt] [wenn 'Ausschließen' anwendbar ist, folgendes einfügen: der SONIA Referenzsatz für jeden Londoner Geschäftstag "i", der in die jeweilige Referenzperiode fällt, mit der Ausnahme, dass in Bezug auf jeden Londoner Geschäftstag "i", der auf oder nach [5] [Zahl] Londoner Geschäftstage vor jedem relevanten Zinszahlungstag bis zum Ende der jeweiligen Referenzperiode der SONIA-Referenzsatz für den Londoner Geschäftstag, der "p" Londoner Geschäftstag vor diesem Tag liegt].
"Zurückblickender Beobachtungszeitraum"	bezeichnet [5] [Zahl] Londoner Geschäftstage.
"p"	bezeichnet für jede Referenzperiode die Anzahl der Londoner Geschäftstage, die in dem Zurückblickenden Beobachtungszeitraum (wie nachstehend definiert) enthalten sind.]

[Wenn SONIA mit einer verschobenen Referenzperiode bestimmt wird:

"SONIA"	bezeichnet den SONIA Referenzsatz für jeden Londoner Geschäftstag 'i' in der relevanten Referenzperiode (veröffentlicht an dem Londoner Geschäftstag, der diesem Londoner Geschäftstag unmittelbar folgt).
"Referenzperiode"	bezeichnet den Zeitraum ab dem Tag, der [5] [Zahl] Londoner Geschäftstage vor dem ersten Tag der relevanten Zinsperiode (wobei die erste Zinsperiode am Tag des Verzinsungsbeginns (einschließlich) beginnt) und an dem Tag endet (ausschließlich), der [5] [Zahl] Londoner Geschäftstage vor dem Zinszahlungstag für eine solche Zinsperiode liegt (oder an dem fünften Londoner Geschäftstag vor einem etwaig für die Rückzahlung festgesetzten Tag).]

Sollte die Bildschirmseite in Bezug auf einen Londoner Geschäftstag nicht zur Verfügung stehen, ist der SONIA Referenzsatz: (i) der Zinssatz der Bank of England (der "**Einlagenzinssatz**"), der bei Geschäftsschluss am maßgeblichen Zinsfestlegungstag gilt; plus (ii) der Mittelwert der Zinsspannen von SONIA zum Einlagenzinssatz der letzten fünf Tage, an denen SONIA veröffentlicht wurde, mit Ausnahme der höchsten Zinsspanne (oder, wenn es mehr als eine höchste Zinsspanne gibt, nur eine dieser höchsten Zinsspannen) und der niedrigsten Zinsspanne (oder, wenn es mehr als eine niedrigste Zinsspanne gibt, nur eine dieser niedrigsten Zinsspannen) zum Einlagenzinssatz oder, sofern er Einlagenzinssatz nicht bis Geschäftsschluss am maßgeblichen Zinsfestlegungstag durch die Bank of England veröffentlicht wurde, der SONIA Referenzsatz, der am letzten vorangegangenen Londoner Geschäftstag auf der Bildschirmseite (oder anderweitig durch autorisierte Stellen) veröffentlicht wurde, an dem der SONIA Referenzsatz auf der Bildschirmseite (oder anderweitig durch autorisierte Stellen) veröffentlicht wurde.

Ungeachtet des vorstehenden Absatzes wird die Berechnungsstelle, wenn die Bank of England Leitlinien veröffentlicht, wie (i) der SONIA Referenzsatz zu bestimmen ist oder (ii) jeder Zinssatz, der den SONIA Referenzsatz ersetzen soll, soweit dies vernünftigerweise durchführbar ist, diese Leitlinien befolgen, um SONIA für die Zwecke der Schuldverschreibungen zu bestimmen, solange der SONIA Referenzsatz nicht verfügbar ist oder von den autorisierten Stellen nicht veröffentlicht wurde.

Für den Fall, dass der Zinssatz nicht gemäß den vorstehenden Bestimmungen von der Berechnungsstelle bestimmt werden kann, soll der Zinssatz (i) derjenige des letzten vorangegangenen Zinsfestlegungstages sein oder, (ii) wenn es keinen solchen vorangegangenen Zinsfestlegungstag gibt, der anfängliche Zinssatz sein, der für solche Schuldverschreibungen für die erste Zinsperiode anwendbar gewesen wäre, wären die Schuldverschreibungen für einen Zeitraum von gleicher Dauer wie die erste Zinsperiode bis zum Verzinsungsbeginn (ausschließlich) begeben worden.

Die Festlegung des Zinssatzes gemäß den vorstehenden Absätzen erfolgt durch die Berechnungsstelle.]

[Falls der Angebotssatz für Einlagen in der Festgelegten Währung SOFR ist, ist folgendes anwendbar:

(2) Zinssatz. Der Zinssatz ("**Zinssatz**") für jede Zinsperiode (wie nachstehend definiert) ist, sofern nachstehend nichts Abweichendes bestimmt ist, der **[Zusammengesetzte Tägliche][Gewichtete Durchschnittliche]** SOFR (wie nachstehend definiert) **[im Falle einer Marge ist folgendes anwendbar:** **[zuzüglich]** **[abzüglich]** der Marge (wie nachstehend definiert)]. [Für Zusammengesetzten Täglichen SOFR einfügen:

"Zusammengesetzter Täglicher SOFR" bezeichnet den nach der Zinseszinsformel zu berechnenden Renditesatz einer Anlage (mit der 'US-Dollar Overnight Reference Rate' als Referenzsatz zur Zinsberechnung) und wird von der Berechnungsstelle am Zinsfestlegungstag wie folgt berechnet, wobei der daraus resultierende Prozentsatz, sofern notwendig, auf fünf Dezimalstellen gerundet wird und 0,000005% aufgerundet werden:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{SOFR}_{i-p\text{US}} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

Wobei gilt:

Sollte SOFR nicht zur Verfügung stehen oder wird zu der genannten Zeit kein Referenzsatz angezeigt, gilt (1) sofern die Emittentin der Berechnungsstelle nicht bestätigt hat, dass sowohl ein SOFR Index Einstellungsereignis (wie nachstehend definiert) als auch ein SOFR Index Einstellungsstichtag (wie nachstehend definiert) vorliegt, der SOFR des letzten US Staatsanleihen Geschäftstags, an dem der SOFR veröffentlicht wurde; oder (2) wenn die Emittentin der Berechnungsstelle bestätigt hat, dass sowohl ein SOFR Index Einstellungsereignis als auch ein SOFR Index Einstellungsstichtag vorliegt, der Zinssatz (einschließlich etwaiger Zinsspannen oder Anpassungen), der als Ersatz für den SOFR vom Federal Reserve Board und/oder der Federal Reserve Bank of New York oder einem Ausschuss festgelegt, der vom Federal Reserve Board und/oder der Federal Reserve Bank of New York offiziell eingesetzt oder einberufen wurde, um einen Ersatz für den SOFR (der von einer Federal Reserve Bank oder einer anderen zuständigen Behörde festgelegt werden kann) vorzugeben und der Berechnungsstelle durch die Emittentin mitgeteilt wurde. Wird der Berechnungsstelle kein solcher Zinssatz innerhalb eines US Staatsanleihen Geschäftstags nach dem SOFR Index Einstellungsstichtag von der Emittentin als empfohlen mitgeteilt, wird der Zinssatz für jeden Zinsfestlegungstag an oder nach dem SOFR Index Einstellungsstichtag bestimmt, als ob (i) Bezugnahmen auf SOFR Bezugnahmen auf OBFR (wie nachstehend definiert) wären, (ii) Bezugnahmen auf US Staatsanleihen Geschäftstage Bezugnahmen auf New York Geschäftstage wären, (iii) Bezugnahmen auf SOFR Index Einstellungsereignisse Bezugnahmen auf OBFR Index Einstellungsereignisse (wie nachstehend definiert) wären und (iv) Bezugnahmen auf SOFR Index Einstellungsstichtage Bezugnahmen auf OBFR Index Einstellungsstichtage (wie nachstehend definiert) wären. Wird der Berechnungsstelle kein solcher Zinssatz durch die Emittentin innerhalb eines US Staatsanleihen Geschäftstags nach dem SOFR Index Einstellungsstichtag als empfohlen mitgeteilt und liegt ein OBFR Index Einstellungsstichtag vor, wird der Zinssatz für jeden Zinsfestlegungstag an oder nach dem SOFR Index Einstellungsstichtag bestimmt, als ob (x) Bezugnahmen auf den SOFR Bezugnahmen auf die FOMC Target Rate wären und (y) Verweise auf US Staatsanleihen Geschäftstage Verweise auf New York Geschäftstage wären.

Wobei insofern gilt:

"**FOMC Target Rate**" bezeichnet den kurzfristigen Zinssatz festgesetzt durch das Federal Open Market Committee auf der Website der Federal Reserve Bank of New York oder, wenn das Federal Open Market Committee keinen einzelnen Referenzzinssatz avisiert, das Mittel des kurzfristigen Zinssatzes festgesetzt durch das Federal Open Market Committee auf der Website der Federal Reserve Bank of New York (berechnet als arithmetisches Mittel zwischen der oberen Grenze der Ziel-Bandbreite und der unteren Grenze der Ziel-Bandbreite).

"**OBFR Index Einstellungsstichtag**" bezeichnet in Bezug auf das OBFR Index Einstellungsereignis den Zeitpunkt, an dem die Federal Reserve Bank of New York (oder eines Nachfolgeadministrators der OBFR) die OBFR nicht mehr veröffentlicht oder der Zeitpunkt, ab dem die OBFR nicht mehr genutzt werden kann.

"OBFR Index Einstellungsereignis" bedeutet den Eintritt eines oder mehrerer der folgenden Ereignisse: (a) eine öffentliche Erklärung der Federal Reserve Bank of New York (oder eines Nachfolgeadministrators der OBFR), die ankündigt, dass sie dauerhaft oder auf unbestimmte Zeit die OBFR nicht mehr bestimmt oder bestimmen wird, vorausgesetzt, dass zu dieser Zeit kein Nachfolgeadministrator existiert, der weiterhin eine OBFR zur Verfügung stellt; oder (b) die Veröffentlichung von Informationen, welche hinreichend bestätigt, dass die Federal Reserve Bank of New York (oder ein Nachfolgeadministrator der OBFR) dauerhaft oder auf unbestimmte Zeit die OBFR nicht mehr bestimmt oder bestimmen wird, vorausgesetzt, dass zu dieser Zeit kein Nachfolgeadministrator existiert, der weiterhin eine OBFR zur Verfügung stellt; oder (c) eine öffentliche Erklärung durch eine US Regulierungsbehörde oder eine andere öffentliche Stelle der USA, welche die Anwendung der OBFR, die auf alle Swapgeschäfte (bestehende inbegriffen), anwendbar ist, ohne auf diese begrenzt zu sein, verbietet.

Die Festlegung des Zinssatzes gemäß den vorstehenden Absätzen erfolgt durch die Berechnungsstelle.]

[Falls der Zinssatz unter Bezugnahme auf einen anderen Zinssatz als SONIA oder SOFR berechnet wird:

(3) *Wegfall einer Benchmark.*

(a) *Unabhängiger Berater.* Wenn ein Benchmark Ereignis in Bezug auf einen Referenzsatz eintritt und ein Zinssatz (oder Teile davon) für eine Zinsperiode noch anhand dieses Referenzsatzes festgelegt werden muss, dann ernennt die Emittentin unter zumutbaren Bemühungen einen Unabhängigen Berater, der, sobald wie vernünftigerweise möglich, einen Nachfolgezinssatz oder anderenfalls einen Alternativzinssatz (gemäß § 3 (3)(b)) und in beiden Fällen die Anpassungsspanne (gemäß § 3 (3)(c)) festlegt und etwaige Benchmark Änderungen (gemäß § 3 (3)(d)) vornimmt.

Außer im Falle von grober Fahrlässigkeit oder Vorsatz, übernimmt der Unabhängige Berater keinerlei Haftung gegenüber der Emittentin, der Emissionsstelle, den Zahlstellen, der Berechnungsstelle oder den Anleihegläubigern für seine Festlegungen gemäß diesem § 3 (3).

Wenn, vor dem zehnten Geschäftstag vor dem relevanten Zinsfestlegungstag, (A) die Emittentin keinen Unabhängigen Berater ernannt hat; oder (B) der ernannte Unabhängige Berater vor dem betreffenden Zinsfestlegungstag keinen Nachfolgezinssatz oder anderenfalls keinen Alternativzinssatz gemäß diesem § 3 (3) festgelegt hat oder die Anpassungsspanne nicht festgelegt hat und/oder die Benchmark Änderungen (sofern erforderlich) nicht festgelegt hat, ist der für die unmittelbar folgende Zinsperiode geltende Referenzsatz der Referenzsatz, der am letzten vorhergehenden Zinsfestlegungstag galt. Wenn dieser § 3 (3)(a) am ersten Zinsfestlegungstag vor Beginn der ersten Zinsperiode anzuwenden ist, ist der für die erste Zinsperiode geltende Referenzzinssatz [●] Prozent pro Jahr.

(b) *Nachfolgezinssatz oder Alternativzinssatz.* Im Fall, dass der Unabhängige Berater nach billigem Ermessen bestimmt, dass: (A) es einen Nachfolgezinssatz gibt, dann ist dieser Nachfolgezinssatz (vorbehaltlich einer etwaigen Anpassung gemäß § 3 (3)(c) an Stelle des Referenzsatzes maßgeblich, um den Zinssatz für diese Zinsperiode und alle folgenden Zinsperioden vorbehaltlich der weiteren Anwendbarkeit dieses § 3 (3) zu bestimmen; oder (B) es keinen Nachfolgezinssatz aber einen Alternativzinssatz gibt, dann ist dieser Alternativzinssatz (vorbehaltlich einer etwaigen Anpassung gemäß § 3 (3)(c)) an Stelle des Referenzsatzes maßgeblich, um den Zinssatz für diese Zinsperiode und alle folgenden Zinsperioden vorbehaltlich der weiteren Anwendbarkeit dieses § 3 (3) zu bestimmen.

(c) *Anpassungsspanne.* Der Unabhängige Berater bestimmt nach billigem Ermessen den Betrag, die Formel oder die Methode zur Bestimmung der Anpassungsspanne, die auf den Nachfolgezinssatz oder gegebenenfalls den Alternativzinssatz anzuwenden ist, und diese Anpassungsspanne findet dann auf den Nachfolgezinssatz bzw. den Alternativzinssatz Anwendung.

- (d) *Benchmark Änderungen*. Wenn ein entsprechender Nachfolgezinsatz oder Alternativzinssatz und, in jedem Fall, die entsprechende Anpassungsspanne gemäß diesem § 3 (3) festgelegt wird und der Unabhängige Berater nach billigem Ermessen (A) bestimmt, dass Änderungen hinsichtlich dieser Bedingungen notwendig sind, um die ordnungsgemäße Anwendung eines Nachfolgezinsatzes oder Alternativzinssatzes und, in jedem Fall, der Anpassungsspanne zu gewährleisten (diese Änderungen, die "**Benchmark Änderungen**") und (B) die Bedingungen dieser Benchmark Änderungen bestimmt, dann gelten jene Benchmark Änderungen für die Schuldverschreibungen, vorbehaltlich einer Mitteilung durch die Emittentin gemäß § 3 (3)(e), ab dem in der Mitteilung angegebenen Zeitpunkt.
- (e) *Mitteilungen, etc.* Die Emittentin hat den Nachfolgezinsatz oder Alternativzinssatz, die Anpassungsspanne und die Bedingungen von Benchmark Änderungen gemäß diesem § 3 (3) unverzüglich, aber in keinen Fall später als am zehnten Geschäftstag vor dem relevanten Zinsfestlegungstag, der Emissionsstelle, der Berechnungsstelle und den Zahlstellen sowie gemäß § 12 den Anleihegläubigern mitzuteilen. Eine solche Mitteilung ist unwiderruflich und hat den Tag des Inkrafttretens der Benchmark Änderung zu benennen.

Gleichzeitig mit dieser Mitteilung hat die Emittentin der Emissionsstelle einen durch zwei Unterschriftsberechtigte der Emittentin unterzeichneten Nachweis zu übergeben,

(A)

- (a) der bestätigt, dass ein Benchmark Ereignis eingetreten ist,
- (b) der den Nachfolgezinsatz bzw. den Alternativzinssatz benennt,
- (c) der die Anpassungsspanne und/oder die Bedingungen der Benchmark Änderungen benennt (soweit erforderlich), und zwar jeweils bestimmt gemäß den Bestimmungen dieses § 3 (3),
- (d) der den Tag des Inkrafttretens der Benchmark Änderung benennt, und

(B) der bestätigt, dass diese Benchmark Änderungen notwendig sind, um die ordnungsgemäße Anwendung eines solchen Nachfolgezinsatz oder Alternativzinssatz und, in jedem Fall, der Anpassungsspanne zu gewährleisten.

Der Nachfolgezinsatz oder Alternativzinssatz, die Anpassungsspanne und die Benchmark Änderungen (sofern erforderlich) sind in der Form des Nachweises (mit Ausnahme von offensichtlichen Fehlern oder Bösgläubigkeit bei der Festlegung des Nachfolgezinsatzes oder Alternativzinssatzes, der Anpassungsspanne oder der Bedingungen der Benchmark Änderungen (sofern zutreffend)) bindend für die Emittentin, die Emissionsstelle, die Berechnungsstelle, die Zahlstellen und die Anleihegläubiger.

- (f) *Fortbestehen des Referenzsatzes*. Unbeschadet der Verpflichtungen der Emittentin gemäß § 3 (3)(a), (b), (c) und (d) bleiben der Referenzsatz und die Fallback-Regelungen in der Definition "Bildschirmseite" gemäß § 3 (2) bis zum Eintritt eines Benchmark Ereignisses anwendbar.
- (g) *Definitionen*. Zur Verwendung in § 3 (3):

Die "**Anpassungsspanne**", die positiv, negativ oder Null sein kann, wird in Basispunkten ausgedrückt und bezeichnet entweder die Spanne oder das Ergebnis der Anwendung der Formel oder Methode zur Berechnung der Spanne, die, (1) im Fall eines Nachfolgezinsatzes formell im Zusammenhang mit der Ersetzung des Referenzsatzes durch den Nachfolgezinsatz vom Nominierungsgremium empfohlen wird; oder (2) die (sofern keine Empfehlung abgegeben wurde oder im Fall eines Alternativzinssatzes) auf dem internationalen Anleihekapielmarkt (oder, alternativ, auf dem internationalen Swap-Markt) auf den Nachfolgesatz bzw. den Alternativsatz angewandt wird, um einen industrieweit akzeptierten Ersatzbenchmarksatz für den Referenzsatz zu erzeugen; oder (3) die (falls der Unabhängigen Berater feststellt, dass keine solche Spanne üblicherweise angewendet wird) als Industriestandard für außerbörsliche Derivatgeschäfte anerkannt oder akzeptiert ist, die sich auf den Referenzsatz beziehen, wenn dieser Satz durch den Nachfolge-Benchmarksatz oder den Alternativ-Benchmarksatz (je nach Fall) ersetzt wurde.

Wenn der Unabhängige Berater keine Anpassungsspanne bestimmt, ist die Anpassungsspanne Null.

"**Alternativzinssatz**" bezeichnet eine alternative Benchmark oder einen Bildschirmsatz welche der Unabhängige Berater gemäß § 3 (3)(b) als zur Bestimmung von variablen Zinssätzen in der Festgelegten Währung (oder entsprechenden Teilen davon) auf den internationalen Fremdkapitalmärkten (oder, alternativ, auf den internationalen Swap-Märkten) marktüblich bestimmt.

"**Benchmark Änderungen**" hat die Bedeutung wie in § 3 (3)(d) festgelegt.

"Benchmark Ereignis" bezeichnet: (1) eine öffentliche Erklärung oder eine Veröffentlichung von Informationen durch oder im Namen der für den Administrator des Referenzsatzes zuständigen Aufsichtsbehörde vorgenommen wird, aus der hervorgeht, dass dieser Administrator die Bereitstellung des Referenzsatzes dauerhaft oder auf unbestimmte Zeit eingestellt hat oder einstellen wird, es sei denn, es gibt zum Zeitpunkt der Erklärung oder der Veröffentlichung einen Nachfolgeadministrator, der den Referenzsatz weiterhin bereitstellt; oder (2) eine öffentliche Erklärung oder eine Veröffentlichung von Informationen durch oder im Namen des Administrators des Referenzsatzes vorgenommen wird, die besagt, dass der Administrator die Bereitstellung des Referenzsatzes dauerhaft oder auf unbestimmte Zeit eingestellt hat oder einstellen wird, es sei denn, es gibt zum Zeitpunkt der Erklärung oder der Veröffentlichung einen Nachfolgeadministrator, der den Referenzsatz weiterhin bereitstellt; oder (3) die Verwendung des Referenzsatzes aus irgendeinem Grund nach einem Gesetz oder einer Verordnung, die in Bezug auf die Emissionsstelle, eine Zahlstelle, die Berechnungsstelle, die Emittentin oder jeden Dritten anwendbar sind, rechtswidrig geworden ist; oder (4) der Referenzsatz ohne vorherige offizielle Ankündigung durch die zuständige Behörde oder den Administrator dauerhaft nicht mehr veröffentlicht wird; oder (5) eine wesentliche Änderung der Methodologie des Referenzsatzes vorgenommen wird [;] [.]

[Falls der Wegfall der repräsentativen Eigenschaft des Referenzsatzes ein Benchmark-Ereignis sein soll, ist Folgendes anwendbar:

oder (6) eine öffentliche Erklärung der Aufsichtsbehörde des Administrators des Referenzsatzes veröffentlicht wird, wonach der Referenzsatz ihrer Ansicht nach nicht mehr repräsentativ für den zugrundeliegenden Markt, den er zu messen vorgibt, ist oder sein wird, und keine von der Aufsichtsbehörde des Administrators des Referenzsatzes geforderten Maßnahmen zur Behebung einer solchen Situation ergriffen worden sind oder zu erwarten sind.]

"Geschäftstag" bezeichnet einen Zahltag (wie in § 4(5) definiert).

"Unabhängiger Berater" bezeichnet ein von der Emittentin ernanntes unabhängiges Finanzinstitut mit internationalem Ansehen oder einen anderen unabhängigen Finanzberater mit Erfahrung in internationalen Kapitalmärkten wie jeweils von der Emittentin gemäß § 3 (3)(a) bestimmt.

"Nominierungsgremium" bezeichnet in Bezug auf die Benchmark oder einen Bildschirmsatz: (1) die Zentralbank für die Währung in der die Benchmark oder der Bildschirmsatz dargestellt wird oder eine Zentralbank oder andere Aufsichtsbehörde, die für die Aufsicht des Administrators der Benchmark oder des Bildschirmsatzes zuständig ist; oder (2) jede Arbeitsgruppe oder Komitee gefördert durch, geführt oder mitgeführt von oder gebildet von (a) der Zentralbank für die Währung in der die Benchmark oder der Bildschirmsatz dargestellt wird, (b) einer Zentralbank oder anderen Aufsichtsbehörde, die für die Aufsicht des Administrators der Benchmark oder des Bildschirmsatzes zuständig ist, (c) einer Gruppe der zuvor genannten Zentralbanken oder anderer Aufsichtsbehörden oder (d) dem Finanzstabilitätsrat (Financial Stability Board) oder Teilen davon.

"Nachfolgezinssatz" bezeichnet einen Nachfolger oder Ersatz des Referenzsatzes, der formell durch das Nominierungsgremium empfohlen wurde.

- (h) Der Tag des Inkrafttretens für die Anwendung des Nachfolgezinssatzes bzw. des gemäß diesem § 3 (3) bestimmten Alternativzinssatzes, der Anpassungsspanne und der gemäß diesem § 3 (3) bestimmten Benchmark Änderungen (falls erforderlich) (der **"Tag des Inkrafttretens der Benchmark Änderung"**) ist der Zinsänderungs-Festlegungstag, der auf den frühesten der folgenden Tage fällt oder danach liegt:
- (A) wenn das Benchmark Ereignis aufgrund der Sätze (1) oder (2) der Definition des Begriffs "Benchmark Ereignis" eingetreten ist, der Tag der Einstellung der Veröffentlichung des Referenzsatzes bzw. der Einstellung des Referenzsatzes; oder
 - (B) den Tag des Eintritts des Benchmark-Ereignisses, wenn das Benchmark Ereignis aufgrund der Absätze (4) oder (5) der Definition des Begriffs "Benchmark-Ereignis" eingetreten ist; oder; oder
 - (C) den Tag ab dem der Ursprüngliche Benchmarksatz nicht mehr verwendet werden darf, wenn das Benchmark-Ereignis aufgrund des Absatzes (3) der Definition des Begriffs "Benchmark-Ereignis" eingetreten ist[.]; oder
 - (D) wenn das Benchmark Ereignis aufgrund von Satz (6) der Definition des Begriffs "Benchmark Ereignis" eingetreten ist, der Tag an dem die öffentliche Erklärung abgegeben wird.]
- (i) Wenn ein Benchmark-Ereignis in Bezug auf einen Nachfolgezinssatz bzw. Alternativzinssatz eintritt, gilt § 3 (3) entsprechend für die Ersetzung dieses Nachfolgezinssatzes bzw. Alternativzinssatzes durch einen neuen Nachfolgezinssatz bzw. Alternativzinssatz. In diesem Fall gilt jeder Verweis in diesem § 3 (3) auf den Begriff Ursprünglicher Benchmarksatz als Verweis auf den Nachfolgezinssatz bzw. Alternativzinssatz, der zuletzt angewandt wurde.

[Im Fall von Schuldverschreibungen, die keine Fundierten Bankschuldverschreibungen sind, einfügen:

- (i) Eine Anpassung des Referenzsatzes gemäß diesem § 3 (3) im Falle eines Benchmark Ereignisses darf nicht durchgeführt werden, wenn und soweit diese Anpassung dazu führen würde, dass die Emittentin berechtigt wäre, die Schuldverschreibungen aus regulatorischen Gründen gemäß § 5 (3) zurückzuzahlen.]]

[Falls ein Mindest- und/oder Höchstzinssatz gilt, einfügen:

[(3)|(4)] *[Mindest-] [und] [Höchst-] Zinssatz.*

[Falls ein Mindestzinssatz gilt, einfügen: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz niedriger ist als **[Mindestzinssatz einfügen]**, so ist der Zinssatz für diese Zinsperiode **[Mindestzinssatz einfügen].]**

[Falls ein Höchstzinssatz gilt, einfügen: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz höher ist als **[Höchstzinssatz einfügen]**, so ist der Zinssatz für diese Zinsperiode **[Höchstzinssatz einfügen].]**

[(3)|(4)|(5)] *Zinsbetrag.* Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den Zinssatz bestimmen und den auf die Schuldverschreibungen zahlbaren Zinsbetrag in Bezug auf die festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

[(4)|(5)|(6)] *Mitteilung von Zinssatz und Zinsbetrag.* Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der betreffende Zinszahlungstag der Emittentin und den Gläubigern gemäß § 12 baldmöglichst, aber keinesfalls später als am **[vierten] [Zahl]** auf die Berechnung jeweils folgenden **[Londoner] [TARGET2] [zutreffenden anderen Ort einfügen]** Geschäftstag (wie in § 3 (2) definiert) sowie jeder Börse, an der die betreffenden Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst, aber keinesfalls später als zu Beginn der jeweiligen Zinsperiode mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Schuldverschreibungen zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß § 12 mitgeteilt.

[(5)|(6)|(7)] *Verbindlichkeit der Festsetzungen.* Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle **[, die Zahlstellen]** und die Gläubiger bindend.

[(6)|(7)|(8)] *Auflaufende Zinsen.* Der Zinslauf der Schuldverschreibungen endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden **[im Falle von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen:** (vorbehaltlich einer Verlängerung der Fälligkeit gemäß § 5 (1))]. Sollte die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlösen, fallen auf den ausstehenden Nennbetrag der Schuldverschreibungen ab dem Fälligkeitstag (einschließlich) bis zum Tag der tatsächlichen Rückzahlung (ausschließlich) Zinsen zum gesetzlich festgelegten Satz für Verzugszinsen an¹.

[(7)|(8)|(9)] *Zinstagequotient.* "**Zinstagequotient**" bezeichnet im Hinblick auf die Berechnung eines Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der "**Zinsberechnungszeitraum**"):

[Im Falle von Actual/Actual (ICMA-Regelung 251) einfügen:

- (i) wenn der Zinsberechnungszeitraum gleich lang oder kürzer ist als die Feststellungsperiode, in die das Ende des Zinsberechnungszeitraumes fällt, oder ihr entspricht, die Anzahl der Tage in dem betreffenden Zinsberechnungszeitraum, geteilt durch das Produkt aus (1) der Anzahl der Tage in der Feststellungsperiode und (2) der Anzahl von Feststellungsterminen in einem Kalenderjahr; oder

¹ Der gesetzliche Verzugszinssatz beträgt nach deutschem Recht für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz, §§ 288 (1), 247 (1) BGB. Nach österreichischem Recht beträgt der allgemeine gesetzliche Verzugszinssatz für das Jahr 4 Prozentpunkte (§ 1333 iVm § 1000 ABGB), für Geldforderungen zwischen Unternehmern aus unternehmensbezogenen Geschäften für das Jahr 9,2 Prozentpunkte über dem Basiszinssatz (§ 456 UGB) im Fall eines schuldhaften Verzugs, sonst ebenfalls 4 Prozentpunkte.

- (ii) wenn der Zinsberechnungszeitraum länger ist als die Feststellungsperiode, in die das Ende des Zinsberechnungszeitraumes fällt, die Summe (A) der Anzahl der Tage in dem Zinsberechnungszeitraum, die in die Feststellungsperiode fallen, in welcher der Zinsberechnungszeitraum beginnt, geteilt durch das Produkt (1) der Anzahl der Tage in dieser Feststellungsperiode und (2) der Anzahl der Feststellungstermine in einem Kalenderjahr und (B) der Anzahl der Tage in dem Zinsberechnungszeitraum, die in die nächste Feststellungsperiode fallen, geteilt durch das Produkt (1) der Anzahl der Tage in dieser Feststellungsperiode und (2) der Anzahl der Feststellungstermine in einem Kalenderjahr.

"Feststellungsperiode" ist die Periode ab einem Feststellungstermin (einschließlich desselben) bis zum nächsten Feststellungstermin (ausschließlich desselben).

"Feststellungstermin" bezeichnet **[Feststellungstermine einfügen]** in jedem Jahr.]

[Im Fall von Actual/Actual (ISDA) einfügen: (ISDA) die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum, dividiert durch 365 (oder, falls ein Teil dieses Zinsberechnungszeitraumes in ein Schaltjahr fällt, die Summe aus (A) der tatsächlichen Anzahl der in das Schaltjahr fallenden Tage des Zinsberechnungszeitraumes dividiert durch 366 und (B) die tatsächliche Anzahl der nicht in das Schaltjahr fallenden Tage des Zinsberechnungszeitraumes dividiert durch 365.]

[Im Falle von Actual/365 (Fixed) einfügen: die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 365.]

[Im Falle von Actual/360 einfügen: die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 360.]

[Im Falle von 30/360, 360/360 oder Bond Basis einfügen: die Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 360, wobei die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit zwölf Monaten zu je 30 Tagen zu ermitteln ist (es sei denn, (A) der letzte Tag des Zinsberechnungszeitraumes fällt auf den 31. Tag eines Monats, während der erste Tag des Zinsberechnungszeitraumes weder auf den 30. noch auf den 31. Tag eines Monats fällt, in welchem Fall der diesen Tag enthaltende Monat nicht als ein auf 30 Tage gekürzter Monat zu behandeln ist, oder (B) der letzte Tag des Zinsberechnungszeitraumes fällt auf den letzten Tag des Monats Februar, in welchem Fall der Monat Februar nicht als ein auf 30 Tage verlängerter Monat zu behandeln ist).]

[Im Falle von 30E/360 oder Eurobond Basis einfügen: die Anzahl der Tage im Zinsberechnungszeitraum dividiert durch 360 (dabei ist die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit 12 Monaten zu 30 Tagen zu ermitteln, und zwar ohne Berücksichtigung des ersten oder letzten Tages des Zinsberechnungszeitraumes), es sei denn, dass im Falle einer am Fälligkeitstag endenden Zinsperiode der Fälligkeitstag der letzte Tag des Monats Februar ist, in welchem Fall der Monat Februar als nicht auf einen Monat zu 30 Tagen verlängert gilt.]]

§ 4 ZAHLUNGEN

(1) (a) *Zahlungen von Kapital.* Zahlungen von Kapital auf die Schuldverschreibungen erfolgen nach Maßgabe des § 4 (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems gegen Vorlage und (außer im Fall von Teilzahlungen) Einreichung der die Schuldverschreibungen zum Zeitpunkt der Zahlung verbriefenden Globalurkunde bei der bezeichneten Geschäftsstelle der Emissionsstelle außerhalb der Vereinigten Staaten.

(b) *Zahlung von Zinsen.* Die Zahlung von Zinsen auf Schuldverschreibungen erfolgt nach Maßgabe von § 4 (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems.

[Im Fall von Zinszahlungen auf eine vorläufige Globalurkunde einfügen: Die Zahlung von Zinsen auf Schuldverschreibungen, die durch die vorläufige Globalurkunde verbrieft sind, erfolgt nach Maßgabe von § 4 (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems, und zwar nach ordnungsgemäßer Bescheinigung gemäß § 1 (3)(b).]

(2) *Zahlungsweise.* Vorbehaltlich geltender steuerlicher und sonstiger gesetzlicher Regelungen und Vorschriften erfolgen zu leistende Zahlungen auf die Schuldverschreibungen in der frei handelbaren und konvertierbaren Währung, die am entsprechenden Fälligkeitstag die Währung des Staates der Festgelegten Währung ist.

(3) *Vereinigte Staaten.* Für die Zwecke des **[im Fall von D Rules Schuldverschreibungen einfügen:** § 1 (3) und des § 4 (1) bezeichnet **"Vereinigte Staaten"** die Vereinigten Staaten von Amerika (einschließlich deren Bundesstaaten und des District of Columbia) sowie deren Territorien (einschließlich Puerto Ricos, der U.S. Virgin Islands, Guam, American Samoa, Wake Island und der Northern Mariana Islands).

(4) *Erfüllung.* Die Emittentin wird durch Leistung der Zahlung an das Clearing System oder dessen Order von ihrer Zahlungspflicht befreit.

(5) *Zahltag.* Fällt der Fälligkeitstag einer Zahlung in Bezug auf eine Schuldverschreibung auf einen Tag, der kein Zahltag ist, dann hat der Gläubiger keinen Anspruch auf Zahlung vor dem nächsten Zahltag und ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund dieser Verspätung zu verlangen. Für diese Zwecke bezeichnet "**Zahlttag**" einen Tag (außer einem Samstag oder Sonntag), an dem das Clearing System **[falls die Festgelegte Währung EUR ist, einfügen: und TARGET2 (Trans-European Automated Realtime Cross Settlement Express Transfer System) zur Abwicklung von Zahlungen in Euro betriebsbereit ist.] [falls die Festgelegte Währung nicht EUR ist, einfügen: und Geschäftsbanken und Devisenmärkte in [sämtliche relevanten Finanzzentren einfügen]** Zahlungen abwickeln].

(6) *Bezugnahmen auf Kapital und Zinsen.* Bezugnahmen in diesen Bedingungen auf Kapital der Schuldverschreibungen schließen, soweit anwendbar, die folgenden Beträge ein: den Rückzahlungsbetrag der Schuldverschreibungen; den vorzeitigen Rückzahlungsbetrag der Schuldverschreibungen; **[falls die Emittentin das Wahlrecht hat, die Schuldverschreibungen vorzeitig zurückzahlen, und Wahl-Rückzahlungsbetrag/beträge (Call) angegeben sind, einfügen: den Wahl-Rückzahlungsbetrag (Call) der Schuldverschreibungen;] [falls der Gläubiger ein Wahlrecht hat, die Schuldverschreibungen vorzeitig zu kündigen, einfügen: den Wahl-Rückzahlungsbetrag (Put) der Schuldverschreibungen;]** sowie jeden Aufschlag sowie sonstige auf oder in Bezug auf die Schuldverschreibungen zahlbaren Beträge]. Bezugnahmen in diesen Bedingungen auf Zinsen auf Schuldverschreibungen sollen, soweit anwendbar, sämtliche gemäß § 7 zahlbaren zusätzlichen Beträge einschließen.

(7) *Hinterlegung von Kapital und Zinsen.* Die Emittentin ist berechtigt, beim Amtsgericht Frankfurt am Main Zins- oder Kapitalbeträge zu hinterlegen, die von den Gläubigern nicht innerhalb von zwölf Monaten nach dem Fälligkeitstag **[im Falle von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen: oder, falls die Laufzeit der Schuldverschreibungen gemäß den Bestimmungen in § 5 (1) verlängert wird, zwölf Monate nach dem erweiterten Fälligkeitstag (wie in § 5 (1) definiert).]** beansprucht worden sind, auch wenn die Gläubiger sich nicht in Annahmeverzug befinden. Soweit eine solche Hinterlegung erfolgt, und auf das Recht der Rücknahme verzichtet wird, erlöschen die jeweiligen Ansprüche der Gläubiger gegen die Emittentin.

§ 5 RÜCKZAHLUNG

(1) *Rückzahlung bei Endfälligkeit [im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen: oder am Verlängerten Fälligkeitstag].* Soweit nicht zuvor bereits ganz oder teilweise zurückgezahlt oder angekauft und entwertet, werden die Schuldverschreibungen zu ihrem Rückzahlungsbetrag am **[im Fall eines festgelegten Fälligkeitstages, Fälligkeitstag einfügen] [im Fall eines Rückzahlungsmonats einfügen: auf den [letzten Zinszahlungstag einfügen]** fallenden oder diesem am nächsten liegenden Zinszahlungstag] fallenden Zinszahlungstag] (der "**Fälligkeitstag**") **[im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen: oder, falls sich die Laufzeit der Schuldverschreibungen in Übereinstimmung mit den in § 5 (1a) enthaltenen Bestimmungen verlängert, an jenem Tag, der vom besonderen Verwalter (§ 86 österreichische Insolvenzordnung) als verlängerter Fälligkeitstag festgelegt wird (der "**Verlängerte Fälligkeitstag**").]** zurückgezahlt. **[Im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen: Der spätestmögliche Verlängerte Fälligkeitstag ist der [Datum einfügen].]** Der "**Rückzahlungsbetrag**" in Bezug auf jede Schuldverschreibung entspricht **[•] Prozent des [dem] Nennbetrags]** der Schuldverschreibungen.

[Im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen:

Die Fälligkeit der Schuldverschreibungen kann bei Eintritt des Objektiven Auslösenden Ereignisses einmalig um bis zu 12 Monate bis zum Verlängerten Fälligkeitstag verschoben werden (dieser Zeitraum von (einschließlich) dem Fälligkeitstag bis (ausschließlich) dem verlängerten Fälligkeitstag, der "**Verlängerungszeitraum**").

Das "**Objektive Auslösende Ereignis**" ist eingetreten, wenn die Fälligkeitsverschiebung in der Insolvenz der Emittentin durch den besonderen Verwalter (§ 86 österreichische Insolvenzordnung) ausgelöst wird, sofern dieser zum Zeitpunkt der Fälligkeitsverschiebung überzeugt ist, dass die Verbindlichkeiten unter den Schuldverschreibungen vollständig zum Verlängerten Fälligkeitstag bedient werden können. Die Fälligkeitsverschiebung liegt nicht im Ermessen der Emittentin. Im Fall einer Fälligkeitsverschiebung wird die Emittentin die Schuldverschreibungen insgesamt und nicht teilweise am Verlängerten Fälligkeitstag zum Rückzahlungsbetrag nebst etwaigen bis zum Verlängerten Fälligkeitstag (ausschließlich) aufgelaufenen Zinsen zurückzahlen. Der Eintritt des Objektiven Auslösenden Ereignisses sind den Gläubigern unverzüglich gemäß § 12 mitzuteilen.

Weder die Nichtzahlung des ausstehenden Gesamtnennbetrags am Fälligkeitstag noch die Fälligkeitsverschiebung stellen einen Verzugsfall der Emittentin für irgendwelche Zwecke dar oder geben einem Gläubiger das Recht, die

Schuldverschreibungen zu kündigen oder andere als ausdrücklich in diesen Emissionsbedingungen vorgesehene Zahlungen zu erhalten.

Im Falle der Insolvenz oder Abwicklung der Emittentin sind Zahlungsverpflichtungen der Emittentin aus den Gedeckten Schuldverschreibungen nicht Gegenstand einer automatischen vorzeitigen Fälligkeit (Insolvenzferne). Die Gläubiger haben in diesen Fällen eine vorrangige Forderung auf den Kapitalbetrag sowie etwaige aufgelaufene und künftige Zinsen aus den Deckungswerten und im Insolvenzfall darüber hinaus, soweit die zuvor genannte vorrangige Forderung nicht im vollen Umfang erfüllt werden kann, eine Insolvenzforderung gegen die Emittentin.

Die österreichische Finanzmarktaufsichtsbehörde (FMA) hat als zuständige Behörde die Emission gedeckter Schuldverschreibungen sowie die Einhaltung der Vorschriften des PfandBG zu überwachen und dabei auf das volkswirtschaftliche Interesse an einem funktionsfähigen Kapitalmarkt Bedacht zu nehmen.

Im Falle eines Konkursverfahrens hat das Konkursgericht für die Verwaltung der vorrangigen Forderungen auf den Kapitalbetrag sowie etwaige aufgelaufene und künftige Zinsen aus den Deckungswerten (Sondermasse) unverzüglich einen besonderen Verwalter zu bestellen (§ 86 österreichische Insolvenzordnung). Der besondere Verwalter hat fällige Forderungen der Gläubiger aus der Sondermasse zu erfüllen und die dafür erforderlichen Verwaltungsmaßnahmen mit Wirkung für die Sondermasse zu treffen, etwa durch Einziehung fälliger Hypothekarforderungen, Veräußerung einzelner Deckungswerte oder durch Zwischenfinanzierungen.

Zinsen für die Schuldverschreibungen werden für die Dauer des Verlängerungszeitraums auf der Grundlage des ausstehenden Gesamtnennbetrags gemäß § 3 auflaufen und zahlbar sein].

(2) *Vorzeitige Rückzahlung aus steuerlichen Gründen.* Die Schuldverschreibungen können **[im Fall von Schuldverschreibungen, die keine Fundierten Bankschuldverschreibungen sind, einfügen:** bei Erfüllung der Rückzahlungsbedingung[en] gemäß § 5 [(4)|(5)|(6)].] insgesamt, jedoch nicht teilweise, nach Wahl der Emittentin mit einer Kündigungsfrist von nicht weniger als 30 und nicht mehr als 60 Tagen gegenüber der Emissionsstelle und gemäß § 12 gegenüber den Gläubigern vorzeitig gekündigt und zu ihrem vorzeitigen Rückzahlungsbetrag (wie nachstehend definiert) zuzüglich bis zum für die Rückzahlung festgesetzten Tag aufgelaufener Zinsen zurückgezahlt werden, falls die Emittentin als Folge einer Änderung oder Ergänzung der Steuer- oder Abgabengesetze und -vorschriften der Republik Österreich oder deren politischen Untergliederungen oder Steuerbehörden oder als Folge einer Änderung oder Ergänzung der Anwendung oder der offiziellen Auslegung dieser Gesetze und Vorschriften (vorausgesetzt diese Änderung oder Ergänzung wird am oder nach dem Tag, an dem die letzte Tranche dieser Serie von Schuldverschreibungen begeben wird, wirksam) am nächstfolgenden Zinszahlungstag (wie in § 3 (1) definiert) zur Zahlung von zusätzlichen Beträgen (wie in § 7 dieser Bedingungen definiert) verpflichtet sein wird und diese Verpflichtung nicht durch das Ergreifen vernünftiger der Emittentin zur Verfügung stehender Maßnahmen vermieden werden kann.

Eine solche Kündigung darf allerdings nicht (i) früher als 90 Tage vor dem frühestmöglichen Termin erfolgen, an dem die Emittentin verpflichtet wäre, solche zusätzlichen Beträge zu zahlen, falls eine Zahlung auf die Schuldverschreibungen dann fällig sein würde, oder (ii) erfolgen, wenn zu dem Zeitpunkt, zu dem die Kündigung erfolgt, die Verpflichtung zur Zahlung von zusätzlichen Beträgen nicht mehr wirksam ist.

Eine solche Kündigung hat gemäß § 12 zu erfolgen. Sie ist unwiderruflich, muss den für die Rückzahlung festgelegten Termin nennen und eine zusammenfassende Erklärung enthalten, welche die das Rückzahlungsrecht der Emittentin begründenden Umstände darlegt.

[Im Fall von Nachrangigen Schuldverschreibungen einfügen:

(3) *Außerordentliche Kündigung durch die Emittentin aus regulatorischen Gründen.* Wenn ein Regulatorisches Ereignis eintritt und die Rückzahlungsbedingungen erfüllt sind, können die Schuldverschreibungen, insgesamt, jedoch nicht teilweise, nach Wahl der Emittentin, mit einer Kündigungsfrist von nicht weniger als 30 und nicht mehr als 60 Tagen gegenüber der Emissionsstelle und gemäß § 12 gegenüber den Gläubigern vorzeitig gekündigt und zu ihrem vorzeitigen Rückzahlungsbetrag (wie nachstehend definiert) zuzüglich bis zum für die Rückzahlung festgesetzten Tag aufgelaufener Zinsen zurückgezahlt werden. Eine solche Mitteilung darf nicht später als 90 Tage nach Eintritt eines Regulatorischen Ereignisses erfolgen. Jede derartige Mitteilung ist unwiderruflich, gemäß § 12 bekannt zu geben und muss den für die Rückzahlung festgelegten Termin nennen und eine zusammenfassende Erklärung enthalten, welche die das Rückzahlungsrecht der Emittentin begründenden Umstände darlegt.

Ein "**Regulatorisches Ereignis**" tritt ein, wenn sich die aufsichtsrechtliche Einstufung der Schuldverschreibungen gemäß den Relevanten Regeln ändert, was wahrscheinlich zu ihrem vollständigen oder teilweisen Ausschluss aus den Eigenmitteln oder ihrer Neueinstufung als Eigenmittel niedriger Qualität der [Regulatorischen BAWAG-Gruppe auf konsolidierter Basis][und/oder der][Emittentin auf individueller Basis] führen würde oder geführt hat.

- (b) zusätzlich, im Falle einer vorzeitigen Rückzahlung gemäß dieses § 5 oder einem Rückkauf gemäß § 11 (2) früher als fünf Jahre nach dem Zeitpunkt der Ausgabe der Schuldverschreibungen nach Maßgabe von Artikel 78(4) CRR, soweit im betreffenden Zeitpunkt auf die Emittentin anwendbar:

Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.]

Für die Zwecke des Vorstehenden bezeichnet "Depotbank" jede Bank oder ein sonstiges anerkanntes Finanzinstitut, das berechtigt ist, das Wertpapierverwahrungsgeschäft zu betreiben und bei der/dem der Gläubiger ein Wertpapierdepot für die Schuldverschreibungen unterhält, einschließlich des Clearing Systems. (4) *Ausschluss der Anwendbarkeit des Kuratorengesetzes.* Die Anwendbarkeit der Bestimmungen des österreichischen Kuratorengesetzes und des Kuratorenergänzungsgesetzes ist bezüglich der Schuldverschreibungen ausgeschlossen.

(3) *Vorläufige Globalurkunde – Austausch.*

(a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß Abs. (b) dieses § 1 (3) auszutauschen. Bei jeder Rückzahlung oder jedem Kauf durch oder für die Emittentin und jeder Entwertung von Schuldverschreibungen, die durch diese Globalurkunde verbrieft werden, werden die Einzelheiten der Rückzahlung oder des Kaufs und der Entwertung von der oder für die Emittentin in den Registern der ICSDs vermerkt. "Referenzperiode"

bezeichnet den Zeitraum ab dem Tag, der [5] [Zahl] Londoner Geschäftstage vor dem ersten Tag der relevanten Zinsperiode (wobei die erste Zinsperiode am Tag des Verzinsungsbeginns (einschließlich) beginnt) und an dem Tag endet (ausschließlich), der [5] [Zahl] Londoner Geschäftstage vor dem Zinszahlungstag für eine solche Zinsperiode liegt (oder an dem fünften Londoner Geschäftstag vor einem etwaig für die Rückzahlung festgesetzten Tag).]

Sollte die Bildschirmseite in Bezug auf einen Londoner Geschäftstag nicht zur Verfügung stehen, ist der SONIA Referenzsatz: (i) der Zinssatz der Bank of England (der **"Einlagenzinssatz"**), der bei Geschäftsschluss am maßgeblichen Zinsfestlegungstag gilt; plus (ii) der Mittelwert der Zinsspannen von SONIA zum Einlagenzinssatz der letzten fünf Tage, an denen SONIA veröffentlicht wurde, mit Ausnahme der höchsten Zinsspanne (oder, wenn es mehr als eine höchste Zinsspanne gibt, nur eine dieser höchsten Zinsspannen) und der niedrigsten Zinsspanne (oder, wenn es mehr als eine niedrigste Zinsspanne gibt, nur eine dieser niedrigsten Zinsspannen) zum Einlagenzinssatz oder, sofern er Einlagenzinssatz nicht bis Geschäftsschluss am maßgeblichen Zinsfestlegungstag durch die Bank of England veröffentlicht wurde, der SONIA Referenzsatz, der am letzten vorangegangenen Londoner Geschäftstag auf der Bildschirmseite (oder anderweitig durch autorisierte Stellen) veröffentlicht wurde, an dem der SONIA Referenzsatz auf der Bildschirmseite (oder anderweitig durch autorisierte Stellen) veröffentlicht wurde.

Ungeachtet des vorstehenden Absatzes wird die Berechnungsstelle, wenn die Bank of England Leitlinien veröffentlicht, wie (i) der SONIA Referenzsatz zu bestimmen ist oder (ii) jeder Zinssatz, der den SONIA Referenzsatz ersetzen soll, soweit dies vernünftigerweise durchführbar ist, diese Leitlinien befolgen, um SONIA für die Zwecke der Schuldverschreibungen zu bestimmen, solange der SONIA Referenzsatz nicht verfügbar ist oder von den autorisierten Stellen nicht veröffentlicht wurde.

Für den Fall, dass der Zinssatz nicht gemäß den vorstehenden Bestimmungen von der Berechnungsstelle bestimmt werden kann, soll der Zinssatz (i) derjenige des letzten vorangegangenen Zinsfestlegungstages sein oder, (ii) wenn es keinen solchen vorangegangenen Zinsfestlegungstag gibt, der anfängliche Zinssatz sein, der für solche Schuldverschreibungen für die erste Zinsperiode anwendbar gewesen wäre, wären die Schuldverschreibungen für einen Zeitraum von gleicher Dauer wie die erste Zinsperiode bis zum Verzinsungsbeginn (ausschließlich) begeben worden.

Die Festlegung des Zinssatzes gemäß den vorstehenden Absätzen erfolgt durch die Berechnungsstelle.][Falls der Angebotssatz für Einlagen in der Festgelegten Währung SOFR ist, ist folgendes anwendbar:

(2) Zinssatz. Der Zinssatz (**"Zinssatz"**) für jede Zinsperiode (wie nachstehend definiert) ist, sofern nachstehend nichts Abweichendes bestimmt ist, der [Zusammengesetzte Tägliche][Gewichtete Durchschnittliche] SOFR (wie nachstehend definiert) [im Falle einer Marge ist folgendes anwendbar: [zuzüglich] [abzüglich] der Marge (wie nachstehend definiert)]. Die Feststellung des Zinssatzes erfolgt durch die Berechnungsstelle.

"Zinsperiode" bezeichnet jeweils den Zeitraum ab dem Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) bzw. ab jedem Zinszahlungstag (einschließlich) bis zum jeweils darauffolgenden Zinszahlungstag (ausschließlich).

"Zinsfestlegungstag" bezeichnet den [5] [Zahl] US Staatsanleihen Geschäftstag vor Beginn der jeweiligen Zinsperiode.

[Im Falle einer Marge ist folgendes anwendbar:

Die **"Marge"** beträgt [●] % per annum.]

"SOFR" meint hinsichtlich jeden Tages die Secured Overnight Financing Rate, welche für diesen Tag von der Federal Reserve Bank of New York als Administrator dieser Benchmark (oder eines Nachfolgers), auf der Website der Federal Reserve Bank of New York, um ca. 17:00 Uhr (New Yorker Zeit) veröffentlicht wird.

[Für Zusammengesetzten Täglichen SOFR einfügen:

"Zusammengesetzter Täglicher SOFR" bezeichnet den nach der Zinseszinsformel zu berechnenden Renditesatz einer Anlage (mit der 'US-Dollar Overnight Reference Rate' als Referenzsatz zur Zinsberechnung) und wird von der Berechnungsstelle am Zinsfestlegungstag wie folgt berechnet, wobei der daraus resultierende Prozentsatz, sofern notwendig, auf fünf Dezimalstellen gerundet wird und 0,000005% aufgerundet werden:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{SOFR}_{i-p\text{USGT}} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

Wobei gilt:

- "d" bezeichnet die Anzahl der Kalendertage in der jeweiligen Zinsperiode;
- "d₀" bezeichnet die Anzahl der US Staatsanleihen Geschäftstage (wie nachstehend definiert) in der jeweiligen Zinsperiode;
- "i" bezeichnet eine Reihe von ganzen Zahlen von eins bis d₀, die in chronologischer Folge jeweils einen US Staatsanleihen Geschäftstag vom, und einschließlich des, ersten US Staatsanleihen Geschäftstages der jeweiligen Zinsperiode wiedergeben;
- "p" bezeichnet **[Für Beobachtungsmethode 'Nachlauf' einfügen:** die Anzahl der US Staatsanleihen Geschäftstage, die als Zurückblickender Beobachtungszeitraum (wie nachstehend definiert) angegeben sind] **[Für Beobachtungsmethode 'Ausschließen' einfügen:** Null].
- "n_i" bezeichnet an jedem Tag 'i' die Anzahl der Kalendertage von dem Tag 'i' (einschließlich) bis zu dem folgenden US Staatsanleihen Geschäftstag (ausschließlich);
- "USGT" bezeichnet US Staatsanleihen Geschäftstag;
- "SOFR_i" bezeichnet für jeden US Staatsanleihen Geschäftstag 'i' **[Für Beobachtungsmethode 'Nachlauf' einfügen:** den SOFR für diesen US Staatsanleihen Geschäftstag.]

[Für Beobachtungsmethode 'Ausschließen' einfügen:

- (i) für einen solchen US Staatsanleihen Geschäftstag, der ein SOFR Reset-Tag (wie nachstehend definiert) ist, den SOFR für den US Staatsanleihen Geschäftstag, der diesem SOFR Reset-Tag unmittelbar vorausgeht; und
- (ii) für einen solchen US Staatsanleihen Geschäftstag, der kein SOFR Reset-Tag ist, den SOFR für den US Staatsanleihen Geschäftstag, der dem letzten SOFR Reset-Tag der jeweiligen Zinsperiode unmittelbar vorausgeht.]

- "SOFR_{i-pUSGT}" bezeichnet, in Bezug auf einen US Staatsanleihen Geschäftstag, der in die jeweilige Zinsperiode fällt, den SOFR für den US Staatsanleihen Geschäftstag, der 'p' US Staatsanleihen Geschäftstage vor dem jeweiligen US Staatsanleihen Geschäftstag 'i' liegt;
- "SOFR Reset-Tag" bezeichnet jeden US Staatsanleihen Geschäftstag in der jeweiligen Zinsperiode, außer jeden US Staatsanleihen Geschäftstag während des Zeitraums der auf den jeweiligen Zinsfeststellungstag folgt (einschließlich) bis zum entsprechenden Zinszahlungstag (ausschließlich); und
- "Zurückblickender Beobachtungszeitraum" bezeichnet **[Zahl]** US Staatsanleihen Geschäftstage.]

[Für Gewichteten Durchschnittlichen SOFR einfügen:

"**Gewichteter Durchschnittlicher SOFR**" bezeichnet in Bezug auf eine Zinsperiode das arithmetische Mittel des in dieser Zinsperiode wirksamen 'SOFR' (jeder dieser US Staatsanleihe Geschäftstage, 'i'), und wird von der [Berechnungsstelle] [anderen Person, welche für die Berechnung des Zinssatzes zuständig ist] an jedem Zinsfestlegungstag berechnet, indem der jeweilige 'SOFR' mit der Anzahl der Tage, an dem dieser 'SOFR' wirksam ist, multipliziert, die Summe dieser Produkte bestimmt und diese Summe durch die Anzahl der Kalendertage in der jeweiligen Zinsperiode dividiert wird.]

Sollte SOFR nicht zur Verfügung stehen oder wird zu der genannten Zeit kein Referenzsatz angezeigt, gilt (1) sofern die Emittentin der Berechnungsstelle nicht bestätigt hat, dass sowohl ein SOFR Index Einstellungsereignis (wie nachstehend definiert) als auch ein SOFR Index Einstellungsstichtag (wie nachstehend definiert) vorliegt, der SOFR des letzten US Staatsanleihen Geschäftstags, an dem der SOFR veröffentlicht wurde; oder (2) wenn die Emittentin der Berechnungsstelle bestätigt hat, dass sowohl ein SOFR Index Einstellungsereignis als auch ein SOFR Index Einstellungsstichtag vorliegt, der Zinssatz (einschließlich etwaiger Zinsspannen oder Anpassungen), der als Ersatz für den SOFR vom Federal Reserve Board und/oder der Federal Reserve Bank of New York oder einem Ausschuss festgelegt, der vom Federal Reserve Board und/oder der Federal Reserve Bank of New York offiziell eingesetzt oder einberufen wurde, um einen Ersatz für den SOFR (der von einer Federal Reserve Bank oder einer anderen zuständigen Behörde festgelegt werden kann) vorzugeben und der Berechnungsstelle durch die Emittentin mitgeteilt wurde. Wird der Berechnungsstelle kein solcher Zinssatz innerhalb eines US Staatsanleihen Geschäftstags nach dem SOFR Index Einstellungsstichtag von der Emittentin als empfohlen mitgeteilt, wird der Zinssatz für jeden Zinsfestlegungstag an oder nach dem SOFR Index Einstellungsstichtag bestimmt, als ob (i) Bezugnahmen auf SOFR Bezugnahmen auf OBFR (wie nachstehend definiert) wären, (ii) Bezugnahmen auf US Staatsanleihen Geschäftstage Bezugnahmen auf New York Geschäftstage wären, (iii) Bezugnahmen auf SOFR Index Einstellungsereignisse Bezugnahmen auf OBFR Index Einstellungsereignisse (wie nachstehend definiert) wären und (iv) Bezugnahmen auf SOFR Index Einstellungsstichtage Bezugnahmen auf OBFR Index Einstellungsstichtage (wie nachstehend definiert) wären. Wird der Berechnungsstelle kein solcher Zinssatz durch die Emittentin innerhalb eines US Staatsanleihen Geschäftstags nach dem SOFR Index Einstellungsstichtag als empfohlen mitgeteilt und liegt ein OBFR Index Einstellungsstichtag vor, wird der Zinssatz für jeden Zinsfestlegungstag an oder nach dem SOFR Index Einstellungsstichtag bestimmt, als ob (x) Bezugnahmen auf den SOFR Bezugnahmen auf die FOMC Target Rate wären und (y) Verweise auf US Staatsanleihen Geschäftstage Verweise auf New York Geschäftstage wären.

Wobei insofern gilt:

"**FOMC Target Rate**" bezeichnet den kurzfristigen Zinssatz festgesetzt durch das Federal Open Market Committee auf der Website der Federal Reserve Bank of New York oder, wenn das Federal Open Market Committee keinen einzelnen Referenzzinssatz avisiert, das Mittel des kurzfristigen Zinssatzes festgesetzt durch das Federal Open Market Committee auf der Website der Federal Reserve Bank of New York (berechnet als arithmetisches Mittel zwischen der oberen Grenze der Ziel-Bandbreite und der unteren Grenze der Ziel-Bandbreite).

"**US Staatsanleihen Geschäftstag**" bezeichnet jeden Tag, ausgenommen Samstag, Sonntag oder einen Tag, für den die Securities Industry and Financial Markets Association die ganztägliche Schließung der Abteilungen für festverzinsliche Wertpapiere ihrer Mitglieder im Hinblick auf den Handel mit US-Staatspapieren empfiehlt.

"**OBFR**" bezeichnet in Bezug auf jeden US Staatsanleihen Geschäftstag die tägliche Overnight Bank Funding Rate hinsichtlich des jenem US Staatsanleihen Geschäftstag vorangehenden New Yorker Geschäftstags, wie von der Federal Reserve Bank of New York als Administrator (oder einem Nachfolgeadministrator) eines solchen Referenzzinssatzes auf der Website der Federal Reserve Bank of New York gegen 17:00 Uhr (New Yorker Zeit) an einem solchen US Staatsanleihen Geschäftstag zur Verfügung gestellt wird.

"**OBFR Index Einstellungsstichtag**" bezeichnet in Bezug auf das OBFR Index Einstellungsereignis den Zeitpunkt, an dem die Federal Reserve Bank of New York (oder eines Nachfolgeadministrators der OBFR) die OBFR nicht mehr veröffentlicht oder der Zeitpunkt, ab dem die OBFR nicht mehr genutzt werden kann.

"**OBFR Index Einstellungsereignis**" bedeutet den Eintritt eines oder mehrerer der folgenden Ereignisse: (a) eine öffentliche Erklärung der Federal Reserve Bank of New York (oder eines Nachfolgeadministrators der OBFR), die ankündigt, dass sie dauerhaft oder auf unbestimmte Zeit die OBFR nicht mehr bestimmt oder bestimmen wird, vorausgesetzt, dass zu dieser Zeit kein Nachfolgeadministrator existiert, der weiterhin eine OBFR zur Verfügung stellt; oder (b) die Veröffentlichung von Informationen, welche hinreichend bestätigt, dass die Federal Reserve Bank of New York (oder ein Nachfolgeadministrator der OBFR) dauerhaft oder auf unbestimmte Zeit die OBFR nicht mehr bestimmt oder bestimmen wird, vorausgesetzt, dass zu dieser Zeit kein Nachfolgeadministrator existiert, der weiterhin eine OBFR zur Verfügung stellt; oder (c) eine öffentliche Erklärung durch eine US Regulierungsbehörde oder eine andere

öffentliche Stelle der USA, welche die Anwendung der OBFR, die auf alle Swapgeschäfte (bestehende inbegriffen), anwendbar ist, ohne auf diese begrenzt zu sein, verbietet.

"SOFR Index Einstellungsstichtag" meint in Bezug auf das SOFR Index Einstellungsereignis den Zeitpunkt, ab dem die Federal Reserve Bank of New York (oder ein Nachfolgeadministrator der SOFR) die SOFR nicht mehr veröffentlicht oder den Zeitpunkt, ab dem die SOFR nicht mehr genutzt werden kann.

"SOFR Index Einstellungsereignis" bedeutet den Eintritt eines oder mehrerer der folgenden Ereignisse: (a) eine öffentliche Erklärung der Federal Reserve Bank of New York (oder eines Nachfolgeadministrators der SOFR), die ankündigt, dass sie dauerhaft oder auf unbestimmte Zeit SOFR nicht mehr bestimmt oder bestimmen wird, vorausgesetzt, dass zu dieser Zeit kein Nachfolgeadministrator existiert, der weiterhin SOFR zur Verfügung stellt; oder (b) die Veröffentlichung von Informationen, welche hinreichend bestätigt, dass die Federal Reserve Bank of New York (oder ein Nachfolgeadministrator der SOFR) dauerhaft oder auf unbestimmte Zeit SOFR nicht mehr bestimmt oder bestimmen wird, vorausgesetzt, dass zu dieser Zeit kein Nachfolgeadministrator existiert, der weiterhin SOFR zur Verfügung stellt; oder (c) eine öffentliche Erklärung durch eine US Regulierungsbehörde oder eine andere öffentliche Stelle der USA, welche die Anwendung der SOFR, die auf alle Swapgeschäfte (bestehende inbegriffen), anwendbar ist, ohne auf diese begrenzt zu sein, verbietet.

Die Festlegung des Zinssatzes gemäß den vorstehenden Absätzen erfolgt durch die Berechnungsstelle.]

[Falls der Zinssatz unter Bezugnahme auf einen anderen Zinssatz als SONIA oder SOFR berechnet wird:

(4) *Wegfall einer Benchmark.*

(a) *Unabhängiger Berater.* Wenn ein Benchmark Ereignis in Bezug auf einen Referenzsatz eintritt und ein Zinssatz (oder Teile davon) für eine Zinsperiode noch anhand dieses Referenzsatzes festgelegt werden muss, dann ernennt die Emittentin unter zumutbaren Bemühungen einen Unabhängigen Berater, der, sobald wie vernünftigerweise möglich, einen Nachfolgezinssatz oder anderenfalls einen Alternativzinssatz (gemäß § 3 (4)(b)) und in beiden Fällen die Anpassungsspanne (gemäß § 3 (4)(c)) festlegt und etwaige Benchmark Änderungen (gemäß § 3 (4)(d)) vornimmt.

Außer im Falle von grober Fahrlässigkeit oder Vorsatz, übernimmt der Unabhängige Berater keinerlei Haftung gegenüber der Emittentin, der Emissionsstelle, den Zahlstellen, der Berechnungsstelle oder den Anleihegläubigern für seine Festlegungen gemäß diesem § 3 (4).

Wenn, vor dem zehnten Geschäftstag vor dem relevanten Zinsfestlegungstag, (A) die Emittentin keinen Unabhängigen Berater ernannt hat; oder (B) der ernannte Unabhängige Berater vor dem betreffenden Zinsfestlegungstag keinen Nachfolgezinssatz oder anderenfalls keinen Alternativzinssatz gemäß diesem § 3 (4) festgelegt hat oder die Anpassungsspanne nicht festgelegt hat und/oder die Benchmark Änderungen (sofern erforderlich) nicht festgelegt hat, ist der für die unmittelbar folgende Zinsperiode geltende Referenzsatz der Referenzsatz, der am letzten vorhergehenden Zinsfestlegungstag galt. Wenn dieser § 3 (4)(a) am ersten Zinsfestlegungstag vor Beginn der ersten Zinsperiode anzuwenden ist, ist der für die erste Zinsperiode geltende Referenzzinssatz [•] Prozent pro Jahr.

(b) *Nachfolgezinssatz oder Alternativzinssatz.* Im Fall, dass der Unabhängige Berater nach billigem Ermessen bestimmt, dass: (A) es einen Nachfolgezinssatz gibt, dann ist dieser Nachfolgezinssatz (vorbehaltlich einer etwaigen Anpassung gemäß § 3 (4)(c)) an Stelle des Referenzsatzes maßgeblich, um den Zinssatz für diese Zinsperiode und alle folgenden Zinsperioden vorbehaltlich der weiteren Anwendbarkeit dieses § 3 (4) zu bestimmen; oder (B) es keinen Nachfolgezinssatz aber einen Alternativzinssatz gibt, dann ist dieser Alternativzinssatz (vorbehaltlich einer etwaigen Anpassung gemäß § 3 (4)(c)) an Stelle des Referenzsatzes maßgeblich, um den Zinssatz für diese Zinsperiode und alle folgenden Zinsperioden vorbehaltlich der weiteren Anwendbarkeit dieses § 3 (4) zu bestimmen.

(c) *Anpassungsspanne.* Der Unabhängige Berater bestimmt nach billigem Ermessen den Betrag, die Formel oder die Methode zur Bestimmung der Anpassungsspanne, die auf den Nachfolgezinssatz oder gegebenenfalls den Alternativzinssatz anzuwenden ist, und diese Anpassungsspanne findet dann auf den Nachfolgezinssatz bzw. den Alternativzinssatz Anwendung.

(d) *Benchmark Änderungen.* Wenn ein entsprechender Nachfolgezinssatz oder Alternativzinssatz und, in jedem Fall, die Anpassungsspanne gemäß diesem § 3 (4) festgelegt wird und der Unabhängige Berater nach billigem Ermessen (A) bestimmt, dass Änderungen hinsichtlich dieser Bedingungen notwendig sind, um die ordnungsgemäße Anwendung eines Nachfolgezinssatzes oder Alternativzinssatzes und, in jedem Fall, der Anpassungsspanne zu gewährleisten (diese Änderungen, die **"Benchmark Änderungen"**) und (B) die Bedingungen dieser Benchmark Änderungen bestimmt, dann gelten jene Benchmark Änderungen für die Schuldverschreibungen, vorbehaltlich einer Mitteilung durch die Emittentin gemäß § 3 (3)(e), ab dem in der Mitteilung angegebenen Zeitpunkt.

- (e) *Mitteilungen, etc.* Die Emittentin hat den Nachfolgezinssatz oder Alternativzinssatz, die Anpassungsspanne und die Bedingungen von Benchmark Änderungen gemäß diesem § 3 (4) unverzüglich, aber in keinen Fall später als am zehnten Geschäftstag vor dem relevanten Zinsfestlegungstag, der Emissionsstelle, der Berechnungsstelle und den Zahlstellen sowie gemäß § 12 den Anleihegläubigern mitzuteilen. Eine solche Mitteilung ist unwiderruflich und hat den Tag des Inkrafttretens der Benchmark Änderung zu benennen.

Gleichzeitig mit dieser Mitteilung hat die Emittentin der Emissionsstelle einen durch zwei Unterschriftsberechtigte der Emittentin unterzeichneten Nachweis zu übergeben,

(A)

- (a) der bestätigt, dass ein Benchmark Ereignis eingetreten ist,
- (b) der den Nachfolgezinssatz bzw. den Alternativzinssatz benennt,
- (c) die Anpassungsspanne und/oder die Bedingungen der Benchmark Änderungen benennt (soweit erforderlich), und zwar jeweils bestimmt gemäß den Bestimmungen dieses § 3 (4),
- (d) der den Tag des Inkrafttretens der Benchmark Änderung benennt, und

(B) der bestätigt, dass diese Benchmark Änderungen notwendig sind, um die ordnungsgemäße Anwendung eines solchen Nachfolgezinssatz oder Alternativzinssatz und, in jedem Fall, der Anpassungsspanne zu gewährleisten.

Der Nachfolgezinssatz oder Alternativzinssatz, die Anpassungsspanne und die Benchmark Änderungen (sofern erforderlich) sind in der Form des Nachweises (mit Ausnahme von offensichtlichen Fehlern oder Bösgläubigkeit bei der Festlegung des Nachfolgezinssatzes oder Alternativzinssatzes, der Anpassungsspanne oder der Bedingungen der Benchmark Änderungen (sofern zutreffend)) bindend für die Emittentin, die Emissionsstelle, die Berechnungsstelle, die Zahlstellen und die Anleihegläubiger.

- (f) *Fortbestehen des Referenzsatzes.* Unbeschadet der Verpflichtungen der Emittentin gemäß § 3 (4)(a), (b), (c) und (d) bleiben der Referenzsatz und die Fallback-Regelungen in der Definition "Bildschirmseite" gemäß § 3 (3) bis zum Eintritt eines Benchmark Ereignisses anwendbar.

- (g) *Definitionen.* Zur Verwendung in § 3 (4):

Die "**Anpassungsspanne**", die positiv, negativ oder Null sein kann, wird in Basispunkten ausgedrückt und bezeichnet entweder die Spanne oder das Ergebnis der Anwendung der Formel oder Methode zur Berechnung der Spanne, die, (1) im Fall eines Nachfolgezinssatzes formell im Zusammenhang mit der Ersetzung des Referenzsatzes durch den Nachfolgezinssatz vom Nominierungsgremium empfohlen wird; oder (2) die (sofern keine Empfehlung abgegeben wurde oder im Fall eines Alternativzinssatzes) auf dem internationalen Anleihekapitalmarkt (oder, alternativ, auf dem internationalen Swap-Markt) auf den Nachfolgesatz bzw. den Alternativsatz angewandt wird, um einen industrieweit akzeptierten Ersatzbenchmarksatz für den Referenzsatz zu erzeugen; oder (3) die (falls der Unabhängigen Berater feststellt, dass keine solche Spanne üblicherweise angewendet wird) als Industriestandard für außerbörsliche Derivatgeschäfte anerkannt oder akzeptiert ist, die sich auf den Referenzsatz beziehen, wenn dieser Satz durch den Nachfolge-Benchmarksatz oder den Alternativ-Benchmarksatz (je nach Fall) ersetzt wurde.

Wenn der Unabhängige Berater keine Anpassungsspanne bestimmt, ist die Anpassungsspanne Null.

"**Alternativzinssatz**" bezeichnet eine alternative Benchmark oder einen Bildschirmsatz welche der Unabhängige Berater gemäß § 3 (4)(b) als zur Bestimmung von variablen Zinssätzen in der Festgelegten Währung (oder entsprechenden Teilen davon) auf den internationalen Fremdkapitalmärkten (oder, alternativ, auf den internationalen Swap-Märkten) marktüblich bestimmt.

"**Benchmark Änderungen**" hat die Bedeutung wie in § 3 (4)(d) festgelegt.

"**Benchmark Ereignis**" bezeichnet: (1) eine öffentliche Erklärung oder eine Veröffentlichung von Informationen durch oder im Namen der für den Administrator des Referenzsatzes zuständigen Aufsichtsbehörde vorgenommen wird, aus der hervorgeht, dass dieser Administrator die Bereitstellung des Referenzsatzes dauerhaft oder auf unbestimmte Zeit eingestellt hat oder einstellen wird, es sei denn, es gibt zum Zeitpunkt der Erklärung oder der Veröffentlichung einen Nachfolgeadministrator, der den Referenzsatz weiterhin bereitstellt; oder (2) eine öffentliche Erklärung oder eine Veröffentlichung von Informationen durch oder im Namen des Administrators des Referenzsatzes vorgenommen wird, die besagt, dass der Administrator die Bereitstellung des Referenzsatzes dauerhaft oder auf unbestimmte Zeit eingestellt hat oder einstellen wird, es sei denn, es gibt zum Zeitpunkt der

Erklärung oder der Veröffentlichung einen Nachfolgeadministrator, der den Referenzsatz weiterhin bereitstellt; oder (3) die Verwendung des Referenzsatzes aus irgendeinem Grund nach einem Gesetz oder einer Verordnung, die in Bezug auf die Emissionsstelle, eine Zahlstelle, die Berechnungsstelle, die Emittentin oder jeden Dritten anwendbar sind, rechtswidrig geworden ist; oder (4) der Referenzsatz ohne vorherige offizielle Ankündigung durch die zuständige Behörde oder den Administrator dauerhaft nicht mehr veröffentlicht wird; oder (5) eine wesentliche Änderung der Methodologie des Referenzsatzes vorgenommen wird [;] [.]

[Falls der Wegfall der repräsentativen Eigenschaft des Referenzsatzes ein Benchmark-Ereignis sein soll, ist Folgendes anwendbar:

oder (6) eine öffentliche Erklärung der Aufsichtsbehörde des Administrators des Referenzsatzes veröffentlicht wird, wonach der Referenzsatz ihrer Ansicht nach nicht mehr repräsentativ für den zugrundeliegenden Markt, den er zu messen vorgibt, ist oder sein wird, und keine von der Aufsichtsbehörde des Administrators des Referenzsatzes geforderten Maßnahmen zur Behebung einer solchen Situation ergriffen worden sind oder zu erwarten sind.]

"**Geschäftstag**" bezeichnet einen Zahltag (wie in § 4(5) definiert).

"**Unabhängiger Berater**" bezeichnet ein von der Emittentin ernanntes unabhängiges Finanzinstitut mit internationalem Ansehen oder einen anderen unabhängigen Finanzberater mit Erfahrung in internationalen Kapitalmärkten, wie jeweils von der Emittentin gemäß § 3 (4)(a) bestimmt.

"**Nominierungsgremium**" bezeichnet in Bezug auf die Benchmark oder einen Bildschirmsatz: (1) die Zentralbank für die Währung in der die Benchmark oder der Bildschirmsatz dargestellt wird oder eine Zentralbank oder andere Aufsichtsbehörde, die für die Aufsicht des Administrators der Benchmark oder des Bildschirmsatzes zuständig ist; oder (2) jede Arbeitsgruppe oder Komitee gefördert durch, geführt oder mitgeführt von oder gebildet von (a) der Zentralbank für die Währung in der die Benchmark oder der Bildschirmsatz dargestellt wird, (b) einer Zentralbank oder anderen Aufsichtsbehörde, die für die Aufsicht des Administrators der Benchmark oder des Bildschirmsatzes zuständig ist, (c) einer Gruppe der zuvor genannten Zentralbanken oder anderer Aufsichtsbehörden oder (d) dem Finanzstabilitätsrat (Financial Stability Board) oder Teilen davon.

"**Nachfolgezinssatz**" bezeichnet einen Nachfolger oder Ersatz des Referenzsatzes, der formell durch das Nominierungsgremium empfohlen wurde.

(h) Der Tag des Inkrafttretens für die Anwendung des Nachfolgezinssatzes bzw. des gemäß diesem § 3 (4) bestimmten Alternativzinssatzes, der Anpassungsspanne und der gemäß diesem § 3 (4) bestimmten Benchmark Änderungen (falls erforderlich) (der "**Tag des Inkrafttretens der Benchmark Änderung**") ist der Zinsänderungs-Festlegungstag, der auf den frühesten der folgenden Tage fällt oder danach liegt:

(A) wenn das Benchmark Ereignis aufgrund der Sätze (1) oder (2) der Definition des Begriffs "Benchmark Ereignis" eingetreten ist, der Tag der Einstellung der Veröffentlichung des Referenzsatzes bzw. der Einstellung des Referenzsatzes; oder

(B) den Tag des Eintritts des Benchmark-Ereignisses, wenn das Benchmark Ereignis aufgrund der Absätze (4) oder (5) der Definition des Begriffs "Benchmark-Ereignis" eingetreten ist; oder; oder

(C) den Tag ab dem der Referenzsatz nicht mehr verwendet werden darf, wenn das Benchmark-Ereignis aufgrund des Absatzes (3) der Definition des Begriffs "Benchmark-Ereignis" eingetreten ist[.]; oder

(D) wenn das Benchmark Ereignis aufgrund von Satz (6) der Definition des Begriffs "Benchmark Ereignis" eingetreten ist, der Tag an dem die öffentliche Erklärung abgegeben wird.]

(i) Wenn ein Benchmark-Ereignis in Bezug auf einen Nachfolgezinssatz bzw. Alternativzinssatz eintritt, gilt § 3 (5) entsprechend für die Ersetzung dieses Nachfolgezinssatzes bzw. Alternativzinssatzes durch einen neuen Nachfolgezinssatz bzw. Alternativzinssatz. In diesem Fall gilt jeder Verweis in diesem § 3 (5) auf den Begriff Referenzsatz als Verweis auf den Nachfolgezinssatz bzw. Alternativzinssatz, der zuletzt angewandt wurde.

[Im Fall von Schuldverschreibungen, die keine Fundierten Bankschuldverschreibungen sind, einfügen:

(j) Eine Anpassung des Referenzsatzes gemäß diesem § 3 (4) im Falle eines Benchmark Ereignisses darf nicht durchgeführt werden, wenn und soweit diese Anpassung dazu führen würde, dass die Emittentin berechtigt wäre, die Schuldverschreibungen aus regulatorischen Gründen gemäß § 5 (3) zurückzuzahlen.]]

[Falls ein Mindest- und/oder Höchstzinssatz gilt, einfügen:

[(4)|(5)] **[Mindest-] [und] [Höchst-] Zinssatz.**

[Falls ein Mindestzinssatz gilt, einfügen: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz niedriger ist als **[Mindestzinssatz einfügen]**, so ist der Zinssatz für diese Zinsperiode **[Mindestzinssatz einfügen].**

[Falls ein Höchstzinssatz gilt, einfügen: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz höher ist als **[Höchstzinssatz einfügen]**, so ist der Zinssatz für diese Zinsperiode **[Höchstzinssatz einfügen].**

[(4)|(5)|(6)] **Zinsbetrag.** Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den Zinssatz bestimmen und den auf die Schuldverschreibungen zahlbaren Zinsbetrag in Bezug auf die festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

[(5)|(6)|(7)] **Mitteilung von Zinssatz und Zinsbetrag.** Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der relevante Variable Zinszahlungstag der Emittentin und den Gläubigern gemäß § 12 baldmöglichst, aber keinesfalls später als am **[vierten] [Zahl]** auf die Berechnung jeweils folgenden **[Londoner] [TARGET2] [zutreffenden Ort einfügen]** Geschäftstag (wie in § 3 (2) definiert) sowie jeder Börse, an der die betreffenden Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst, aber keinesfalls später als zu Beginn der jeweiligen Zinsperiode mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Variable Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Schuldverschreibungen zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß § 12 mitgeteilt.

[(6)|(7)|(8)] **Verbindlichkeit der Festsetzungen.** Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle **[, die Zahlstellen]** und die Gläubiger bindend.

[(7)|(8)|(9)] **Auflaufende Zinsen.** Der Zinslauf der Schuldverschreibungen endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden **[im Falle von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen:** (vorbehaltlich einer Verlängerung der Fälligkeit gemäß § 5 (1))]. Sollte die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlösen, fallen auf den ausstehenden Nennbetrag der Schuldverschreibungen ab dem Fälligkeitstag (einschließlich) bis zum Tag der tatsächlichen Rückzahlung (ausschließlich) Zinsen zum gesetzlich festgelegten Satz für Verzugszinsen an¹.

[(8)|(9)|(10)] **Zinstagequotient für den Zeitraum der variablen Verzinsung.** "**Zinstagequotient**" bezeichnet im Hinblick auf die Berechnung eines Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der "**Zinsberechnungszeitraum**"):

[Im Fall von Actual/Actual (ICMA Regelung 251) mit jährlichen Zinszahlungen (ausschließlich des Falls von kurzen oder langen Kupons) ist folgendes anwendbar:

die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum, dividiert durch die tatsächliche Anzahl von Tagen im jeweiligen Zinsjahr.]

[Im Fall von Actual/Actual (ICMA Regelung 251) mit jährlichen Zinszahlungen (einschließlich des Falls von kurzen Kupons) ist folgendes anwendbar:

die Anzahl von Tagen in dem Zinsberechnungszeitraum, geteilt durch die Anzahl der Tage in der Bezugsperiode, in die der Zinsberechnungszeitraum fällt.]

¹ Der gesetzliche Verzugszinssatz beträgt nach deutschem Recht für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz, §§ 288 (1), 247 (1) BGB. Nach österreichischem Recht beträgt der allgemeine gesetzliche Verzugszinssatz für das Jahr 4 Prozentpunkte (§ 1333 iVm § 1000 ABGB), für Geldforderungen zwischen Unternehmern aus unternehmensbezogenen Geschäften für das Jahr 9,2 Prozentpunkte über dem Basiszinssatz (§ 456 UGB) im Fall eines schuldhaften Verzugs, sonst ebenfalls 4 Prozentpunkte.

[Im Falle von Actual/Actual (ICMA Regelung 251) mit zwei oder mehr gleichbleibenden Zinsperioden (einschließlich des Falls von kurzen Kupons) innerhalb eines Zinsjahres ist folgendes anwendbar:

die Anzahl von Tagen in dem Zinsberechnungszeitraum, geteilt durch das Produkt aus (1) der Anzahl der Tage in der Bezugsperiode in die der Zinsberechnungszeitraum fällt und (2) der Anzahl von Bezugsperioden, die angenommen, dass Zinsen für das gesamte Jahr zu zahlen wären, in ein Kalenderjahr fallen würden.]

[Im Fall von Actual/Actual (ICMA Regelung 251) und wenn der Zinsberechnungszeitraum länger ist als eine Bezugsperiode (langer Kupon) ist folgendes anwendbar:

die Summe aus:

- (i) der Anzahl von Tagen in dem Zinsberechnungszeitraum, die in die Bezugsperiode fallen, in welcher der Zinsberechnungszeitraum beginnt, geteilt durch **[Im Fall von Bezugsperioden, die kürzer sind als ein Jahr, ist folgendes anwendbar:** das Produkt aus (x)] [die] [der] Anzahl der Tage in dieser Bezugsperiode **[Im Fall von Bezugsperioden, die kürzer sind als ein Jahr, ist folgendes anwendbar:** und (y) der Anzahl von Bezugsperioden, die in ein Kalenderjahr fallen oder fallen würden, falls Zinsen für das gesamte Jahr zu zahlen wären]; und

(b) *Zahlung von Zinsen.* Die Zahlung von Zinsen auf Schuldverschreibungen erfolgt nach Maßgabe von § 4 (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems.

[Im Fall von Zinszahlungen auf eine vorläufige Globalurkunde einfügen: Die Zahlung von Zinsen auf Schuldverschreibungen, die durch die vorläufige Globalurkunde verbrieft sind, erfolgt nach Maßgabe von § 4 (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems, und zwar nach ordnungsgemäßer Bescheinigung gemäß § 1 (3)(b).]

(2) *Zahlungsweise.* Vorbehaltlich geltender steuerlicher und sonstiger gesetzlicher Regelungen und Vorschriften erfolgen zu leistende Zahlungen auf die Schuldverschreibungen in der frei handelbaren und konvertierbaren Währung, die am entsprechenden Fälligkeitstag die Währung des Staates der Festgelegten Währung ist.

(3) *Vereinigte Staaten.* Für die Zwecke des **[im Fall von D Rules Schuldverschreibungen einfügen: § 1 (3) und des] § 4 (1)** bezeichnet "**Vereinigte Staaten**" die Vereinigten Staaten von Amerika (einschließlich deren Bundesstaaten und des District of Columbia) sowie deren Territorien (einschließlich Puerto Ricos, der U.S. Virgin Islands, Guam, American Samoa, Wake Island und der Northern Mariana Islands).

(4) *Erfüllung.* Die Emittentin wird durch Leistung der Zahlung an das Clearing System oder dessen Order von ihrer Zahlungspflicht befreit.

(5) *Zahltag.* Fällt der Fälligkeitstag einer Zahlung in Bezug auf eine Schuldverschreibung auf einen Tag, der kein Zahltag ist, dann hat der Gläubiger keinen Anspruch auf Zahlung vor dem nächsten Zahltag und ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund dieser Verspätung zu verlangen. Für diese Zwecke bezeichnet "**Zahltag**" einen Tag (außer einem Samstag oder Sonntag), an dem das Clearing System **[falls die Festgelegte Währung EUR ist, einfügen:** und TARGET2 (Trans-European Automated Realtime Cross Settlement Express Transfer System) zur Abwicklung von Zahlungen in Euro betriebsbereit ist.] **[falls die Festgelegte Währung nicht EUR ist, einfügen:** und Geschäftsbanken und Devisenmärkte in **[sämtliche relevanten Finanzzentren einfügen]** Zahlungen abwickeln].

(6) *Bezugnahmen auf Kapital und Zinsen.* Bezugnahmen in diesen Bedingungen auf Kapital der Schuldverschreibungen schließen, soweit anwendbar, die folgenden Beträge ein: den Rückzahlungsbetrag der Schuldverschreibungen; den vorzeitigen Rückzahlungsbetrag der Schuldverschreibungen; **[falls die Emittentin das Wahlrecht hat, die Schuldverschreibungen vorzeitig zurückzahlen, und Wahl-Rückzahlungsbetrag/beträge (Call) angegeben sind, einfügen:** den Wahl-Rückzahlungsbetrag (Call) der Schuldverschreibungen;] **[falls der Gläubiger ein Wahlrecht hat, die Schuldverschreibungen vorzeitig zu kündigen, einfügen:** den Wahl-Rückzahlungsbetrag (Put) der Schuldverschreibungen;] sowie jeden Aufschlag sowie sonstige auf oder in Bezug auf die Schuldverschreibungen zahlbaren Beträge]. Bezugnahmen in diesen Bedingungen auf Zinsen auf Schuldverschreibungen sollen, soweit anwendbar, sämtliche gemäß § 7 zahlbaren zusätzlichen Beträge einschließen.

(7) *Hinterlegung von Kapital und Zinsen.* Die Emittentin ist berechtigt, beim Amtsgericht Frankfurt am Main Zins- oder Kapitalbeträge zu hinterlegen, die von den Gläubigern nicht innerhalb von zwölf Monaten nach dem Fälligkeitstag beansprucht worden sind **[Im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Verlängerung der Fälligkeit vorsehen, einfügen:** oder, falls sich die Laufzeit der Schuldverschreibungen in Übereinstimmung mit den in § 5 (1a) enthaltenen Bestimmungen verlängert, zwölf Monate nach dem verlängerten Fälligkeitstag (wie in § 5 (1) definiert)], auch wenn die Gläubiger sich nicht in Annahmeverzug befinden. Soweit eine solche Hinterlegung erfolgt, und auf das Recht der Rücknahme verzichtet wird, erlöschen die jeweiligen Ansprüche der Gläubiger gegen die Emittentin.

§ 5 RÜCKZAHLUNG

(1) *Rückzahlung bei Endfälligkeit* [im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Verlängerung der Fälligkeit vorsehen, einfügen: oder am Verlängerten Fälligkeitstag]. Soweit nicht zuvor bereits ganz oder teilweise zurückgezahlt oder angekauft und entwertet, werden die Schuldverschreibungen zu ihrem Rückzahlungsbetrag am [im Fall eines festgelegten Fälligkeitstages, Fälligkeitstag einfügen] [im Fall eines Rückzahlungsmonats einfügen: auf den [letzten Zinszahlungstag einfügen] fallenden oder diesem am nächsten liegenden Zinszahlungstag] fallenden Zinszahlungstag] (der "Fälligkeitstag") [im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Verlängerung der Fälligkeit vorsehen, einfügen: oder, falls sich die Laufzeit der Schuldverschreibungen in Übereinstimmung mit den in § 5 (1a) enthaltenen Bestimmungen verlängert, an jenem Tag, der vom besonderen Verwalter (§ 86 österreichische Insolvenzordnung) als verlängerter Fälligkeitstag festgelegt wird (der "Verlängerte Fälligkeitstag"),] zurückgezahlt. [Im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen: Der spätestmögliche Verlängerte Fälligkeitstag ist der [Datum einfügen].] Der "Rückzahlungsbetrag" in Bezug auf jede Schuldverschreibung entspricht [[•] Prozent des] [dem] Nennbetrag[s] der Schuldverschreibungen.

[Im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Verlängerung der Fälligkeit vorsehen, einfügen:

Die Fälligkeit der Schuldverschreibungen kann bei Eintritt des Objektiven Auslösenden Ereignisses einmalig um bis zu 12 Monate bis zum Verlängerten Fälligkeitstag verschoben werden (dieser Zeitraum von dem Fälligkeitstag (einschließlich) bis zu dem Verlängerten Fälligkeitstag (ausschließlich), der "Verlängerungszeitraum").

Das "Objektive Auslösende Ereignis" ist eingetreten, wenn die Fälligkeitsverschiebung in der Insolvenz der Emittentin durch den besonderen Verwalter (§ 86 österreichische Insolvenzordnung) ausgelöst wird, sofern dieser zum Zeitpunkt der Fälligkeitsverschiebung überzeugt ist, dass die Verbindlichkeiten unter den Schuldverschreibungen vollständig zum Verlängerten Fälligkeitstag bedient werden können. Die Verlängerung der Fälligkeit liegt nicht im Ermessen der Emittentin. Im Fall einer Verlängerung der Fälligkeit wird die Emittentin die Schuldverschreibungen insgesamt und nicht teilweise am Verlängerten Fälligkeitstag zum Rückzahlungsbetrag nebst etwaigen bis zum Verlängerten Fälligkeitstag (ausschließlich) aufgelaufenen Zinsen zurückzahlen. Der Eintritt des Objektiven Auslösenden Ereignisses und die gegebenenfalls daraus resultierenden Anpassungen der Zinsperiode sind den Gläubigern unverzüglich gemäß § 12 mitzuteilen.

Weder die Nichtzahlung des ausstehenden Gesamtnennbetrags am Fälligkeitstag noch die Fälligkeitsverschiebung stellen einen Verzugsfall der Emittentin für irgendwelche Zwecke dar oder geben einem Gläubiger das Recht, die Schuldverschreibungen zu kündigen oder andere als ausdrücklich in diesen Emissionsbedingungen vorgesehene Zahlungen zu erhalten.

Im Falle der Insolvenz oder Abwicklung der Emittentin sind Zahlungsverpflichtungen der Emittentin aus den gedeckten Schuldverschreibungen nicht Gegenstand einer automatischen vorzeitigen Fälligkeitstellung (Insolvenzferne). Die Gläubiger haben in diesen Fällen eine vorrangige Forderung auf den Kapitalbetrag sowie etwaige aufgelaufene und künftige Zinsen aus den Deckungswerten und im Insolvenzfall darüber hinaus, soweit die zuvor genannte vorrangige Forderung nicht im vollen Umfang erfüllt werden kann, eine Insolvenzforderung gegen die Emittentin.

Die österreichische Finanzmarktaufsichtsbehörde (FMA) hat als zuständige Behörde die Emission gedeckter Schuldverschreibungen sowie die Einhaltung der Vorschriften des PfandBG zu überwachen und dabei auf das volkswirtschaftliche Interesse an einem funktionsfähigen Kapitalmarkt Bedacht zu nehmen.

Im Falle eines Konkursverfahrens hat das Konkursgericht für die Verwaltung der vorrangigen Forderungen auf den Kapitalbetrag sowie etwaige aufgelaufene und künftige Zinsen aus den Deckungswerten (Sondermasse) unverzüglich einen besonderen Verwalter zu bestellen (§ 86 österreichische Insolvenzordnung). Der besondere Verwalter hat fällige Forderungen der Gläubiger aus der Sondermasse zu erfüllen und die dafür erforderlichen Verwaltungsmaßnahmen mit Wirkung für die Sondermasse zu treffen, etwa durch Einziehung fälliger Hypothekarforderungen, Veräußerung einzelner Deckungswerte oder durch Zwischenfinanzierungen.

Zinsen für die Schuldverschreibungen werden für die Dauer des Verlängerungszeitraums auf der Grundlage des ausstehenden Gesamtnennbetrags gemäß § 3 auflaufen und zahlbar sein.]

(2) *Vorzeitige Rückzahlung aus steuerlichen Gründen.* Die Schuldverschreibungen können [im Fall von Schuldverschreibungen, die keine Fundierten Bankschuldverschreibungen sind, einfügen:., bei Erfüllung der Rückzahlungsbedingung[en] gemäß § 5 [(4)|(5)|(6)].,] insgesamt, jedoch nicht teilweise, nach Wahl der Emittentin mit einer Kündigungsfrist von nicht weniger als 30 und nicht mehr als 60 Tagen gegenüber der Emissionsstelle und gemäß § 12 gegenüber den Gläubigern vorzeitig gekündigt und zu ihrem vorzeitigen Rückzahlungsbetrag (wie nachstehend definiert) zuzüglich bis zum für die Rückzahlung festgesetzten Tag aufgelaufener Zinsen zurückgezahlt werden, falls die

Emittentin als Folge einer Änderung oder Ergänzung der Steuer- oder Abgabengesetze und -vorschriften der Republik Österreich oder deren politischen Untergliederungen oder Steuerbehörden oder als Folge einer Änderung oder Ergänzung der Anwendung oder der offiziellen Auslegung dieser Gesetze und Vorschriften (vorausgesetzt diese Änderung oder Ergänzung wird am oder nach dem Tag, an dem die letzte Tranche dieser Serie von Schuldverschreibungen begeben wird, wirksam) am nächstfolgenden Zinszahlungstag (wie in § 3 (1) definiert) zur Zahlung von zusätzlichen Beträgen (wie in § 7 dieser Bedingungen definiert) verpflichtet sein wird und diese Verpflichtung nicht durch das Ergreifen vernünftiger der Emittentin zur Verfügung stehender Maßnahmen vermieden werden kann.

Eine solche Kündigung darf allerdings nicht (i) früher als 90 Tage vor dem frühestmöglichen Termin erfolgen, an dem die Emittentin verpflichtet wäre, solche zusätzlichen Beträge zu zahlen, falls eine Zahlung auf die Schuldverschreibungen dann fällig sein würde, oder (ii) erfolgen, wenn zu dem Zeitpunkt, zu dem die Kündigung erfolgt, die Verpflichtung zur Zahlung von zusätzlichen Beträgen nicht mehr wirksam ist.

Eine solche Kündigung hat gemäß § 12 zu erfolgen. Sie ist unwiderruflich, muss den für die Rückzahlung festgelegten Termin nennen und eine zusammenfassende Erklärung enthalten, welche die das Rückzahlungsrecht der Emittentin begründenden Umstände darlegt.

[Im Fall von Nachrangigen Schuldverschreibungen einfügen:

Eine solche Mitteilung darf nicht später als 90 Tage nach Eintritt eines Regulatorischen Ereignisses erfolgen. - (i) im Falle einer vorzeitigen Rückzahlung aus steuerlichen Gründen nach Maßgabe des § 5 (2), die Emittentin der Zuständigen Behörde hinreichend nachgewiesen hat, dass die geltende steuerliche Behandlung sich wesentlich geändert hat und dies zum Zeitpunkt der Begebung der Schuldverschreibungen nicht vernünftigerweise vorherzusehen war; oder
- (ii) im Falle einer vorzeitigen Rückzahlung aus regulatorischen Gründen nach Maßgabe des § 5 (3) die Zuständige Behörde es für ausreichend sicher hält, dass sich die aufsichtsrechtliche Einstufung der Schuldverschreibungen nach den Anwendbaren Regeln ändert und die Emittentin der Zuständigen Behörde hinreichend nachgewiesen hat, dass dies zum Zeitpunkt der Begebung der Schuldverschreibungen nicht vernünftigerweise vorherzusehen war; oder

Unabhängig von den vorstehenden Bedingungen, wenn die anwendbaren Relevanten Regeln im Zeitpunkt einer vorzeitigen Rückzahlung oder eines Rückkaufs die vorzeitige Rückzahlung oder den Rückkauf nur unter Beachtung einer oder mehrerer alternativer oder zusätzlicher Bedingungen zu den in diesem § 5 [(5))(6)] niedergelegten Bedingungen erlauben, hat die Emittentin diese anderen Bedingungen und/oder zusätzlichen Bedingungen einzuhalten.

Darüber hinaus wird die Emittentin die Schuldverschreibungen, selbst wenn eine Mitteilung über eine vorzeitige Rückzahlung gemäß § 5 (2), § 5 (3) oder § 5 (4) abgegeben wurde, nur dann vorzeitig am in der Mitteilung genannten Tag zurückzahlen, wenn die dann anwendbaren Bedingungen für eine vorzeitige Rückzahlung nach diesem § 5 [(5))(6)] am in dieser Mitteilung genannten Rückzahlungstag erfüllt sind.

- (b) wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Gläubigers zu der Republik Österreich zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Republik Österreich stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
- (c) aufgrund (i) Verordnungen oder Richtlinien der Europäischen Union betreffend die Besteuerung von Zinserträgen, oder (ii) internationaler Verträge oder Übereinkommen der Europäischen Union oder der Republik Österreich bezüglich der Besteuerung von Zinserträgen, oder (iii) den gesetzlichen Vorschriften, die derartige Richtlinien, Verordnungen oder Übereinkommen umsetzen, zurückbehalten oder abgezogen werden; oder

Die Mehrheitsbeschlüsse der Gläubiger sind für alle Gläubiger gleichermaßen verbindlich. (2) *Mehrheitserfordernisse.* Die Gläubiger entscheiden mit einer Mehrheit von mindestens 75% der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Anleihebedingungen nicht geändert wird und die keinen Gegenstand der § 5 (3) Nr. 1 bis Nr. 8 des SchVG betreffen, bedürfen zu ihrer Wirksamkeit einer einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte.

(3) *Beschlüsse der Gläubiger.* Beschlüsse der Gläubiger werden nach Wahl der Emittentin im Wege der Abstimmung ohne Versammlung nach § 18 SchVG und §§ 5 ff. SchVG oder einer Gläubigerversammlung nach § 5 ff. SchVG gefasst.

[Im Fall der Bestellung des gemeinsamen Vertreters in den Anleihebedingungen ist folgendes anwendbar: Gemeinsamer Vertreter ist [●]. Die Haftung des gemeinsamen Vertreters ist auf das Zehnfache seiner jährlichen Vergütung beschränkt, es sei denn, dem gemeinsamen Vertreter fällt Vorsatz oder grobe Fahrlässigkeit zur Last.]

Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Gläubigern durch Mehrheitsbeschluss eingeräumt wurden. Er hat die Weisungen der Gläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.]

(4) *Ausschluss der Anwendbarkeit des Kuratorengesetzes.* Die Anwendbarkeit der Bestimmungen des österreichischen Kuratorengesetzes und des Kuratorenenergänzungsgesetzes ist bezüglich der Schuldverschreibungen ausgeschlossen.

(3) *Vorläufige Globalurkunde – Austausch.*

(a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen Schuldverschreibungen in der Festgelegten Stückelung, die durch eine Dauerglobalurkunde (die "**Dauerglobalurkunde**", zusammen mit der vorläufigen Globalurkunde, die "**Globalurkunde**", und jeweils eine Globalurkunde) ohne Zinsscheine verbrieft sind, ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde tragen jeweils die eigenhändigen Unterschriften zweier vertretungsbefugter Personen der Emittentin und sind jeweils von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.

Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieften Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß Abs. (b) dieses § 1 (3) auszutauschen. Bei jeder Rückzahlung oder jedem Kauf durch oder für die Emittentin und jeder Entwertung von Schuldverschreibungen, die durch diese Globalurkunde verbrieft werden, werden die Einzelheiten der Rückzahlung oder des Kaufs und der Entwertung von der oder für die Emittentin in den Registern der ICSDs vermerkt. Soweit eine solche Hinterlegung erfolgt, und auf das Recht der Rücknahme verzichtet wird, erlöschen die jeweiligen Ansprüche der Gläubiger gegen die Emittentin.

§ 5 RÜCKZAHLUNG

(1) *Rückzahlung bei Endfälligkeit [im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Verlängerung der Fälligkeit vorsehen, einfügen: oder am Verlängerten Fälligkeitstag].* Soweit nicht zuvor bereits ganz oder teilweise zurückgezahlt oder angekauft und entwertet, werden die Schuldverschreibungen zu ihrem Rückzahlungsbetrag am **[im Fall eines festgelegten Fälligkeitstages, Fälligkeitstag einfügen][im Fall eines festgelegten Fälligkeitsmonats einfügen:** Zinszahlungstag am oder spätestens am **[letzten Zinszahlungstag einfügen]]** (der "Fälligkeitstag") **[im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Verlängerung der Fälligkeit vorsehen, einfügen:** oder, falls sich die Laufzeit der Schuldverschreibungen in Übereinstimmung mit den in § 5 (1a) enthaltenen Bestimmungen verlängert, an jenem Tag, der vom besonderen Verwalter (§ 86 österreichische Insolvenzordnung) als verlängerter Fälligkeitstag festgelegt wird (der "**Verlängerte Fälligkeitstag**"),] zurückgezahlt. **[Im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Fälligkeitsverschiebung vorsehen, einfügen:** Der spätestmögliche Verlängerte Fälligkeitstag ist der **[Datum einfügen].]** Der "**Rückzahlungsbetrag**" in Bezug auf jede Schuldverschreibung entspricht **[[•] Prozent des] [dem] Nennbetrag[s]** der Schuldverschreibungen.

[Im Fall von Gedeckten Schuldverschreibungen, die Bedingungen für eine Verlängerung der Fälligkeit vorsehen, einfügen:

(1a) *Verlängerung der Fälligkeit.* Die Fälligkeit der Schuldverschreibungen kann bei Eintritt des Objektiven Auslösenden Ereignisses einmalig um bis zu 12 Monate auf den erweiterten Fälligkeitstag verlängert werden.

Das "**Objektive Auslösende Ereignis**" ist eingetreten, wenn die Verlängerung der Fälligkeit in der Insolvenz der Emittentin durch den besonderen Verwalter (§ 86 österreichische Insolvenzordnung) ausgelöst wird, sofern dieser zum Zeitpunkt der Verlängerung der Fälligkeit überzeugt ist, dass die Verbindlichkeiten unter den Schuldverschreibungen vollständig zum Verlängerten Fälligkeitstag bedient werden können. Die Verlängerung der Fälligkeit liegt nicht im Ermessen der Emittentin. Im Fall einer Verlängerung der Fälligkeit wird die Emittentin die Schuldverschreibungen insgesamt und nicht teilweise am Verlängerten Fälligkeitstag zum Rückzahlungsbetrag nebst etwaigen bis zum Verlängerten Fälligkeitstag (ausschließlich) aufgelaufenen Zinsen zurückzahlen. Der Eintritt des Objektiven Auslösenden Ereignisses und die gegebenenfalls daraus resultierenden Anpassungen der Zinsperiode sind den Gläubigern unverzüglich gemäß § 12 mitzuteilen.

Weder die Nichtzahlung des ausstehenden Gesamtnennbetrags am Fälligkeitstag noch die Fälligkeitsverschiebung stellen einen Verzugsfall der Emittentin für irgendwelche Zwecke dar oder geben einem Gläubiger das Recht, die Schuldverschreibungen zu kündigen oder andere als ausdrücklich in diesen Emissionsbedingungen vorgesehene Zahlungen zu erhalten.

Im Falle der Insolvenz oder Abwicklung der Emittentin sind Zahlungsverpflichtungen der Emittentin aus den gedeckten Schuldverschreibungen nicht Gegenstand einer automatischen vorzeitigen Fälligkeitstellung (Insolvenzferne). Die Gläubiger haben in diesen Fällen eine vorrangige Forderung auf den Kapitalbetrag sowie etwaige aufgelaufene und künftige Zinsen aus den Deckungswerten und im Insolvenzfall darüber hinaus, soweit die zuvor genannte vorrangige Forderung nicht im vollen Umfang erfüllt werden kann, eine Insolvenzforderung gegen die Emittentin.

Die österreichische Finanzmarktaufsichtsbehörde (FMA) hat als zuständige Behörde die Emission gedeckter Schuldverschreibungen sowie die Einhaltung der Vorschriften des PfandBG zu überwachen und dabei auf das volkswirtschaftliche Interesse an einem funktionsfähigen Kapitalmarkt Bedacht zu nehmen.

Im Falle eines Konkursverfahrens hat das Konkursgericht für die Verwaltung der vorrangigen Forderungen auf den Kapitalbetrag sowie etwaige aufgelaufene und künftige Zinsen aus den Deckungswerten (Sondermasse) unverzüglich einen besonderen Verwalter zu bestellen (§ 86 österreichische Insolvenzordnung). Der besondere Verwalter hat fällige Forderungen der Gläubiger aus der Sondermasse zu erfüllen und die dafür erforderlichen Verwaltungsmaßnahmen mit

Wirkung für die Sondermasse zu treffen, etwa durch Einziehung fälliger Hypothekarforderungen, Veräußerung einzelner Deckungswerte oder durch Zwischenfinanzierungen.

(1b) *Während des Verlängerungszeitraums anfallende Zinsen.* Im Falle einer Verlängerung der Laufzeit entspricht der Endgültige Rückzahlungsbetrag am Verlängerten Fälligkeitstag dem zu diesem Zeitpunkt gemäß § 5 [(3)|(4)|(5)] zu ermittelnden Tilgungsnominalbetrag.]

(2) *Vorzeitige Rückzahlung aus steuerlichen Gründen.* Die Schuldverschreibungen können **[im Fall von Schuldverschreibungen, die keine Fundierten Bankschuldverschreibungen sind, einfügen:]** bei Erfüllung der Rückzahlungsbedingung gemäß § 5 [(5)|(6)|(7)]., insgesamt, jedoch nicht teilweise, nach Wahl der Emittentin mit einer Kündigungsfrist von nicht weniger als 30 und nicht mehr als 60 Tagen gegenüber der Emissionsstelle und gemäß § 12 gegenüber den Gläubigern vorzeitig gekündigt und zu ihrem vorzeitigen Rückzahlungsbetrag (wie nachstehend definiert), falls die Emittentin als Folge einer Änderung oder Ergänzung der Steuer- oder Abgabengesetze und -vorschriften der Republik Österreich oder deren politischen Untergliederungen oder Steuerbehörden oder als Folge einer Änderung oder Ergänzung der Anwendung oder der offiziellen Auslegung dieser Gesetze und Vorschriften (vorausgesetzt diese Änderung oder Ergänzung wird am oder nach dem Tag, an dem die letzte Tranche dieser Serie von Schuldverschreibungen begeben wird, wirksam) am nächstfolgenden Zinszahlungstag (wie in § 3 (1) definiert) zur Zahlung von zusätzlichen Beträgen (wie in § 7 dieser Bedingungen definiert) verpflichtet sein wird und diese Verpflichtung nicht durch das Ergreifen vernünftiger der Emittentin zur Verfügung stehender Maßnahmen vermieden werden kann.

Eine solche Kündigung darf allerdings nicht (i) früher als 90 Tage vor dem frühestmöglichen Termin erfolgen, an dem die Emittentin verpflichtet wäre, solche zusätzlichen Beträge zu zahlen, falls eine Zahlung auf die Schuldverschreibungen dann fällig sein würde, oder (ii) erfolgen, wenn zu dem Zeitpunkt, zu dem die Kündigung erfolgt, die Verpflichtung zur Zahlung von zusätzlichen Beträgen nicht mehr wirksam ist.

Eine solche Kündigung hat gemäß § 12 zu erfolgen. Sie ist unwiderruflich, muss den für die Rückzahlung festgelegten Termin nennen und eine zusammenfassende Erklärung enthalten, welche die das Rückzahlungsrecht der Emittentin begründenden Umstände darlegt.

[Im Fall von Nicht-Nachrangigen Nicht-Präferierten Schuldverschreibungen einfügen:]

(3) *Vorzeitige Rückzahlung wegen eines MREL Disqualification Events.*

Falls ein MREL Disqualification Event eingetreten ist und fort dauert und die Rückzahlungsbedingung (wie unter § 5 [(5)|(6)|(7)] definiert) erfüllt ist, können die Schuldverschreibungen insgesamt, jedoch nicht teilweise, nach Wahl der Emittentin mit einer Kündigungsfrist von nicht weniger als 30 und nicht mehr als 60 Tagen gegenüber der Emissionsstelle und gemäß § 12 gegenüber den Gläubigern vorzeitig gekündigt und zu ihrem vorzeitigen Rückzahlungsbetrag (wie nachstehend definiert) zuzüglich bis zum für die Rückzahlung festgesetzten Tag aufgelaufener Zinsen zurückgezahlt werden. Eine derartige Kündigung muss **[falls die BAWAG P.S.K. die Emittentin von Nicht-Präferierten Schuldverschreibungen ist, einfügen:]**, (A) wenn und solange die Emittentin feststellt, dass das MREL Disqualification Event bei einer Ersetzung der Emittentin durch die BAWAG Muttergesellschaft (wie unten definiert) als Hauptschuldnerin in Bezug auf alle Verpflichtungen aus oder im Zusammenhang mit den Schuldverschreibungen gemäß § 10 nicht mehr bestehen würde, und (B) in jedem Fall] innerhalb von 90 Tagen nach Eintritt des MREL Disqualification Event ausgesprochen werden. Die Kündigung ist unwiderruflich, muss den für die Rückzahlung festgelegten Termin nennen und eine zusammenfassende Erklärung enthalten, welche die das Rückzahlungsrecht der Emittentin begründenden Umstände darlegt.

"Berücksichtigungsfähige MREL-Instrumente" meint jegliche (direkt oder indirekt begebene) Schuldtitel der Emittentin, die für die Mindestanforderungen für Eigenmittel und berücksichtigungsfähige Verbindlichkeiten (*minimum requirements for own funds and eligible liabilities*, MREL) nach den Anwendbaren MREL-Regeln qualifizieren.

"MREL" meint die Mindestanforderungen für Eigenmittel und berücksichtigungsfähige Verbindlichkeiten (*minimum requirements for own funds and eligible liabilities*) nach den Anwendbaren MREL-Regeln.

"MREL Disqualification Event" meint zu jedem Zeitpunkt die Feststellung durch die Emittentin, dass die Schuldverschreibungen, ganz oder teilweise (i) nicht als Berücksichtigungsfähige MREL-Instrumente anerkannt werden, oder (ii) sich ihre aufsichtsrechtliche Einstufung so ändert, dass die Schuldverschreibungen wahrscheinlich von den Berücksichtigungsfähigen MREL-Instrumenten ausgeschlossen wären oder sind, wobei jeweils kein MREL Disqualification Event eintreten soll auf der Basis, (i) dass die Restlaufzeit der Schuldverschreibungen weniger beträgt als ein etwaiger Zeitraum gemäß den Anwendbaren MREL-Regeln, und/oder (ii) etwaiger anwendbarer Beschränkungen des zulässigen oder genehmigten Betrages für Berücksichtigungsfähige MREL-Instrumente zur Erfüllung von MREL gemäß den Anwendbaren MREL-Regeln.]

Für die Zwecke dieses § 10 bedeutet "**verbundenes Unternehmen**" ein Konzernunternehmen im Sinne von § 15 österreichisches Aktiengesetz **[In dem Fall, dass BAWAG P.S.K. die Emittentin von Nicht-Nachrangigen Nicht-Präferierten Schuldverschreibungen ist, einfügen:**, einschließlich der BAWAG Group AG oder jeder anderen Gesellschaft, die 50% oder mehr der Aktien der Emittentin hält (BAWAG Group AG oder (gegebenenfalls) eine solche andere Gesellschaft, die "**BAWAG Muttergesellschaft**")].

(2) *Bekanntmachung.* Jede Ersetzung ist gemäß § 12 bekannt zu machen.

(3) *Änderung von Bezugnahmen.* Im Fall einer Ersetzung **[In dem Fall, dass BAWAG P.S.K. die Emittentin von Nicht-Nachrangigen Nicht-Präferierten Schuldverschreibungen ist, einfügen:** (sofern die BAWAG Muttergesellschaft die Nachfolgeschuldnerin ist, die "**Senior HoldCo Ersetzung**") gilt jede Bezugnahme in diesen Anleihebedingungen auf die Emittentin ab dem Zeitpunkt der Ersetzung als Bezugnahme auf die Nachfolgeschuldnerin und jede Bezugnahme auf das Land, in dem die Emittentin ihren Sitz oder Steuersitz hat, gilt ab diesem Zeitpunkt als Bezugnahme auf das Land, in dem die Nachfolgeschuldnerin ihren Sitz oder Steuersitz hat. Des Weiteren gilt im Fall einer Ersetzung folgendes:

- (a) sofern die Nachfolgeschuldnerin nicht auch ihren Sitz oder Steuersitz in der Republik Österreich hat, gilt in § 7 und § 5 (2) eine alternative Bezugnahme auf die Republik Österreich als aufgenommen (zusätzlich zu der Bezugnahme nach Maßgabe des vorstehenden Satzes auf das Land, in dem die Nachfolgeschuldnerin ihren Sitz oder Steuersitz hat);
- (b) in § 10 (1) (c) bis (e) gilt eine alternative Bezugnahme auf die Emittentin in ihrer Eigenschaft als Garantin als aufgenommen (zusätzlich zu der Bezugnahme auf die Nachfolgeschuldnerin)**[In dem Fall, dass BAWAG P.S.K. die Emittentin von Nicht-Nachrangigen Nicht-Präferierten Schuldverschreibungen ist, einfügen:]**, es sei denn, dass diese Ersetzung eine Senior HoldCo Ersetzung darstellt].

Im Fall einer Ersetzung folgt die Nachfolgeschuldnerin der Emittentin als Rechtsnachfolgerin nach, ersetzt diese und darf alle Rechte und Befugnisse der Emittentin aus den Schuldverschreibungen mit der gleichen Wirkung geltend machen, als wenn die Nachfolgeschuldnerin in diesen Anleihebedingungen als Emittentin genannt worden wäre, und die Emittentin (bzw. die Gesellschaft, die zuvor die Verpflichtungen der Emittentin übernommen hat) wird von ihren Verpflichtungen als Schuldnerin aus den Schuldverschreibungen befreit**[In dem Fall, dass BAWAG P.S.K. die Emittentin von Nicht-Nachrangigen Nicht-Präferierten Schuldverschreibungen ist, einfügen:]**, mit der Maßgabe, dass mit Wirkung ab (und einschließlich) dem Eintritt einer Senior HoldCo Ersetzung § 2 (1) der Anleihebedingungen als wie folgt geändert gilt:

"(1) Die Schuldverschreibungen begründen unbesicherte und nicht-nachrangige Verbindlichkeiten der Emittentin. Im Fall einer Auflösung, Liquidation, Insolvenz, Vergleichs oder eines anderen Verfahrens zur Vermeidung einer Insolvenz der, oder gegen die, Emittentin, sind die Verbindlichkeiten der Emittentin aus den Schuldverschreibungen:

- (a) gleichrangig (i) untereinander und (ii) mit allen anderen gegenwärtigen oder zukünftigen unbesicherten und nicht nachrangigen Verbindlichkeiten der Emittentin, die den gleichen Rang haben oder den Verbindlichkeiten der Emittentin aus den Schuldverschreibungen gegenüber als gleichrangig bezeichnet werden, im gleichen Rang;

"Vorrangige Verbindlichkeiten" bezeichnet alle Verbindlichkeiten der Emittentin welche gemäß zwingendem Recht im Rang vor den Verbindlichkeiten der Emittentin aus den Schuldverschreibungen stehen oder als im Rang vor diesen stehend bezeichnet werden.

"Nicht-Präferierte Nicht-Nachrangige Instrumente" bezeichnet alle Verbindlichkeiten der Emittentin, die in die Kategorie von Verbindlichkeiten, die in § 131 (3) Nr. 1 bis Nr. 3 BaSAG, welcher Artikel 108 (2) BRRD umsetzt, beschrieben wird, fallen oder bestimmungsgemäß fallen sollen, und alle anderen Verbindlichkeiten der Emittentin die, soweit nach österreichischem Recht zulässig, im gleichen Rang zu den Nicht-Präferierten Nicht-Nachrangigen Instrumenten stehen oder als im gleichen Rang zu diesen stehend bezeichnet werden.

"BaSAG" bezeichnet das österreichische Sanierungs- und Abwicklungsgesetz in der Fassung wie jeweils geändert oder ersetzt; soweit Bestimmungen des BaSAG geändert oder ersetzt werden, bezieht sich der Verweis auf Bestimmungen des BaSAG in diesen Anleihebedingungen auf die jeweils geänderten Bestimmungen bzw. die Nachfolgeregelungen.

"BRRD" bezeichnet die Richtlinie 2014/59/EU des Europäischen Parlaments und des Rates vom 15. Mai 2014 zur Festlegung eines Rahmens für die Sanierung und Abwicklung von Kreditinstituten und Wertpapierfirmen, wie in der Republik Österreich umgesetzt; soweit Bestimmungen der BRRD geändert oder ersetzt werden, bezieht sich der Verweis auf Bestimmungen der BRRD in diesen Anleihebedingungen auf die jeweils geänderten Bestimmungen bzw. die Nachfolgeregelungen, wie in der Republik Österreich umgesetzt."

[Im Fall Fundierter Bankschuldverschreibungen einfügen:

Für die Zwecke des Vorstehenden bezeichnet "**Depotbank**" jede Bank oder ein sonstiges anerkanntes Finanzinstitut, das berechtigt ist, das Wertpapierverwahrungsgeschäft zu betreiben und bei der/dem der Gläubiger ein Wertpapierdepot für die Schuldverschreibungen unterhält, einschließlich des Clearing Systems. 6 FORM OF THE FINAL TERMS

¹**[MiFID II Product Governance / target market**– Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties[.][and] professional clients [and retail clients], each as defined in Directive 2014/65/EU (as amended, "MiFID II"); [and •] **[EITHER**²: and (ii) all channels for distribution of the Notes are appropriate[, including investment advice, portfolio management, non-advised sales and pure execution services] **[OR**³: (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice[.][and] portfolio management[.][and] [non-advised sales] [and pure execution services][, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable]]. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer[']s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[']s target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable]⁴.]

¹**[MIFID II Produktüberwachungspflichten / Zielmarkt** – Die Zielmarktbestimmung im Hinblick auf die Schuldverschreibungen hat – ausschließlich für den Zweck des Produktgenehmigungsverfahrens [des/jedes] Konzepteurs – zu dem Ergebnis geführt, dass (i) der Zielmarkt für die Schuldverschreibungen geeignete Gegenparteien und professionelle Kunden, jeweils im Sinne der Richtlinie 2014/65/EU (in der jeweils gültigen Fassung, "MiFID II"), umfasst [und [•]]; **[ENTWEDER**²: und (ii) alle Kanäle für den Vertrieb der Schuldverschreibungen angemessen sind, einschließlich Anlageberatung, Portfolio-Management, Verkäufe ohne Beratung und reine Ausführungsdienstleistungen] **[ODER**³: (ii) alle Kanäle für den Vertrieb der Schuldverschreibungen an professionelle Investoren und geeignete Gegenparteien angemessen sind, und (iii) die folgenden Kanäle für den Vertrieb der Schuldverschreibungen an Privatkunden geeignet sind - Anlageberatung[.][und] Portfolioverwaltung[.][und] [nicht beratene Verkäufe] [und reine Ausführungsdienstleistungen][, vorbehaltlich der Eignungs- und Angemessenheitsverpflichtungen des Vertriebspartners gemäß MiFID II, soweit anwendbar]]. Jede Person, die in der Folge die Schuldverschreibungen anbietet, verkauft oder empfiehlt (ein "Vertriebsunternehmen") sollte die Beurteilung des Zielmarkts [des/der] Konzepteur[s/e] berücksichtigen; ein Vertriebsunternehmen, welches MiFID II unterliegt, ist indes dafür verantwortlich, seine eigene Zielmarktbestimmung im Hinblick auf die Schuldverschreibungen durchzuführen und angemessene Vertriebskanäle, zu bestimmen[, vorbehaltlich der Eignungs- und Angemessenheitsverpflichtungen des Vertriebsunternehmens gemäß MiFID II, sofern anwendbar]⁴.]

⁴ If there are advised sales, a determination of suitability will be necessary.

Im Fall von Beratungsverkäufen ist eine Angemessenheitsprüfung erforderlich.

²**[PROHIBITION OF SALES TO UK RETAIL INVESTORS** – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

7.3 Trend information

Economic Developments

Macro trends

After the severe economic burden of the global pandemic in 2020, innovation, international cooperation and confidence fueled a pronounced economic recovery in 2021. The roll-out of vaccines, continuation of other safety concepts, like COVID testing, and working from home have been applied globally to deal with the pandemic. Thus, the pandemic became less of a threat to global economic stability than it continues to be for public health. Going forward, the coronavirus (COVID-19) is expected to be a rather local and seasonal phenomenon (endemic) rather than a global threat (pandemic). In 2021, real gross domestic product (GDP) recovered with growth rates of 4.7% in Austria, 2.8% in Germany, 4.3% in the Netherlands and 5.3% in the Eurozone. In Austria, government support measures introduced during the height of the pandemic in 2020 have been effective in preventing a surge in unemployment and have been extended into 2022 to foster continuation of the recovery. Price increases for raw materials and supply chain disruptions have caused elevated consumer price inflation starting in summer 2021; reaching levels of 3.8% in Austria, 5.7% in Germany and 5.0% in the Eurozone as of December 2021. While these factors alone may only be temporary and cannot be countered by monetary policy measures, tendencies towards a more permanent inflation might indeed call for monetary policy action. There are knock-on effects to wages and prices of non-tradable goods such as rents, which are signs of a more broadly based inflationary pressure in the Eurozone.

7.3.1 Statement of no material adverse change / significant changes

Except for the adverse market conditions described in "7.3.2 Recent developments and outlook", there have been no material adverse changes in the prospects of BAWAG since the date of its last published audited financial statements, 31 December 2021.

There has been no significant change in the financial performance of BAWAG Group since 31 December 2021, the end of the last financial period for which financial information has been published, to the date of this Base Prospectus.

7.3.2 Recent developments and outlook

Acquisition of Depfa Bank and Hello bank! Austria

Since IPO, seven acquisitions were completed and 1.13 billion capital was distributed. On 19 November 2021, BAWAG P.S.K. completed the acquisition of DEPFA BANK plc, and its subsidiary DEPFA ACS Bank.

Furthermore, on 01 December 2021, BAWAG P.S.K. completed the acquisition of Hello bank! Austria from BNP Paribas. It will be continued under the easybank brand. The transaction is subject to customary closing conditions and the parties have agreed not to disclose the purchase price or any further details of the agreement.

In addition, on 02 February 2022, BAWAG Group agreed to acquire Peak Bancorp, Inc., the holding company for Idaho First Bank.

Recent funding activities

Customer deposits (62 %) makes up the majority of funding (wholesale funding secured 10%, wholesale funding unsecured 5%, Targeted longer-term refinancing operation ("TLTRO") 11%, others 4% equity 8%). Covered Bonds are an important capital market funding source. Following the accelerated change in composition of the P2R as part of the measures taken by the ECB, BAWAG Group optimized its capital structure by issuing € 175 million Additional Tier 1 capital. Further, BAWAG Group issued € 200 million Tier 2 capital under the Programme in the third quarter 2020.

On the back of a € 1.0 billion mortgage covered bond issuance in 2019, BAWAG P.S.K. issued notes covered by a mortgage-backed pool of assets in the amount of € 750 million under the Programme in the third quarter 2020, followed by another issuance of notes covered by a mortgage-backed pool of assets in the amount of € 500 million in the fourth quarter 2020 (both with 0.01% coupon), a mortgage-backed pool of assets in the amount of € 500 million in the first quarter 2021 (due 2041 with 0.0375% coupon), a mortgage-backed pool of assets in the amount of € 500 million in the second quarter 2021 (due 2031 with 0.100% coupon), and a mortgage-backed pool of assets in the amount of € 500 million in the first quarter 2022 (due 2032 with 0.25% coupon).

In the third quarter 2021, BAWAG P.S.K. issued notes covered by a mortgage-backed pool of assets in the amount of € 500 million due September 2029 with 0.01% coupon (Green Bonds) under the Programme.

The full capacity of EUR 6.4 billion participates in TLTRO III. 11 benchmark bonds are outstanding with up to EUR 750 million issue size and maturities up to 2041. In 2022 EUR 560, in 2023 EUR 280 and in 2024 EUR 510 will be matured. BAWAG is targeting around 2% net cost-out with a CIR of under 38% in 2022. The expected risk cost ratio is around 20bps in 2022 without benefit of any reserve releases entering normalized risk environment.

The new Austrian Covered Bond Act (*Pfandbriefgesetz – "PfandBG"*), replacing the Mortgage Bank Act (*Hypothekendarstellungsgesetz – HypBG*), the current Mortgage Bond Act (*Pfandbriefgesetz – PfandbriefG*) and the Act on Covered Bonds of Banks (*Gesetz betreffend fundierte Bankschuldverschreibungen – FBSchVG*), was adopted by the Austrian legislature at the end of 2021 and enters into force on 8 July 2022. The new PfandBG implements Directive (EU) 2019/2162, in addition to creating a modern and standardized legal regime for all forms of covered bonds in Austria. Directive (EU) 2019/2162, on which the new PfandBG is based, aligns with the Recommendations on Harmonization of Covered Bond Frameworks in the EU of 20 December 2016 (EBA-Op-2016-23).

Outlook

The unprecedented crisis (public health, violent conflicts) is causing a high degree of uncertainty with regards to the economic outlook, triggering frequent revisions to forecasts that differ among various institutions. However, the scenarios of major forecasting institutions call for a continuation of the improving economic environment in 2022. After the recovery in 2021, the EU commission expects GDP to continue at a stable pace with growth of +4.3% in Austria, +3.6% in Germany, +3.0% in the Netherlands and +4.0% in the Eurozone in 2022. After inflationary pressure was predominantly caused by supply chain factors and price increases of raw materials in 2021, inflationary tendencies are expected to become more permanent in 2022. Thus, central banks have started to taper their ultra-expansionary monetary policy measures. The United States Federal Reserve has started a cycle of rate hikes in March 2022 and is expected to increase the key interest rate level by around 150 basis points during 2022. The ECB will most likely end the favorable pricing of its TLTRO in June 2022 and is discussing a reduction of its bond purchase programs. Thus, as in previous cycles, monetary policy in Europe is lagging behind the United States. The emergence of new variants of the coronavirus remains a downside risk. It remains to be seen, however, if these variants will evolve to cause less severe illness, and hence will have minor impact on the economic outlook. Monetary policy errors in both directions remains a risk, i.e. reacting too slow and, hence, causing excessive inflation or reacting too drastic and, in turn, depressing economic recovery. This risk, however, can be managed by a data-based and vigilant decision-making process that central banks continue to stress in public communication.

The war in Ukraine and the sanctions imposed on Russia and Belarus are expected to dampen the growth outlook in Europe, especially in countries such as Austria that have a high degree of financial and trade interconnectivity to Russia. BAWAG has a limited exposure to companies with business activities in these countries (i.e. indirect exposure). As BAWAG's business activity is focused on retail operations in the DACH/NL region, the main impact of the war in Ukraine and the sanctions imposed is of general macroeconomic nature, e.g. through an increase in unemployment and recession in the DACH/NL region and a significant rise of energy prices. As of 31 December 2021, BAWAG Group had no direct exposure to Russia, Belarus and Ukraine.

On 28 March 2022, the Annual General Meeting of BAWAG Group AG approved a dividend of EUR 3.00 per share (subject to a total amount of EUR 267 million) (EUR 460m dividend relating to 2019/2020 profits distributed in 2021 due to ECB dividend ban related to the pandemic in 2020). From financial year 2022, there will be a new capital distribution policy in place. Dividend payout will amount to 55%. Subject to regulatory approvals, in 2022, also a share buyback of up to EUR 425 million is planned. After a plus of 2.3% because of earnings, risk-weighted assets ("**RWA**") and others as well as a minus of 1.3 because dividend accrual from 2020 to 2021 (plus of around 230bps for gross capital generation in 2021) and as a result of the EUR 425 share buyback-programm, a CET1 ratio of 12.85% with unchanged CET1 Target of 12.25% and a capital requirement of 9.14% is expected. The excess capital after the proposed share buyback permits organic growth and bolt-on M&A in 2022. By 2025, the pre-tax profit should amount over EUR 750 million and EPS over EUR 7.25 with around 10% annual EPS growth through 2025. The DPS should be over EUR 4.00. Moreover, BAWAG expects to grow its core revenues by more than 4% in 2022.

The current MREL ruling is expected to remain in place until 2023. BAWAG's resolution strategy might change to a HoldCo senior approach if SRB was to make BAWAG Group AG the Single Point of Entry in the future. For 2022, BAWAG is planning to issue additional senior bonds of around EUR 0.5 billion to 1.0 billion, in order to meet the MREL requirement and to build a buffer in that respect. Senior HoldCo Substitution (including the ranking as a senior bond at the level of BAWAG Group AG) will be included in future SNP issuances to accommodate a potential future change in the resolution strategy and to allow a transition to a HoldCo Senior MREL approach. In addition, it is envisaged to issue one Green bond (benchmark format) in each year.

The banking industry across Europe is undergoing a significant transformation and facing several challenges in the form of low interest rates, continued pricing pressure, increased regulatory requirements, new market entrants in the form of fintechs and a rapid pace of technological change. BAWAG Group, however, targets to continue growing its business while maintaining a low-risk and well capitalized balance sheet.

7.4 Administrative, management and supervisory bodies

In accordance with Austrian law, a stock corporation (*Aktiengesellschaft*), such as BAWAG, has a two-tier board structure comprising of the management board ("**Management Board**") and the supervisory board ("**Supervisory Board**"). The Management Board is responsible for the executive management and represents the company vis-à-vis third parties. The Supervisory Board is responsible for supervising the management and internal controls of the company. Members of the Management Board are appointed by the Supervisory Board. Members of the Supervisory Board are elected by the shareholders' meeting or delegated by shareholders afforded such a

delegation right in the Articles of Association. Under Austrian co-determination rules, a stock corporation's works council has the right to delegate one works council representative to the Supervisory Board for every two shareholders' representatives at the Supervisory Board. The corporate bodies of the company are bound in particular by the Articles of Association, the rules of procedure for the Management Board (*Geschäftsordnung für den Vorstand*), the rules of procedure for the Supervisory Board (*Geschäftsordnung für den Aufsichtsrat*) (each as adopted by the Supervisory Board) and the Austrian Corporate Governance Code.

7.4.1 Members of the administrative, management and supervisory bodies of the Company

7.4.2 Administrative, management and supervisory bodies' potential conflicts of interest

Agreements of BAWAG with the members of its Management Board and its Supervisory Board may generate in certain circumstances conflicts of interest. Should any such conflict of interest arise, BAWAG has sufficient rules and procedures, compliance rules and industry standards in place regulating the management of conflicts of interest and the ongoing application of such guidelines and rules. No potential conflicts of interest arising out of such agreements have been identified with respect to the members of the BAWAG's Management Board or of its Supervisory Board where internal procedures or measures would not be sufficient to resolve any conflicts of interest.

On the date of this Base Prospectus, the Management Board and the Supervisory Board of BAWAG comprise the same persons as the Management Board and the Supervisory board of BAWAG P.S.K., respectively (see "8.4.1.1 Current members of the Management Board" and "8.4.1.2 Current members of the Supervisory Board" below). Although the participation in BAWAG P.S.K. is BAWAG's only holding, the interests of BAWAG and the interests of BAWAG P.S.K. may not always be fully aligned.

7.5 Major shareholders

BAWAG is neither directly nor indirectly majority-owned or controlled by any other corporation, by any government or by any other natural or legal person severally or jointly. Pursuant to Austrian law and the articles of association of BAWAG, to the extent that BAWAG may have major shareholders at any time, it may not give them different voting rights from any of the other shareholders. BAWAG is not aware of arrangements which may at a subsequent date result in a change of control of the company.

According to § 130(1) sentence 1 of the Austrian Stock Exchange Act 2018 (*Börsegesetz 2018 – BörseG 2018*), if natural persons or legal entities (irrespective of whether domestic or foreign), directly or indirectly, acquire or sell shares in a stock corporation for which Austria is the home member state and the shares of which are listed on the Official Market of the Vienna Stock Exchange, then these persons or entities are obliged to notify the Austrian Financial Market Authority (FMA), the Vienna Stock Exchange as well as BAWAG within two trading days after the acquisition or disposal of a major shareholding, provided that the proportion of the voting rights held reaches, exceeds or falls below certain thresholds as a consequence of the acquisition or disposal. For BAWAG, the minimum disclosure threshold is 4% of the voting rights. To BAWAG's knowledge, there are only five shareholders holding more than 4% of the voting rights, and none of these shareholders holds more than 10% of the BAWAG shares or voting rights.

7.6 Legal and arbitration proceedings

BAWAG Group is involved in legal and administrative proceedings as part of its ordinary business activities. Such proceedings in particular include lawsuits with customers and consumer protection associations such as the Chamber of Labour and the Consumer Information Association. Similar disputes and proceedings are also likely to arise in the future.

It is impossible to reliably determine or predict the outcome of proceedings pending or threatened. Other than the proceedings described below, during a period covering the previous twelve months, no legal or administrative proceedings (including any proceedings which are pending or threatened of which BAWAG is aware) may have or have had in the recent past significant effects on BAWAG's financial position or profitability.

Litigation with the City of Linz

On 12 February 2007, BAWAG P.S.K. entered into a resettable CHF linked swap agreement with the City of Linz based on the Austrian framework agreement for derivatives transactions. In October 2011, the City of Linz refused to make further payments. Consequently BAWAG P.S.K. terminated the swap agreement. In November 2011, the City of Linz sued BAWAG P.S.K. asserting that the swap agreement was void based on the allegation that the resolutions adopted by the city council did not cover such a transaction and an approval by the Austrian province of Upper Austria (*Oberösterreich*) would have been required. The City of Linz sought payment of CHF 30.6 million (equalling approximately € 24.2 million for the purposes of the court procedure) plus interest and costs. BAWAG P.S.K. rejected these claims and has filed a counter-claim seeking payment of € 417.7 million plus interest and costs. For reasons of utmost precaution, this receivable has been written down to a carrying value of approximately € 254 million in the financial year 2011. Furthermore, given the overall capital strength of the BAWAG Group, the receivable has been fully provisioned from a capital standpoint in the financial year 2020. BAWAG P.S.K. bases its claim on costs related to the termination of the swap transaction (€ 397.7 million) and an outstanding payment due under the swap transaction (€ 20 million). In April 2019 the City of Linz filed a motion for

an interim judgment (*Zwischenurteil*) to be rendered solely on the validity of the swap agreement with the aim to seek a final decision from the Austrian Supreme Court (*Oberster Gerichtshof*) on that question before continuing the main proceedings which will then deal with the mutual payment claims of BAWAG P.S.K. and the City of Linz. The main proceedings are still pending in the court of first instance. On 7 January 2020, the court of first instance issued its interim judgment (*Zwischenurteil*) holding the swap agreement to be void. The court of appeals confirmed the outcome of the first instance on 6 April 2021 but expressly permitted a further appeal to the Austrian Supreme Court (*Oberster Gerichtshof*). BAWAG Group filed its appeal to the Austrian Supreme Court (*Oberster Gerichtshof*) on 4 May 2021 and the decision of the Austrian Supreme Court (*Oberster Gerichtshof*) is still pending. Following a decision of the Austrian Supreme Court (*Oberster Gerichtshof*) on the validity of the swap agreement the main proceedings will continue in the court of first instance which will have to decide on the mutual payment claims. Appeals against such further decision will be possible to the court of appeals and potentially also (again) to the Austrian Supreme Court (*Oberster Gerichtshof*). Eventually, BAWAG P.S.K. could be obligated to pay the claimed amount to the City of Linz in full or in part, and/or BAWAG P.S.K. may not be awarded, in full or in part, the payment sought and would then be required to write-down its claims further. Whether and to what extent the mutual claims of the parties exist depends, among other aspects, on whether the swap agreement entered into between BAWAG P.S.K. and the City of Linz was valid. In addition, even if the courts ultimately would hold that the swap transaction was valid, BAWAG P.S.K. may still not be awarded, in full or in part, the payment sought, in which case it would also be required to further write down its claims. Finally, depending on the outcome of the proceedings, BAWAG P.S.K. may be required under statutory law to bear some or all of the court and legal fees of the City of Linz.

7.7 Significant change in the financial position of BAWAG Group

No significant change in the financial position of BAWAG Group has occurred since 31 December 2021.

A serious assessment of the effects of the COVID-19 pandemic and the implications of the general macroeconomic effects resulting from the war in the Ukraine is, however, not possible at this stage. Further developments will be closely monitored so that BAWAG Group can take appropriate measures and precautions at any time.

7.8 Material contracts

In the ordinary course of its business, members of BAWAG Group enter into a variety of contracts with various other entities. Within the past two years, BAWAG Group has not, however, entered into any material contracts outside the ordinary course of its business which could result in any group member being under an obligation or entitlement that has a material adverse impact on the Issuer's ability to meet its obligations under the Notes.

It also provides money transfer and foreign exchange services. BAWAG P.S.K. is also active in money and capital markets. 8.1.2 Corporate history and development

Bank für Arbeit und Wirtschaft Aktiengesellschaft was founded in 1922 by Dr. Karl Renner, State Chancellor of the First Republic and Federal President of the Second Republic of Austria, as the trade unions' bank. Liquidated in 1934 for political reasons, Bank für Arbeit und Wirtschaft Aktiengesellschaft was refounded in 1947 as Arbeiterbank and in 1963 renamed to Bank für Arbeit und Wirtschaft Aktiengesellschaft. Österreichische Postsparkasse Aktiengesellschaft ("**P.S.K.**") was founded on 12 January 1883 as "k.k. Postsparkassen-Amt". It was formerly the "Staatssparkasse" (state savings bank) in the Austrian territory of the Austro-Hungarian Empire and is one of the world's oldest post office savings institutions. In 1997 the public law institution, Österreichische Postsparkasse, was transformed into a joint stock company and the decision was made to privatize it. On 16 August 2000 the state holding company of P.S.K. agreed to sell the majority of the shares of P.S.K. to Bank für Arbeit und Wirtschaft Aktiengesellschaft. The acquisition became effective on 1 December 2000. BAWAG P.S.K. came into existence on 1 October 2005 following the merger of Bank für Arbeit und Wirtschaft Aktiengesellschaft, Österreichische Postsparkasse Aktiengesellschaft and Kapital & Wert Bank ("**K&W**"). By way of a spin-off Bank für Arbeit und Wirtschaft Aktiengesellschaft has transferred its entire banking business to the group company K&W. P.S.K., until then an affiliate of Bank für Arbeit und Wirtschaft Aktiengesellschaft, was merged into the same group company. By this measure the banking business of Bank für Arbeit und Wirtschaft Aktiengesellschaft and P.S.K. were consolidated. K&W was then renamed as BAWAG P.S.K. Bank für Arbeit und Wirtschaft und Österreichische Postsparkasse Aktiengesellschaft (BAWAG P.S.K.).

- Invest in platforms and partnerships to drive growth across the Group;
- Pursue earnings-accretive M&A meeting the Group RoTCE target of at least 17%; and
- Continue to build-up middle-back-office sales support and product/channel standardization to drive profitable growth.

BAWAG Group's core markets are defined by Austria, Germany, Switzerland, the Netherlands (DACH/NL region), Western Europe and the United States. The Company focuses on regions and countries with solid fiscal positions, represented by a sovereign rating of at least Single A, reliable legal systems, and a stable geopolitical environment. This will be even more important with evolving ESG and regulatory standards to ensure BAWAG Group meets the needs of their various stakeholders. The pandemic has demonstrated the fiscal strength and capabilities of the countries BAWAG Group operates in, where governments have put in place extensive stimulus packages and support measures to support their citizens and their domestic economies.

The DACH/NL region comprises of 73% of BAWAG Group's customer business and is the foundation of the Group. The region benefits from a common culture and language family, with a stable legal system and credit environment. The region also benefits from low levels of consumer indebtedness, home ownership and digital penetration; all of which presents opportunities for future growth. The macro fundamentals of the DACH/NL region are the following:

- Growing population with over 118 million people;
- Annual GDP of € 5.8 trillion and GDP per capita of more than € 50,000 in a normalized environment; and
- Average unemployment rate of less than 5%.

With BAWAG Group's long-history and headquarters in Austria, the domestic business provides them with a stable and scaleable platform to build a multi-channel and multi-product origination engine across their core markets. Within Austria, BAWAG Group continues to focus on disciplined growth into their current account market share entitlement of up to 20% in core products such as consumer loans, auto leasing and mortgages. BAWAG Group's expansion outside of Austria has been focused on identifying mature and developed markets with sound macroeconomic fundamentals and profitable growth opportunities. This has been achieved through a mixture of organic growth initiatives and acquisitions. While BAWAG Group remains a niche player in the German, Dutch and Swiss markets, the foundations that BAWAG Group has built provide them with significant opportunity to accelerate their growth without sacrificing profitability.

BAWAG Group also consistently monitors opportunities across their core markets of Western Europe (Ireland, UK) and the United States (US). The Company recently opened a representative office in the United States to better serve their US clients and pursue future growth. BAWAG Group knows the market well as they have been lending to US corporate and real estate clients for over a decade. BAWAG Group also signed on the purchase of Peak Bancorp, which is the holding company of Idaho First Bank (IFB) in early February 2022. IFB is a community bank that will provide BAWAG Group with a platform to drive organic growth across the United States – growing in a core market that is deep, broad, and transparent. BAWAG Group's focus will primarily be on Retail & SME – raising deposits and providing residential mortgages, consumer, and small business loans.

BAWAG Group's Retail & SME continues to focus on providing customers with quality products and services they have come to expect, preserving the differentiated value propositions of BAWAG Group's separate brands, while ensuring they maintain a consistent approach to risk-adjusted pricing. The future growth drivers will be on financial advisory, enhanced data analytics, investing in partnerships and platforms, enhancing digital engagement, leveraging technology across all BAWAG Group's processes, and continuing to pursue earnings-accretive M&A.

The Corporates, Real Estate & Public Sector business is focused on developed and mature markets providing direct lending opportunities and payments. The corporates space has been challenged for a number of years, where BAWAG Group believes credit risk has not been appropriately priced, however BAWAG Group remains ready to actively engage once they believe risk is properly priced. BAWAG Group continues to expand their public sector business in Austria, where they are the payments provider to the Austrian government. In real estate lending, BAWAG Group continues to see quality lending opportunities in Western Europe and the United States. BAWAG Group's focus will always be on risk-adjusted returns, disciplined underwriting, driving profitable growth and being patient without ever chasing blind volume growth.

The acquisition of DEPFA Group represented an attractive and capital accretive investment opportunity. This allowed BAWAG Group to acquire high-quality low-risk assets, leverage their balance sheet and experience in the public sector space, and draw upon their operational capabilities to execute an orderly and expedited wind-down of the Bank.

With the acquisition of Hello bank! Austria BAWAG Group becomes, according to its own assessment, the leading brokerage business in Austria bolstering growth in BAWAG Group's Retail & SME franchise. The acquisition allows BAWAG Group to bring on the expertise and scale of the Austrian market leader in online brokerage and expanding the product and service offerings to a broader range of customers. In the short term, BAWAG Group's goal is to embed the core business of Hello bank! Austria into BAWAG Group and to ensure that the culture, expertise and products of Hello bank! Austria are maintained as BAWAG Group addresses the domestic market. In the medium term, BAWAG Group will look to grow the business in adjacent markets.

Since 2015, BAWAG has executed on 11 smaller bolt-on acquisitions in Austria as well as new markets (Germany, Switzerland and Ireland), adding new channels, new products, and new brands across the Group.

BAWAG Group is committed to addressing the immediate need to combat climate change across their business. However, the reality is today's actions will take time to have real impact on BAWAG Group's climate. While BAWAG Group has seen a continued increase of their green lending over the past few years, they target to double their 2020 annual "green" origination to greater than € 1.6 billion by 2025.

Customers are looking for a more rewarding and engaging experience with targeted products and services while having 24/7 access to manage their financial lives. BAWAG Group aims to fulfill these needs and to better leverage new and existing technologies to enhance the overall customer experience. BAWAG Group is building a multi-channel and multi-brand Retail & SME franchise from branches-to-partners-to-brokers-to-platforms leveraging digital products and technology across their entire customer value chain. BAWAG Group's products are designed to be simple, transparent, and affordable.

BAWAG Group believes, that the following cornerstones are the key to building and maintaining successful customer relationships:

- Build multi-channel and multi-brand franchise from branches-to-partners-to-brokers-to-platforms-to-digital products;
- Physical network focused on high-touch and high-quality advisory;
- Leverage technology to simplify processes and reduce complexity;
- Enhance analytical capabilities to improve customer experience; and
- New retail partnerships and lending platforms to provide 24/7 customer access.

With the shift towards more digital engagement, BAWAG Group has adjusted their business towards advisory services in their branch network, while shifting more straightforward administrative tasks to their digital/online channels. Fundamental to that development is the continuous enhancement of BAWAG Group's digital product offering. As of today, BAWAG Group has fully digitized 75% of their product portfolio and target a 100% fully

digitized Retail & SME product offering by 2025. The pandemic has accelerated the change in customer behavior. Customers are increasingly expecting the availability of traditional branch services to be available on e-banking and mobile platforms. Building on BAWAG Group's established regulatory frameworks, BAWAG Group is able to offer competitive and convenient services without ever sacrificing on quality, compliance, or security. Digitization also serves to streamline BAWAG Group's relationships with distribution partners creating faster response time to end customers. With BAWAG Group's investments in digital channels, partnerships and platforms, BAWAG Group has diversified their originations away from branches. Close to 80% of originations are generated outside of the traditional branch channel.

Going into 2022, BAWAG Group will continue executing on their growth strategy in the DACH/NL region, Western Europe and the United States. BAWAG Group's M&A activities focus primarily on their core Retail & SME franchise; however, BAWAG Group monitors the market for opportunities across the banking sector. These opportunities range from profitable platforms with a solid business model and strong origination channels to financial institutions that require either an extensive operational turnaround or an orderly wind-down.

- In February 2022 BAWAG Group signed a transaction to acquire 100% of the shares of Peak Bancorp, Inc., the holding company for Idaho First Bank, a state-chartered community bank in Idaho. The acquisition enables BAWAG Group to expand its footprint in the United States and better position it for future growth in one of the bank's core markets. BAWAG Group will work with the current leadership team of Idaho First Bank to continue growing its community-focused Retail and SME business in Idaho and adjacent markets, while also providing the operational support and financial strength of a broader banking group. The acquisition also provides BAWAG Group with a banking platform to pursue further growth opportunities across the United States. The transaction is subject to customary closing conditions including the approval of US regulators.

9.3.2 Driving efficiency and operational excellence

The banking industry across Europe continues to undergo a significant transformation and still faces multiple headwinds driven by years of subdued economic growth, negative interest rates, broken cost structures, over-leveraged balance sheets, pricing pressure, high regulatory costs, and sub-par technology. Additionally, more and more companies from outside the traditional financial services industry (FinTechs and e-commerce platforms) are entering the market, negatively impacting margins as they focus on loss-making growth in an effort to gain market share, and attacking the traditional revenue streams and financial institutions. The focus on efficiency, profitability and driving operational excellence is part of BAWAG Group's team's DNA, as they believe this is one of the few things a management team truly controls and will continue to differentiate BAWAG Group from both the established institutions as well as new players entering the market.

BAWAG Group is convinced that in this challenging environment, banks have to transform their business models and cost structure to be much more simple and efficient. With the continued advancements in technology, banking is becoming more commoditized. To this end, BAWAG Group believes that the key is, and will continue to be, focusing on simplification, standardization, automation and applying technology judiciously as BAWAG Group continues to transform BAWAG Group's business and focus on operational excellence. This is more critical today than ever as the industry is confronted with significant inflationary headwinds.

Going into 2022, BAWAG Group's focus continues to be on driving efficiency through process re-engineering, simplification, standardization and ultimately automation. The benefits of creating a scalable and efficient banking platform are more evident today than ever. Having executed on multiple initiatives during the pandemic, BAWAG Group believes that it will be in a position to deal with record cost inflation in 2022 and continue to target net cost out. BAWAG Group will continue to:

- Focus on the things BAWAG Group controls through “self-help” management;
- Simplify, standardize, and automate product and service offerings across all channels;
- Create simple end-to-end processing across the Group;
- Continuously optimize processes, footprint, and technology infrastructure;
- Embrace various forms of technological change and invest judiciously in technology; and
- Foster a meritocratic culture that promotes employees based on merit and character.

Since 2012 BAWAG Group has invested over € 500 million in technology. Continuous investment in technology over the past decade has allowed them to modernize and simplify their technology stack, avoid large scale white-elephant digitization projects, and most importantly systematically work to scale their banking platform. BAWAG Group has expanded partnerships and investments with technology leaders as they modernize their technology infrastructure, simplify their architecture, and focus on straight-line processing. These investments will continue and today represent a greater percentage of their overall spend across the Group, moving from 15% in 2012 to ~25% of their total Group spend today.

The pandemic has been a catalyst for accelerating productivity initiatives across the Group. BAWAG Group will continue to reduce their physical footprint due to the integration of a hybrid home-office working model, adapt to changing customer behavior through enhanced digital engagement, and further streamline and simplify operations. These initiatives will allow BAWAG Group to better serve their customers and scale their business even further. BAWAG Group aims to further improve the efficiency and integration speed through a platform approach:

- *Data asset management.* Centralized data warehouse consolidating finance, risk, and regulatory reporting with customer analytics;
- *Technology operations.* Driving towards a greater simplification across front, middle, and back-office functions through process re-engineering underpinned by enabling technologies;
- *Infrastructure.* Centralized cloud infrastructure, container platform and workplace environment across the Group; and
- *Products.* Open architecture enabled through standardized interfaces.

Sustainable value creation is also key for BAWAG Group in order to be able to be a reliable partner to all their stakeholders on a long-term basis. These measures allowed BAWAG Group to weather the cost and profitability challenges faced by the financial services industry over the past decade. Through consistent and continuous investments as well as optimization of their infrastructure BAWAG Group was able to accelerate the integration of acquired businesses, reduce operational complexity, and reduce unnecessary overhead costs. This positions BAWAG Group well for future integrations and collaboration with partners across the entire value chain of financial services.

Lastly, a core centerpiece to BAWAG Group's company is the BAWAG culture based on the following values:

- *Leadership & Embracing Change.* BAWAG Group values leaders who are dynamic, lead with uncompromising integrity, have a strong work ethic, and do not shy away from taking hard decisions. Their Senior Leadership Team (SLT) of 79 team members, which has led BAWAG Group's transformation over the past decade, has an average of 13-years of working experience at BAWAG.
- *Simple and flat organization.* BAWAG Group does their best to maintain a simple group structure and flat organization. They encourage all team members to focus on the work at hand, cut-out the noise, and always challenge the status quo for the betterment of the team. BAWAG Group believes hierarchy, bureaucracy, and a siloed organization lead to disjointed analysis, wide scale inefficiencies, poor decision-making, and ultimately a bloated cost structure.
- *Accountability, Meritocracy & Inclusion.* BAWAG Group believes their diversity, inclusivity and meritocratic culture are a real source of strength. The team members come from 47 different nationalities, and they are fully committed to gender equity and diversity. BAWAG Group's diversity and gender equity will be a byproduct of merit, integrity, and work ethic. The Company's greatest asset is their human capital, so they are focused on developing and mentoring their team members across the ranks. Today, BAWAG Group's reconstituted SLT of 79 team members is comprised of 11 nationalities with a female representation of 28%. They are proud of the recent promotions this past year, with 43% of new promotions being female leaders, but recognize they have more to do.
- *Management, both Fiduciaries & Shareholders.* The Management Team is both fiduciaries as well as shareholders of the Bank. The incentives are directly tied to real financial and ESG targets, which BAWAG Group believes create long-term shareholder and stakeholder value. The Senior Leadership Team currently owns ~3.3% of the Bank. BAWAG Group believes stock ownership is the best way to create alignment with shareholders and long-term strategic value creation.

Instilling this culture within the organization has been pivotal in driving BAWAG Group's "self help" DNA, building a scalable banking platform that will compete long into the future, and becoming one of the most efficient banks in Europe. BAWAG Group's culture has been the foundation of their success, motivating and retaining their team members, as well as attracting top talent over the years.

9.3.3 Maintaining a safe and secure risk profile

A bank is fundamentally in the business of managing risk. For BAWAG Group, having a safe and secure risk profile is about maintaining a fortress balance sheet through a strong capital position, stable customer funding and a low risk profile through proactive risk management. These are fundamental cornerstones to the execution of BAWAG Group's business strategy. Management is committed to running BAWAG Group in a safe and secure way.

BAWAG Group's low risk profile is defined by the following principles:

- *Maintaining strong capital position, stable customer funding and low risk profile.* BAWAG Group's business model and strategy already limit certain risk areas. A key role of BAWAG Group's activities is transforming deposits and other types of funding into customer loans. Customer deposits remain a key pillar of BAWAG Group's funding strategy supplemented by covered bonds (secured by mortgage and public sector collateral) and unsecured funding. In terms of capital, BAWAG Group's target CET1 ratio is 12.25% (fully loaded), providing a conservative management buffer above their minimum regulatory capital requirements.
- *Focus on mature, developed and sustainable markets.* BAWAG Group's focus is on Austria, Germany, Switzerland, Netherlands (DACH/NL region), Western Europe and the United States. These countries/regions share the same characteristics: strong macroeconomic fundamentals, stable legal systems, robust capital markets, and governments that have the fiscal capability to support their economies in times of distress. Banking in more volatile and less developed markets provides optically higher returns and higher growth, but BAWAG Group does not believe that the risk-adjusted returns over the medium-to-long term are as attractive as more developed and mature markets. BAWAG Group believes the market will price these risks into the cost of equity of each bank in addition to overall asset quality, earnings volatility, funding profile and sustainability of business model.
- *Applying disciplined underwriting in markets BAWAG Group understands with a focus on secured lending and risk-adjusted returns.* BAWAG Group's lending is focused on disciplined underwriting focused on risk-adjusted returns across developed and mature markets. BAWAG Group routinely reviews their underwriting guidelines and adjust accordingly. Fundamental to BAWAG Group's business strategy is the core concept of the quality of volume versus the quantity of volume. BAWAG Group assesses all lending by risk-adjusted returns to ensure their return thresholds are met and their future earnings remain resilient. BAWAG Group also targets a long term shift to secured and public sector lending greater than 85% by 2025 (versus 79% today) as BAWAG Group sees greater opportunities in collateralized lending in the years ahead.
- *Maintaining a fortress balance sheet.* BAWAG Group focuses on solid asset quality with a low NPL ratio of 1.4% (1.0% excluding City of Linz), strong capital generation with gross capital generation of +230 basis points in 2021, and conservative capitalization levels targeting CET1 ratio of 12.25% as BAWAG Group maintain a fortress balance sheet. In 2020 BAWAG Group decided to fully provision the City of Linz from a capital standpoint as well as applying the 100% NPE backstop to respective legacy NPLs. This is a reflection of their overall conservatism as BAWAG Group continue to fortify their balance sheet to withstand all economic cycles.
- *Proactively manage and mitigate non-financial risk.* Being safe and secure is not limited to balance sheet numbers or regulatory KPIs, it is also around managing non-financial risk (be it AML or ESG risks). BAWAG Group continuously enhances their governance structure as well as risk management frameworks to address these risks, with climate risk having gained more importance across all stakeholders over the years. As an example, oil and gas industry exposures are less than 1% of total assets today. BAWAG Group will continue to integrate environmental factors further, as they enhance their data collection and underwriting to account for these emerging climate risks. As of December 2021, BAWAG Group had no relevant exposure to emerging markets or CEE countries and no operations in countries with elevated AML risk.

Overall, this conservative approach positioned BAWAG Group well over the past two years when faced with the risks brought on by a global pandemic. BAWAG Group's focus on developed markets provided them with indirect benefits via the high-level of labor market support and social safety net benefits their customers received in the form of various stimulus programs. BAWAG Group's disciplined underwriting and focus on risk-adjusted returns also minimized their exposure to volatile and cyclical industries that were hardest hit during the pandemic.

The resilience of BAWAG Group's business model, their conservative risk appetite and their disciplined underwriting was also highlighted by the stress test carried out by the EBA/ECB in 2021. Under the theoretical adverse scenario, BAWAG Group's CET1 ratio would fall by 198 basis points to 12.00% after three years from 13.98% at year-end 2020. Due to BAWAG Group's strong capital generation in a normalized environment as a result of their transformation, BAWAG Group believes that it has the capacity to absorb stress scenarios while still maintaining a well capitalized balance sheet.

BAWAG Group will continue to maintain their conservative risk appetite, ensuring that they mitigate against both macro and micro risks. Their goal is to always maintain a fortress balance sheet and conservative underwriting, a cornerstone of how they run the Bank.

9.5 Trends affecting BAWAG Group

BAWAG P.S.K. Group's results of operation and financial position, and by extension BAWAG Group's results of operation and financial position, are in general affected by a number of factors. BAWAG Group believes that, in particular, the following key factors have affected BAWAG Group's results of operations and financial position since 1 January 2021. On this basis, BAWAG Group expects that these factors continue to affect its business and some have impacted and continue to impact the banking sector in general: Earnings of banks in general and also of BAWAG Group are significantly dependent on the net interest income which is particularly affected by the development of interest rates. Changes in market interest rates may lead to temporary repricing gaps between BAWAG Group's interest-earning assets and interest-earning liabilities, which can also affect net interest income. Interest-earning assets of BAWAG Group consist principally of (1) consumer loans, retail mortgage loans and consumer leases relating to vehicles and other moveable assets, which are provided by the Retail & SME segment, and (2) corporate and public sector loans (including real estate loans) provided, and corporate and public sector bonds held, by the Corporates, Real Estate & Public Sector segment.

- The banking sector in general and BAWAG Group in particular are affected by developments of the regulatory environment applicable to financial institutions. BAWAG Group operates in an industry that is highly regulated by financial services laws and regulations, corporate governance and administrative requirements and policies. The ongoing development of regulatory requirements has had and will likely continue to have an impact on BAWAG Group's results of operations in a number of ways.
- The banking sector is intensely competitive and BAWAG Group is subject to intense competition by traditional banks and new financial technology companies (so-called 'FinTechs') in both its retail and non-retail businesses, in particular in its online and platform business.
- BAWAG Group's results depend on its ability to maintain and grow customer deposits as well as on its access to wholesale funding. Its results depend on its ability to maintain and grow customer deposits as well as access wholesale funding. Retail and corporate deposits have historically been the core part of BAWAG Group's funding strategy and are expected to continue to be the primary source of funding. BAWAG Group supplements its deposit funding with a diversified strategy of wholesale funding, with a long term goal of maintaining both sources of funding. BAWAG Group raises wholesale funding mainly from various institutional investors, and BAWAG Group has issued unsecured bonds, covered bonds covered by mortgages and public sector collateral, and residential mortgage-backed securities (RMBS).
- BAWAG Group has to adapt to emerging technologies and changes in customer behavior driven by increasing digitalization of the banking business. In recent years, the share of banking transactions conducted via internet or mobile banking platforms on smartphones or tablets in the markets in which BAWAG Group operates has grown and is expected to grow further. The digitalization trend is particularly relevant for direct banking but is also significantly reshaping retail banking. The ongoing shift to digital and self-service channels is also a key factor for the Retail & SME segment and the migration of customers towards digital and customer care channels has progressed significantly.
- BAWAG Group's operations and results were and are significantly impacted by the integration of various acquired businesses.

BAWAG Group has outsourced the operation of ATMs that are located outside its branch to a cooperation partner, which also holds the ownership of the ATMs it operates. Physical possession of the cash contained in these ATMs and the risk of loss lie with the cooperation partner, while ownership under civil law remains with BAWAG Group. As the Bank is the legal owner of the cash, it was previously reported under the balance sheet item cash reserve, particularly in view of the fact that the cash is available to settle BAWAG Group's obligations to its own customers. A recent internal analysis has shown that transactions at ATMs operated by the cooperation partner affect significantly more third-party bank customers than the Bank's own customers, as the cooperation partner is basically free to determine the locations of the ATMs. As BAWAG Group provides a certain amount of cash for filling the ATMs, which it can only use to a limited extent, BAWAG Group has decided to change the presentation of the cash provided and to report it under loans and advances to customers in order to make it clear that a significant portion of the cash provided is not actually used to settle obligations to the Bank's own customers and, moreover, that these cash holdings cannot be accessed without restriction. For further details, please see note 1 to the Audited Consolidated Annual Financial Statements of BAWAG 2021 (as incorporated by reference in, and forming part of, this Base Prospectus, cf. 2) Interest-bearing assets are calculated as the sum of the line items financial assets at fair value through profit or loss, fair value through other comprehensive income and financial assets at amortised cost, each as shown in the table above, less assets held at central banks. As of 31 December 2020, 31 March 2021, 30 June 2021, 30 September 2021, and 31 December 2012 assets held at central

banks amounted to € 734,551,367.87, € 475,513,868.30, € 792,006,949.43, € 745,172,068.82, and € 1,784,054,996 respectively. Average interest-bearing assets as of the end of a quarterly period ending on the dates shown in the table above are calculated by adding the amount of interest-bearing assets as of the end of such quarterly period and the amount of interest-bearing assets as of the end of the immediately preceding quarterly period and dividing such sum by two.

10.1.4 Alternative performance measures

Monitoring and management at BAWAG Group are based on a consistent and integrated key performance indicator system (KPI system), which assists executives in the management of BAWAG Group. The KPI system comprises the dimensions of profitability, growth in the segments, risk limitation, liquidity and capital. As is customary in BAWAG Group's industry, some of these figures are based on IFRS, whereas others are used in addition to the IFRS financial measures and measures under Austrian generally accepted accounting principles, in order to evaluate, monitor and manage the business (alternative performance measures, "APMs").

Such financial information must be considered only in addition to, and not as a substitute for or superior to, financial information prepared in accordance with IFRS included elsewhere in this Base Prospectus. Investors are cautioned not to place undue reliance on these APMs and are also advised to review them in conjunction with the financial statement and related notes included elsewhere in this Base Prospectus. The following list includes explanations of the definitions of certain APMs based on BAWAG Group's and BAWAG P.S.K. Group's financial statements, as well as information regarding such APMs relevance:

APM	Definition	Relevance of its use / reasons for changes to the definition
Common Equity Less Dividend Accruals ("Common Equity Less Dividend Accruals")	Calculated as the line item equity attributable to the owners of the parent (ex AT 1 capital) set forth in the financial statements ("IFRS Equity") less dividends and dividend accruals.	Common Equity and Tangible Common Equity are viability indicators for banks and facilitate the comparison of equity figures. Tangible Common Equity excludes intangible assets. BAWAG believes that the deduction of dividend accruals to reflect the Issuer's dividend policy will provide investors with a more accurate performance metric.
Tangible common equity less dividend accruals ("Tangible Common Equity Less Dividend Accruals ")	Calculated as the line item equity attributable to the owners of the parent (ex AT 1 capital) less the carrying amount of intangible non-current assets as set forth in the financial statements ("Tangible common equity") less dividends and dividend accruals.	
Return on common equity ("Return on Common Equity")	Calculated by dividing net profit by the average Common Equity Less Dividend Accruals. The average Common Equity Less Dividend Accruals is calculated by adding the respective end values of the current and the preceding period and dividing the sum by two. Before 1 January 2020, the figure was calculated on the basis of average IFRS Equity.	These metrics provide a profitability measure for both management and investors by expressing the net profit as presented in the income statement as a percentage of the respective underlying (either equity related or asset related). Allocated equity to segments is based on an internal model taking into account risk-weighted assets and balance sheet size of the respective segment. Return on Common Equity and Return on Tangible Common Equity demonstrate profitability of the bank on the capital invested by its shareholders and thus the success of their investment. BAWAG believes that the deduction of dividend accruals to reflect the Issuer's dividend policy will provide investors with a more accurate performance metric.
Return on Tangible Common Equity ("Return on Tangible Common Equity" or "RoTCE")	Calculated by dividing net profit by the average Tangible Common Equity Less Dividend Accruals. The average Tangible common Equity Less Dividend Accruals is calculated by adding the respective end values of the current and the preceding period and dividing the sum by two. Before 1 January 2020, the figure is was calculated on the basis of average Tangible	

APM	Definition	Relevance of its use / reasons for changes to the definition
	Common Equity.	
Net Interest Margin ("Net Interest Margin")	Calculated by net interest income divided by average balance of interest-bearing assets. The average balance of interest-bearing assets is calculated by adding the balance of interest-bearing assets at the end of each month of a period and dividing the sum by the number of month in such period. Interest-bearing assets are calculated as the sum of the line items financial assets at fair value through profit or loss, fair value through other comprehensive income and financial assets at amortised cost less assets deposited at central banks.	The Net Interest Margin is a performance measure and is expressed as a percentage of what BAWAG Group or (as the case may be) BAWAG P.S.K. Group earns on loans and other assets in a time period less the interest it pays on deposits and other liabilities divided by average interest-bearing assets. It is used for external comparison with other banks as well as internal profitability measurement of products and segments
Cost-Income Ratio ("Cost-Income Ratio")	Calculated by dividing operating expenses by operating income. Numbers for operating expenses do not include certain regulatory charges that are otherwise included in the line item other operating income and expenses reported on the level of BAWAG Group or (as the case may be) BAWAG P.S.K. Group in the financial statements. Consequently, such regulatory charges are disregarded for the calculation of the cost-income-ratio. The Cost-Income Ratio is also shown at segment level of BAWAG Group for the business segments Retail & SME and Corporates, Real Estate & Public Sector.	The Cost-Income Ratio shows operating expenses in relation to operating income. The ratio gives a view of operational efficiency of BAWAG Group or (as the case may be) BAWAG P.S.K. BAWAG Group uses the Cost-Income Ratio as an efficiency measure for steering the relevant group and for comparing its efficiency with other financial institutions.
Core Revenues ("Core Revenues")	Calculated as the sum of net interest income and net fee and commission income. Core Revenues are also shown on the segment level of BAWAG Group for the business segments Retail & SME and Corporates, Real Estate & Public Sector.	Core Revenues demonstrate the financial success of the bank in its core activities.

APM	Definition	Relevance of its use / reasons for changes to the definition
Pre-Provision Profit ("Pre-Provision Profit")	Calculated as operating income less operating expenses. Pre-Provision Profit is also shown at segment level of BAWAG Group for the business segments Retail & SME and Corporates, Real Estate & Public Sector.	Pre-Provision Profits demonstrates the financial success of BAWAG Group or (as the case may be) BAWAG P.S.K. Group in its business activities eliminating effects from regulatory charges, risk costs and taxes.
Risk Cost Ratio ("Risk Cost Ratio")	<p>Calculated by dividing total risk costs by total interest-bearing assets. The Risk Cost Ratio is also shown at segment level of BAWAG Group for the business segments Retail & SME and Corporates, Real Estate & Public Sector.</p> <p>Interest-bearing assets are calculated as the sum of the line items financial assets at fair value through profit or loss, fair value through other comprehensive income and financial assets at amortised cost less assets deposited at central banks.</p>	This Risk Cost Ratio is a measure for the quality of credit risk management and the loan portfolio itself. It provides a relative view of the risk costs for the period based on the average interest-bearing assets and allows benchmarking with other banks. Low risk costs may result from a high collateralization and/or a close monitoring of the credit rating of the customers. As a result, this implies that there are only few actual credit losses and little need for provisioning.

Several launched initiatives over the past two years have allowed BAWAG to counter the significant inflationary pressure they are confronted with today. BAWAG is focused on absolute cost-out target (despite inflationary headwinds). Adapting to post COVID-19 world, multiple initiatives focused on greater scale, greater digital engagement and continued rollout of simplification roadmap across the Group.

11 REGULATORY CAPITAL REQUIREMENTS

11.1 Minimum capital requirements and regulatory ratios

BAWAG Regulatory Group must satisfy certain minimum capital requirements under EU banking regulation, in particular under Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directives 2006/48/EC and 2006/49/EC ("**CRD IV**" as amended by Directive (EU) 2019/878, the "**CRD V**") and Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 ("**CRR**"), as amended by Regulation (EU) 2019/876 of the European Parliament and of the Council of 20 May 2019 amending Regulation (EU) No 575/2013 as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and Regulation (EU) No 648/2012 (the CRR as amended by Regulation (EU) 2019/876, the "**CRR II**").

The minimum capital requirements (so-called 'Pillar 1 requirements') for EU and thus Austrian credit institutions are primarily set forth in the CRR II. The CRR II requires each credit institution to maintain an adequate level of regulatory capital in relation to its risks. Relevant risks include, in particular, credit risk, market risk and operational risk (including, among other things, risks related to certain external factors, as well as to technical errors and errors of employees). CET 1 capital forms the key component of a credit institution's regulatory capital for compliance with the capital requirements under CRR II. CET 1 capital primarily consists of share capital, retained earnings and other reserves, subject to certain regulatory adjustments. Another component of regulatory capital is Additional Tier 1 ("**AT 1**") capital which includes, for example, certain unsecured subordinated perpetual capital instruments and related share premium accounts. Generally, the terms and conditions of all instruments recognized as AT 1 capital must require that the principal amount of the instruments will be written down, or converted into CET 1 capital when the CET 1 capital ratio of the relevant institution falls below a minimum of 5.125% (or such higher level as the issuing institution may determine), although regulators may require a higher trigger, for example for stress-testing purposes. CET 1 capital and AT 1 capital together constitute "Tier 1" capital. Tier 1 capital requirements are aimed at ensuring the ability to absorb losses on a "going concern" basis. Tier 2 capital forms the lower tier of the regulatory capital and generally consists of long-term subordinated debt instruments with loss absorption capacity only on a "gone concern" basis. Tier 1 capital and tier 2 capital together constitute the "own funds" of a credit institution. The CRR II gradually excludes certain existing capital instruments (which have been issued in the past) from their eligibility as own funds (so-called 'phasing out') or reclassifies those instruments to a lower own funds quality. For example, existing hybrid capital instruments will, over time, be phased out as AT 1 capital.

The minimum requirements for Tier 1 capital amount to 6% since 1 January 2015. The total capital ratio without capital buffers has remained at 8% of risk-weighted assets.

The introduction of capital buffers is addressed in the CRD IV and implemented into Austrian law by the Austrian Banking Act (*Bankwesengesetz* – "**BWG**") and the Capital Buffers Regulation (*Kapitalpuffer-Verordnung* – *KP-V*). All capital buffers have to consist of CET 1 capital. The BWG requires Austrian credit institutions to have a permanent capital conservation buffer of 2.5% of risk-weighted assets. Furthermore, the following additional capital buffers may be prescribed by national legislators or supervisory authorities:

- a countercyclical capital buffer of currently up to 2.5% of risk-weighted assets generated in the respective EU member state (for Germany, as of February 2022, the relevant national countercyclical capital buffer rates that apply to credit exposures located in Germany have been set by the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht* – "**BaFin**") at 0,75%, respectively; for Austria, the relevant national countercyclical capital buffer have been set by the FMA at 0%). The countercyclical capital buffer is hence expected to fluctuate from time to time.
- a systemic risk buffer (for Austrian credit institutions, the systemic risk buffer may be set between 1 and 2% and is relevant since 1 January 2016; for BAWAG Regulatory Group, a systemic risk buffer has been set by the FMA at 0.5%);
- a buffer for global systemically important institutions (which does not apply to BAWAG Regulatory Group); and

- a buffer for other systemically important institutions (under CRD V implemented by the EU member states in May 2021, the buffer for other systemically important institutions has to be applied cumulatively with the systemic risk buffer. These amendments were implemented in Austria in the BWG and the Capital Buffers Regulation (*Kapitalpuffer-Verordnung – KP-V*) in May 2021. A buffer for other systemically important institutions which applies to BAWAG Regulatory Group has been set at 0.5%.

In addition, the regulatory authorities that oversee BAWAG Regulatory Group, in particular the ECB within the SSM, may, in connection with the SREP or otherwise, conduct stress tests and have discretion to impose additional capital requirements for risks that are not otherwise recognized in the statutory capital requirements or other surcharges depending on the individual situation of the bank and may also take or require to be performed, other measures such as restrictions on or changes to a bank's business. In this context, the ECB has imposed and is expected to impose in the future on an annual basis on BAWAG Regulatory Group individual capital requirements resulting from the SREP which are referred to as 'Pillar 2 requirements'. BAWAG Regulatory Group must meet a Pillar 2 requirement of 2% own funds with at least 1.5% Tier 1 capital, thereof at least 1.125% CET 1 capital, and may consequently use 0.375% AT 1 capital and 0.5% Tier 2 capital to meet such requirement. Furthermore, the ECB announced that it would allow institutions subject to its supervision to operate temporarily below the level of own funds required to meet the capital conservation buffer and that it will allow banks sufficient time to build up the buffer again.

Also following the SREP, the ECB may communicate to individual banks or banking groups, including BAWAG Regulatory Group, (and has done so in the past) an expectation to hold further CET 1 capital, the so-called 'Pillar 2 guidance'. Although the Pillar 2 guidance is not legally binding and failure to meet the Pillar 2 guidance does not automatically trigger legal action, the ECB has stated that it expects banks to meet the Pillar 2 guidance. Certain supervisory authorities such as the ECB and the Single Resolution Board have introduced mitigating measures with regard to the COVID-19 crises.

11.1.1 BAWAG Regulatory Group's regulatory capital requirements

BAWAG Regulatory Group must fulfil a SREP CET 1 ratio of 9.14% (comprising the 4.5% Pillar 1 base requirement (minimum CET 1 capital ratio), the capital conservation buffer of 2.5% of risk-weighted assets, the countercyclical buffer of 0.0170% (based on risk-weighted assets as of 31 December 2021), the systemic risk buffer of 0.5%, a buffer for other systemically important institutions of 0.5% and the 1.125% Pillar 2 requirement). For 2022, the Pillar 2 guidance has been set at 0.75%.

As of 31 December 2021, BAWAG Group's CET 1 ratio (fully loaded) amounted to 15.0%, including deductions for the approximately € 267 million dividend earmarked for distribution in 2022 (dividend accrual in line with BAWAG Group's dividend policy of 50% payout ratio of net profits and including a special dividend) having a combined effect of approximately -133 bps on BAWAG Group's CET 1 ratio.

The current liquidity buffer amounts to EUR 12 billion and including other marketable securities EUR 15.3 billion.

11.2 Minimum requirement for own funds and eligible liabilities

In order for banks to have available sufficient amounts of equity and debt eligible to absorb losses in resolution and to be utilized in case of a bail-in so that resolution can occur without recourse to public financial support, banks are required under Regulation (EU) 806/2014 ("**SRM Regulation**") and the Austrian Federal Act on the Recovery and Resolution of Banks (*Bundesgesetz über die Sanierung und Abwicklung von Banken – "BaSAG"*) to meet minimum requirements for own funds and eligible liabilities ("**MREL**") at all times. MREL requirements are determined on a case-by-case basis for each institution or banking group by the competent resolution authority, which in the case of BAWAG Regulatory Group is the Single Resolution Board ("**SRB**"). Under the legal regime after Regulation (EU) 2019/877 ("**SRM Regulation II**") and implementation of the amendments of Directive (EU) 2014/59 ("**BRRD**") by Directive (EU) 2019/879 (the BRRD, as amended, "**BRRD II**"), MREL ratios, which were previously expressed as a percentage of the total liabilities and own funds of the relevant institution, are expressed as percentages of the total risk exposure amount and the leverage ratio exposure measure. The SRB as the competent resolution authority for BAWAG Regulatory Group under the SRM Regulation II may also require that such percentage is wholly or partially composed of own funds or of a specific type of liabilities.

In February 2022, the SRB set formal MREL requirements for BAWAG Group. The MREL requirements (including combined buffer requirements) are applicable on the consolidated level of BAWAG P.S.K. Group based on a single point of entry resolution strategy with BAWAG P.S.K. as the resolution entity. The MREL requirement based on the total risk exposure amount requirement ("**MREL-TREA**") has been set at 25.7% of RWA, with the final requirement being applicable from 1 January 2024. The MREL decision also sets a binding interim target of 22% of RWA, which needs to be met by 1 January 2022. The current MREL decision does not contain a subordination requirement.

As of 31 December 2021, BAWAG reported MREL eligible instruments amounting to 25.7% of RWA, thereby already exceeding the binding interim target applicable from 1 January 2022.

12 TAXATION

12.1 Taxation Warning

THE TAX LEGISLATION APPLICABLE TO PROSPECTIVE PURCHASERS OF NOTES AND THE RESPECTIVE ISSUER'S COUNTRY OF INCORPORATION MAY HAVE AN IMPACT ON THE INCOME RECEIVED FROM THE NOTES. PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS APPLICABLE IN THE REPUBLIC OF AUSTRIA, GERMANY, THE GRAND DUCHY OF LUXEMBOURG, AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS OR OTHERWISE SUBJECT TO TAXATION.

12.2 Taxation in Austria

The following is a general overview of certain Austrian tax aspects in connection with the Notes. It does not claim to fully describe all Austrian tax consequences of the acquisition, ownership, disposition or redemption of the Notes nor does it take into account the Noteholders' individual circumstances or any special tax treatment applicable to the Noteholder. It is not intended to be, nor should it be construed to be, legal or tax advice. It is recommended that prospective investors of the Notes consult with their legal and tax advisors as to the particular tax consequences of the acquisition, ownership, disposition or redemption of the Notes.

This overview is based on Austrian law as in force when drawing up this Debt Issuance Programme Prospectus. The laws and their interpretation by the tax authorities and courts may change and such changes may also have retroactive effect which may have a negative impact for Noteholders. For the purposes of the following it is assumed that the Notes are legally and factually offered to the public within the meaning of the Austrian Income Tax Act (*Einkommensteuergesetz*; "EStG") (i.e. to an indefinite number of persons). Further this summary assumes that the Notes do not qualify as equity for Austrian tax purposes or units in a non-Austrian investment fund within the meaning of Sec 188 of the Austrian Investment Fund Act (*Investmentfondsgesetz 2011*, "InvFG 2011"). The tax consequences may substantially differ if the Notes are qualified as equity instruments or (in particular if issued by a non-Austrian entity) units in a non-Austrian investment fund within the meaning of Sec 188 InvFG 2011. Tax considerations relevant to investors which are subject to a special tax regime, such as for example governmental authorities, charities, foundations or investment or pension funds, and special tax rules that may apply where an investor holds the Notes via an entity which qualifies as an Austrian or non-Austrian investment fund for tax purposes are not addressed herein.

The Issuers do not assume responsibility for the deduction of withholding tax at source and is not obliged to make additional payments in case of withholding tax deductions at source.

Where in this summary English terms and expressions are used to refer to Austrian concepts, the meaning to be attributed to such terms and expressions shall be the meaning to be attributed to the equivalent Austrian concepts under Austrian tax law.

12.2.1 Austrian residents

Income from the Notes derived by individuals, whose domicile (*Wohnsitz*) and/or habitual abode (*gewöhnlicher Aufenthalt*) is in Austria ("**Austrian Resident Individuals**"), is subject to Austrian income tax pursuant to the provisions of the EStG. In Austria, interest income as well as income from realized capital gains (*Einkünfte aus realisierten Wertsteigerungen*) and income from derivatives (*Einkünfte aus Derivaten*) received in connection with the Notes constitute taxable investment income (*Einkünfte aus Kapitalvermögen*).

Interest income from the Notes is subject to a special income tax rate of 27.5%. If the interest is paid out to the Noteholder by a paying agent (*auszahlende Stelle*) located in Austria (i.e. Austrian credit institutions including Austrian branches of non-Austrian credit institutions or investment firms domiciled in an EU Member State, which pay out or credit the interest income to the investor, or a domestic issuer, if it directly pays out the interest income to the investor), the interest income from the Notes is subject to Austrian withholding tax (*Kapitalertragsteuer*) at the special rate of 27.5%. For Austrian Resident Individuals, the Austrian withholding tax on interest income generally discharges of any further income tax liability on such interest income (final taxation – *Endbesteuerung*), which means that no further income tax is due and the interest payments do not have to be included in the Austrian Resident Individual's income tax return (*Einkommensteuererklärung*). This applies irrespective of whether the Notes are held as private assets or as business assets.

The Austrian Resident Individual may opt to include the interest income in the individual income tax return (*Regelbesteuerungsoption*). However, the option may not be exercised for particular interest income only. Rather, if this option is exercised, the individual's regular progressive income tax rate will apply to any other income from capital investments which would otherwise be subject to the special 27.5% or 25% tax rate (e.g. interest income from savings accounts or other non-securitized debt claims against credit institutions). In this case, the interest income is taxed at the regular progressive income tax rate applicable to the Austrian Resident Individual's total income and any Austrian withholding tax on interest payments under the Notes will be credited against the Austrian Resident Individual's personal income tax liability and any excess amount will be refunded. Whether the use of the option is beneficial from a tax perspective should be determined by consulting a tax advisor. Expenses economically directly related to interest income subject to a special income tax rate, e.g. interest expenses from third-party financing or banking fees, are not deductible for income tax purposes (which also applies in case of the exercise of the option to regular taxation).

If the interest income is not subject to Austrian withholding tax (e.g. in the absence of a paying agent located in Austria), the taxpayer will have to include the interest income derived from the Notes in the individual income tax return pursuant to the provisions of the EStG. Such income is taxed at a rate of 27.5%.

Income from realized capital gains and from derivatives in connection with the Notes is subject to Austrian income tax at the special rate of 27.5% unless the individual taxpayer opts for taxation at the applicable progressive income tax rate. In case the 27.5% special income tax rate applies, income from realized capital gains and from derivatives is not taken into consideration (neither as part of taxable revenues nor as part of taxable income) when calculating the Austrian Resident Individual's income tax burden. Income from realized capital gains means any income derived from the sale or redemption or other disposal of the Notes. The tax base is, in general, the difference between the sale proceeds or the redemption amount and the acquisition costs, in each case including accrued interest. Income from derivatives includes cash settlements, option premiums received and income from the sale or other realization of forward contracts like options, futures and swaps and other derivatives such as index certificates. Expenses which are directly connected with income subject to the special tax rate of 27.5% are not deductible. A deduction of expenses that are directly economically connected to income that is subject to the (special) 27.5% tax rate is equally not allowed if the option for taxation at the applicable regular personal income tax rate is exercised (for the further consequences see already above). For Notes held as private assets, the acquisition costs do not include ancillary acquisition costs (*Anschaffungsnebenkosten*). For the calculation of the acquisition costs of Notes held within the same securities account and having the same securities identification number but which are acquired at different points in time, a moving average price shall apply.

In the case of income from realized capital gains and from derivatives with a nexus relevant for Austrian withholding tax purposes, basically income that is paid by an Austrian custodian bank (*depotführende Stelle*) or, in the absence of an Austrian custodian bank, by an Austrian paying agent, provided the non-Austrian custodian bank is a permanent establishment or group company of such paying agent and the Austrian paying agent executes the transaction in cooperation with the non-Austrian custodian bank and processes the payment, such income from realized capital gains and from derivatives is subject to a 27.5% Austrian withholding tax. For Austrian Resident Individuals holding the Notes as private assets, the 27.5% Austrian withholding tax has the effect of final income taxation provided that the respective investor has evidenced the factual acquisition costs of the Notes to the custodian bank. As a consequence, such income from realized capital gains and from derivatives – except for the option for taxation at the Austrian Resident Individual's progressive income tax rate (see above) and/or for assessment in order to achieve an offset of losses – does not have to be included in the Austrian Resident Individual's income tax return.

In the case of income from realized capital gains and from derivatives without a nexus relevant for Austrian withholding tax purposes (i.e. in the absence of an Austrian custodian bank or paying agent), the taxpayer will have to include the income from realized capital gains and from derivatives from the Notes in the individual income tax return pursuant to the provisions of the EStG. Such income is taxed at a rate of 27.5%.

Withdrawals and other transfers of the Notes from the securities account (*Entnahmen oder sonstiges Ausscheiden aus dem Depot*) are in general deemed as a disposal of the Notes (treated as a sale of the Notes). As an exception to this general rule, withdrawals and other transfers of Notes from the securities account are not treated as disposals (sales), if Austria's taxation rights with respect to the Notes are not being restricted and specified exemptions pursuant to Sec 27(6)(2) EStG are fulfilled. Such exemptions are the transfer of the Notes to a securities account owned by the same taxpayer (i) with the same Austrian custodian bank, (ii) with another Austrian bank if the account holder has instructed the transferring bank to disclose the acquisition costs to the receiving bank or (iii) with a non-Austrian bank, if the account holder has instructed the transferring bank to transmit the pertaining information to the competent tax office within a month, or (iv) with another non-Austrian bank, in the case of transfers from a foreign account, himself notified the competent Austrian tax office with the

respective information within a month; or the transfer without consideration to a securities account held by another taxpayer, if the fact that the transfer has been made without consideration has been evidenced to the bank or the bank has been instructed to transmit the pertaining information to the Austrian tax office within one month.

Furthermore, the transfer of the Austrian Resident Individual's tax residence (*Wegzug*) outside of Austria, the transfer of the Notes to a non-resident individual or corporation without consideration (*unentgeltliche Übertragung*) or any other circumstances which lead to a restriction of Austria's existing taxation right with respect to the Notes are, in general, deemed as a disposal resulting in exit taxation. Upon application of the taxpayer, the exit taxation of the Notes held as private assets can be deferred until the actual disposal of the Notes in case the investor transfers his tax residence outside of Austria to an EU or EEA member state or transfers the Notes for no consideration to another individual resident in an EU or EEA member state. In all other cases leading to a restriction of Austria's taxation right with respect to an EU or EEA member state the taxpayer may apply for a payment of the triggered income tax in installments over a period of five years.

Losses from Notes held as private assets may only be set off against other investment income subject to the special 27.5% tax rate (including, for example, interest payments made under the Notes). However, the losses may not be set off, *inter alia*, against interest income from savings accounts or other non-securitized debt claims against credit institutions (except for cash settlements and lending fees) or distributions effected by private foundations, employee participation foundations, foreign private law foundations and other comparable legal estates (*ausländische Stiftungen oder sonstigen Vermögensmassen, die jeweils mit einer Privatstiftung vergleichbar sind*). Negative income subject to the special tax rate of 27.5% such as losses from the disposal of the Notes, may not be set off against income subject to the progressive income tax rate (this equally applies in case of an exercise of the option to be taxed at the regular progressive income tax rate). In addition, losses may not be set off against any other income of the Austrian Resident Individual. Furthermore, losses from the sale of the Notes held as private assets may not be carried forward to subsequent years. Austrian tax law provides for a mandatory set-off by the Austrian custodian bank of losses against investment income from securities accounts at the same custodian bank (subject to certain exemptions). In order to effect such an offset of losses for securities held with different credit institutions, the Austrian Resident Individual generally has to exercise the option for the loss offset upon filing the income tax return (*Verlustausgleichsoption*).

The principles outlined above are generally also applicable to Notes held by Austrian Resident Individuals as business assets, however with the following differences: In the case of income from realized capital gains and from derivatives with an Austrian nexus relevant for Austrian withholding tax purposes (as described above), such income is subject to Austrian withholding tax at a rate of 27.5% unless generating this type of income constitutes a key area of the respective Austrian Resident Individual's business activity. However, the Austrian withholding tax does not discharge of Austrian income tax liability, but may be credited against the income tax liability assessed. Therefore, contrary to interest income as well as to income from realized capital gains and from derivatives derived by individuals holding the Notes as private assets, income from realized capital gains and from derivatives has to be included in the income tax return (even if Austrian withholding tax is triggered), but are nevertheless taxed at a flat income tax rate of 27.5% with any Austrian withholding tax being credited. In addition, the option exists to include income subject to the tax rate of 27.5% in the income tax return at the progressive income tax rate (for the consequences see already above).

Furthermore, any restriction of Austria's existing taxation right with respect to the Notes is, in general, deemed as a disposal resulting in exit taxation. In case of a restriction of Austria's taxation right with respect to an EU or EEA member state the resident individual Noteholder holding the Notes as business assets may apply for a payment of the triggered income tax in installments over a period of five years. In the event that the notes represent current business assets (*Umlaufvermögen*), a payment period of two years applies instead.

With respect to the acquisition costs, as opposed to Notes held as private assets, also ancillary costs may be taken into account (i.e. deducted from the proceeds). It should be noted that expenses and costs that are directly related to investment income subject to a special income tax rate are not tax-deductible even though the Notes are held as business assets. Losses in value (impairment losses) and losses derived from the sale, redemption or other disposal of the Notes held as business assets must primarily be set off against positive income from realized capital gains of financial instruments and from derivatives of the same business unit and appreciations in value of such assets. Subsequently, only 55% of the remaining loss may be set off against other types of income (or be carried forward).

Income from Notes which are not legally and factually offered to the public within the meaning of the EStG would not be subject to withholding tax and final taxation but subject to normal progressive personal income tax rates of currently up to 55% and needs to be included in the investor's income tax return.

Income from the Notes derived by corporate Noteholders, whose corporate seat (*Sitz*) and/or place of management (*Ort der Geschäftsleitung*) is based in Austria ("**Austrian Resident Corporations**"), is subject to Austrian corporate income tax at a rate of 25% pursuant to the provisions of the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz, KStG*). In the case of a nexus relevant for Austrian withholding tax purposes (Austrian paying agent or custodian, as applicable; see already above), interest income as well as income from realized capital gains and from derivatives will be subject to Austrian withholding tax (which may be credited against the corporate income tax liability). An Austrian paying agent may levy the Austrian withholding tax at a rate of 25% (instead of 27.5%). In any case, Austrian Resident Corporations are obliged to include such income in their corporate income tax return (*Körperschaftsteuererklärung*). Losses are taken into account upon tax assessment and may generally be set off against other income. Austrian Resident Corporations deriving business income from the Notes may avoid the application of Austrian withholding tax by submitting a declaration of exemption (*Befreiungserklärung*) to the paying agent or the custodian bank and the tax authority pursuant to the requirements set forth in Sec 94(5) EStG.

12.2.2 Non-Austrian residents

Income from the Notes by individuals who do not have a domicile or their habitual abode in Austria ("**Non-Austrian Resident Individuals**") or by corporate investors who do not have their corporate seat or their place of management in Austria ("**Non-Austrian Resident Corporations**", together with Non-Austrian Resident Individuals: "**Non-Austrian Residents**") is, in general, only taxable in Austria if the respective income is attributable to a permanent establishment in Austria. Where Non-Austrian Residents receive income from the Notes as part of business income taxable in Austria (e.g. due to a permanent establishment), they are, in principle, subject to the same tax treatment as Austrian Resident Individuals or Austrian Resident Corporations.

Non-Austrian Resident Individuals (i.e. Non-Austrian Residents other than corporations) receiving interest payments within the meaning of Sec 27(2)(2) EStG and accrued interest within the meaning of Sec 27(6)(5) EStG may further be subject to income tax liability in Austria if such interest is subject to Austrian withholding tax. However, this only applies if (i) the debtor of the interest payments has its domicile, seat or place of effective management in Austria or is an Austrian branch of a non-Austrian credit institution or (ii) the underlying financial instrument has been issued by an Austrian issuer. This income tax liability for (accrued) interest payments does not apply to individuals being resident in a state with which an automatic exchange of information is in place (which in fact must be proven by a certificate of residence) and to Non-Austrian Resident Corporations.

An Austrian custodian bank or paying agent may abstain from levying 27.5% Austrian withholding tax under Sec 94(13) EStG if the respective income from the Notes is not subject to limited tax liability. This applies, e.g. to capital gains from the disposal of the Notes derived by Non-Austrian Residents not having a permanent establishment in Austria. If any Austrian withholding tax is deducted by the custodian bank or paying agent from any non-taxable payment, the tax withheld shall be refunded to the non-resident Noteholder upon his application which has to be filed with the competent Austrian tax authority within five calendar years following the date of the imposition of the Austrian withholding tax. Applications for refund may only be filed after the end of the calendar year when the withholding was made (a specific electronic pre-notification procedure applies). Non-Austrian Resident Corporations may avoid the application of Austrian withholding tax by submitting a declaration of exemption (*Befreiungserklärung*) to the paying agent or custodian bank and the tax authority pursuant to the requirements set forth in Sec 94(5) EStG.

Applicable double tax treaties may provide for a reduction of, or relief from, Austrian withholding tax. However, Austrian credit institutions may not be entitled to apply such reduction or relief at source. Noteholders wishing to obtain relief from Austrian withholding tax under an applicable double tax treaty have to file for a refund with the competent Austrian tax office which may require a certificate of residence issued by the competent authority of the Noteholder's state of residence (a specific electronic pre-notification procedure applies).

Income from Notes which are not legally and factually offered to the public within the meaning of the EStG would not be subject to limited tax liability in Austria.

13 SUBSCRIPTION AND SALE

The Dealers have, in the amended and restated dealer agreement (the "**Dealer Agreement**") dated 4 April 2022, agreed with the Issuers a basis upon which they or any of them may from time to time agree to purchase Notes.

13.1 General

Each Dealer has represented, warranted and undertaken that it has complied and will comply with all applicable laws and regulations in force in any country or jurisdiction in or from which it purchases, offers, sells or delivers Notes or possesses, distributes or publishes this Base Prospectus or any Final Terms or any related offering material, in all cases at its own expense, and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any country or jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuers nor any other Dealer shall have any responsibility therefor. Other persons into whose hands this Base Prospectus or any Final Terms comes are required by the Issuer and the Dealers to comply with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver Notes or possess, distribute or publish this Base Prospectus or any Final Terms or any related offering material, in all cases at their own expense.

Each Dealer has acknowledged that, other than with respect to the admission of the Notes to listing, trading and/or quotation by the relevant listing authorities, stock exchanges and/or quotation systems, no action has been or will be taken in any jurisdiction by the Issuer that would permit a public offering of the Notes, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required.

With regard to each Tranche, the Relevant Dealers will be required to comply with such other additional restrictions as the relevant Issuer and the Relevant Dealers shall agree and as shall be set out in the applicable Final Terms.

Selling restrictions may be supplemented or modified with the agreement of the Issuers. Any such supplement or modification may be set out in the relevant Final Terms (in the case of a supplement or modification relevant only to a particular Tranche of Notes) or in a supplement to this Base Prospectus.

13.2 European Economic Area

Prohibition of Sales to EEA Retail Investors

Unless the Final Terms in respect of any Notes specify the "*Prohibition of Sales to EEA Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression "retail investor" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or
 - (ii) a customer within the meaning of Directive 2016/97/EU as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"); and
- (b) the expression "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

Offer to the Public Selling Restriction under the Prospectus Regulation

If the relevant Final Terms in respect of any Notes specify "*Prohibition of Sales to EEA Retail Investors*" as "*Not Applicable*", in relation to each Member State of the EEA (each, a "**Relevant State**"), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the final terms in relation thereto to the public in that Relevant State except that it may make an offer of such Notes to the public in that Relevant State:

- (a) if the Final Terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant State ("**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression "**offer of Notes** to the public" in relation to any Notes in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes and the expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129.

13.3 United States of America

- (a) With regard to each Tranche, each Dealer has acknowledged that the Notes have not been and will not be registered under the Securities Act of 1933, as amended (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of U.S. persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Each Dealer has represented, warranted and undertaken that it has not offered or sold, and will not offer or sell, any Note constituting part of its allotment within the United States except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, each Dealer has further represented, warranted and undertaken that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to any Note.

In addition, until 40 days after the commencement of the offering, an offer or sale of Notes within the United States by a dealer that is not participating in the offering may violate the registration requirements of the Securities Act.

- (b) From and after the time that the any of the Issuers notifies the Dealers in writing that it is no longer able to make the representation set forth, if the Issuer is BAWAG, in section 4.1.15 or, if the Issuer is BAWAG P.S.K., section 4.2.14 of the Dealer Agreement, each Dealer (i) has acknowledged that the Notes issued by such Issuer have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act; (ii) has represented, warranted and undertaken that it has not offered, sold or delivered any Notes issued by such Issuer, and will not offer, sell or deliver any Notes issued by such Issuer, (x) as part of its distribution at any time or (y) otherwise until 40 days after the later of the commencement of the offering and closing date, except in accordance with Rule 903 of Regulation S under the Securities Act; and accordingly, (iii) has further represented, warranted and undertaken that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will

engage in any directed selling efforts with respect to any Note issued by such Issuer, and it and they have complied and will comply with the offering restrictions requirements of Regulation S; and (iv) has also agreed that, at or prior to confirmation of any sale of Notes issued by such Issuer, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes issued by such Issuer from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The Notes covered hereby have not been registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons by any person referred to in Rule 903(b)(2)(iii) of Regulation S under the Securities Act (i) as part of their distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the closing date, except in either case in accordance with Regulation S under the Securities Act.

Terms used above have the meanings given to them by Regulation S under the Securities Act."

- (c) Each Dealer who has purchased Notes of a Tranche hereunder (or in the case of a sale of a Tranche of Notes issued to or through more than one Dealer, each of such Dealers as to the Notes of such Tranche purchased by or through it or, in the case of a syndicated issue, the relevant Lead Manager) shall determine and notify to the Fiscal Agent and the relevant Issuer the completion of the distribution of the Notes of such Tranche.

Terms used in paragraphs (a), (b) and (c) have the meanings given to them by Regulation S under the Securities Act.

- (d) With regard to each Tranche, each Dealer has represented, warranted and undertaken that it has not entered and will not enter into any contractual arrangement with respect to the distribution or delivery of Notes, except with its affiliates or with the prior written consent of the relevant Issuer.
- (e) Notes, other than Notes with an initial maturity of one year or less, will be issued in accordance with the provisions identical to those described in U.S. Treas. Reg. section 1.163-5(c) (2) (i) (C) (the "**C Rules**"), or in accordance with the provisions identical to those described in U.S. Treas. Reg. section 1.163-5(c) (2) (i) (D) (the "**D Rules**"), as specified in the applicable Final Terms.

In addition, where the C Rules are specified in the relevant Final Terms as being applicable to any Tranche of Notes, Notes must be issued and delivered outside the United States and its possessions in connection with their original issuance. Each Dealer has represented, warranted and undertaken that, in connection with the original issuance of Notes, it has not offered, sold or delivered and will not offer, sell or deliver, directly or indirectly, Notes within the United States or its possessions. Further, each Dealer has represented, warranted and undertaken in connection with the original issuance of Notes that it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if either such Dealer or such purchaser is within the United States or its possessions and will not otherwise involve its U.S. office in the offer or sale of Notes. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the C Rules.

In addition, in respect of Notes issued in accordance with the D Rules, each Dealer has represented, warranted and undertaken that:

- (ii) it has, and throughout the restricted period will have, in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
- (iii) if such Dealer is a United States person, it represents that it is acquiring the Notes for purposes of resale, in connection with their original issuance and if such Dealer retains Notes for its own account, it will only do so in accordance with the requirements of the provisions identical to those described in U.S. Treas. Reg. section 1.163-5(c)(2)(i)(D)(6); and

- (iv) with respect to each affiliate that acquires Notes from such Dealer for the purposes of offering or selling such Notes during the restricted period, such Dealer either (x) repeats and confirms the representations and agreements contained in sub-clauses (i), (ii) and (iii) above on such affiliate's behalf and (y) agrees that it will obtain from such affiliate for the benefit of the purchaser of the Notes and the relevant Issuer the representations and agreements contained in sub-clauses (i), (ii) and (iii) above.
- (v) Terms used in this paragraph (e) have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the D Rules.
- (f) Each issue of index-, commodity- or currency-linked Notes shall be subject to such additional U.S. selling restrictions as the relevant Issuer and the Relevant Dealer may agree as a term of the issue and purchase of such Notes, which additional selling restrictions shall be set out in the Final Terms. Each Dealer has represented and agreed that it shall offer, sell and deliver such Notes only in compliance with such additional U.S. selling restrictions.
- (g) The Temporary Global Notes and the Permanent Global Note will each bear the following legend:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in sections 165(j) and 1287(a) of the U.S. Internal Revenue Code".

13.4 Selling restrictions addressing additional United Kingdom of Great Britain and Northern Ireland ("United Kingdom") securities laws

Unless the Final Terms in respect of any Notes specifies "*Prohibition of Sales to UK Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to any retail investor in the United Kingdom. For the purposes of this provision:

For the purposes of this provision, the expression "**an offer of Notes to the public**" in relation to any Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes and the expression "**UK Prospectus Regulation**" means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA.

14 GENERAL INFORMATION

14.1 Types of Notes issued under the Programme

The following types of Notes may be issued under the Programme:

14.1.1 Covered Bonds (Fundierte Bankschuldverschreibungen or gedeckte Schuldverschreibungen)

Covered bonds (*Fundierte Bankschuldverschreibungen*) ("**Covered Bonds**") may be issued until the new Austrian Covered Bond Act, Federal Law Gazette I No. 199/2021 (*Pfandbriefgesetz – "PfandBG"*) enters into force on 8 July 2022 by BAWAG P.S.K. and are bonds which are issued in accordance with the provisions of the Austrian Law on Covered Bonds of Banks dated 27 December 1905 (*Gesetz vom 27. Dezember 1905, betreffend fundierte Bankschuldverschreibungen, Imperial Law Gazette No. 213/1905* as amended – the "**FBSchVG**"), which expires on 7 July 2022, and with the relevant articles of association of BAWAG P.S.K. Covered bonds (*gedeckte Schuldverschreibungen*) ("**Covered Bonds**") may be issued by BAWAG P.S.K. as of 8 July 2022 and are bonds which will be issued in accordance with the provisions of the new Austrian PfandBG and the relevant articles of association of BAWAG P.S.K. The following description of Covered Bonds is based on the Austrian FBSchVG currently in effect as well as the legal situation after the new Austrian PfandBG enters into force as of 8 July 2022.

Covered Bonds are "covered" (*gedeckt*) by a cover pool (*Deckungsstock*) of assets (*Vermögenswerte*) which has to meet the requirements set out in the current FBSchVG or the new PfandBG and the Articles of Association and may not be issued without such cover. Of the Issuers, only BAWAG P.S.K. as a qualifying credit institution may issue Covered Bonds. The purpose of the cover pool is to create a distinct pool of assets to satisfy the claims of the holders of Covered Bonds and – in particular in case of insolvency of the Issuer – to preferentially satisfy the claims arising out of Covered Bonds (as described below).

All the assets in the cover pool are to be held separately from the remaining assets of BAWAG P.S.K. To the extent that these assets are securities or cash, this is achieved by the use of separate accounts and deposits under the joint control of the Government Commissioner or the Cover Pool Monitor (see the relevant articles of association of BAWAG P.S.K.). In case of other claims, the deeds will be kept separately.

The cover pool and the financial treatment of Covered Bonds must be accounted for separately in BAWAG P.S.K.'s annual financial statements (see the relevant articles of association of BAWAG P.S.K.).

Until 7 July 2022 a Government Commissioner (*Regierungskommissär*) must be appointed by the responsible public supervisory body to perform the duties set out in the FBSchVG in the interest of the holders of the Covered Bonds. BAWAG P.S.K. may not dispose of any asset in the cover pool without first obtaining the consent of the Government Commissioner. According to the new PfandBG the Government Commissioner must be replaced by an internal or external appointed cover pool monitor (*Treuhänder*) within 12 months from the new PfandBG entering into force. The cover pool monitor must perform ongoing monitoring of the cover pool. In addition, it is required to implement a risk management department (*unabhängige Risikomanagementabteilung*) that is independent of the operating business. The risk management department is responsible for the identification, assessment, management and monitoring of all risks associated with the covered bonds.

- (a) According to the current Austrian FBSchVG and the relevant articles of association of BAWAG P.S.K., the cover pool may contain, among other things, claims against or guaranteed by and securities issued or guaranteed by certain public sector entities as specified in the Austrian FBSchVG and the relevant articles of association of BAWAG P.S.K. The following assets can be included in a cover pool of assets in order to provide preferential cover (backing) for Covered Bonds according to the Austrian FBSchVG:
- (i) claims and securities if they are suitable for the investment of money held in trust for a ward of court (§ 217 of the Austrian Civil Code);
 - (ii) claims and securities, if a pledge has been entered for their benefit into a public register (such as mortgages);
 - (iii) claims, if they are payable by an Austrian corporation under public law, by any Contracting State to the Agreement on the European Economic Area other than Austria, by Switzerland, or by the regional governments or local authorities of those countries, for which the competent authorities have set a

weighting of 20%, at the most, under Article 43(1)(b)(5) of Directive 2000/12/EC, or if one of the above mentioned corporations guarantees payment;

- (iv) securities, if they were issued by any of the bodies listed under (iii) above or if one of these bodies guarantees payment.

For those bonds that are covered by assets in accordance with (iii) and (iv), a separate cover pool of assets may be established. In addition, the Issuer may also establish a separate cover pool for the assets referred to in (i) and (ii), which would primarily include mortgages (qualifying for inclusion in a cover pool pursuant to the FBSchVG), but may also include other assets referred to in (i) above.

Furthermore, hedging transactions (derivatives contracts (*Derivativkontrakte*)) which serve to reduce the risks of future interest or currency fluctuations or default – also in the event of the insolvency of the company – with regard to the assets used as cover for the Covered Bonds issued may also be used to provide preferential cover. Assets or parts of assets of another credit institution allocated to the cover pool are equivalent to assets of which the Issuer is the creditor, if it has been agreed in writing that they shall be held in trust by such other credit institution for the Issuer and it is ascertained that they comply with the provisions of the Austrian FBSchVG. To the extent allowed by law, cash may be used as substitute cover.

Assets which are subject to provisions forbidding the disposition of such assets or provisions that have a similar effect are not allowed to be included in the cover pool.

Each of the assets held as security in the cover pool shall be entered separately into a special list (cover register (*Deckungsregister*)). Hedging transactions (derivatives contracts) may only be registered with the consent of the government commissioner and BAWAG P.S.K.'s counterparty under such hedging transaction. If assets used as cover or parts of such assets are held in trust, the credit institution acting as trustee in each case shall be recorded in the cover register.

- (b) According to the new PfandBG and the relevant articles of association of BAWAG P.S.K., the cover pool may contain:

- (i) cover assets in accordance with Article 129 (1) of Regulation (EU) No. 575/2013 (the "**CRR**"), provided that the issuing credit institution meets the requirements of Article 129 (1a) to (3) of this regulation, or
- (ii) other high-quality cover assets ensuring that the credit institution issuing the covered bonds has on the one hand a payment claim which must be enforceable, and is on the other hand secured by assets pledged as collateral, which must be valued in accordance with the legal requirements; these cover assets must provide security comparable to that of a mortgage, for example a pledge.

Unlike the current FBSchVG, the new PfandBG does not exhaustively list the cover assets that are eligible for recognition. It clarifies that the assets referred to in Article 129 (1) CRR shall in any case be deemed eligible cover assets as well as other high-quality cover assets within the meaning and in accordance with the requirements of the new PfandBG. The PfandBG demonstratively defines in § 11 (2) different types of covered bonds, such as the mortgage Pfandbriefe (*Hypothekenpfandbrief*) and the public Pfandbriefe (*öffentlicher Pfandbrief*).

The covered bonds currently issued in Austria which are covered by mortgage-backed claims and claims on government entities shall continue to qualify as eligible cover assets under the PfandBG, as they may fall within the category of the other high-quality cover assets referred to under (ii), unless they already qualify as a cover asset listed under (i).

Furthermore, hedging transactions (derivate contracts (*Derivatkontrakte*)) can be included in the cover pool if they, among others, (i) serve exclusively hedging purposes, their volume is adjusted in the event of a reduction in the secured risk and they are removed if the secured risk ceases to exist, (ii) are documented in the cover register, (iii) they are separated from other assets and (iv) they cannot be terminated in case of insolvency or liquidation of the credit institution. The counterparty to derivative contracts shall be equal to the creditors of the covered bond. Derivative contracts may be entered into with the federal government, a federal country or a credit institution.

Each of the assets forming part of the cover pool shall be recorded separately in the cover register (*Deckungsregister*). Hedging transactions (derivatives contracts) may only be registered with the consent of

the cover pool monitor and BAWAG P.S.K.'s counterparty under such hedging transaction. A registration without the required consent of the counterparty shall be deemed not to have been effected. If assets used as cover or parts of such assets are held in trust, the credit institution acting as trustee in each case shall be recorded in the cover register. The credit institution has to keep secured copies of the cover register, which upon request of the FMA have to be submitted. The maintenance of separate cover registers whose cover assets are assigned to specific issues of the covered bond is permitted. However, maintenance of mixed cover registers is not permitted.

In the interest of creditor protection, the credit institution shall ensure that the cover pool at all times includes a liquidity buffer (*Liquiditätspuffer*) of assets that covers the net liquidity outflow of the covered bond programme. The liquidity buffer shall cover the maximum total net liquidity outflows for the next 180 days.

The payment date of a Covered Bond issued after the PfandBG enters into force on 8 July 2022 may be postponed once by up to 12 months upon the occurrence of the Objective Trigger Event. The postponement of maturity shall not be at the discretion of the credit institution and shall at no time affect the structural features of the Covered Bond with regard to double recourse or the insolvency remoteness. The last payment date of the Covered Bonds shall be determinable at any time. A postponement of payment date does not change the ranking of investors in Covered Bonds.

Under the relevant articles of association of BAWAG P.S.K., the cover must at all times comply with the following conditions:

- (a) the nominal value of the assets assigned to the cover pool shall at least cover the redemption amount and interest of the covered bonds in circulation and the administrative costs that are likely to be incurred in the event of the Company's bankruptcy, and
- (b) the market value of the assets assigned to the cover pool shall cover the present value of the covered bonds in circulation plus an amount of over collateralization that shall be determined making reasonable allowance for market risks but shall be at least 2%.

Similarly, according to the new PfandBG, the total amount of outstanding covered bonds shall at all times be covered by cover assets (*Deckungswerte*) of at least the same total amount and all liabilities under the covered bonds (i.e., the obligations for the payment of the principal amount of and any interest on outstanding covered bonds as well as the expected costs related to maintenance and administration for the winding-down of the covered bond programme) shall be covered by claims for payment attached to the cover assets.

Pursuant to the FBSchVG, if the required coverage is not fully available, for instance in the case of repayment of an asset of the cover pool, or for any other reason, such shortfall shall be met by assets of the Issuer arising out of deposits maintained at a central bank of, or credit institution in, a Member State of the European Economic Area or member state of the (OECD) (other than states who have applied to restructure, or have during the past five years restructured, their external debt) or by cash (any and all, the "**Substitute Coverage**"). The Substitute Coverage must not exceed 15% of the aggregate amount of the outstanding Covered Bonds.

The Austrian FBSchVG provides that any set-off against assets which belong to the cover pool is prohibited. Whereas under the PfandBG set-offs against these assets are prohibited unless the debtor is a consumer pursuant to § 1 of the Austrian Consumer Protection Act (*Konsumentenschutzgesetz - KSchG*), but these set-offs shall be ineffective vis-à-vis creditors under the Covered Bonds and creditors under the hedging transactions (derivative contracts). Consumers may therefore set off their counterclaims against cover assets, however, as long as the cover asset is entered into the cover register (*Deckungsregister*), the debtor cannot use the set-off against it. In any case, the prohibition does not apply to set-offs between claims arising under one and the same hedging agreement where the entire agreement pertains to the pool.

If BAWAG P.S.K. becomes insolvent, the insolvency court will appoint a joint attorney (*Kurator*) for the purpose of representing the Noteholders of Covered Bank Bonds, as well as a special administrator (*besonderer Verwalter*), which may also be another credit institution, under § 86 of the Austrian Insolvency Act (*Insolvenzordnung – IO*) for the administration of the cover pool. In the event of bankruptcy of BAWAG P.S.K., applicable Austrian law expressly contemplates a continuation rather than a liquidation of the cover pool. Covered Bonds will not be automatically terminated by operation of law, but the cash flows will in general remain unaffected.

The entire cover pool is to be sold in accordance with the procedure set out in § 3 FBSchVG to an appropriate credit institution which then assumes all obligations under the Covered Bonds, under the continued joint liability of

the Issuer. Furthermore, the BaSAG implementing the BRRD defines secured liabilities (*besicherte Verbindlichkeiten*) as liabilities for which a security was provided, in particular, among others, Covered Bonds under the current FBSchVG as well as Covered Bonds under the new PfandBG to the extent that they are covered by the value of the security. In accordance with the BaSAG, such secured liabilities are deemed non-eligible notes for purposes of writing-down or converting eligible notes pursuant to the provisions of the BaSAG (so-called "**bail-in tool**"). Accordingly, Covered Bonds shall not be subject to "bail-in" pursuant to the BaSAG as, and to the extent, the cover pool serves as collateral for the principal amount of the Covered Bonds.

Should it be impossible to sell the entire cover pool as set out in § 3 FBSchVG and should the cover pool not be sufficient to satisfy all holders of Covered Bonds then the cover pool shall be liquidated (with the consent of the bankruptcy court). In such case, all claims under the Covered Bonds shall be deemed due. The claims of the holders of Covered Bonds shall be satisfied from the proceeds on a pro rata basis. Furthermore, holders of Covered Bonds would also have recourse to any assets of the Issuer outside the cover pool to the extent that their claims arising out of the Covered Bonds are not satisfied. As regards these assets, holders of Covered Bonds would rank equally with other unsecured and unsubordinated creditors of the Issuer (and eventually also with other secured creditors in respect of any shortfall of such other creditor's security).

The same applies for Covered Bonds under the new PfandBG. In the event of insolvency, resolution or enforcement proceedings regarding the Issuer or its assets, the relevant cover assets are separated from the Issuer's other assets and may not be used to satisfy claims of creditors of the Issuer other than the Noteholders of Covered Bonds which are covered by these cover assets. However, in the event that the cover assets of the cover pool relevant for the respective Covered Bonds are not sufficient in order to cover the obligations under the respective Covered Bonds, claims of the Noteholders under the Covered Bonds which are not covered by the assets of the respective cover pool would share the rank with claims of other creditors of the Issuer.

14.1.2 Note on Covered Bonds (*gedeckte Schuldverschreibungen*) issued on or after 8 July 2022

This section on Covered Bonds contains a brief summary with regard to single aspects of the PfandBG which are of significance in connection with an issue of Covered Bonds. This summary does not purport to exhaustively describe all possible aspects in relation to the Covered Bonds and the PfandBG which may be relevant for an issue of the Covered Bonds and further disclosure may be included in a supplement to this Prospectus. This summary does not deal with specific situations which may be of relevance for certain prospective Noteholders of the Covered Bonds. The following comments are rather of a general nature and included herein solely for information purposes. They are not intended to be, nor should they be construed to be, legal advice. This summary is based on the provisions of the PfandBG as of the date of this Prospectus, which may be amended from time to time. Prospective Noteholders of the Covered Bonds should consult their legal advisors as to an investment in Covered Bonds.

*Under the Issuer's covered bond programme mortgage Covered Bonds (*hypothekarisch gedeckte Schuldverschreibungen*) and public Covered Bonds (*öffentlich gedeckte Schuldverschreibungen*) may be issued which are Austrian law debt instruments, the quality and standards of which are regulated by the PfandBG. Depending on whether the Covered Bonds are mortgage Covered Bonds or public Covered Bonds, the investors' claims under such Covered Bonds are secured at all times by separate cover pools of certain eligible assets (*Deckungsstock*).*

Possible effects of the Issuer's insolvency

In the event of the Issuer's insolvency or resolution, payment obligations of the Issuer under the Covered Bonds shall not be subject to automatic acceleration and prepayment (so-called "bankruptcy remoteness"). The Noteholders shall have a priority claim in relation to the principal amount and any accrued and future interest from the cover assets which, in the event of the opening of insolvency proceedings, form a special estate (*Sondermasse*) for the satisfaction of the claims of the Noteholders of the Covered Bonds. Until such priority claim is satisfied, all covered assets shall be protected from third party claims and shall not form part of the Issuer's special estate. In addition, in the event of the Issuer's insolvency and in the event that the aforementioned priority claim cannot be satisfied in full, the Noteholders will have an insolvency claim against the Issuer.

Prospective claims (*betagte Forderungen*) of Noteholders under the Covered Bonds (i.e. existing claims which will only become due on a certain future date) shall not be deemed to be due in any insolvency proceedings relating to the Issuer's assets.

The bankruptcy court shall appoint a trustee (*Kurator*) (§ 95a of the Austrian Insolvency Code) at the opening of the insolvency proceedings to assert the above-mentioned priority claims and any insolvency claims.

Role of the special administrator and maturity extension

The bankruptcy court shall without undue delay appoint a special administrator to administer the special estate (§ 86 of the Austrian Insolvency Code). The FMA shall be heard prior to the appointment of the special administrator. The rights and duties of the internal or external trustee (*Treuhänder*) pursuant to the PfandBG remain unaffected.

The special administrator shall satisfy due claims of the Noteholders from the special estate and shall take the necessary administrative measures for this purpose with effect for the special estate, for example by collecting due mortgage claims, selling individual cover assets or by bridge financing.

Furthermore, in the event of the Issuer's insolvency, the special administrator may trigger a maturity extension pursuant to § 22 PfandBG, provided that, at the time of the maturity extension, the special administrator is convinced that the liabilities under the Covered Bonds can be serviced in full by the Issuer on the extended maturity date (objective trigger event). The maturity of Covered Bonds may be postponed once by up to 12 months upon the occurrence of the objective trigger event. The maturity extension is not at the Issuer's discretion.

Any maturity extension shall not affect the ranking of the Noteholders of the Covered Bonds and not invert the sequencing of the covered bond programme's original maturity schedule. In the event of a maturity extension, the maturity of other Covered Bonds within a covered bond programme shall be deemed to be deferred in each case for so long as it is necessary to maintain the sequence of the original maturity schedule.

Role of the Austrian Financial Markets Authority (Österreichische Finanzmarktaufsichtsbehörde – "FMA")

As competent authority, the FMA supervises the issuance of Covered Bonds and compliance with the provisions of the PfandBG, without prejudice to the duties assigned to it under other laws and takes into account the national economic interest in a functioning capital market. Among other things, the FMA has the authority to grant or refuse approval for covered bond programmes pursuant to § 30 PfandBG and to require the Issuer to submit the conditions for possible maturity extensions pursuant to § 22 PfandBG.

14.1.3 Subordinated Notes

Subordinated notes ("**Subordinated Notes**") are intended to qualify as tier 2 capital instruments of the relevant Issuer provided that, among others, the following conditions are met in accordance with Article 63 CRR II:

- (a) the claim on the principal amount of the notes under the provisions governing the notes ranks below any claim from eligible liabilities instruments;
- (b) the notes are not secured or are not subject to a guarantee that enhances the seniority of the claim by any of the following: (i) the relevant Issuer or its subsidiaries; (ii) the parent undertaking of the relevant Issuer or its subsidiaries; (iii) the parent financial holding company or its subsidiaries; (iv) the mixed activity holding company or its subsidiaries; (v) the mixed financial holding company or its subsidiaries; (vi) any undertaking that has close links with entities referred to in points (i) to (v);
- (c) the notes are not subject to any arrangement that otherwise enhances the seniority of the claim under the notes;
- (d) the notes have an original maturity of at least five years;
- (e) the provisions governing the notes do not include any incentive for their principal amount to be redeemed or repaid, as applicable by the relevant Issuer prior to their maturity;

- (f) where the notes include one or more early repayment options, including call options, the options are exercisable at the sole discretion of the relevant Issuer;
- (g) the notes may be called, redeemed, repaid or repurchased early only where the conditions set out in Article 77 CRR II are met, and not before five years after the date of issuance, except where the conditions set out in Article 78(4) CRR II are met;
- (h) the provisions governing the notes do not indicate explicitly or implicitly that the notes would be called, redeemed, repaid or repurchased early, as applicable, by the institution other than in the case of the insolvency or liquidation of the institution and the institution does not otherwise provide such an indication;
- (i) the provisions governing the notes do not give the holder the right to accelerate the future scheduled payment of interest or principal, other than in the case of the insolvency or liquidation of the relevant Issuer;
- (j) the level of interest or dividends payments, as applicable, due on the notes will not be amended on the basis of the credit standing of the relevant Issuer or its parent undertaking; and
- (k) the notes are not subject to set-off or netting arrangements that would undermine their capacity to absorb losses.

As regards the requirement under point (a) above, the obligations of the Issuer under Subordinated Notes rank

- (a) *pari passu* (i) among themselves and (ii) with all other present or future claims from Tier 2 Instruments and other subordinated instruments or obligations ranking or expressed to rank *pari passu* with the Notes;
- (b) senior to all present or future obligations under (i) ordinary shares and other Common Equity Tier 1 instruments pursuant to Article 28 CRR of the Issuer, (ii) additional tier 1 instruments pursuant to Article 52 CRR of the Issuer; and (iii) all other subordinated instruments or obligations of the Issuer ranking or expressed to rank junior to the Notes; and
- (c) fully subordinated to the Issuer's Senior Ranking Obligations, so that in any such event no amounts will be payable in respect of the Notes until the Issuer's Senior Ranking Obligations have been satisfied in full.

Where:

"**Senior Ranking Obligations**" means (i) all unsecured and unsubordinated obligations of the Issuer; (ii) all eligible liabilities instruments of the Issuer pursuant to Article 72b CRR; and (iii) any other subordinated obligations of the Issuer which, in accordance with their terms or pursuant to mandatory provisions of law, rank or are expressed to rank senior to the obligations of the Issuer under the Notes.

14.1.4 Senior Preferred Notes and Senior Non-Preferred Notes

Senior preferred notes ("**Senior Preferred Notes**") and senior non-preferred notes ("**Senior Non-Preferred Notes**") are intended to qualify as eligible liabilities of the relevant Issuer for purposes of SRM Regulation II, CRR II and Article 108 BRRD, as implemented in § 131 BaSAG and as amended or replaced, provided that, among others, the following conditions are met:

- (a) the acquisition of ownership of the notes is not funded directly or indirectly by the resolution entity;
- (b) the claim on the principal amount of the notes under the provisions governing the instruments is wholly subordinated to claims arising from the excluded liabilities referred to in Article 72a(2) CRR II; that subordination requirement shall be considered to be met in any of the following situations: (i) the contractual provisions governing the liabilities specify that in the event of normal insolvency proceedings as defined in point (47) of Article 2(1) BRRD, the claim on the principal amount of the instruments ranks below claims arising from any of the excluded liabilities referred to in Article 72a(2) CRR II; (ii) the applicable law specifies that in the event of normal insolvency proceedings as defined in point (47) of Article 2(1) BRRD, the claim on the principal amount of the instruments ranks below claims arising from any of the excluded liabilities referred to in Article 72a(2) CRR II; (iii) the instruments are issued by a resolution entity which does not have on its balance sheet any excluded liabilities as referred to in Article 72a(2) CRR II that rank *pari passu* or junior to eligible liabilities instruments;

- (c) the notes are neither secured, nor subject to a guarantee or any other arrangement that enhances the seniority of the claim by any of the following: (i) the relevant Issuer or its subsidiaries; (ii) the parent undertaking of the relevant Issuer or its subsidiaries; (iii) any undertaking that has close links with entities referred to in points (i) and (ii);
- (d) the notes are not subject to set-off or netting arrangements that would undermine their capacity to absorb losses in resolution;

- (f) the notes are not redeemable by the holders of the instruments prior to their maturity, except in the cases referred to in Article 72c(2) CRR II;
- (g) subject to Article 72c(3) and (4) CRR II, where the notes include one or more early repayment options, including call options, the options are exercisable at the sole discretion of the issuer, except in the cases referred to in Article 72c(2) CRR II;
- (h) the notes may only be called, redeemed, repaid or repurchased early where the conditions set out in Articles 77 and 78a CRR II are met;
- (i) the provisions governing the notes do not indicate explicitly or implicitly that the notes would be called, redeemed, repaid or repurchased early, as applicable by the resolution entity other than in the case of the insolvency or liquidation of the relevant Issuer and the relevant Issuer does not otherwise provide such an indication;
- (j) the provisions governing the notes do not give the holder the right to accelerate the future scheduled payment of interest or principal, other than in the case of the insolvency or liquidation of the resolution entity; and
- (k) the level of interest or dividend payments, as applicable, due on the liabilities is not amended on the basis of the credit standing of the resolution entity or its parent undertaking.

As regards the requirements under point (b) above,

- (a) the obligations of the relevant Issuer under Senior Preferred Notes rank
 - (i) *pari passu* (x) among themselves and (y) *pari passu* with all other present and future unsecured and unsubordinated obligations of the Issuer which rank or are expressed to rank *pari passu* with the Issuer's obligations under the Notes;
 - (ii) senior to all present or future obligations under (x) Non-Preferred Senior Instruments and any obligations of the Issuer that rank *pari passu* with Non-Preferred Senior Instruments and (y) all subordinated obligations of the Issuer; and
 - (ii) fully subordinated to the Issuer's Senior Ranking Obligations, so that in any such event no amounts will be payable in respect of the Notes until the Issuer's Senior Ranking Obligations have been satisfied in full.

Where:

"Senior Ranking Obligations" means all obligations of the Issuer which pursuant to mandatory provisions of law, rank or are expressed to rank senior to the obligations of the Issuer under the Notes.

"Non-Preferred Senior Instruments" means any obligations of the Issuer which fall or are expressed to fall within the category of obligations described in § 131 (3) no. 1 to no. 3 BaSAG implementing Article 108 (2) BRRD and any other obligations of the Issuer which, to the extent permitted by Austrian law, rank or are expressed to rank *pari passu* with the Non-Preferred Senior Instruments of the Issuer; and

- (b) the obligations of the relevant Issuer under Senior Non-Preferred Notes in respect of the principal amount of the Notes rank

- (i) *pari passu* (x) among themselves and (y) with all other present or future Non-Preferred Senior Instruments (other than senior instruments or obligations of the Issuer ranking or expressed to rank senior or junior to the Notes);
- (ii) senior to all present or future obligations under (x) ordinary shares and other common equity tier 1 instruments pursuant to Article 28 CRR of the Issuer; (y) additional tier 1 instruments pursuant to Article 52 CRR of the Issuer; (iii) tier 2 instruments pursuant to Article 63 CRR of the Issuer; and (iv) all other subordinated obligations of the Issuer; and
- (iii) fully subordinated to the Issuer's Senior Ranking Obligations, so that in any such event no amounts will be payable in respect of the Notes until the Issuer's Senior Ranking Obligations have been satisfied in full.

Where:

"Non-Preferred Senior Instruments" means any obligations of the Issuer which fall or are expressed to fall within the category of obligations described in § 131 (3) no. 1 to no. 3 BaSAG implementing Article 108 (2) BRRD and any other obligations of the Issuer which, to the extent permitted by Austrian law, rank or are expressed to rank *pari passu* with the Non-Preferred Senior Instruments of the Issuer.

For the purposes of § 131 (3) no. 3 BaSAG, the Noteholders are hereby explicitly notified of the lower ranking of Senior Non-Preferred Notes pursuant to § 131 (3) BaSAG.
